Overview

Vital Farms is an ethical food company that is disrupting the U.S. food system. We have developed a framework that challenges the norms of the incumbent food model and allows us to bring high-quality products from our network of small family farms to a national audience. This framework has enabled us to become the leading U.S. brand of pasture-raised eggs and butter and the second largest U.S. egg brand by retail dollar sales. Our ethics are exemplified by our humane treatment of farm animals and sustainable farming practices. We believe these standards produce happy hens with varied diets, which produce better eggs. There is a seismic shift in consumer demand for ethically produced, natural, traceable, clean-label, great-tasting and nutritious foods. Supported by a steadfast adherence to the values on which we were founded, we have designed our brand and products to appeal to this consumer movement.

Our purpose is rooted in a commitment to Conscious Capitalism, which prioritizes the long-term benefits of each of our stakeholders (farmers and suppliers, customers and consumers, communities and the environment, crew members and stockholders). Our business decisions consider the impact on all of our stakeholders, in contrast with the factory farming model, which principally emphasizes cost reduction at the expense of animals, farmers, consumers, employees, communities and the environment. These principles guide our day-to-day operations and, we believe, help us deliver a more sustainable and successful business. Our approach has been validated by our financial performance and our designation as a Certified B Corporation, a certification reserved for businesses that balance profit and purpose to meet the highest verified standards of social and environmental performance, public transparency and legal accountability.

Our Ethical Decision-Making Model

Stakeholders	Guiding Principles
Farmers and Suppliers	• Forming strong relationships with our network of approximately 200 small family farms, who are the foundation of our resilient and reliable supply chain
Customers and Consumers	• Delivering the transparency and quality around food products that today’s consumers demand
Crew Members	• Empowering our crew members by investing in their financial security, development and overall well-being
Community and Environment	• Investing in our community and being conscious stewards of the environment
Stockholders	• Building a sustainable company for the long term by delivering stockholder value

We have sustainably scaled our brand through our strong relationships with small family farms and deliberate efforts to design and build the infrastructure to bring our products to a national audience. Today, with a network of approximately 200 family farms, we believe our pasture-raised products have set the national standard for ethically produced food. We believe the success of our relationships with small family farms and the efficiency of our supply chain provide us with a competitive advantage in the approximately \$45 billion U.S. natural food and beverage industry, in which achieving reliable supply at a national scale can be challenging. In 2017, we opened Egg Central Station, a shell egg processing facility in Springfield, Missouri, which is centrally located within our network of family farms. Egg Central Station is capable of packing three million eggs per day and has achieved Safe Quality Food, or SQF, Level 3 certification, the highest level of such certification from the Global Food Safety Initiative, or GFSI. In addition, Egg Central Station is the only egg facility, and we are one of only five companies, globally to have received the Safe Quality Food Institute, or SQFI, Select Site certification, indicating that the site has voluntarily elected to undergo annual unannounced recertification audits by SQFI, the organization responsible for administering a global food safety and quality program known as the SQF Program. The design of Egg Central Station includes investments in support of each of our stakeholders, from our crew members (daylighting, climate control, slip resistant floors in the egg grading room), to the community and environment (consulting with the community before we built the facility, restoring native vegetation on the property, best-in-class storm water management), to our customers and consumers (food safety and maintenance investments far beyond regulatory requirements). We believe owning and operating this important element of our supply chain is a key differentiator and provides us with a competitive advantage. We have leveraged the scale and efficiency of Egg Central Station to significantly grow both our net revenue and gross margin.

Our loyal and growing consumer base has fueled the expansion of our brand from the natural channel to the mainstream channel and facilitated our entry into the foodservice channel. As of November 2019, we offer 21 retail SKUs through a multi-channel retail distribution network across approximately 13,000 stores. Our products generate stronger velocities and, we believe, greater profitability per unit for our retail customers in key traffic-generating categories as compared to products offered by our competitors. We believe we have significant room for growth within the retail and foodservice channels and can capture this opportunity by growing brand awareness and through new product innovation. We also believe there are incremental growth opportunities in additional distribution channels, including the convenience, drugstore, club, military and international markets, which we may access along with retail growth opportunities to enable us to continue our net revenue growth.

We have built a sustainable company founded on ethically produced products that increasingly resonate with consumers. Our trusted brand and Conscious Capitalism-focused business model have resulted in significant growth. We have increased net revenue from \$1.9 million in fiscal 2010 to \$106.7 million in fiscal 2018, which represents a 66% compounded annual growth rate, or CAGR. From fiscal 2017 to fiscal 2018, we grew net revenue by 44% and the number of stores carrying our products increased by 11%. Going forward, we expect the consumer movement away from factory farming practices will continue to fuel demand for ethically produced food. According to a 2018 survey of nearly 30,000 international consumers, 62% want brands to have ethical values and demonstrate authenticity in all parts of their business. We believe these demands extend to the food industry and that consumers are recognizing the benefits of pasture-raised egg and dairy products. Management is committed to ensuring our values remain aligned with those of our consumers while delivering stockholder value.

Evidence of our historical success in continuing to scale our business is shown in the graphics below. All dates refer to the year ended December 31, except for 2018, which refers to the fiscal year ended December 30.

Our History

Matthew O’Hayer and his wife Catherine Stewart founded Vital Farms in 2007 on a 27-acre plot of land in Austin, Texas. Armed with a small flock of hens, they maintained a strong belief that a varied diet and better animal welfare practices would lead to superior eggs. Our first sales came from farmers markets and restaurants around Austin and, less than a year later, our eggs were discovered by Whole Foods Market Inc., or Whole Foods. Matt and Catherine saw the opportunity to do something more than sell eggs to a few stores. They chose to build a sustainable company that aligned with the family farming community and was able to profitably deliver quality products to a devoted consumer base. As our business has continued to grow, our model remains rooted in trust and mutual accountability with our farmers, who are and will remain core to our business.

In 2014, our current president and chief executive officer, Russell Diez-Canseco, joined Vital Farms and led the development of our large and scalable network of family farms. In 2015, recognizing the opportunity to elevate our production process and bolster long-term growth and profitability, we began the design process for Egg Central Station, which opened in 2017 in Springfield, Missouri. We meticulously designed Egg Central Station in service of all of our stakeholders by improving on the best practices we observed across numerous world-class facilities. Today, Egg Central Station is capable of packing three million eggs per day and has achieved SQF Level 3 certification, the highest level of such certification from the GFSI. In addition, Egg Central Station is the only egg facility, and we are one of only five companies, globally to have received the SQFI Select Site certification.

Demand for our high-quality products has enabled us to expand our brand beyond the natural channel and into the mainstream channel through relationships with Albertsons Companies, Inc., or Albertsons, The Kroger Co., or Kroger, Publix Super Markets, Inc., or Publix, Target Corporation, or Target, Walmart Inc., or Walmart, and numerous other national and regional food retailers. As of November 2019, our ethically produced pasture-raised products are sold in approximately 13,000 stores nationwide. Over the course of our journey, our founder, Matthew O’Hayer, has continued to inform our strategic vision and remains intimately involved with the business as our executive chairman, going so far as to personally read and ensure a written response to each email and letter we receive from our loyal consumers.

Our Purpose

Our purpose is to bring ethically produced food to the table. We do this by partnering with family farms that operate within our strictly defined set of ethical food production practices. We are motivated by the influence we

have on rural communities through creating impactful, long-term business opportunities for small family farmers. Moreover, we are driven to stand up for sustainable production practices that have been largely cast aside under the factory farming system. In our view, this system has been consistently misguided, focused on producing products at lowest cost rather than driving long-term and sustainable benefits for all stakeholders.

Since inception, our values have been rooted in the principles of Conscious Capitalism. We believe managing our business in the best interest of all of our stakeholders will result in a more successful and sustainable enterprise. A key premise of our business model is our consumer-centric approach, which focuses on identifying consumer needs and developing products that address these needs. While remaining committed to ethical decision-making, we have achieved strong financial performance and earned the Certified B Corporation designation, reflecting our role as a contributor to the global cultural shift toward redefining success in business in order to build a more inclusive and sustainable economy. We believe our consumers connect with Vital Farms because they love our products, relate to our values and trust our practices.

Industry Overview

We operate in the large and growing U.S. natural food and beverage industry that, according to SPINS, LLC data, generated total retail sales of approximately \$45.0 billion in 2018 accounting for approximately 10% of total food and beverage sales and grew at an 8% CAGR between 2016 and 2018, outpacing total food and beverage growth of 1% over the same period. Consumer awareness of the negative health, environmental and agricultural impacts of processed food and factory farming standards has resulted in increased consumer demand for ethically produced food. We believe this trend has had a meaningful impact on the growth of the natural food industry, which is increasingly penetrating the broader U.S. food market as mainstream retailers respond to consumer demand. We believe increased demand for natural food and a willingness to pay a premium for brands focused on transparency, sustainability and ethical values will continue to be a catalyst for our growth.

According to SPINS, LLC data, the U.S. shell egg market in 2018 accounted for \$6 billion in retail sales and has grown at a CAGR of 6.4% between 2016 and 2018. Our relatively low household penetration of 2%, compared to the shell egg category penetration of 95%, provides a significant long-term growth opportunity for our business. Additionally, we estimate that the U.S. processed egg market in 2018 accounted for \$3 billion in retail sales. According to SPINS, LLC data, the U.S. butter market in 2018 accounted for \$3 billion in retail sales and has grown at a CAGR of 3.4% between 2016 and 2018. We believe the strength of our platform, coupled with significant investments in our crew members and infrastructure, position us to continue to deliver industry-leading growth across new and existing categories.

Our Strengths

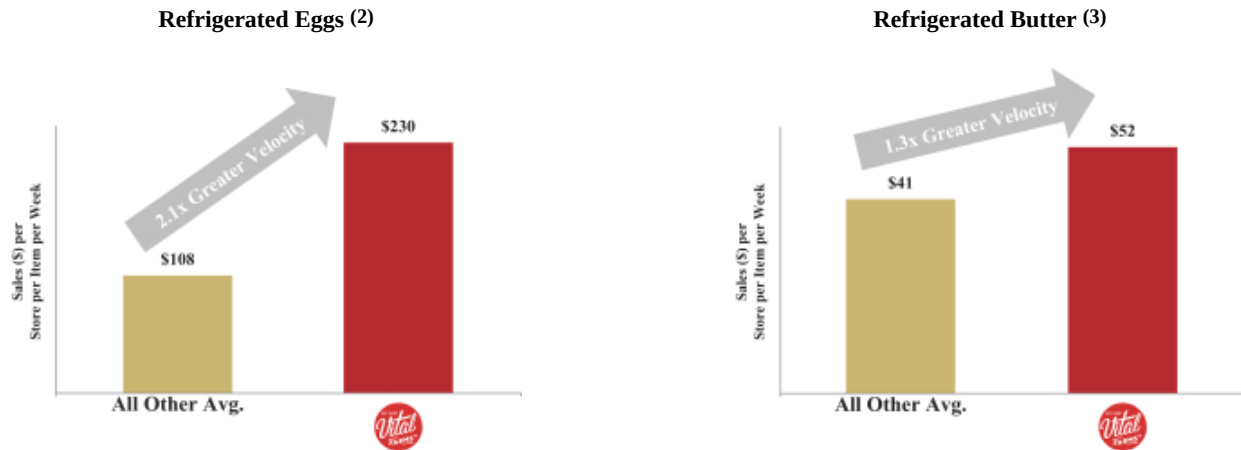

Trusted Brand Aligned with Consumer Demands

We believe consumers have grown to trust our brand because of our adherence to our values and a high level of transparency. We have positioned our brand to capitalize on growing consumer interest in natural, clean-label, traceable, ethical, great-tasting and nutritious foods. Growing public awareness of major issues connected to animal farming, including human health, climate change and resource conservation, is closely aligned with our ethical mission. We believe consumers are increasingly focused on the source of their food and are willing to pay a premium for brands that deliver transparency, sustainability and integrity. As a company focused on driving the success of our stakeholders, our brand resonates with consumers who seek to align themselves with companies that share their values. Through our Vital Times newsletter and social media presence, we cultivate and support our relationship with consumers by communicating our values, building trust and promoting brand loyalty. For example, a survey we conducted in November 2019 found that 31% of our consumers surveyed insist on purchasing our egg brand and would not purchase another in its place.

Strategic and Valuable Brand for Retailers

Our historical performance has demonstrated that we are a strategic and valuable partner to retailers. We have innovated and grown into adjacent food categories while reaching a broad set of consumers through a variety of retail partners, including Albertsons, Kroger, Publix, Target and Walmart. As of November 2019, we are the number one or two egg brand by retail dollar sales for branded eggs with key customers such as Kroger, Sprouts Farmers Market, or Sprouts, Target and Whole Foods. We believe the success of our brand demonstrates that consumers are demanding premium products that meet a higher ethical standard. We have expanded into the mainstream channel while still continuing to command premium prices for our ethically produced products, which sell for as much as three times the price of commodity eggs. We believe that our products are more attractive to retail customers because they help generate growth, deliver strong gross profits and drive strong velocities, as represented by the natural channel velocities depicted below.

Vital Farms Natural Channel Velocity versus All Other Competitors (1)

Source: Refrigerated Eggs & Refrigerated Butter - SPINS, LLC, Natural Channel, 52 Weeks Ending November 3, 2019

- (1) Channel Velocity (\$ / Store / Item / Week) is defined as weekly sales per store per item of products sold in retailers included in the Natural Channel.
- (2) Refrigerated egg competitors represent shell eggs in the Natural Channel.
- (3) Refrigerated butter competitors represent butter brands in the Natural Channel, excluding clotted cream and clarified butter.

Supply Chain Rooted in Commitment to Our Stakeholders

Our ongoing commitment to the social and economic interests of our stakeholders guides our supply chain decisions. We carefully select and partner with family farms in the Pasture Belt, the U.S. region where pasture-raised eggs can be produced year-round. We establish supply contracts that we believe are attractive for all parties, demonstrate our commitment to our network of small family farms through educational programs that transfer critical best practice knowledge and pay farmers competitive prices for high-quality pasture-raised eggs. We believe our commitment to farmers facilitates more sustainable farm operations and significantly reduces turnover. Our network of small family farms gives us a strategic advantage through a scaled and sustainable supply chain and allows us to go to market with the highest quality pasture-raised premium products.

Map of the Pasture Belt

Experienced and Passionate Team

We have an experienced and passionate executive management team that we refer to as the “C-crew,” which has approximately 60 years of combined industry experience and includes our president and chief executive officer, Russell Diez-Canseco, a seasoned food industry expert with over 16 years of relevant experience, including at H-E-B, a privately held supermarket chain. Our C-crew works in partnership with Matthew O’Hayer, our founder and executive chairman, who continues to inform our strategic vision with the entrepreneurial perspective gained through over 40 years of building businesses. We also have a deep bench of talent with strong business and operational experience, and crew members at all levels of our organization are passionate about addressing the needs of our stakeholders. We have leveraged the experience and passion of our C-crew, our founder and executive chairman and our other crew members to grow net revenue over 250% since the beginning of 2014, to enter our second major food category, butter, and to build our first shell egg processing facility, Egg Central Station.

Our Growth Strategies

We believe our investments in our brand, our stakeholders and our infrastructure position us to continue delivering industry-leading growth that outpaces both the natural food industry and the overall food industry.

Expand Household Penetration through Greater Consumer Awareness

Critical to the success of our mission is our ability to share the Vital Farms story with a broader audience. By educating consumers about our brand, our values and the premium quality of our products, we intend to

increase our household penetration. Our relatively low household penetration of 2% for our pasture-raised shell eggs, compared to the shell egg category penetration of 95%, shows that expanding the national presence of our brand offers a significant runway for future growth.

We are well positioned to increase household penetration of our products given their alignment with consumer trends and approachability with consumers. We intend to increase the number of consumers who buy our products by using digitally integrated media campaigns, social media tools and other owned media channels. We believe these efforts will educate consumers on our ethical values and the attractive attributes of our pasture-raised products, generate further demand for our products and ultimately expand our consumer base.

Grow Within the Retail Channel

By leveraging greater consumer awareness and demand for our brand, we believe there is significant opportunity to grow volume with existing retail customers. Our products generate stronger velocities and, we believe, greater profitability per unit for our retail customers in the categories in which we compete. By capturing greater shelf space, driving higher product velocities and increasing our SKU count, we believe there is meaningful runway for further growth with existing retail customers. Beyond our existing retail footprint, we believe there is significant opportunity to gain incremental stores from existing retail customers as well as to add new retail customers. We also believe there are significant further long-term opportunities in additional distribution channels, including the convenience, drugstore, club, military and international markets.

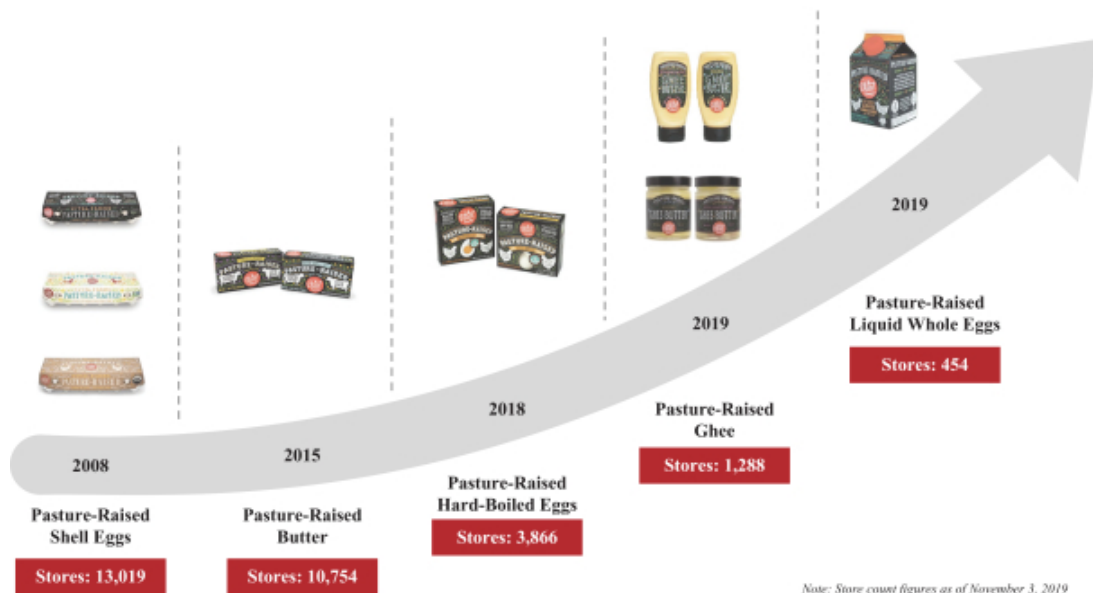

Expand Footprint across Foodservice

We believe there is significant demand for our products in the foodservice channel. We see tremendous opportunity for growth in this channel through sales to foodservice operators supported by joint marketing and advertising. Our brand has a differentiated value proposition with consumers, and we believe consumers are increasingly demanding ethically produced ingredients when they eat outside of the home. We believe that more consumers will look for our products on menus, particularly with foodservice partners whose values are aligned with our own and that on-menu branding of our products as ingredients in popular meals and menu items will drive traffic and purchases in the foodservice channel. An example of our recent foodservice growth initiative is our relationship with Tacodeli, which sells breakfast tacos made exclusively with our pasture-raised shell eggs across 11 restaurant locations and more than 100 points of distribution, such as coffee shops and farmers market stands, across Texas. We believe branded foodservice offerings will further drive consumer awareness of our brand and purchase rates of our products in the retail channel.

Extend Our Product Offering through Innovation

The successes of our core products have confirmed our belief that there is significant demand for pasture-raised and ethically produced food products. We expect to continue to extend our product offerings through innovation in both new and existing categories. As shown below, our current offerings span five product categories. In 2018, we launched the only pasture-raised hard-boiled eggs in the U.S. market, and in 2019, we launched both ghee and liquid whole eggs, the latter of which are the only pasture-raised liquid whole eggs in the U.S. market.

Demonstrated Track Record of Portfolio Expansion

The success of our product portfolio and our proprietary consumer surveys confirm our belief that there is significant demand for our brand across a wide spectrum of food categories. Within this broader market, we believe the U.S. refrigerated value-added dairy category represents a total addressable market of \$33.6 billion and is the closest adjacency and best near-term opportunity for our brand. We have several products in our innovation pipeline that we believe will be successful in these adjacent markets.

Risk Factors Summary

Investing in our Class A common stock involves substantial risks. The risks described in the section titled “Risk Factors” immediately following this summary may cause us to not realize the full benefits of our strengths or to be unable to successfully execute all or part of our strategy. Some of the more significant risks include the following:

- Our recent, rapid growth may not be indicative of our future growth, and if we continue to grow rapidly, we may not be able to effectively manage our growth or evaluate our future prospects. If we fail to effectively manage our future growth or evaluate our future prospects, our business could be adversely affected.
- We are dependent on the market for shell eggs.
- Sales of pasture-raised shell eggs contribute the vast majority of our revenue, and a reduction in these sales would have an adverse effect on our financial condition.
- We have incurred net losses in the past and we may not be able to maintain or increase our profitability in the future.
- Fluctuations in commodity prices and in the availability of feed grains could negatively impact our results of operations and financial condition.

- If we fail to effectively expand our processing, manufacturing and production capacity as we continue to grow and scale our business, our business and operating results and our brand reputation could be harmed.
- We are currently expanding Egg Central Station, and we may not successfully complete construction of or commence operations in this expansion, or the expanded facility may not operate in accordance with our expectations.
- If we fail to effectively maintain or expand our network of small family farms, our business, operating results and brand reputation could be harmed.
- Our future business, results of operations and financial condition may be adversely affected by reduced or limited availability of pasture-raised eggs and milk and other raw materials that meet our standards.
- We currently have a limited number of co-manufacturers. Loss of one or more of our co-manufacturers or our failure to timely identify and establish relationships with new co-manufacturers could harm our business and impede our growth.
- We could be adversely affected by a change in consumer preferences, perception and spending habits in the natural food industry and on animal-based products, in particular, and failure to develop or enrich our product offering or gain market acceptance of our new products could have a negative effect on our business.
- We use a limited number of distributors for the substantial majority of our sales, and if we experience the loss of one or more distributors and cannot replace them in a timely manner, our results of operations may be adversely affected.
- We are dependent on hatcheries and pullet farm to supply our network of family farms with laying hens. Any disruption in that supply chain could materially and adversely affect our business, financial condition or results of operations.
- We source our shell egg cartons from a sole source supplier and any disruptions may impact our ability to sell our eggs.
- Because we rely on a limited number of third-party vendors to manufacture and store our products, we may not be able to maintain manufacturing and storage capacity at the times and with the capacities necessary to produce and store our products or meet the demand for our products.
- Our brand and reputation may be diminished due to real or perceived quality or food safety issues with our products, which could have an adverse effect on our business, reputation, operating results and financial condition.
- Failure to introduce new products may adversely affect our ability to continue to grow.
- All of our pasture-raised shell eggs are processed at Egg Central Station in Springfield, Missouri. Any damage or disruption at this facility may harm our business.
- Demand for shell eggs is subject to seasonal fluctuations and can adversely impact our results of operations in certain quarters.
- Food safety and food-borne illness incidents or advertising or product mislabeling may materially adversely affect our business by exposing us to lawsuits, product recalls or regulatory enforcement actions, increasing our operating costs and reducing demand for our product offerings.
- Our operations are subject to FDA and USDA federal regulation, and there is no assurance that we will be in compliance with all regulations.
- As a public benefit corporation, our duty to balance a variety of interests may result in actions that do not maximize stockholder value.

Our Corporate Information

We were founded in 2007, originally incorporated in Texas in July 2009 and reincorporated in Delaware in June 2013, and we became a public benefit corporation in Delaware in October 2017. Our principal executive offices are located at 3601 South Congress Avenue, Suite C100, Austin, Texas 78704, and our telephone number is (877) 455-3063. Our website address is www.vitalfarms.com. Information contained on, or that can be accessed through, our website is not incorporated by reference into this prospectus, and you should not consider information on our website to be part of this prospectus or in deciding to purchase our Class A common stock.

Certified B Corporation

While not required by Delaware law or the terms of our certificate of incorporation, we have elected to have our social and environmental performance, accountability and transparency assessed against the proprietary criteria established by B Lab, an independent non-profit organization. As a result of this assessment, in December 2015, we were designated as a “Certified B Corporation.” In order to be designated as a Certified B Corporation, companies are required to take a comprehensive and objective assessment of their positive impact on society and the environment. See the sections titled “Business—Certified B Corporation” and “Description of Capital Stock—Anti-Takeover Provisions—Public Benefit Corporation” for additional information.

Public Benefit Corporation Status

In connection with our Certified B Corporation status and as a demonstration of our long-term commitment to our mission to bring ethically produced food to the table by coordinating a collection of family farms to operate with a well-defined set of organic agricultural practices that include the humane treatment of farm animals as a central tenet, we elected in October 2017 to be treated as a public benefit corporation under Delaware law. As provided in our certificate of incorporation, the public benefits that we promote, and pursuant to which we manage our company, are: (i) bringing ethically produced food to the table; (ii) bringing joy to our customers through products and services; (iii) allowing crew members to thrive in an empowering, fun environment; (iv) fostering lasting partnerships with our farms and suppliers; (v) forging an enduring profitable business; and (vi) being stewards of our animals, land, air and water, and being supportive of our community. Being a public benefit corporation underscores our commitment to our purpose and our stakeholders, including farmers and suppliers, consumers and customers, communities and the environment, crew members and stockholders. See the section titled “Business—Public Benefit Corporation” and “Description of Capital Stock—Anti-Takeover Provisions—Public Benefit Corporation Status” for additional information.

Our Fiscal Year

We report on a 52-53-week fiscal year, ending on the last Sunday in December, effective beginning with the first quarter of 2018. In a 52-53-week fiscal year, each fiscal quarter consists of 13 weeks. The additional week in a 53-week fiscal year is added to the fourth quarter, making such quarter consist of 14 weeks. Our first 53-week fiscal year will be fiscal 2023, which we expect to begin on December 26, 2022 and end on December 31, 2023. See Note 1 to our consolidated financial statements included elsewhere in this prospectus for additional details related to our fiscal calendar.

Implications of Being an Emerging Growth Company

We are an “emerging growth company” as defined in the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. We may take advantage of certain exemptions from various public company reporting requirements, including not being required to have our internal control over financial reporting audited by our independent registered public accounting firm under Section 404 of the Sarbanes-Oxley Act of 2002, or the

Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and any golden parachute payments. We may take advantage of these exemptions for up to five years or until we are no longer an emerging growth company, whichever is earlier. In addition, the JOBS Act provides that an emerging growth company can delay adopting new or revised accounting standards until those standards apply to private companies. We have elected to use the extended transition period under the JOBS Act. Accordingly, our financial statements may not be comparable to the financial statements of public companies that comply with such new or revised accounting standards.

Non-GAAP Financial Measure—Adjusted EBITDA

	Fiscal Year Ended	
	December 30, 2018	December 29, 2019
Non-GAAP Financial Measure:		
Adjusted EBITDA(1)(2)	\$ 7,896	\$

- (1) We calculate Adjusted EBITDA as net income, adjusted to exclude: (1) depreciation and amortization; (2) provision for income taxes; (3) stock-based compensation expense; (4) interest expense; (5) change in fair value of contingent consideration; (6) interest income; and (7) net litigation settlement gain.

Adjusted EBITDA is a financial measure that is not required by, or presented in accordance with generally accepted accounting principles in the United States, or GAAP. We believe that Adjusted EBITDA, when taken together with our financial results presented in accordance with GAAP, provides meaningful supplemental information regarding our operating performance and facilitates internal comparisons of our historical operating performance on a more consistent basis by excluding certain items that may not be indicative of our business, results of operations or outlook. In particular, we believe that the use of Adjusted EBITDA is helpful to our investors as it is a measure used by management in assessing the health of our business, determining incentive compensation and evaluating our operating performance, as well as for internal planning and forecasting purposes.

Adjusted EBITDA is presented for supplemental informational purposes only, has limitations as an analytical tool and should not be considered in isolation or as a substitute for financial information presented in accordance with GAAP. Some of the limitations of Adjusted EBITDA include that (i) it does not properly reflect capital commitments to be paid in the future, (ii) although depreciation and amortization are non-cash charges, the underlying assets may need to be replaced and Adjusted EBITDA does not reflect these capital expenditures, (iii) it does not consider the impact of stock-based compensation expense, (iv) it does not reflect other non-operating expenses, including interest expense, (v) it does not consider the impact of any contingent consideration liability valuation adjustments and (vi) it does not reflect tax payments that may represent a reduction in cash available to us. In addition, our use of Adjusted EBITDA may not be comparable to similarly titled measures of other companies because they may not calculate Adjusted EBITDA in the same manner, limiting its usefulness as a comparative measure. Because of these limitations, when evaluating our performance, you should consider Adjusted EBITDA alongside other financial measures, including our net income and other results stated in accordance with GAAP.

- (2) The following table presents a reconciliation of Adjusted EBITDA to net income, the most directly comparable financial measure stated in accordance with GAAP, for each of the periods presented:

	Fiscal Year Ended	
	December 30, 2018	December 29, 2019
	(in thousands)	
Net income	\$ 5,629	\$
Depreciation and amortization	1,437	
Provision for income taxes	723	
Stock-based compensation expense	600	
Interest expense	424	
Change in fair value of contingent consideration(a)	92	
Interest income	(9)	
Net litigation settlement gain(b)	(1,000)	
Adjusted EBITDA	\$ 7,896	\$

- (a) Amount reflects the change in fair value of a contingent consideration liability in connection with our 2014 acquisition of Heartland Eggs, LLC, or HEC.
(b) Amount reflects a gain in connection with a lawsuit settlement in which we were the plaintiff.

RISK FACTORS

Investing in our Class A common stock involves a high degree of risk. You should carefully consider the following risk factors, as well as the other information in this prospectus, before deciding whether to invest in shares of our Class A common stock. If any of the following risks actually occurs, our business, results of operations and financial condition could be adversely affected. In this case, the trading price of our Class A common stock would likely decline and you might lose part or all your investment.

Risks Related to Our Business, Our Brand, Our Products and Our Industry

Our recent, rapid growth may not be indicative of our future growth and, if we continue to grow rapidly, we may not be able to effectively manage our growth or evaluate our future prospects. If we fail to effectively manage our future growth or evaluate our future prospects, our business could be adversely affected.

We have grown rapidly since inception and anticipate further growth. For example, our net revenue increased from \$106.7 million in fiscal 2018 to \$ million in fiscal 2019. The number of our full-time crew members increased from 127 at December 30, 2018 to at December 29, 2019. This growth has placed significant demands on our management, financial, operational, technological and other resources. The anticipated growth and expansion of our business depends on a number of factors, including our ability to:

- increase awareness of our brand and successfully compete with other companies;
- price our products effectively so that we are able to attract new customers and consumers and expand sales to our existing customers and consumers;
- expand distribution to new points of sales with new and existing customers;
- continue to innovate and introduce new products;
- expand our supplier, co-manufacturing, co-packing, cold storage, processing and distribution capacities; and
- maintain quality control over our product offerings.

Such growth and expansion of our business will place significant demands on our management and operations teams and require significant additional resources, financial and otherwise, to meet our needs, which may not be available in a cost-effective manner, or at all. We expect to continue to expend substantial resources on:

- our current and future processing facilities;
- our sales and marketing efforts to increase brand awareness, engage our existing and prospective customers, and drive sales of our products;
- product innovation and development; and
- general administration, including increased finance, legal and accounting expenses associated with being a public company.

These investments may not result in the growth of our business. Even if these investments do result in the growth of our business, if we do not effectively manage our growth, we may not be able to execute on our business plan, respond to competitive pressures, take advantage of market opportunities, satisfy customer requirements or maintain high-quality product offerings, any of which could adversely affect our business, financial condition and results of operations.

We have incurred net losses in the past and we may not be able to maintain or increase our profitability in the future.

For the years ended December 30, 2018 and December 29, 2019, we generated net income of \$5.6 million and \$ million, respectively. However, we have experienced net losses in fiscal 2017 and in prior years.

Our ability to maintain or increase our profitability is subject to various factors, many of which are beyond our control. As we expand our operations, we anticipate that our operating expenses and capital expenditures will increase substantially in the foreseeable future as we continue to invest to increase household penetration, customer base, supplier network, marketing channels and product portfolio, expand and enhance our processing, manufacturing and distribution facilities as needed, and hire additional crew members. Our expansion efforts may prove more expensive than we anticipate (including as a result of increases in equipment prices, which may be due to an actual or threatened trade war), and we may not succeed in increasing our net revenue and margins sufficiently to offset the anticipated higher expenses. We have incurred significant expenses in connection with investing in our egg processing facility, our co-manufacturing and co-packing relationships, and obtaining and storing raw materials, and we will continue to incur significant expenses in developing our innovative products and marketing the products we offer. In addition, many of our expenses, including the costs associated with our existing and any future processing and manufacturing facilities, are fixed. After this offering, we also expect to incur significant additional legal, accounting and other expenses as a public company that we did not incur as a private company. If we fail to continue to grow our revenue at a greater rate than our costs and expenses, we may be unable to maintain or increase our profitability and may incur losses in the future.

We are dependent on the market for shell eggs.

We contract with family farms to purchase all of their egg production for the duration of our contracts. We are contractually obligated to purchase these eggs irrespective of our ability to sell such eggs. Periodically in our industry, including recently, there has been an oversupply of eggs, which has caused egg prices to contract, sometimes substantially so, and as a result we have sold or donated our excess supply at reduced prices or no cost. If we are unable to sell such eggs upon commercially reasonable terms or at all, our gross margins, business, financial condition and operating results may be adversely affected.

We also sell pasture-raised shell eggs to consumers at a premium price point, and when prices for commodity shell eggs fall relative to the price of our pasture-raised shell eggs, price-sensitive consumers may choose to purchase commodity shell eggs offered by our competitors at a greater velocity than, or instead of, our pasture-raised eggs. As a result, low commodity shell egg prices may adversely affect our business, financial condition and results of operations.

We also sell a small percentage of our shell eggs to wholesalers and egg breaking plants at commodity shell egg prices, which fluctuate widely and are outside our control. Small increases in production, or small decreases in demand, can have a large adverse effect on the prices at which these eggs are sold.

Sales of pasture-raised shell eggs contribute the vast majority of our net revenue, and a reduction in these sales would have an adverse effect on our financial condition.

Pasture-raised shell eggs accounted for approximately 89% of our net revenue in fiscal 2018 and % of our net revenue in fiscal 2019. Pasture-raised shell eggs are our flagship product and have been the focal point of our sales and marketing efforts, and we believe that sales of pasture-raised shell eggs will continue to constitute a significant portion of our net revenue, net income and cash flow for the foreseeable future. We cannot be certain that we will be able to continue to expand sales, processing and distribution of pasture-raised shell eggs, or that consumer and customer demand for our other existing and future products will expand to allow such products to represent a larger percentage of our revenue than they do currently. Accordingly, any factor adversely affecting sales of our pasture-raised shell eggs could have an adverse effect on our business, financial condition and results of operations.

Fluctuations in commodity prices and in the availability of feed grains could negatively impact our results of operations and financial condition.

The price we pay to purchase shell eggs from farmers fluctuates based on pallet weight, and under our buy-sell contracts, which account for 92% of the laying hens in our network of family farms as of December 30,

2018, the price we pay is also indexed quarterly in arrears for changes in feed cost, which may cause our agreed-upon pricing under these contracts to fluctuate on a quarterly basis. Additionally, for our integrator contracts, which account for the remaining 8% of laying hens in our network, we are directly responsible for purchasing and providing feed supply to the farmer. Therefore, our results of operations and financial condition, including our gross margin and profitability, fluctuate based on the cost and supply of commodities, including corn, soybean meal and other feed ingredients. Although feed ingredients are available from a number of sources, we have little, if any, control over the prices of these ingredients, which are affected by weather, speculators, export restrictions, various supply and demand factors, transportation and storage costs, and agricultural and energy policies in the U.S. and internationally. For example, the severe drought in the summer of 2012 and resulting damage to corn and soybean crops resulted in high and volatile feed costs. We may not be able to increase our product prices enough or in a timely manner to sufficiently offset increased commodity costs due to consumer price sensitivity, or the pricing postures of our competitors and, in many cases, our retailers may not accept a price increase or may require price increases to occur after a specified period of time elapses. In addition, if we increase prices to offset higher costs, we could experience lower demand for our products and lower sales volumes. Over time, if we are unable to price our products to cover increased costs, unable to offset operating cost increases with continuous improvement savings or unsuccessful in any commodity-hedging program, then commodity price volatility or increases could adversely affect our business, financial condition and results of operations.

If we fail to effectively expand our processing, manufacturing and production capacity as we continue to grow and scale our business, our business and operating results and our brand reputation could be harmed.

We may in the future need to expand our operations, supply, processing and manufacturing capabilities as we continue to grow and scale our business. For example, we are in the process of expanding Egg Central Station, our shell egg processing facility, to increase our capacity for the distribution of pasture-raised shell eggs. However, there is risk in our ability to effectively scale production and processing and effectively manage our supply chain requirements. We must accurately forecast demand for our products in order to ensure we have adequate available processing and manufacturing capacity. Our forecasts are based on multiple assumptions which may cause our estimates to be inaccurate and affect our ability to obtain adequate processing and manufacturing capacities (whether our own processing and manufacturing capacities or co-processing and co-manufacturing capacities) in order to meet the demand for our products, which could prevent us from meeting increased customer demand. Our brand and our business could be harmed if we are unable to fulfill orders in a timely manner or at all. If we fail to meet demand for our products and, as a result, consumers who have previously purchased our products buy other brands or our retailers allocate shelf space to other brands, our business, financial condition and results of operations could be adversely affected.

On the other hand, if we overestimate our demand and overbuild our capacity, we may have significantly underutilized assets and may experience reduced margins. If we do not accurately align our processing and manufacturing capabilities with demand, our business, financial condition and results of operations could be adversely affected.

We are currently expanding Egg Central Station, and we may not successfully complete construction of or commence operations in this expansion, or the expanded facility may not operate in accordance with our expectations.

We are currently expanding Egg Central Station, our shell egg processing facility, in order to address our rapid growth and increase our shell egg processing capacity. We commenced design in January 2019 and anticipate that we will complete construction and commence operations in 2021. Any substantial delay in obtaining the necessary permits, completing construction or in bringing this expansion up to full processing capacity on our current schedule may hinder our ability to process all of the pasture-raised eggs needed to meet consumer and customer demand and achieve our expected financial performance. Constructing and opening this facility has required, and will continue to require, significant capital expenditures and the efforts and attention of

our management and other personnel, which has and will continue to divert resources from our existing business or operations. In addition, we will need to hire and retain more skilled crew members to operate the expanded facility. Even if our expansion is brought up to full processing capacity according to our current schedule, it may not provide us with all of the operational and financial benefits we expect to receive.

If we fail to effectively maintain or expand our network of small family farms, our business, operating results and brand reputation could be harmed.

We source our pasture-raised eggs and milk for our products from our network of small family farms, which is the foundation of our supply chain. If we are unable to maintain and expand this supply chain because of actions taken by farmers or other events outside of our control, we may be unable to timely supply distributors and customers with our products, which could lead to cancellation of purchase orders, damage to our commercial relationships and impairment of our brand. For example, we require these farmers to build and equip their farms to certain specifications, which requires a significant upfront capital investment, and any inability of farmers to obtain adequate financing on acceptable terms would impair their ability to partner with us. If our relationship with these farmers is disrupted, we may not be able to fully recover our investments in birds and feed, which would negatively impact our operating results. There are a number of factors that could impair our relationship with farmers, many of which are outside of our control. For example, while we strive to operate our business in a manner that drives long-term and sustainable benefits for our stakeholders, including farmers, we may make strategic decisions that the farmers do not believe align with their interests or values, which could cause the farmers to terminate their relationships with us. Additionally, our network of small family farms is in a geographic region we refer to as the Pasture Belt, which is located primarily in the Midwest, and the occurrence of a natural disaster in this region could have a significant negative impact on us, the farmers and our supply chain. Any failure to maintain or expand our network of small family farms would adversely affect our business, financial condition and results of operations.

Our future business, results of operations and financial condition may be adversely affected by reduced or limited availability of pasture-raised eggs and milk and other raw materials that meet our standards.

Our ability to ensure a continuing supply of pasture-raised eggs and milk and other raw materials for our products at competitive prices depends on many factors beyond our control. In particular, we rely on the farms that supply us with pasture-raised eggs and milk to implement controls and procedures to manage the risk of exposing animals to harmful diseases, but outbreaks may occur despite their efforts. An outbreak of disease could result in increased government restriction on the sale and distribution of our products, and negative publicity could impact customer and consumer perception of our products, even if an outbreak does not directly impact the animals from which we source our products. Additionally, the animals from which our products are sourced, and the pastures on which they are raised, are vulnerable to adverse weather conditions and natural disasters, such as floods, droughts, frosts, earthquakes, hurricanes and pestilence. Disease, adverse weather conditions and natural disasters can adversely impact pasture quantity and quality, leading to reduced egg and milk yields and quality, which in turn could reduce the available supply of, or increase the price of, our raw materials.

We also compete with other food companies in the procurement of pasture-raised eggs and milk, and this competition may increase in the future if consumer demand increases for these items or products containing them or if competitors increasingly offer products in these market sectors. If supplies of pasture-raised eggs and milk that meet our quality standards are reduced or are in greater demand, we may not be able to obtain sufficient supply to meet our needs on favorable terms, or at all.

Our supply may also be affected by the number and size of farms that raise chickens and cows on pasture, changes in U.S. and global economic conditions, and our ability to forecast our raw materials requirements. For example, the farms must meet our standards and in order to meet these standards, we require them to invest in infrastructure at the outset of our relationship. The typical upfront investment for each of the farms is significant and many of the farmers seek financing assistance from local and regional banks as well as federal government

loans from the USDA Farm Service Agency. Changes in U.S. and global economic conditions or any U.S. government shutdown could significantly decrease loans available to farmers. Many of these farmers also have alternative income opportunities and the relative financial performance of raising chickens and cows on pasture as compared to other potentially more profitable opportunities could affect their interest in working with us. Any of these factors could impact our ability to supply our products to distributors and customers and may adversely affect our business, financial condition and results of operations.

We currently have a limited number of co-manufacturers. Loss of one or more of our co-manufacturers or our failure to timely identify and establish relationships with new co-manufacturers could harm our business and impede our growth.

A significant amount of our revenue is derived from products manufactured at facilities owned and operated by our co-manufacturers. We currently rely on one co-manufacturer for hard-boiled eggs, one co-manufacturer for butter, one co-manufacturer for ghee and one co-manufacturer for liquid eggs. We do not currently have written manufacturing contracts with these co-manufacturers. Because of the absence of such contracts, any of our co-manufacturers could seek to alter or terminate its relationship with us at any time, leaving us with periods during which we have limited or no ability to manufacture our products.

An interruption in, or the loss of operations at, one or more of our co-manufacturing facilities, which may be caused by work stoppages, regulatory issues or noncompliance, disease outbreaks or pandemics, acts of war, terrorism, fire, earthquakes, flooding or other natural disasters, could delay, postpone or reduce production of some of our products, which could have an adverse effect on our business, financial condition and results of operations until such time as such interruption is resolved or an alternate source of production is secured, especially in times of low inventory.

We believe there are a limited number of competent, high-quality co-manufacturers in our industry that meet our geographical requirements and our strict quality and control standards, and should we seek to obtain additional or alternative co-manufacturing arrangements in the future, there can be no assurance that we would be able to do so on satisfactory terms, in a timely manner, or at all. Therefore, the loss of one or more co-manufacturers, any disruption or delay at a co-manufacturer or any failure to identify and engage co-manufacturers for new products and product extensions could delay, postpone or reduce production of our products, which could have an adverse effect on our business, financial condition and results of operations.

We could be adversely affected by a change in consumer preferences, perception and spending habits in the natural food industry and on animal-based products, in particular, and failure to develop or enrich our product offering or gain market acceptance of our new products could have a negative effect on our business.

We have positioned our brand to capitalize on growing consumer interest in natural, clean-label, traceable, ethically produced, great-tasting and nutritious foods. The market in which we operate is subject to changes in consumer preference, perception and spending habits. Our performance depends significantly on factors that may affect the level and pattern of consumer spending in the U.S. natural food industry market in which we operate. Such factors include consumer preference, consumer confidence, consumer income, consumer perception of the safety and quality of our products and shifts in the perceived value for our products relative to alternatives. Media coverage regarding the safety or quality of, or diet or health issues relating to, our products or the raw materials, ingredients or processes involved in their manufacturing may damage consumer confidence in our products. A general decline in the consumption of our products could occur as a result of change in consumer preference, perception and spending habits, including an unwillingness to pay a premium, at any time. For example, we and many of our customers face pressure from animal rights groups to require all companies that supply food products to operate their business in a manner that treats animals in conformity with certain standards developed or approved by these animal rights groups. If consumer preferences shift away from animal-based products for these reasons, because of a preference for plant-based products or otherwise, our business, financial condition and results of operations could be adversely affected.

The success of our products depends on a number of factors including our ability to accurately anticipate changes in market demand and consumer preferences, our ability to differentiate the quality of our products from those of our competitors, and the effectiveness of our marketing and advertising campaigns for our products. We may not be successful in identifying trends in consumer preferences and developing products that respond to such trends in a timely manner. We also may not be able to effectively promote our products by our marketing and advertising campaigns and gain market acceptance. If our products fail to gain market acceptance, are restricted by regulatory requirements or have quality problems, we may not be able to fully recover costs and expenses incurred in our operation, and our business, financial condition or results of operations could be materially and adversely affected.

We use a limited number of distributors for the substantial majority of our sales, and if we experience the loss of one or more distributors and cannot replace them in a timely manner, our results of operations may be adversely affected.

To distribute our products, we use a broker-distributor-retailer network whereby brokers represent our products to distributors and retailers who in turn sell our products to consumers. We serve the majority of natural channel customers through food distributors, such as United Natural Foods, Inc., or UNFI, and KeHE Distributors, LLC, or KeHE, which purchase, store, sell and deliver our products to retailers, including Whole Foods and Sprouts. In fiscal 2018 and fiscal 2019, UNFI accounted for 36% and % of our net revenue, respectively, and KeHE accounted for 10% and % of our net revenue, respectively. Since these distributors act as intermediaries between us and the retail grocers or foodservice providers, we do not have short-term or long-term commitments or minimum purchase volumes in our contracts with them that ensure future sales of our products. These distributors are able to decide on the products carried, and they may limit the products available for retailers, such as Whole Foods and Sprouts, to purchase. We expect that most of our sales will be made through a core number of distributors for the foreseeable future. If we lose one or more of our significant distributors and cannot replace the distributor in a timely manner or at all, our business, financial condition and results of operations could be adversely affected.

We are dependent on hatcheries and pullet farms to supply our network of family farms with laying hens. Any disruption in that supply chain could materially and adversely affect our business, financial condition or results of operations.

Under the terms of our contracts with our network of family farms, while we do not own laying hens, we are generally responsible for coordinating the acquisition and delivery of laying hens to the farmers. In order to meet these obligations, we place orders for chicks directly with hatcheries intended to supply a future year's production of eggs at least a year in advance. Once the chicks are hatched, they are delivered to a network of pullet farms, who rear the chicks to approximately 16 to 18 weeks of age, at which time they begin laying eggs. The hens are then delivered directly from the pullet farms to our network of family farms, which then place the hens into egg production.

Because it would be inefficient to contract directly with pullet farms to rear the quantity of chicks that we require, we currently work with a sole source supplier that contracts with a network of independent pullet farms. We do not have a long-term supply contract with this third party, and if this supplier were to cease doing business with us for any reason, we may have a difficult time finding and contracting with alternate pullet farms in sufficient scale to meet our needs, if at all. Additionally, any disruption in these supply services for any reason, including bird disease, natural disaster, fire, power interruption, work stoppage or other calamity, could have a material adverse effect on our business, financial condition and results of operations if we cannot replace these providers in a timely manner on acceptable terms or at all.

Consolidation of retail customers or the loss of a significant retail customer could negatively impact our sales and profitability.

Our retail customers include natural channel and mainstream channel stores, which have been undergoing a consolidation in recent years. This consolidation has produced larger, more sophisticated organizations with increased negotiating and buying power that are able to resist price increases, as well as operate with lower inventories, decrease the number of brands that they carry and increase their emphasis on private label products, all of which could negatively impact our business. In fiscal 2018 and fiscal 2019, Kroger accounted for approximately 17% and % of our net revenue, respectively. With certain of our retail customers, like Whole Foods and Sprouts, we sell our products through distributors. We are not able to precisely attribute our net revenue to a specific retailer for products sold through distributors. We rely on third-party data to calculate the portion of retail sales attributable to retailers, but this data is inherently imprecise because it is based on gross sales generated by our products sold at retailers, without accounting for price concessions, promotional activities or chargebacks, and because it measures retail sales for only the portion of our retailers serviced through distributors. Based on this third-party data and internal analysis, Whole Foods accounted for approximately 37% and % of our retail sales in fiscal 2018 and fiscal 2019, respectively, and Sprouts accounted for approximately 10% and % of our retail sales in fiscal 2018 and fiscal 2019, respectively. The loss of Kroger, Whole Foods, Sprouts or any other large retail customer, the reduction of purchasing levels or the cancellation of any business from Kroger, Whole Foods, Sprouts or any other large retail customer for an extended length of time could negatively impact our sales and profitability.

A retailer may take actions that affect us for reasons that we cannot always anticipate or control, such as their financial condition, changes in their business strategy or operations, the introduction of competing products or the perceived quality of our products. Despite operating in different channel segments, our retailers sometimes compete for the same consumers. Because of actual or perceived conflicts resulting from this competition, retailers may take actions that negatively affect us. Consequently, our financial results may fluctuate significantly from period to period based on the actions of one or more significant retailers.

Failure by our transportation providers to pick up raw materials or deliver our products on time, in compliance with applicable governmental regulations or at all, could result in lost sales.

We currently rely upon third-party transportation providers for a significant portion of our raw material transportation and product shipments. Our utilization of pickup and delivery services for shipments is subject to risks, including increases in fuel prices, which would increase our shipping costs, chronic driver shortages, employee strikes, inclement weather and noncompliance by our third-party transportation providers with applicable regulatory requirements, which may impact the ability of providers to provide delivery services that adequately meet our shipping needs. We may change shipping companies, and we could face logistical difficulties with any such change that could adversely affect deliveries. In addition, we could incur costs and expend resources in connection with such change. Moreover, we may not be able to obtain terms as favorable as those we receive from the third-party transportation providers that we currently use, which in turn would increase our costs and thereby adversely affect our operating results.

We source our shell egg cartons from a sole source supplier and any disruptions may impact our ability to sell our eggs.

We obtain packaging for our shell eggs from a sole-source supplier. We do not have guaranteed supply contracts with our supplier, and our supplier could delay shipments, increase prices or cease manufacturing such our shell egg cartons or selling them to us at any time. A disruption in the supply of our shell egg cartons could delay our production and hinder our ability to meet our commitments to customers. If we are unable to obtain a sufficient quantity of our packaging on commercially reasonable terms or in a timely manner, or if we are unable to obtain alternative sources, sales of our products could be delayed or we may be required to redesign our

products. Any of these events could result in lost sales, reduced gross margins or damage to our customer relationships, which would have a material adverse effect on our business, financial condition and results of operations.

Because we rely on a limited number of third-party vendors to manufacture and store our products, we may not be able to maintain manufacturing and storage capacity at the times and with the capacities necessary to produce and store our products or meet the demand for our products.

We rely on a limited number of co-manufacturers and cold storage providers. We currently rely on one co-manufacturer for hard-boiled eggs, one co-manufacturer for butter, one co-manufacturer for ghee and one co-manufacturer for liquid eggs. Our financial performance depends in large part on our ability to obtain adequate co-manufacturing and cold storage facilities services in a timely manner. We are not assured of continued co-manufacturing and cold storage capacities. Certain of our co-manufacturers or our cold storage providers could discontinue or seek to alter their relationship with us. In addition, we are not assured of sufficient capacities of these providers commensurate with increased product demand. Any disruption in the supply of our final products from these providers would have an adverse effect on our business if we cannot replace these providers in a timely manner or at all.

We may not be able to compete successfully in our highly competitive market.

We operate in a highly competitive environment across each of our product categories. We have numerous competitors of varying sizes, including producers of private-label products, as well as producers of other branded egg and butter products that compete for trade merchandising support and consumer dollars. Numerous brands and products compete for limited retailer shelf space, including in the refrigerated section, foodservice, and customers and consumers. In our market, competition is based on, among other things, product quality and taste, brand recognition and loyalty, product variety, product packaging and package design, shelf space, reputation, price, advertising, promotion and nutritional claims.

We compete with large egg companies such as Cal-Maine, Inc. and large international food companies such as Ornuva (Kerrygold). We also compete directly with local and regional egg companies, as well as private-label specialty egg products processed by other egg companies. Each of these competitors may have substantially greater financial and other resources than us and some of whose products are well accepted in the marketplace today. They may also have lower operational costs, and as a result may be able to offer comparable or substitute products to customers at lower costs. This could put pressure on us to lower our prices, resulting in lower profitability or, in the alternative, cause us to lose market share if we fail to lower prices.

Generally, the food industry is dominated by multinational corporations with substantially greater resources and operations than us. We cannot be certain that we will successfully compete with larger competitors that have greater financial, sales and technical resources. Conventional food companies may acquire our competitors or launch their own egg and butter products, including ones that may be pasture-raised, and they may be able to use their resources and scale to respond to competitive pressures and changes in consumer preferences by introducing new products, reducing prices or increasing promotional activities, among other things. Retailers also market competitive products under their own private labels, which are generally sold at lower prices, and may change the merchandising of our products so they have less favorable placement. Competitive pressures or other factors could cause us to lose market share, which may require us to lower prices, increase marketing and advertising expenditures, or increase the use of discounting or promotional campaigns, each of which would adversely affect our margins and could result in a decrease in our operating results and profitability.

In addition, our ability to compete successfully in our market depends, in large part, on our ability to implement our growth strategy of expanding supply and distribution, improving placement of our products, attracting new consumers to our brand and introducing new products and product extensions. Our ability to implement this growth strategy depends, among other things, on our ability to:

- manage relationships with various suppliers, co-manufacturers, distributors, customers and other third parties, and expend time and effort to integrate new suppliers, co-manufacturers and customers into our fulfillment operations;
- secure placement in stores for our products;
- increase our brand recognition;
- expand and maintain brand loyalty; and
- develop new product lines and extensions.

We may not be able to implement our growth strategy successfully. Our sales and operating results will be adversely affected if we fail to implement our growth strategy or if we invest resources in a growth strategy that ultimately proves unsuccessful.

A U.S. federal government shutdown could have a material adverse impact on our results of operations and financial condition.

The partial shutdown of the U.S. federal government that began in late 2018 and continued into 2019 adversely impacted many of our family farmers' ability to access capital, as these farmers receive funding through farm loan programs of the USDA Farm Service Agency. The partial shutdown also impacted our ability to receive governmental approvals for products and labeling of new products. Another U.S. federal government shutdown of similar or greater duration could similarly impact our business, which could have a material adverse effect on our results of operations and financial condition.

We have only recently expanded our product offerings beyond pasture-raised eggs, which makes it difficult to forecast our future results of operations.

We have only recently expanded our product offerings beyond pasture-raised eggs. As a result of our limited experience managing multiple product lines, our ability to accurately forecast our future results of operations is limited and subject to a number of uncertainties, including our ability to plan for and model future growth. Our historical revenue growth should not be considered indicative of our future performance. Further, in future periods, our revenue growth could slow or our revenue could decline for a number of reasons, including slowing demand for our products, increasing competition, a decrease in the growth of our overall market, or our failure, for any reason, to continue to take advantage of growth opportunities. If our assumptions regarding these risks and uncertainties and our future revenue growth are incorrect or change, or if we do not address these risks successfully, our operating and financial results could differ materially from our expectations, and our business could suffer.

Failure to introduce new products may adversely affect our ability to continue to grow.

A key element of our growth strategy depends on our ability to develop and market new products that meet our standards for quality and appeal to consumer preferences. The success of our innovation and product development efforts is affected by our ability to anticipate changes in consumer preferences, the technical capability of our innovation staff in developing and testing product prototypes, our ability to comply with applicable governmental regulations, and the success of our management and sales and marketing teams in introducing and marketing new products. Failure to develop and market new products that appeal to consumers may lead to a decrease in our growth, sales and profitability.

Additionally, the development and introduction of new products requires substantial marketing expenditures, which we may be unable to recoup if the new products do not gain widespread market acceptance. If we are unsuccessful in meeting our objectives with respect to new or improved products, our business could be harmed.

Our brand and reputation may be diminished due to real or perceived quality or food safety issues with our products, which could have an adverse effect on our business, reputation, operating results and financial condition.

We believe our consumers rely on us to provide them with high-quality pasture-raised products. Therefore, real or perceived quality or food safety concerns or failures to comply with applicable food regulations and requirements, whether or not ultimately based on fact and whether or not involving us (such as incidents involving our competitors), could cause negative publicity and reduced confidence in our company, brand or products, which could in turn harm our reputation and sales, and could adversely affect our business, financial condition and operating results.

Our products may be subject to contamination by foreign materials or disease-producing organisms or pathogens, such as salmonella and E. coli. These organisms and pathogens are found generally in the environment and there is a risk that one or more could be present in our products, either as a result of food processing or as an inherent risk based on the nature of our products. These organisms and pathogens also can be introduced to our products as a result of improper handling at the further-processing, foodservice or consumer level. These risks may be controlled, but may not be eliminated, by adherence to good manufacturing practices and finished product testing. Shipment of contaminated products, even if inadvertent, could result in a violation of law and lead to increased risk of exposure to product liability claims, product recalls and increased scrutiny by federal and state regulatory agencies, penalties and adverse publicity. In addition, products purchased from other producers could contain contaminants that we might inadvertently redistribute. If our products become contaminated, we might decide or need to recall a product if we or regulators believe it poses a potential health risk. Any product recall could result in a loss of consumer confidence in our products, adversely affect our reputation with existing and potential customers.

We also have no control over our products once purchased by consumers. For example, consumers may store our products under conditions and for periods of time inconsistent with USDA, U.S. Food and Drug Administration, or FDA, and other governmental guidelines, which may adversely affect the quality and safety of our products.

If consumers do not perceive our products to be of high quality or safe, then the value of our brand would be diminished, and our business, results of operations and financial condition would be adversely affected. Any loss of confidence on the part of consumers in the quality and safety of our products would be difficult and costly to overcome. Any such adverse effect could be exacerbated by our market positioning as a socially conscious purveyor of high-quality, pasture-raised products and may significantly reduce our brand value. Issues regarding the safety of any of our products, regardless of the cause, may have an adverse effect on our brand, reputation and operating results. Further, the growing use of social and digital media by us, our consumers and third parties increases the speed and extent that information or misinformation and opinions can be shared. Negative publicity about us, our brands or our products on social or digital media could seriously damage our brands and reputation. If we do not maintain the favorable perception of our brands, our business, financial condition and results of operations could be adversely affected.

All of our pasture-raised shell eggs are processed at Egg Central Station in Springfield, Missouri. Any damage or disruption at this facility may harm our business.

All of our pasture-raised shell egg processing occurs at our facility in Springfield, Missouri. Any shutdown or period of reduced production at Egg Central Station, our shell egg processing facility, which may be caused by regulatory noncompliance or other issues, as well as other factors beyond our control, such as natural disaster,

fire, power interruption, work stoppage, equipment failure or delay in raw materials delivery, would significantly disrupt our ability to deliver our products in a timely manner, meet our contractual obligations and operate our business. Further, the processing equipment used for our pasture-raised shell eggs is costly to replace or repair, and if any material amount of our machinery were damaged, we would be unable to predict when, if at all, we could replace or repair such machinery or find co-manufacturers with suitable alternative machinery, which could adversely affect our business, financial condition and operating results. We have property and business disruption insurance in place for Egg Central Station; however, such insurance coverage may not be sufficient to cover all of our potential losses and may not continue to be available to us on acceptable terms, or at all.

Failure to leverage our brand value propositions to compete against private label products, especially during economic downturn, may adversely affect our profitability.

In many product categories, we compete not only with other widely advertised branded products, but also with private label products that generally are sold at lower prices. Consumers are more likely to purchase our products if they believe that our products provide a higher quality and greater value than less expensive alternatives. If the difference in perceived value between our brands and private label products narrows, or if there is a perception of such a narrowing, consumers may choose not to buy our products at prices that are profitable for us. We believe that in periods of economic uncertainty consumers may purchase more lower-priced private label or other economy brands. To the extent this occurs, we could experience a reduction in the sales volume of our higher margin products or a shift in our product mix to lower margin offerings. In addition, in times of economic uncertainty, consumers may reduce the amount of food that they consume away from home at our foodservice customers, which in turn may reduce our product sales.

We must expend resources to maintain consumer awareness of our brands, build brand loyalty and generate interest in our products. Our marketing strategies and channels will evolve and our programs may or may not be successful.

In order to remain competitive and expand and keep shelf placement for our products, we may need to increase our marketing and advertising spending to maintain and increase consumer awareness, protect and grow our existing market share or promote new products, which could impact our operating results. Substantial advertising and promotional expenditures may be required to maintain or improve our brand's market position or to introduce new products to the market, and participants in our industry are increasingly engaging with non-traditional media, including consumer outreach through social media and web-based channels, which may not prove successful. An increase in our marketing and advertising efforts may not maintain our current reputation or lead to increased brand awareness. Further, social media platforms frequently change the algorithms that determine the ranking and display of results of a user's search and may make other changes to the way results are displayed, or may increase the costs of such advertising, which can negatively affect the placement of our links and, therefore, reduce the number of visits to our website and social media channels or make such marketing cost-prohibitive. In addition, social media platforms typically require compliance with their policies and procedures, which may be subject to change or new interpretation with limited ability to negotiate, which could negatively impact our marketing capabilities. If we are unable to maintain and promote a favorable perception of our brand and products on a cost-effective basis, our business, financial condition and results of operations could be adversely affected.

If we fail to develop and maintain our brand, our business could suffer.

We have developed a strong and trusted brand that has contributed significantly to the success of our business, and we believe our continued success depends on our ability to maintain and grow the value of the Vital Farms brand. Maintaining, promoting and positioning our brand and reputation will depend on, among other factors, the success of our product offerings, food safety, quality assurance, marketing and merchandising efforts, our continued focus on animal welfare, the environment and sustainability and our ability to provide a consistent, high-quality consumer and customer experience. Any negative publicity, regardless of its accuracy,

could have an adverse effect on our business. Brand value is based on perceptions of subjective qualities, and any incident that erodes the loyalty of our consumers, customers, suppliers or co-manufacturers, including adverse publicity or a governmental investigation, litigation or regulatory enforcement action, could significantly reduce the value of our brand and significantly damage our business.

If we fail to cost-effectively acquire new consumers or retain our existing consumers, our business could be adversely affected.

Our success, and our ability to increase revenue and operate profitably, depends in part on our ability to cost-effectively acquire new consumers, retain existing consumers and keep existing consumers engaged so that they continue to purchase our products. While we intend to continue to invest significantly in selling and marketing to educate consumers about our brand, our values and our products, there is no assurance that these efforts will generate further demand for our products or expand our consumer base. Our ability to attract new consumers and retain our existing consumers will depend on the perceived value and quality of our products, consumers' desire to purchase ethically produced products at a premium, offerings of our competitors, our ability to offer new and relevant products and the effectiveness of our marketing efforts, among other items. For example, because our pasture-raised shell eggs are sold to consumers at a premium price point, when prices for commodity shell eggs fall relative to the price of our pasture-raised shell eggs, we may be unable to entice price-sensitive consumers to try our products. We may also lose loyal consumers to our competitors if we are unable to meet consumer demand in a timely manner. If we are unable to cost-effectively acquire new consumers, retain existing consumers and keep existing consumers engaged, our business, financial condition and operating results would be adversely affected.

Our sales and profits are dependent upon our ability to expand existing customer relationships and acquire new customers.

Our business depends on our ability to increase our household penetration, to expand the number of products sold through existing retail customers, to grow within the foodservice channel and to strengthen our product offerings through innovation in both new and existing categories. Any strategies we employ to pursue this growth are subject to numerous factors outside of our control. For example, retailers continue to aggressively market their private label products, which could reduce demand for our products. The expansion of our business also depends on our ability to obtain customers in additional distribution channels, such as convenience, drugstore, club, military and international markets. Any growth in distribution channels may also affect our existing customer relationships and present additional challenges, including related to pricing strategies. Additionally, we may need to increase or reallocate spending on marketing and promotional activities, such as rebates, temporary price reductions, off-invoice discounts, retailer advertisements, product coupons and other trade activities, and these expenditures are subject to risks, including related to consumer acceptance of our efforts. Our failure to obtain new customers, or expand our business with existing customers, could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We may require additional financing to achieve our goals, and a failure to obtain this necessary capital when needed on acceptable terms, or at all, may force us to delay, limit, reduce or terminate our product manufacturing and development, and other operations.

We have funded our operations since inception primarily through equity financings and sales of our products. We expect to expend significant resources expanding Egg Central Station. We believe that we will continue to expend substantial resources for the foreseeable future as we expand into additional markets we may choose to pursue. These expenditures are expected to include working capital, costs associated with research and development, manufacturing and supply, as well as marketing and selling existing and new products. In addition, other unanticipated costs may arise.

After giving effect to the anticipated net proceeds from this offering, we expect that our existing cash will be sufficient to fund our planned operating expenses, capital expenditure requirements and debt service payments

through at least the next 12 months. However, our operating plan may change because of factors currently unknown to us, and we may need to seek additional funds sooner than planned, through public or private equity or debt financings or other sources, such as strategic collaborations. Such financings may result in dilution to stockholders, imposition of debt covenants and repayment obligations, or other restrictions that may adversely affect our business. In addition, we may seek additional capital due to favorable market conditions or strategic considerations even if we believe we have sufficient funds for our current or future operating plans.

Demand for shell eggs is subject to seasonal fluctuations and can adversely impact our results of operations in certain quarters.

Demand for shell eggs fluctuates in response to seasonal factors. Shell egg demand tends to increase with the start of the school year and is highest prior to holiday periods, particularly Thanksgiving, Christmas and Easter, and the lowest during the summer months. As a result of these seasonal and quarterly fluctuations, comparisons of our sales and operating results between different quarters within a single fiscal year are not necessarily meaningful comparisons. If we are not correct in predicting our future shell egg demand, we may experience a supply and demand shell egg imbalance. This imbalance between supply and demand can adversely impact our results of operations at certain times of the year.

Packaging costs are volatile and may rise significantly, which may negatively impact the profitability of our business.

We and our co-manufacturers purchase and use significant quantities of cardboard, glass, corrugated fiberboard, kraft paper, flexible plastic, flexible film and paperboard to package our products. Costs of packaging are volatile and can fluctuate due to conditions that are difficult to predict, including global competition for resources, weather conditions, consumer demand and changes in governmental trade. Volatility in the prices of supplies we and our co-manufacturers purchase could increase our cost of sales and reduce our profitability. Moreover, we may not be able to implement price increases for our products to cover any increased costs, and any price increases we do implement may result in lower sales volumes. If we are not successful in managing our packaging costs, if we are unable to increase our prices to cover increased costs or if such price increases reduce our sales volumes, then such increases in costs will adversely affect our business, financial condition and results of operations.

Our net revenue and earnings may fluctuate as a result of price concessions, promotional activities and chargebacks.

Retailers may require price concessions that would negatively impact our margins and our profitability. If we are not able to lower our cost structure adequately in response to customer pricing demands, and if we are not able to attract and retain a profitable customer mix and a profitable product mix, our profitability could continue to be adversely affected.

In addition, we periodically offer sales incentives through various programs to customers and consumers, including rebates, temporary price reductions, off-invoice discounts, retailer advertisements, product coupons and other trade activities. We also periodically provide chargebacks to our customers, which include credits or discounts to customers in the event that products do not conform to customer specifications or expire at a customer's site. The cost associated with promotions and chargebacks is estimated and recorded as a reduction in net revenue. We anticipate that these price concessions and promotional activities could adversely impact our net revenue and that changes in such activities could adversely impact period-over-period results. If we are not correct in predicting the performance of such promotions, or if we are not correct in estimating chargebacks, our business, financial condition and results of operations would be adversely affected.

The estimates of market opportunity and forecasts of market growth included in this prospectus may prove to be inaccurate, and even if the market in which we compete achieves the forecasted growth, our business could fail to grow at similar rates, if at all.

Market opportunity estimates and growth forecasts included in this prospectus, including those we have generated ourselves, are subject to significant uncertainty and are based on assumptions and estimates that may not prove to be accurate. The variables that go into the calculation of our market opportunity are subject to change over time, and there is no guarantee that any particular number or percentage of customers covered by our market opportunity estimates will purchase our products at all or generate any particular level of revenue for us. Any expansion in our market depends on a number of factors, including the cost and perceived value associated with our product and those of our competitors. Even if the market in which we compete meets the size estimates and growth forecast in this prospectus, our business could fail to grow at the rate we anticipate, if at all. Our growth is subject to many factors, including our success in implementing our business strategy, which is subject to many risks and uncertainties. Accordingly, the forecasts of market growth included in this prospectus should not be taken as indicative of our future growth.

If we fail to retain and motivate members of our management team or other key crew members, or fail to attract, train and retain additional qualified crew members to support our operations, our business and future growth prospects would be harmed.

Our success and future growth depend largely upon the continued services of our executive officers as well as our other key crew members. These executives and key crew members have been primarily responsible for determining the strategic direction of our business and for executing our growth strategy and are integral to our brand, culture and the reputation we enjoy with suppliers, co-manufacturers, distributors, customers and consumers. From time to time, there may be changes in our executive management team or other key crew members resulting from the hiring or departure of these personnel. The loss of one or more of our executive officers, or the failure by our executive team to effectively work with our crew members and lead our company, could harm our business.

In addition, our success depends in part upon our ability to attract, train and retain a sufficient number of crew members who understand and appreciate our culture and can represent our brand effectively and establish credibility with our business partners and consumers. If we are unable to hire and retain crew members capable of meeting our business needs and expectations, our business and brand image may be impaired. For example, in Springfield, Missouri, where Egg Central Station is located, there is a tight labor market. As a result of this tight labor market, we may be unable to attract and retain crew members with the skills we require. Any failure to meet our staffing needs or any material increase in turnover rates of our crew members may adversely affect our business, financial condition and results of operations.

If we cannot maintain our company culture or focus on our purpose as we grow, our success and our business and competitive position may be harmed.

We believe our culture and our purpose have been key contributors to our success to date and that the critical nature of the platform that we provide promotes a sense of greater purpose and fulfillment in our crew members. Any failure to preserve our culture or focus on our purpose could negatively affect our ability to retain and recruit personnel, which is critical to our growth, and to effectively focus on and pursue our corporate objectives. As we grow and develop the infrastructure of a public company, we may find it difficult to maintain these important values. If we fail to maintain our company culture or focus on our purpose our business and competitive position may be harmed.

We rely on information technology systems and any inadequacy, failure, interruption or security breaches of those systems may harm our ability to effectively operate our business.

We are dependent on various information technology systems, including, but not limited to, networks, applications and outsourced services in connection with the operation of our business. A failure of our

information technology systems to perform as we anticipate could disrupt our business and result in transaction errors, processing inefficiencies and loss of sales, causing our business to suffer. In addition, our information technology systems may be vulnerable to damage or interruption from circumstances beyond our control, including fire, natural disasters, systems failures, viruses and security breaches. Any such damage or interruption could have an adverse effect on our business.

A cybersecurity incident or other technology disruptions could negatively impact our business and our relationships with customers.

We use computers in substantially all aspects of our business operations. We also use mobile devices, social networking and other online activities to connect with our crew members, suppliers, co-manufacturers, distributors, customers and consumers. Such uses give rise to cybersecurity risks, including security breaches, espionage, system disruption, theft and inadvertent release of information. Our business involves sensitive information and intellectual property, including customers', distributors' and suppliers' information, private information about crew members and financial and strategic information about us and our business partners. Further, as we pursue new initiatives that improve our operations and cost structure, we also intend to expand and improve our information technologies, resulting in a larger technological presence and corresponding exposure to cybersecurity risk. If we fail to assess and identify cybersecurity risks associated with new initiatives, we may become increasingly vulnerable to such risks. Additionally, while we have implemented measures to prevent security breaches and cyber incidents, our preventative measures and incident response efforts may not be entirely effective. The theft, destruction, loss, misappropriation or release of sensitive information or intellectual property, or interference with our information technology systems or the technology systems of third parties on which we rely, could result in business disruption, negative publicity, brand damage, violation of privacy laws, loss of customers and distributors, potential liability and competitive disadvantage all of which could have an adverse effect on our business, financial condition or results of operations.

Our operations are geographically consolidated. A major tornado or other natural disaster within the region in which we operate could seriously disrupt our entire business.

Egg Central Station, our shell egg processing facility is located in Springfield, Missouri. This facility and our network of small family farms are all located in the geographic region we refer to as the Pasture Belt, which is located primarily in the Midwest. The pasture-raised milk for our butter is sourced from, and the butter is manufactured near, a geographically concentrated network of 65 farms in the Midwest. The impact of natural disasters such as tornadoes, drought or flood within these areas is difficult to predict, but such a natural disaster could seriously disrupt our entire business. Our insurance may not adequately cover our losses and expenses in the event of such a natural disaster. As a result, natural disasters within these areas could lead to substantial losses.

Climate change may negatively affect our business and operations.

Our network of small family farms are all geographically located in a region that provides an environment conducive to year round pasture raising chickens and cows. In addition, the concentration of these farms allows for efficient transportation of pasture-raised eggs to Egg Central Station and of pasture-raised milk to our butter and ghee co-manufacturing facilities. However, there is concern that carbon dioxide and other greenhouse gases in the atmosphere may have an adverse impact on global temperatures, weather patterns and the frequency and severity of extreme weather and natural disasters. If such climate change has a negative effect on the year-round habitability of the region for chickens and cows, we may be subject to decreased availability or less favorable pricing for pasture-raised eggs and milk. Even if eggs and milk are available from other regions, they may not be pasture-raised due to certain regional weather conditions not being conducive to pasture raising. We may also incur increased transportation, storage and processing costs if we are unable to source pasture-raised eggs and milk within a certain distance from Egg Central Station and co-manufacturing facilities.

Disruptions in the worldwide economy may adversely affect our business, results of operations and financial condition.

Adverse and uncertain economic conditions may impact distributor, retailer, foodservice and consumer demand for our products. In addition, our ability to manage normal commercial relationships with our suppliers, co-manufacturers, distributors, retailers, foodservice consumers and creditors may suffer. Consumers may shift purchases to lower-priced or other perceived value offerings during economic downturns. In particular, consumers may reduce the amount of pasture-raised products that they purchase where there are more affordable products, including caged, cage-free and free-range egg and egg product offerings, which generally have lower retail prices than our pasture-raised eggs. In addition, consumers may choose to purchase private label products rather than branded products because they are generally less expensive. Distributors and customers may become more conservative in response to these conditions and seek to reduce their inventories. Our results of operations depend upon, among other things, our ability to maintain and increase sales volume with our existing distributors, retailer and foodservice customers, our ability to attract new consumers, the financial condition of our consumers and our ability to provide products that appeal to consumers at the right price. Prolonged unfavorable economic conditions may have an adverse effect on our sales and profitability.

We may be subject to significant liability that is not covered by insurance.

Although we believe that the extent of our insurance coverage is consistent with industry practice, any claim under our insurance policies may be subject to certain exceptions, may not be honored fully, in a timely manner, or at all, and we may not have purchased sufficient insurance to cover all losses incurred. If we were to incur substantial liabilities or if our business operations were interrupted for a substantial period of time, we could incur costs and suffer losses. Such inventory and business interruption losses may not be covered by our insurance policies. We also expect that operating as a public company will make it more difficult and more expensive for us to obtain director and officer liability insurance, and we may be required to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. As a result, it may be more difficult for us to attract and retain qualified people to serve on our board of directors, our board committees or as executive officers. We do not know, however, if we will be able to maintain existing insurance with adequate levels of coverage. Any significant uninsured liability may require us to pay substantial amounts, which would adversely affect our cash position and results of operations. Additionally, in the future, insurance coverage may not be available to us at commercially acceptable premiums, or at all.

Our inability to maintain our GFSI and SQF Select Site certifications may negatively affect our reputation.

The SQFI administers the SQF Program, which is a third-party auditing program that examines and certifies food producers with respect to certain aspects of the producer's business, including food safety, quality control and social, environmental and occupational health and safety management systems. The SQF Select Site certification is one of a number of available SQF certifications and involves both auditing for food safety issues and unannounced inspections by SQF personnel on an annual basis.

The Global Food Safety Initiative, or GFSI, is a private organization established and managed by an international trade association, The Consumer Goods Forum. GFSI operates a benchmarking scheme whereby certification bodies, such as the SQF Program, are "recognized" as meeting certain criteria maintained by GFSI. GFSI itself does not certify or accredit entities in the food industry.

SQF Select Site certification and the GFSI recognition of the SQF Program do not themselves have any independent legal significance and do not necessarily signal regulatory compliance. As a practice matter, however, certain retailers, including some of our largest customers, require SQF certification or certification by another GFSI-recognized program as a condition for doing business. Loss of SQF Select Site certification could impair our ability to do business with these customers, which could materially adversely affect our business, financial condition and operating results.

The loss of any registered trademark or other intellectual property could enable other companies to compete more effectively with us.

We utilize intellectual property in our business. Our trademarks are valuable assets that reinforce our brand and consumers' favorable perception of our products. We have invested a significant amount of money in establishing and promoting our trademarked brands. We also rely on unpatented proprietary expertise and copyright protection to develop and maintain our competitive position. Our continued success depends, to a significant degree, upon our ability to protect and preserve our intellectual property, including our trademarks and copyrights.

We rely on confidentiality agreements and trademark and copyright law to protect our intellectual property rights. Our confidentiality agreements with our crew members and certain of our consultants, contract employees, suppliers and independent contractors, including some of our co-manufacturers who use our formulations to manufacture our products, generally require that all information made known to them be kept strictly confidential. Further, some of our formulations have been developed by or with our suppliers and co-manufacturers. As a result, we may not be able to prevent others from using similar formulations.

We cannot assure you that the steps we have taken to protect our intellectual property rights are adequate, that our intellectual property rights can be successfully defended and asserted in the future or that third parties will not infringe upon or misappropriate any such rights. In addition, our trademark rights and related registrations may be challenged in the future and could be canceled or narrowed. Failure to protect our trademark rights could prevent us in the future from challenging third parties who use names and logos similar to our trademarks, which may in turn cause consumer confusion or negatively affect consumers' perception of our brand and products. Moreover, intellectual property disputes and proceedings and infringement claims may result in a significant distraction for management and significant expense, which may not be recoverable regardless of whether we are successful. Such proceedings may be protracted with no certainty of success, and an adverse outcome could subject us to liabilities, force us to cease use of certain trademarks or other intellectual property or force us to enter into licenses with others. Any one of these occurrences may have an adverse effect on our business, financial condition and results of operations.

If our estimates or judgments relating to our critical accounting policies prove to be incorrect, our results of operations could be adversely affected.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in our consolidated financial statements and related notes appearing elsewhere in this prospectus. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, as provided in the section titled "Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies and Estimates." The results of these estimates form the basis for making judgments about the carrying values of assets, liabilities and equity, and the amount of revenue and expenses that are not readily apparent from other sources. Significant estimates and judgments involve revenue recognition, contingent consideration and the valuation of our stock-based compensation awards, including the determination of fair value of our common stock, among others. Our results of operations may be adversely affected if our assumptions change or if actual circumstances differ from those in our assumptions, which could cause our results of operations to fall below the expectations of securities analysts and investors, resulting in a decline in the market price of our Class A common stock.

Risks Related to Legal and Government Regulation

Food safety and food-borne illness incidents or advertising or product mislabeling may adversely affect our business by exposing us to lawsuits, product recalls or regulatory enforcement actions, increasing our operating costs and reducing demand for our product offerings.

Selling food for human consumption involves inherent legal and other risks, and there is increasing governmental scrutiny of and public awareness regarding food safety. Illness, injury or death related to allergens, food-borne illnesses, foreign material contamination or other food safety incidents caused by our products, or involving our suppliers, could result in the disruption or discontinuance of sales of these products or our relationships with such suppliers, or otherwise result in increased operating costs, regulatory enforcement actions or harm to our reputation. Shipment of adulterated or misbranded products, even if inadvertent, can result in criminal or civil liability. Such incidents could also expose us to product liability, negligence or other lawsuits, including consumer class action lawsuits. Any claims brought against us may exceed or be outside the scope of our existing or future insurance policy coverage or limits. Any judgment against us that is more than our policy limits or not covered by our policies or not subject to insurance would have to be paid from our cash reserves, which would reduce our capital resources.

The occurrence of food-borne illnesses or other food safety incidents could also adversely affect the price and availability of affected raw materials, resulting in higher costs, disruptions in supply and a reduction in our sales. Furthermore, any instances of food contamination or regulatory noncompliance, whether or not caused by our actions, could compel us, our suppliers, our distributors or our customers, depending on the circumstances, to conduct a recall in accordance with FDA or USDA regulations and policies, and comparable state laws. Food recalls could result in significant losses due to their costs, the destruction of product inventory, lost sales due to the unavailability of the product for a period of time and potential loss of existing distributors or customers and a potential negative impact on our ability to attract new customers due to negative consumer experiences or because of an adverse impact on our brand and reputation. The costs of a recall could be outside the scope of our existing or future insurance policy coverage or limits.

In addition, food companies have been subject to targeted, large-scale tampering as well as to opportunistic, individual product tampering, and we, like any food company, could be a target for product tampering. Forms of tampering could include the introduction of foreign material, chemical contaminants and pathological organisms into food products, as well as product substitution. Governmental regulations require companies like us to analyze, prepare and implement mitigation strategies specifically to address tampering designed to inflict widespread public health harm. If we do not adequately address the possibility, or any actual instance, of product tampering, we could face possible seizure or recall of our products and the imposition of civil or criminal sanctions, which could adversely affect our business, financial condition and operating results.

Our operations are subject to FDA and USDA federal regulation and state regulation, and there is no assurance that we will be in compliance with all regulations.

Our operations are subject to extensive regulation by the FDA, the USDA and other federal, state and local authorities. With respect to eggs in particular, the FDA and the USDA split jurisdiction depending on the type of product involved. While the FDA has primary responsibility for the regulation of shell eggs, the USDA has primary responsibility for the regulation of dried, frozen or liquid eggs and other “egg products,” subject to certain exceptions. Specifically, our shell eggs, butter, hard-boiled eggs and ghee products are subject to the requirements of the Federal Food, Drug, and Cosmetic Act, as amended, or the FDCA, and regulations promulgated thereunder by the FDA with respect to our shell egg, hard-boiled egg, butter and ghee products. This comprehensive regulatory program governs, among other things, the manufacturing, composition and ingredients, packaging, labeling and safety of most food products. The FDA requires that facilities that manufacture food products comply with a range of requirements, including hazard analysis and preventative controls regulations, current good manufacturing practices, or cGMPs, and supplier verification requirements. Our shell egg operations are further subject to FDA regulatory requirements governing the production, storage

and transportation of shell eggs for the control of salmonella. FDA-inspected processing facilities are subject to periodic and “for cause” inspection by federal, state and local authorities. In addition, certain of our products, such as our liquid whole egg products, are subject to regulation by the USDA, including facility registration, inspection, manufacturing and labeling requirements. We do not control the manufacturing processes of, and rely upon, our co-manufacturers for compliance with cGMPs and other regulatory requirements for the manufacturing of our products that is conducted by our co-manufacturers. If we or our co-manufacturers cannot successfully manufacture products that conform to our specifications and the strict regulatory requirements of the FDA, the USDA or others, we or they may be subject to adverse inspectional findings or enforcement actions, which could materially impact our ability to market our products, result in our co-manufacturers’ inability to continue manufacturing for us, result in a recall of our products that have already been distributed and result in damage to our brand and reputation. In addition, we rely upon our co-manufacturers to maintain adequate quality control, quality assurance and qualified personnel. If the FDA, the USDA or a comparable foreign regulatory authority determines that we or these co-manufacturers have not complied with the applicable regulatory requirements, our business may be adversely impacted.

Our liquid whole eggs are subject to the requirements of the Egg Products Inspection Act, or EPIA, and regulations promulgated thereunder by the USDA. The USDA has comprehensive regulations in place that apply to establishments that break, dry and process shell eggs into liquid egg products. This regulatory scheme governs the manufacturing, processing, pasteurizations, packaging, labeling and safety of egg products. Under the EPIA and USDA regulations, establishments that manufacture egg products must comply with the USDA’s requirements for sanitation, temperature control, pasteurization and labeling. We also anticipate that our co-manufacturers’ liquid whole egg establishment will be required to implement Hazard Analysis and Critical Control Point and Sanitary Standard Operating Procedure requirements within two years after the USDA finalizes its Egg Products Inspection Rule in the coming months. We do not control the manufacturing processes of, and rely upon, our co-manufacturers for compliance with USDA regulations for the manufacturing of our liquid egg products that is conducted by our co-manufacturers. If we or our co-manufacturers cannot successfully manufacture liquid whole eggs that conform to our specifications and the strict regulatory requirements of the USDA or others, we or they may be subject to adverse inspectional findings or enforcement actions, which could materially impact our ability to market our products, could result in our co-manufacturers’ inability to continue manufacturing for us, or could result in a recall of our product that has already been distributed. In addition, we rely upon our co-manufacturers to maintain adequate quality control, quality assurance and qualified personnel. If the USDA or a comparable foreign regulatory authority determines that we or these co-manufacturers have not complied with the applicable regulatory requirements, our business may be materially impacted.

In addition to regulation pursuant to the FDCA and the EPIA, some of our products are subject to the Agricultural Marketing Act of 1946, or the AMA. The AMA governs voluntary grade claims that appear on some of our products and are administered by the USDA Agricultural Marketing Service, or AMS. For instance, our shell eggs, including those handled by our co-manufacturers, are graded for quality by USDA AMS grading personnel. Similarly, our butter product, including those handled by our co-manufacturers, are graded for flavor, body, color and salt content. We do not control the processes in place on our contract farms or with our co-manufacturers (which can affect the assigned grade), and rely upon both to provide us quality, fresh products that meet our stringent quality standards. If we, or our network of family farms and co-manufacturers, cannot successfully manufacture products that conform with our quality specifications or meet appropriate grading standards under the AMA, we may have difficulty marketing our products or may be required to source our products from other farms and co-manufacturers.

Our products that are labeled as “organic” are subject to the requirements of the Organic Foods Production Act, or OFPA, and the USDA’s National Organic Program, or NOP, regulations. The OFPA is a comprehensive regulatory scheme that mandates certain practices and prohibits other practices pertaining to the raising of animals and handling and processing of food products. We, and our network of family farms and co-manufacturers, contract with NOP-accredited certifying agents to ensure that our organic products are produced in compliance with the OFPA and NOP regulations. We do not control the farms where our products

are raised and rely on the farms for compliance with the on-farm requirements of the OFPA and NOP regulations. Similarly, we do not control the manufacturing processes of, and we rely upon, our co-manufacturers for compliance with requirements of the OFPA and NOP regulations with respect to organic products handled and manufactured by our co-manufacturers. If we, the farms or the co-manufacturers cannot successfully raise and manufacture products that meet the strict regulatory requirements of the OFPA and the NOP, we or they may be subject to adverse inspectional findings or enforcement actions, which could materially impact our ability to market our products as “organic,” could result in the farms or co-manufacturers’ inability to continue to raise farm products or manufacture food for us, or we, the farms, or the co-manufacturer could lose the right to market products as “organic,” and subject us, the farms, or co-manufacturers to civil monetary penalties. If the USDA or a comparable foreign regulatory authority determines that we or these co-manufacturers have not complied with the applicable regulatory requirements, our business may be materially impacted.

We are also subject to state and local regulations, including product requirements, labeling requirements and import restrictions. For example, the State of Iowa requires that grocery stores which participate in the Special Supplement Nutrition Program for Women, Infants, and Children, and which sell eggs produced by chickens advertised as being housed in cage-free, free-range or enriched colony cage environments, also sell “conventional” eggs produced by chickens that are not so advertised. That regulation impacted the space allocation for non-caged eggs on the shelves of retailers in Iowa and their willingness to carry our eggs. In addition, one or more states could pass regulations that establish requirements that our products would not satisfy. If our products fail to meet such individual state standards or are restricted from being imported into a state by state regulatory requirements, our business, financial condition or results of operations could be materially and adversely affected.

We seek to comply with applicable regulations through a combination of employing internal experience and expert personnel to ensure quality-assurance compliance (i.e., assuring that our products are not adulterated or misbranded) and contracting with third-party laboratories that conduct analyses of products to ensure compliance with nutrition labeling requirements and to identify any potential contaminants before distribution. Failure by us, the farms or the co-manufacturers to comply with applicable laws and regulations or maintain permits, licenses or registrations relating to our or our co-manufacturers’ operations could subject us to civil remedies or penalties, including fines, injunctions, recalls or seizures, warning letters, restrictions on the marketing or manufacturing of products, or refusals to permit the import or export of products, as well as potential criminal sanctions, which could result in increased operating costs resulting in a material effect on our operating results and business. See the section titled “Business—Government Regulation.”

Changes in existing laws or regulations, or the adoption of new laws or regulations may increase our costs and otherwise adversely affect our business, results of operations and financial condition.

The manufacture and marketing of food products is highly regulated. We, our suppliers and co-manufacturers are subject to a variety of laws and regulations. These laws and regulations apply to many aspects of our business, including the manufacture, packaging, labeling, distribution, advertising, sale, quality and safety of our products, as well as the health and safety of our crew members and the protection of the environment.

In the United States, we are subject to regulation by various government agencies, including the FDA, the USDA, the Federal Trade Commission, or FTC, the Occupational Safety and Health Administration, or OSHA, and the Environmental Protection Agency, or EPA, as well as various state and local agencies. We are also regulated outside the United States by various international regulatory bodies. In addition, we are subject to certain standards, such as GFSI standards and review by voluntary organizations, such as the Council of Better Business Bureaus’ National Advertising Division. We could incur costs, including fines, penalties and third-party claims, because of any violations of, or liabilities under, such requirements, including any competitor or consumer challenges relating to compliance with such requirements. For example, in connection with the marketing and advertisement of our products, we could be the target of claims relating to false or deceptive advertising, including under the auspices of the FTC and the consumer protection statutes of some states.

The regulatory environment in which we operate could change significantly and adversely in the future. Any change in manufacturing, labeling or packaging requirements for our products may lead to an increase in costs or interruptions in production, either of which could adversely affect our operations and financial condition. New or revised government laws and regulations could result in additional compliance costs and, in the event of non-compliance, civil remedies, including fines, injunctions, withdrawals, recalls or seizures and confiscations, as well as potential criminal sanctions, any of which may adversely affect our business, financial condition and results of operations.

Failure by our network of family farms, suppliers of raw materials or co-manufacturers to comply with food safety, environmental or other laws and regulations, or with the specifications and requirements of our products, may disrupt our supply of products and adversely affect our business.

If our network of family farms, suppliers or co-manufacturers fail to comply with food safety, environmental, health and safety or other laws and regulations, or face allegations of non-compliance, their operations may be disrupted and our reputation could be harmed. Additionally, the farms and co-manufacturers are required to maintain the quality of our products and to comply with our standards and specifications. In the event of actual or alleged non-compliance, we might be forced to find alternative farms, suppliers or co-manufacturers and we may be subject to lawsuits and/or regulatory enforcement actions related to such non-compliance by the farms, suppliers and co-manufacturers. As a result, our supply of pasture-raised eggs and other raw materials or finished inventory could be disrupted or our costs could increase, which would adversely affect our business, results of operations and financial condition. The failure of any partner farmer or co-manufacturer to produce products that conform to our standards could adversely affect our reputation in the marketplace and result in product recalls, product liability claims, government or third-party actions and economic loss. Additionally, actions we may take to mitigate the impact of any disruption or potential disruption in our supply of pasture-raised eggs and other raw materials or finished inventory, including increasing inventory in anticipation of a potential supply or production interruption, may adversely affect our business, financial condition and results of operations.

We are subject to stringent environmental regulation and potentially subject to environmental litigation, proceedings, and investigations.

Our business operations and ownership and past and present operation of real property are subject to stringent federal, state, and local environmental laws and regulations pertaining to the discharge of materials into the environment and natural resources. Violation of these laws and regulations could lead to substantial liabilities, fines and penalties or to capital expenditures related to pollution control equipment that could have a material adverse effect on our business. We could also experience in the future significant opposition from third parties with respect to our business, including environmental non-governmental organizations, neighborhood groups and municipalities. Additionally, new matters or sites may be identified in the future that will require additional environmental investigation, assessment, or expenditures, which could cause additional capital expenditures. Future discovery of contamination of property underlying or in the vicinity of our present properties or facilities and/or waste disposal sites could require us to incur additional expenses, delays to our business and to our proposed construction. The occurrence of any of these events, the implementation of new laws and regulations, or stricter interpretation of existing laws or regulations, could adversely affect our business, financial condition and results of operations.

Legal claims, government investigations or other regulatory enforcement actions could subject us to civil and criminal penalties.

We operate in a highly regulated environment with constantly evolving legal and regulatory frameworks. Consequently, we are subject to a heightened risk of legal claims, government investigations or other regulatory enforcement actions. Although we have implemented policies and procedures designed to ensure compliance with existing laws and regulations, there can be no assurance that our crew members, consultants, independent

contractors, suppliers, suppliers, co-manufacturers or distributors will not violate our policies and procedures. Moreover, a failure to maintain effective control processes could lead to violations, unintentional or otherwise, of laws and regulations. Legal claims, government investigations or regulatory enforcement actions arising out of our failure or alleged failure to comply with applicable laws and regulations could subject us to civil and criminal penalties that could materially and adversely affect our product sales, reputation, financial condition and operating results. In addition, the costs and other effects of defending potential and pending litigation and administrative actions against us may be difficult to determine and could adversely affect our financial condition and operating results.

Litigation or legal proceedings could expose us to significant liabilities and have a negative impact on our reputation or business.

From time to time, we may be party to various claims and litigation proceedings. We evaluate these claims and litigation proceedings to assess the likelihood of unfavorable outcomes and to estimate, if possible, the amount of potential losses. Based on these assessments and estimates, we may establish reserves, as appropriate. These assessments and estimates are based on the information available to management at the time and involve a significant amount of management judgment. Actual outcomes or losses may differ materially from our assessments and estimates. We are not currently party to any material litigation.

Even when not merited, the defense of these lawsuits may divert our management's attention, and we may incur significant expenses in defending these lawsuits. The results of litigation and other legal proceedings are inherently uncertain, and adverse judgments or settlements in some of these legal disputes may result in adverse monetary damages, penalties or injunctive relief against us, which could have a material adverse effect on our financial position, cash flows or results of operations. Any claims or litigation, even if fully indemnified or insured, could damage our reputation and make it more difficult to compete effectively or to obtain adequate insurance in the future.

Furthermore, while we maintain insurance for certain potential liabilities, such insurance does not cover all types and amounts of potential liabilities and is subject to various exclusions as well as caps on amounts recoverable. Even if we believe a claim is covered by insurance, insurers may dispute our entitlement to recovery for a variety of potential reasons, which may affect the timing and, if the insurers prevail, the amount of our recovery.

Broad market and industry fluctuations, as well as general economic, political, regulatory and market conditions, may also negatively impact the market price of our Class A common stock.

The dual class structure of our common stock will have the effect of concentrating voting control with our executive officers, directors and their affiliates, which will limit your ability to influence the outcome of important transactions.

Our Class B common stock has _____ votes per share and our Class A common stock, which is the stock we are offering in this offering, has one vote per share. Our existing stockholders, all of which hold shares of Class B common stock, will collectively beneficially own shares representing approximately _____ % of the voting power of our outstanding capital stock following the completion of this offering. Our executive officers, directors and stockholders holding more than 5% of our outstanding capital stock, together with their affiliates, will collectively hold approximately _____ % of the voting power of our outstanding capital stock immediately following the completion of this offering, based on the number of shares outstanding as of December 29, 2019, and without giving effect to any purchases that these holders may make in this offering. As a result, the holders of our Class B common stock will be able to exercise considerable influence over matters requiring stockholder approval, including the election of our directors and the approval of significant corporate transactions, such as a merger or other sale of our company or our assets, even if their stock holdings represent less than 50% of the outstanding number of shares of our capital stock. This concentration of ownership will limit the ability of other stockholders to influence corporate matters and may cause us to make strategic decisions that could involve risks to you or that may not be aligned with your interests. This control may adversely affect the market price of our Class A common stock.

Further, future transfers by holders of our Class B common stock will generally result in those shares converting into shares of our Class A common stock, subject to limited exceptions, such as certain transfers effected for tax or estate planning purposes. The conversion of shares of our Class B common stock into shares of our Class A common stock will have the effect, over time, of increasing the relative voting power of those holders of Class B common stock who retain their shares in the long term.

We cannot predict the impact our dual class structure may have on the market price of our Class A common stock.

We cannot predict whether our dual class structure, combined with the concentrated control of our stockholders who held our capital stock prior to the completion of this offering, including our executive officers, employees and directors and their affiliates, will result in a lower or more volatile market price of our Class A common stock or in adverse publicity or other adverse consequences. For example, certain index providers have announced restrictions on including companies with multiple class share structures in certain of their indexes. In July 2017, FTSE Russell and Standard & Poor's announced that they would cease to allow most newly public companies utilizing dual or multi-class capital structures to be included in their indices. Under the announced policies, our dual class capital structure would make us ineligible for inclusion in any of these indices. Given the sustained flow of investment funds into passive strategies that seek to track certain indexes, exclusion from stock indexes would likely preclude investment by many of these funds and could make our Class A common stock less attractive to other investors. As a result, the market price of our Class A common stock could be adversely affected.

No public market for our Class A common stock currently exists, and an active public trading market may not develop or be sustained following this offering.

No public market for our Class A common stock currently exists. An active public trading market for our Class A common stock may not develop following the completion of this offering or, if developed, may not be sustained. The lack of an active market may impair your ability to sell your shares at the time you wish to sell them or at a price that you consider reasonable. The lack of an active market may also reduce the fair value of your shares. An inactive market may also impair our ability to raise capital to continue to fund operations by selling shares and may impair our ability to acquire other companies by using our shares as consideration.

We will have broad discretion in the use of the net proceeds to us from this offering and may not use them effectively.

We will have broad discretion in the application of the net proceeds that we receive from this offering, including for any of the purposes described in the section titled "Use of Proceeds," and you will not have the opportunity as part of your investment decision to assess whether the net proceeds are being used appropriately. Because of the number and variability of factors that will determine our use of the net proceeds that we receive from this offering, our ultimate use may vary substantially from our currently intended use. Investors will need to rely upon the judgment of our management with respect to the use of such proceeds. Pending use, we may invest the net proceeds that we receive from this offering in short-term, investment-grade, interest-bearing securities, such as money market accounts, certificates of deposit, commercial paper, and guaranteed obligations of the U.S. government that may not generate a high yield for our stockholders. If we do not use the net proceeds that we receive in this offering effectively, our business, financial condition, results of operations and prospects could be harmed, and the market price of our Class A common stock could decline.

Future sales of our Class A common stock in the public market could cause the market price of our Class A common stock to decline.

Sales of a substantial number of shares of our Class A common stock in the public market following the completion of this offering, or the perception that these sales might occur, could depress the market price of our Class A common stock and could impair our ability to raise capital through the sale of additional equity securities. Many of our existing equityholders have substantial unrecognized gains on the value of the equity they hold based upon the price of this offering, and therefore they may take steps to sell their shares or otherwise secure the unrecognized gains on those shares. We are unable to predict the timing of or the effect that such sales may have on the prevailing market price of our Class A common stock.

All of our directors and officers and the holders of substantially all of our capital stock and securities convertible into our capital stock are subject to lock-up agreements that restrict their ability to transfer shares of our capital stock for 180 days from the date of this prospectus, subject to certain exceptions. Goldman Sachs & Co. LLC and Morgan Stanley & Co. LLC may, in their sole discretion, permit our stockholders who are subject to these lock-up agreements to sell shares prior to the expiration of the lock-up agreements, subject to applicable notice requirements. If not earlier released, all of the shares of Class A common stock sold in this offering will become eligible for sale upon expiration of the 180-day lock-up period, except for any shares held by our affiliates as defined in Rule 144 under the Securities Act of 1933, as amended, or the Securities Act.

In addition, there were _____ shares of Class B common stock issuable upon the exercise of outstanding stock options as of December 29, 2019. We intend to register all of the shares of Class A common stock and Class B common stock issuable upon exercise of outstanding stock options, or other equity incentives we may grant in the future, for public resale under the Securities Act. The shares of Class A common stock will become eligible for sale in the public market to the extent such options are exercised, subject to the lock-up agreements described above and compliance with applicable securities laws.

Further, based on shares outstanding as of December 29, 2019, holders of approximately _____ shares, or _____ % of our capital stock after the completion of this offering, will have rights, subject to some conditions, to

require us to file registration statements covering the sale of their shares or to include their shares in registration statements that we may file for ourselves or other stockholders.

Our issuance of additional capital stock in connection with financings, acquisitions, investments, our equity incentive plans or otherwise will dilute all other stockholders.

We expect to issue additional capital stock in the future that will result in dilution to all other stockholders. We expect to grant equity awards to employees, directors and consultants under our equity incentive plans. We may also raise capital through equity financings in the future. As part of our business strategy, we may acquire or make investments in companies and issue equity securities to pay for any such acquisition or investment. Any such issuances of additional capital stock may cause stockholders to experience significant dilution of their ownership interests and the per share value of our Class A common stock to decline.

If securities or industry analysts do not publish research or publish unfavorable or inaccurate research about our business, the market price and trading volume of our Class A common stock could decline.

The market price and trading volume of our Class A common stock following the completion of this offering will be heavily influenced by the way analysts interpret our financial information and other disclosures. We do not have control over these analysts. If few securities analysts commence coverage of us, or if industry analysts cease coverage of us, our stock price would be negatively affected. If securities or industry analysts do not publish research or reports about our business, downgrade our Class A common stock, or publish negative reports about our business, our stock price would likely decline. If one or more of these analysts cease coverage of us or fail to publish reports on us regularly, demand for our Class A common stock could decrease, which might cause our stock price to decline and could decrease the trading volume of our Class A common stock.

You will experience immediate and substantial dilution in the net tangible book value of the shares of Class A common stock you purchase in this offering.

The initial public offering price of our Class A common stock is substantially higher than the pro forma net tangible book value per share of our common stock immediately after this offering. If you purchase shares of our Class A common stock in this offering, you will suffer immediate dilution of \$ per share, or \$ per share if the underwriters exercise their option to purchase additional shares from us and the selling stockholders in full, representing the difference between our pro forma as adjusted net tangible book value per share after giving effect to the sale of Class A common stock in this offering and the initial public offering price of \$ per share, the midpoint of the price range set forth on the cover page of this prospectus. See the section titled “Dilution.”

We do not intend to pay dividends for the foreseeable future and, as a result, your ability to achieve a return on your investment will depend on appreciation in the price of our Class A common stock.

While we have previously paid cash dividends on our capital stock, we do not intend to pay any cash dividends in the foreseeable future. Any determination to pay dividends in the future will be at the discretion of our board of directors. Accordingly, you may need to rely on sales of our Class A common stock after price appreciation, which may never occur, as the only way to realize any future gains on your investment.

We are an “emerging growth company,” and we cannot be certain if the reduced reporting and disclosure requirements applicable to emerging growth companies will make our Class A common stock less attractive to investors.

We are an “emerging growth company,” as defined in the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies, including the auditor attestation requirements of Section 404 of the Sarbanes-Oxley

Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. Pursuant to Section 107 of the JOBS Act, as an emerging growth company, we have elected to use the extended transition period for complying with new or revised accounting standards until those standards would otherwise apply to private companies. As a result, our consolidated financial statements may not be comparable to the financial statements of issuers who are required to comply with the effective dates for new or revised accounting standards that are applicable to public companies, which may make our Class A common stock less attractive to investors. In addition, if we cease to be an emerging growth company, we will no longer be able to use the extended transition period for complying with new or revised accounting standards.

We will remain an emerging growth company until the earliest of: (1) the last day of the fiscal year following the fifth anniversary of this offering; (2) the last day of the first fiscal year in which our annual gross revenue is \$1.07 billion or more; (3) the date on which we have, during the previous rolling three-year period, issued more than \$1 billion in non-convertible debt securities; and (4) the last day of the fiscal year in which the market value of our Class A common stock held by non-affiliates exceeded \$700 million as of June 30 of such fiscal year.

We cannot predict if investors will find our Class A common stock less attractive if we choose to rely on these exemptions. For example, if we do not adopt a new or revised accounting standard, our future results of operations may not be as comparable to the results of operations of certain other companies in our industry that adopted such standards. If some investors find our Class A common stock less attractive as a result, there may be a less active trading market for our Class A common stock, and our stock price may be more volatile.

We will incur increased costs as a result of operating as a public company, and our management will be required to devote substantial time to compliance with our public company responsibilities and corporate governance practices.

As a public company, we will incur significant finance, legal, accounting and other expenses, including director and officer liability insurance, that we did not incur as a private company, which we expect to further increase after we are no longer an “emerging growth company.” The Sarbanes-Oxley Act, the Dodd-Frank Wall Street Reform and Consumer Protection Act, the listing requirements of _____, and other applicable securities rules and regulations impose various requirements on public companies. Our management and other personnel devote a substantial amount of time to compliance with these requirements. Moreover, these rules and regulations will increase our legal and financial compliance costs and will make some activities more time-consuming and costly. We cannot predict or estimate the amount of additional costs we will incur as a public company or the specific timing of such costs.

Pursuant to Section 404 of the Sarbanes-Oxley Act, or Section 404, we will be required to furnish a report by management on, among other things, the effectiveness of our internal control over financial reporting for the fiscal year ending December 31, 2021. This assessment will need to include disclosure of any material weaknesses identified by our management in our internal control over financial reporting. In addition, our independent registered public accounting firm will be required to attest to the effectiveness of our internal control over financial reporting in our first annual report required to be filed with the Securities and Exchange Commission, or SEC, following the date we are no longer an emerging growth company. To prepare for eventual compliance with Section 404, we will be engaged in a costly and challenging process of compiling the system and processing documentation necessary to perform the evaluation needed to comply with Section 404, but we may not be able to complete our evaluation, testing and any required remediation in a timely fashion once initiated. Our compliance with Section 404 will require that we incur substantial expenses and expend significant management efforts. We currently do not have an internal audit group, and we will need to hire additional accounting and financial staff with appropriate public company experience and technical accounting knowledge and compile the system and process documentation necessary to perform the evaluation needed to comply with Section 404.

We previously identified two material weaknesses in our internal control over financial reporting, and if we are unable to achieve and maintain effective internal control over financial reporting, the accuracy and timing of our financial reporting may be adversely affected.

Prior to this offering, we were a private company with limited accounting personnel and other resources with which to address our internal controls and procedures. In connection with the audit of our financial statements for fiscal 2018, we and our independent registered public accounting firm identified two material weaknesses in our internal control over financial reporting. A “material weakness” is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. A “significant deficiency” is a deficiency or a combination of deficiencies in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of our financial reporting.

We determined that we had two material weaknesses because (i) we did not maintain a sufficient complement of personnel with an appropriate degree of technical knowledge commensurate with our accounting and reporting requirements and (ii) we did not design our controls sufficiently to completely and accurately record our accrued liabilities and other estimates at period end. As a result, there were certain post-close adjustments that were required that were material to the financial statements. These material weaknesses could result in a misstatement of account balances or disclosures that would result in a material misstatement to the annual or interim financial statements that would not be prevented or detected.

To address these material weaknesses, we plan to hire additional accounting personnel and implement process level and management review controls. While we intend to implement a plan to remediate these material weaknesses, we cannot predict the success of such plan or the outcome of our assessment of these plans at this time. If our steps are insufficient to successfully remediate the material weaknesses and otherwise establish and maintain an effective system of internal control over financial reporting, the reliability of our financial reporting, investor confidence in us and the value of our Class A common stock could be materially and adversely affected. We can give no assurance that this implementation will remediate these deficiencies in internal control or that additional material weaknesses in our internal control over financial reporting will not be identified in the future. Our failure to implement and maintain effective internal control over financial reporting could result in errors in our financial statements that could result in a restatement of our financial statements, cause us to fail to meet our reporting obligations.

As a public company, we will be required to further design, document and test our internal controls over financial reporting to comply with Section 404. We cannot be certain that additional material weaknesses and control deficiencies will not be discovered in the future. If material weaknesses or control deficiencies occur in the future, we may be unable to report our financial results accurately on a timely basis or help prevent fraud, which could cause our reported financial results to be materially misstated and result in the loss of investor confidence or delisting and cause the market price of our Class A common stock to decline. If we have material weaknesses in the future, it could affect the financial results that we report or create a perception that those financial results do not fairly state our financial position or results of operations. Either of those events could have an adverse effect on the value of our Class A common stock.

Further, even if we conclude that our internal control over financial reporting provides reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP, because of its inherent limitations, internal control over financial reporting may not prevent or detect fraud or misstatements. Failure to implement required new or improved controls, or difficulties encountered in their implementation, could harm our results of operations or cause us to fail to meet our future reporting obligations.

Our status as a public benefit corporation and a Certified B Corporation may not result in the benefits that we anticipate.

We have elected to be classified as a public benefit corporation under Delaware law. As a public benefit corporation we are required to balance the financial interests of our stockholders with the best interests of those stakeholders materially affected by our conduct, including particularly those affected by the specific benefit purposes set forth in our certificate of incorporation. In addition, there is no assurance that the expected positive impact from being a public benefit corporation will be realized. Accordingly, being a public benefit corporation and complying with our related obligations could negatively impact our ability to provide the highest possible return to our stockholders.

As a public benefit corporation, we are required to publicly disclose a report at least biennially on our overall public benefit performance and on our assessment of our success in achieving our specific public benefit purpose. If we are not timely or are unable to provide this report, or if the report is not viewed favorably by parties doing business with us or regulators or others reviewing our credentials, our reputation and status as a public benefit corporation may be harmed.

While not required by Delaware law or the terms of our certificate of incorporation, we have elected to have our social and environmental performance, accountability and transparency assessed against the proprietary criteria established by an independent non-profit organization. As a result of this assessment, we have been designated as a “Certified B Corporation,” which refers to companies that are certified as meeting certain levels of social and environmental performance, accountability and transparency. The standards for Certified B Corporation certification are set by an independent organization and may change over time. Our reputation could be harmed if we lose our status as a Certified B Corporation, whether by our choice or by our failure to continue to meet the certification requirements, if that failure or change were to create a perception that we are more focused on financial performance and are no longer as committed to the values shared by Certified B Corporations. Likewise, our reputation could be harmed if our publicly reported Certified B Corporation score declines.

As a public benefit corporation, our duty to balance a variety of interests may result in actions that do not maximize stockholder value.

As a public benefit corporation, our board of directors has a duty to balance (i) the pecuniary interest of our stockholders, (ii) the best interests of those materially affected by our conduct and (iii) specific public benefits identified in our charter documents. While we believe our public benefit designation and obligation will benefit our stockholders, in balancing these interests our board of directors may take actions that do not maximize stockholder value. Any benefits to stockholders resulting from our public benefit purposes may not materialize within the timeframe we expect or at all and may have negative effects. For example:

- we may choose to revise our policies in ways that we believe will be beneficial to our stakeholders, including farmers, suppliers, crew members and local communities, even though the changes may be costly;
- we may take actions, such as building state-of-the-art facilities with technology and quality control mechanisms that exceed the requirements of USDA and the FDA, even though these actions may be more costly than other alternatives;
- we may be influenced to pursue programs and services to demonstrate our commitment to the communities to which we serve and bringing ethically produced food to the table even though there is no immediate return to our stockholders; or
- in responding to a possible proposal to acquire the company, our board of directors may be influenced by the interests of our stakeholders, including farmers, suppliers, crew members and local communities, whose interests may be different from the interests of our stockholders.

We may be unable or slow to realize the benefits we expect from actions taken to benefit our stakeholders, including farmers, suppliers, crew members and local communities, which could adversely affect our business, financial condition and results of operations, which in turn could cause our stock price to decline.

As a public benefit corporation, we may be subject to increased derivative litigation concerning our duty to balance stockholder and public benefit interests, the occurrence of which may have an adverse impact on our financial condition and results of operations.

Stockholders of a Delaware public benefit corporation (if they, individually or collectively, own at least 2% of its outstanding capital stock) are entitled to file a derivative lawsuit claiming that its directors failed to balance stockholder and public benefit interests. This potential liability does not exist for traditional corporations. Therefore, we may be subject to the possibility of increased derivative litigation, which would require the attention of management and, as a result, may adversely impact management's ability to effectively execute our strategy. Any such derivative litigation may be costly and have an adverse impact on our financial condition and results of operations.

Anti-takeover provisions in our charter documents and under Delaware law could make an acquisition of our company more difficult, limit attempts by our stockholders to replace or remove our current management and limit the market price of our Class A common stock.

Provisions in our amended and restated certificate of incorporation and amended and restated bylaws that will be in effect upon the completion of this offering, and provisions of Delaware law applicable to us as a public benefit corporation, may have the effect of delaying or preventing a change of control or changes in our management. Our amended and restated certificate of incorporation and amended and restated bylaws will include provisions that:

- authorize our board of directors to issue, without further action by the stockholders, shares of undesignated preferred stock with terms, rights and preferences determined by our board of directors that may be senior to our Class A common stock;
- require that any action to be taken by our stockholders be effected at a duly called annual or special meeting and not by written consent;
- specify that special meetings of our stockholders can be called only by our board of directors, the chairperson of our board of directors, or our chief executive officer;
- establish an advance notice procedure for stockholder proposals to be brought before an annual meeting, including proposed nominations of persons for election to our board of directors;
- establish that our board of directors is divided into three classes, with each class serving three-year staggered terms;
- prohibit cumulative voting in the election of directors;
- provide that our directors may be removed for cause only upon the vote of at least 66 2/3% of our outstanding shares of voting stock; and
- provide that vacancies on our board of directors may be filled only by a majority of directors then in office, even though less than a quorum.

These provisions may frustrate or prevent any attempts by our stockholders to replace or remove our current management by making it more difficult for stockholders to replace members of our board of directors, which is responsible for appointing the members of our management. In addition, because we are incorporated in Delaware, we are governed by the provisions of Section 203 of the Delaware General Corporation Law, which generally, subject to certain exceptions, prohibits a Delaware corporation from engaging in any of a broad range of business combinations with any "interested" stockholder for a period of three years following the date on which the stockholder became an "interested" stockholder.

Also, as a public benefit corporation, our board of directors is required by the Delaware General Corporation Law to manage or direct our business and affairs in a manner that balances the pecuniary interests of our stockholders, the best interests of those materially affected by our conduct, and the specific public benefits identified in our certificate of incorporation. Additionally, Section 363 of the Delaware General Corporation Law provides that, as a public benefit corporation, a vote of at least 66 2/3% of our outstanding shares of voting stock is required to effect a merger involving stock consideration with an entity that is not a public benefit corporation with an identical public benefit to ours. Further, a vote of at least 66 2/3% of our outstanding shares of voting stock is required for matters directly or indirectly amending or removing our public benefit purpose. We believe that our public benefit corporation status will make it more difficult for another party to obtain control of us without maintaining our public benefit corporation status and purpose. Any of the foregoing provisions could limit the price that investors might be willing to pay in the future for shares of our Class A common stock, and they could deter potential acquirers of our company, thereby reducing the likelihood that you would receive a premium for your shares of our Class A common stock in an acquisition.

Our amended and restated certificate of incorporation will designate the Court of Chancery of the State of Delaware and, to the extent enforceable, the federal district courts of the United States of America as the exclusive forums for substantially all disputes between us and our stockholders, which will restrict our stockholders' ability to choose the judicial forum for disputes with us or our directors, officers, or employees.

Our amended and restated certificate of incorporation that will be in effect upon the completion of this offering will provide that the Court of Chancery of the State of Delaware (or, if and only if the Court of Chancery of the State of Delaware lacks subject matter jurisdiction, any state court located within the State of Delaware or, if and only if all such state courts lack subject matter jurisdiction, the federal district court for the District of Delaware) is the exclusive forum for the following types of actions or proceedings under Delaware statutory or common law: any derivative action or proceeding brought on our behalf; any action asserting a breach of a fiduciary duty; any action asserting a claim against us arising pursuant to the Delaware General Corporation Law, our amended and restated certificate of incorporation or our amended and restated bylaws; any action as to which the Delaware General Corporation Law confers jurisdiction to the court of Chancery of the State of Delaware; or any action asserting a claim against us that is governed by the internal affairs doctrine. The provisions would not apply to suits brought to enforce a duty or liability created by the Securities Act or the Exchange Act of 1934, as amended, or the Exchange Act. In addition, our amended and restated certificate of incorporation will provide that the federal district courts of the United States of America will be the exclusive forum for resolving any complaint asserting a cause of action arising under the Securities Act, subject to and contingent upon a final adjudication in the State of Delaware of the enforceability of such exclusive forum provision.

These choice of forum provisions may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or our directors, officers or other employees. If a court were to find either choice of forum provision contained in our amended and restated certificate of incorporation to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions. For example, the Court of Chancery of the State of Delaware recently determined that the exclusive forum provision of federal district courts of the United States of America for resolving any complaint asserting a cause of action arising under the Securities Act is not enforceable. The Chancery Court's decision has been appealed to the Delaware Supreme Court. If the Delaware Supreme Court reverses the Chancery Court's decision and holds that such a provision is cognizable under Delaware law, we will enforce the federal district court exclusive forum provision. Until such time as the Delaware courts declare the federal district court exclusive forum provision legally cognizable, we do not intend to enforce that provision of our amended and restated certificate of incorporation.

USE OF PROCEEDS

We estimate that we will receive net proceeds from this offering of approximately \$ million (or approximately \$ million if the underwriters exercise their option to purchase additional shares of our Class A common stock from us and the selling stockholders in full) based on an assumed initial public offering price of \$ per share of Class A common stock, the midpoint of the estimated price range set forth on the cover page of this prospectus, after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us. We will not receive any of the proceeds from the sale of Class A common stock in this offering by the selling stockholders.

A \$1.00 increase (decrease) in the assumed initial public offering price of \$ per share of Class A common stock, the midpoint of the estimated price range set forth on the cover page of this prospectus, would increase (decrease) the net proceeds to us from this offering by approximately \$ million, assuming the number of shares of Class A common stock offered by us, as set forth on the cover page of this prospectus, remains the same, and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us. Similarly, each increase (decrease) of 1,000,000 shares in the number of shares of Class A common stock offered by us would increase (decrease) the net proceeds to us from this offering by approximately \$ million, assuming the assumed initial public offering price of \$ per share of Class A common stock remains the same, and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us.

The principal purposes of this offering are to increase our capitalization and financial flexibility, to create a public market for our Class A common stock and to facilitate our future access to the capital markets. As of the date of this prospectus, we cannot specify with certainty all of the particular uses for the net proceeds we receive from this offering. However, we currently intend to use the net proceeds we receive from this offering for general corporate purposes, including working capital, operating expenses and capital expenditures, including our expansion of Egg Central Station. We may also use a portion of the net proceeds we receive from this offering to acquire complementary businesses, products, services or technologies. However, we do not have agreements or commitments to enter into any acquisitions at this time.

We will have broad discretion over how to use the net proceeds we receive from this offering. We intend to invest the net proceeds we receive from this offering that are not used as described above in investment-grade, interest-bearing instruments.

DIVIDEND POLICY

We declared cash dividends on our common stock in June 2013 totaling approximately \$0.3 million. We cannot provide any assurance that we will declare or pay cash dividends on our capital stock in the future. In addition, our ability to pay dividends on our capital stock is subject to restrictions under the terms of our credit facility with PNC Bank, National Association, or the Credit Facility. See Note 10 to our consolidated financial statements included elsewhere in this prospectus for additional information on the Credit Facility. We currently intend to retain all available funds and future earnings, if any, to fund the development and expansion of our business, and we do not anticipate declaring or paying any cash dividends in the foreseeable future. Any future determination regarding the declaration and payment of dividends, if any, will be at the discretion of our board of directors and will depend on then-existing conditions, including our financial condition, operating results, contractual restrictions (including in our then-existing debt arrangements), capital requirements, business prospects and other factors our board of directors may deem relevant.

CAPITALIZATION

The following table sets forth our cash and cash equivalents and capitalization as of December 29, 2019:

- on an actual basis;
- on a pro forma basis, giving effect to (1) the reclassification of our common stock into an equal number of shares of Class B common stock, (2) the automatic conversion of all outstanding shares of convertible preferred stock into an aggregate of shares of Class B common stock and (3) the filing and effectiveness of our amended and restated certificate of incorporation, each of which will occur immediately prior to the completion of this offering; and
- on a pro forma as adjusted basis, giving effect to (1) the pro forma adjustments described above and (2) our receipt of estimated net proceeds from the sale of shares of Class A common stock that we are offering at an assumed initial public offering price of \$ per share, the midpoint of the price range set forth on the cover page of this prospectus, after deducting the estimated underwriting discounts and commissions and estimated offering expenses payable by us.

A \$1.00 increase (decrease) in the assumed initial public offering price of \$ _____ per share of Class A common stock, the midpoint of the estimated price range set forth on the cover page of this prospectus, would increase (decrease) each of our pro forma as adjusted cash and cash equivalents, additional paid-in capital, total stockholders' equity and total capitalization by approximately \$ _____ million, assuming the number of shares of Class A common stock offered by us, as set forth on the cover page of this prospectus, remains the same, and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us. Similarly, each increase (decrease) of 1,000,000 shares in the number of shares of Class A common stock offered by us would increase (decrease) each of our pro forma as adjusted cash and cash equivalents, additional paid-in capital, total stockholders' equity and total capitalization by approximately \$ _____ million, assuming the assumed initial public offering price of \$ _____ per share of Class A common stock remains the same, and after deducting estimated underwriting discounts and commissions and estimated offering expense payable by us.

The number of shares of Class A common stock and Class B common stock that will be outstanding after this offering is based on no shares of Class A common stock outstanding and _____ shares of Class B common stock outstanding as of December 29, 2019, and excludes:

- _____ shares of Class B common stock issuable on the exercise of outstanding stock options as of December 29, 2019 under our 2013 Plan with a weighted-average exercise price of \$ _____ per share;
- _____ shares of Class B common stock issuable upon the exercise of outstanding stock options issued after December 29, 2019 pursuant to our 2013 Plan with a weighted-average exercise price of \$ _____ per share;
- 80,000 shares of Class B common stock issuable upon the exercise of a common stock warrant that, if not exercised, will expire upon the earlier of June 12, 2020 or the completion of this offering;
- _____ shares of Class A common stock reserved for future issuance under our 2020 Plan, which will become effective immediately prior to the execution of the underwriting agreement related to this offering, as well as any future increases, including annual automatic evergreen increases, in the number of shares of Class A common stock reserved for issuance thereunder, and any shares underlying outstanding stock awards granted under our 2013 Plan that expire or are repurchased, forfeited, cancelled or withheld, as more fully described in the section titled "Executive Compensation—Employee Benefit Plans"; and
- _____ shares of Class A common stock reserved for issuance under our ESPP, which will become immediately prior to the execution of the underwriting agreement related to this offering, as well as any future increases, including annual automatic evergreen increases, in the number of shares of Class A common stock reserved for future issuance thereunder.

DILUTION

If you invest in our Class A common stock in this offering, your interest will be diluted to the extent of the difference between the initial public offering price per share of Class A common stock and the pro forma as adjusted net tangible book value per share immediately after this offering.

Our pro forma net tangible book value as of December 29, 2019 was \$ _____ million, or \$ _____ per share of common stock. Our pro forma net tangible book value per share represents the amount of our total tangible assets less our total liabilities, divided by the number of our shares of common stock outstanding as of December 29, 2019, after giving effect to the automatic conversion of all outstanding shares of convertible preferred stock into an aggregate of _____ shares of Class B common stock, which will occur immediately prior to the completion of this offering.

After giving effect to the sale by us of _____ shares of Class A common stock in this offering at an assumed initial public offering price of \$ _____ per share, the midpoint of the estimated price range set forth on the cover page of this prospectus, and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us, our pro forma as adjusted net tangible book value as of December 29, 2019 would have been \$ _____ million, or \$ _____ per share. This amount represents an immediate increase in pro forma as adjusted net tangible book value of \$ _____ per share to our existing stockholders and an immediate dilution of \$ _____ per share to new investors purchasing Class A common stock in this offering. We determine dilution by subtracting the pro forma as adjusted net tangible book value per share after this offering from the initial public offering price per share paid by investors purchasing Class A common stock in this offering. The following table illustrates this dilution on a per share basis:

Assumed initial public offering price per share	\$ _____
Historical net tangible book value per share as of December 29, 2019	
Increase per share attributable to the pro forma adjustments described above	
Pro forma net tangible book value per share as of December 29, 2019	\$ _____
Increase in pro forma as adjusted net tangible book value per share attributable to new investors purchasing shares in this offering	
Pro forma as adjusted net tangible book value per share after giving effect to this offering	
Dilution per share to new investors in this offering	\$ _____

The dilution information discussed above is illustrative only and may change based on the actual initial public offering price and other terms of this offering. A \$1.00 increase (decrease) in the assumed initial public offering price of \$ _____ per share of Class A common stock, the midpoint of the estimated price range set forth on the cover page of this prospectus, would increase (decrease) our pro forma as adjusted net tangible book value per share after this offering by \$ _____ per share and increase (decrease) the dilution to new investors by \$ _____ per share, in each case assuming the number of shares of Class A common stock offered by us, as set forth on the cover page of this prospectus, remains the same, and after deducting estimated underwriting discounts and commissions. Similarly, each increase of 1,000,000 shares in the number of shares of Class A common stock offered by us would increase our pro forma as adjusted net tangible book value by approximately \$ _____ per share and decrease the dilution to new investors by approximately \$ _____ per share, and each decrease of 1,000,000 shares in the number of shares of Class A common stock offered by us would decrease our pro forma as adjusted net tangible book value by approximately \$ _____ per share and increase the dilution to new investors by approximately \$ _____ per share, in each case assuming the assumed initial public offering price of \$ _____ per share of Class A common stock remains the same, and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us.

If the underwriters exercise their option to purchase additional shares of Class A common stock from us and the selling stockholders in full, our pro forma as adjusted net tangible book value would be \$ _____ per share, and the dilution in pro forma net tangible book value per share to new investors in this offering would be \$ _____ per share.

The following table summarizes, as of December 29, 2019, on a pro forma as adjusted basis as described above, the number of shares of our common stock, the total consideration and the average price per share (1) paid to us by existing stockholders and (2) to be paid by new investors acquiring our Class A common stock in this offering at an assumed initial public offering price of \$ _____ per share, the midpoint of the estimated price range set forth on the cover page of this prospectus, before deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us.

	Shares Purchased		Total Consideration		Average Price
	Number	Percent	Amount	Percent	Per Share
Existing stockholders		%		%	
New investors					
Totals		100.0%	\$	100.0%	

Sales by the selling stockholders in this offering will cause the number of shares held by existing stockholders to be reduced to _____ shares, or _____ % of the total number of shares of our capital stock outstanding following the completion of this offering, and will increase the number of shares held by new investors to _____ shares, or _____ % of the total number of shares of our capital stock outstanding following the completion of this offering.

Each \$1.00 increase (decrease) in the assumed initial public offering price of \$ _____ per share, the midpoint of the estimated price range set forth on the cover page of this prospectus, would increase (decrease) the total consideration paid by new investors and total consideration paid by all stockholders by approximately \$ _____ million, assuming that the number of shares of Class A common stock offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us.

The number of shares of Class A common stock and Class B common stock that will be outstanding after this offering is based on no shares of Class A common stock and _____ shares of Class B common stock outstanding as of December 29, 2019, and excludes:

- _____ shares of Class B common stock issuable on the exercise of outstanding stock options as of December 29, 2019 under our 2013 Plan with a weighted-average exercise price of \$ _____ per share;
- _____ shares of Class B common stock issuable upon the exercise of outstanding stock options issued after December 29, 2019 pursuant to our 2013 Plan with a weighted-average exercise price of \$ _____ per share;
- 80,000 shares of Class B common stock issuable upon the exercise of a common stock warrant that, if not exercised, will expire upon the earlier of June 12, 2020 or the completion of this offering;
- _____ shares of Class A common stock reserved for future issuance under our 2020 Plan, which will become effective immediately prior to the execution of the underwriting agreement related to this offering, as well as any future increases, including annual automatic evergreen increases, in the number of shares of Class A common stock reserved for issuance thereunder, and any shares underlying outstanding stock awards granted under our 2013 Plan that expire or are repurchased, forfeited, cancelled or withheld, as more fully described in the section titled “Executive Compensation—Employee Benefit Plans”; and

-
- shares of Class A common stock reserved for issuance under our ESPP, which will become effective immediately prior to the execution of the underwriting agreement related to this offering, as well as any future increases, including annual automatic evergreen increases, in the number of shares of Class A common stock reserved for future issuance thereunder.

To the extent that any outstanding stock options are exercised or new stock options are issued under our equity incentive plans, or that we issue additional shares of capital stock in the future, there will be further dilution to investors participating in this offering. If all outstanding stock options under our 2013 Plan as of December 29, 2019 were exercised, then our existing stockholders, including the holders of those stock options, would own % , and new investors would own % , of the total number of shares of our capital stock outstanding following the completion of this offering.

MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

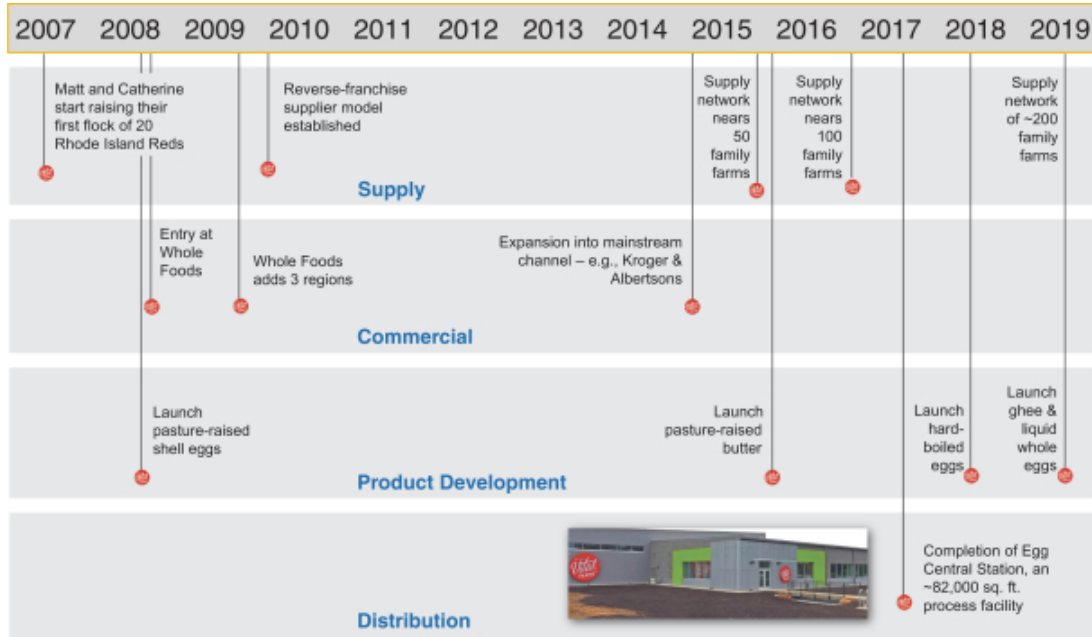

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the section titled “Selected Consolidated Financial Data” and our consolidated financial statements and related notes thereto included elsewhere in this prospectus. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those discussed below. Factors that could cause or contribute to such differences include, but are not limited to, those identified below and in the section titled “Risk Factors.”

Overview

Vital Farms is an ethical food company that is disrupting the U.S. food system. We have developed a framework that challenges the norms of the incumbent food model and allows us to bring high-quality products from our network of small family farms to a national audience. This framework has enabled us to become the leading U.S. brand of pasture-raised eggs and butter and the second largest U.S. egg brand by retail dollar sales. Our ethics are exemplified by the humane treatment of farm animals and sustainable farming practices. We believe these standards produce happy hens with varied diets, which produce better eggs. There is a seismic shift in consumer demand for ethically produced, natural, traceable, clean label, great-tasting and nutritious foods. Supported by a steadfast adherence to the values on which we were founded, we have designed our brand and products to appeal to this consumer movement.

Our purpose is rooted in a commitment to Conscious Capitalism, which prioritizes the long-term benefits of each of our stakeholders (farmers and suppliers, customers and consumers, communities and the environment, crew members and stockholders). Our business decisions consider the impact on all of our stakeholders, in contrast with the factory farming model, which principally emphasizes cost reduction at the expense of animals, farmers, consumers, crew members, communities and the environment. These principles guide our day-to-day operations and, we believe, help us deliver a more sustainable and successful business. Our approach has been validated by our financial performance and our designation as a Certified B Corporation, a certification reserved for businesses that balance profit and purpose to meet the highest verified standards of social and environmental performance, public transparency and legal accountability.

Vital Farms was founded in 2008, and our pasture-raised shell eggs were launched at Whole Foods in the same year. Since then, we have expanded our operations and our portfolio of pasture-raised food products as illustrated below:

We source our pasture-raised products from a network of approximately 200 small family farms. We have strategically designed our supply chain to ensure high-production standards and optimal year-round operation. We are motivated by the positive impact we have on rural communities and enjoy a strong relationship and reputation with our network of farmers.

We primarily work with our farms pursuant to buy-sell contracts. Under these arrangements, the farmer is responsible for all of the working capital and investments required to produce the eggs and manage the farm, including purchasing the birds and feed supply. We are contractually obligated to purchase all of the eggs produced by the farmer during the term of the contract at an agreed upon price that depends upon pallet weight and is indexed quarterly in arrears for changes in feed cost.

We believe we are a strategic and valuable partner to retailers. We have continued to command premium prices for our products, including our shell eggs, which sell for as much as three times the price of commodity eggs. Our loyal and growing consumer base has fueled the expansion of our brand from the natural channel to the mainstream channel. We believe the success of our brand demonstrates that consumers are demanding premium products that meet a higher ethical standard of food production. We have a strong presence at Kroger, Sprouts, Target and Whole Foods, and we also sell our pasture-raised products at Albertsons, Publix and Walmart. We offer 21 retail SKUs through a multi-channel retail distribution network. We believe we have significant room for growth within the retail and foodservice channels through growing brand awareness, gaining additional points of distribution and new product innovation.

Our shell eggs are collected from farmers by a third-party freight carrier and placed in cold storage until we pack them for shipping to our customers at our state-of-the-art shell egg processing facility, Egg Central Station. Egg Central Station is approximately 82,000 square feet and utilizes highly automated equipment to grade and

package our shell egg products. Egg Central Station is capable of packing three million eggs per day and has achieved Safe Quality Food, or SQF, Level 3 certification, the highest level of such certification from the Global Food Safety Initiative. In addition, Egg Central Station, is the only egg facility, and we are one of only five companies, globally to have received the SQF Institute, or SQFI, Select Site certification. To distribute our products, we use a broker-distributor-retailer network whereby brokers represent our products to distributors and retailers who will in turn sell our products to consumers. We serve the majority of natural channel customers through food distributors, such as UNFI and KeHE, which purchase, store, sell and deliver our products to Whole Foods and Sprouts, respectively. In fiscal 2018 and fiscal 2019, UNFI accounted for 36% and % of our net revenue and KeHE accounted for 10% and % of our net revenue, respectively. We serve mainstream retailers by arranging for delivery of our products directly through their distribution centers. We also leverage distributor relationships to fulfill orders for certain independent grocers and other customers.

We have experienced consistent sales growth. We had net revenue of \$106.7 million, net income of \$5.6 million and Adjusted EBITDA of \$7.9 million in the fiscal year ended December 30, 2018. See the section titled “—Non-GAAP Financial Measure—Adjusted EBITDA” below for the definition of Adjusted EBITDA, as well as a reconciliation of Adjusted EBITDA to net income, the most directly comparable financial measure stated in accordance with GAAP.

Our Fiscal Year

We report on a 52-53-week fiscal year, ending on the last Sunday in December, effective beginning with the first quarter of fiscal 2018. In a 52-53-week fiscal year, each fiscal quarter consists of 13 weeks. The additional week in a 53-week fiscal year is added to the fourth quarter, making such quarter consist of 14 weeks. Our first 53-week fiscal year will be fiscal 2023, which we expect to begin on December 26, 2022 and end on December 31, 2023. See Note 1 to our consolidated financial statements included elsewhere in this prospectus for additional details related to our fiscal calendar.

Key Factors Affecting Our Business

We believe that the growth of our business and our future success are dependent upon many factors. While each of these factors presents significant opportunities for us, they also pose important challenges that we must successfully address to enable us to sustain the growth of our business and improve our results of operations.

Expand Household Penetration

We have positioned our brand to capitalize on growing consumer interest in natural, clean-label, traceable, ethical, great-tasting and nutritious foods. We believe there is substantial opportunity to grow our consumer base and increase the velocity at which households purchase our products. U.S. household penetration for the shell egg category is approximately 95%, while the household penetration for our pasture-raised shell eggs is approximately 2%. We intend to increase household penetration by continuing to invest significantly in selling and marketing to educate consumers about our brand, our values and the premium quality of our products. We believe these efforts will educate consumers on the ethical value and the attractive attributes of pasture-raised food, generate further demand for our products and ultimately expand our consumer base. Our ability to attract new consumers will depend, among other things, on the perceived value and quality of our products, the offerings of our competitors and the effectiveness of our marketing efforts. Our performance depends significantly on factors that may affect the level and pattern of consumer spending in the U.S. natural food market in which we operate. Such factors include consumer preference, consumer confidence, consumer income, consumer perception of the safety and quality of our products and shifts in the perceived value for our products relative to alternatives.

Grow Within the Retail Channel

We believe that our ability to increase the number of customers that sell our products to consumers is an indicator of our market penetration and our future business opportunities. We define our customers as the entities that sell our products to consumers. With certain of our retail customers, like Whole Foods and Sprouts, we sell our products through distributors. We are not able to precisely attribute our net revenue to a specific retailer for products sold through such channels. We rely on third-party data to calculate the portion of retail sales attributable to such retailers, but this data is inherently imprecise because it is based on gross sales generated by our products sold at retailers, without accounting for price concessions, promotional activities or chargebacks, and because it measures retail sales for only the portion of our retailers serviced through distributors. Based on this third-party data and internal analysis, Whole Foods accounted for approximately 37% and % of our retail sales in fiscal 2018 and fiscal 2019, respectively, and Sprouts accounted for approximately 10% and % of our retail sales in fiscal 2018 and fiscal 2019, respectively.

As of November 2019, there are approximately 13,000 stores selling our products. We expect the retail channel to be our largest source of net revenue for the foreseeable future. By capturing greater shelf space, driving higher product velocities and increasing our SKU count, we believe there is meaningful runway for further growth with existing retail customers. Additionally, we believe there is significant opportunity to gain incremental stores from existing customers as well as by adding new retail customers. We also believe there is significant further long-term opportunity in additional distribution channels, including the convenience, drugstore, club, military and international markets. Our ability to execute on this strategy will increase our opportunities for incremental sales to consumers, and we also believe this growth will allow for margin expansion. To accomplish these objectives, we intend to continue leveraging consumer awareness of and demand for our brand, offering targeted sales incentives to our customers and utilizing customer-specific marketing tactics. Our ability to grow within the retail channel will depend on a number of factors, such as our customers' satisfaction with the sales, product velocities and profitability of our products.

Expand Footprint Across Foodservice

We believe there is a significant opportunity to expand sales of our products in the foodservice channel. In fiscal 2018, the foodservice channel accounted for 2% of our net revenue. Our brand has a differentiated value proposition with consumers, who we believe are increasingly demanding ethically produced ingredients when they eat outside of the home. We believe that more consumers will look for our products on menus, particularly with foodservice partners whose values are aligned with our own, and that on-menu branding of our products as ingredients in popular meals and menu items will drive traffic and purchases in the foodservice channel. We also believe that branded foodservice offerings will further help drive consumer awareness of our brand and purchase rates of our products in the retail channel. One example of our successful foodservice programs is with Tacodeli LLC, a popular chain based in Austin, Texas, which sells breakfast tacos made exclusively with our pasture-raised shell eggs across 11 restaurant locations and more than 100 points of distribution, such as coffee shops and farmers market stands, across Texas. We also believe there is significant additional opportunity in micro-markets, corporate offices, the hospitality industry, and colleges and universities. We intend to continue to invest in relationships with foodservice operators, including to support joint marketing and advertising of our products. Expansion in this channel will depend on our ability to successfully partner with foodservice operators in a manner that leverages and reinforces our value proposition with consumers.

Expand Our Product Offerings

We intend to continue to strengthen our product offerings by investing in innovation in new and existing categories. We launched hard-boiled eggs in 2018 and ghee and liquid whole eggs in 2019, and we believe there is opportunity to expand in the future into the refrigerated value-added dairy category, among others. Eggs generated \$99 million, or 93%, of net revenue in fiscal 2018. We expect eggs will be our largest source of net revenue for the foreseeable future. We believe that investments in innovation will contribute to our long-term

growth, including by reinforcing our efforts to increase household penetration. Our ability to successfully develop, market and sell new products will depend on a variety of factors, including the availability of capital to invest in innovation, as well as changing consumer preferences and demand for food products.

Components of Results of Operations

Net Revenue

We generate net revenue primarily from sales of our products, including pasture-raised eggs, pasture-raised butter and other ethically produced food, to our customers, which include natural retailers, mainstream retailers and foodservice partners. We sell our products to customers on a purchase-order basis. We serve the majority of our natural channel customers and certain independent grocers and other customers through food distributors, which purchase, store, sell and deliver our products to these customers.

We periodically offer sales incentives to our customers, including rebates, temporary price reductions, off-invoice discounts, retailer advertisements, product coupons and other trade activities. We periodically provide chargebacks to our customers, which include credits or discounts to customers in the event that products do not conform to customer expectations upon delivery or expire at a customer's site. We record a provision for sales incentives at the later of the date at which the related revenue is recognized or when the sales incentive is offered. At the end of each accounting period, we recognize a liability for an estimated promotional allowance reserve. We treat chargebacks and discount offers, when accepted by customers, as a reduction of the sales price of the related transaction. We anticipate that these promotional activities, chargebacks and discount offers could impact our net revenue and that changes in such activities could impact period-over-period results.

Our pasture-raised shell eggs are sold to consumers at a premium price point, and when prices for commodity shell eggs fall relative to the price of our pasture-raised shell eggs, price-sensitive consumers may choose to purchase commodity shell eggs offered by our competitors instead of our pasture-raised eggs. As a result, low commodity shell egg prices may adversely affect our net revenue. Net revenue may also vary from period to period depending on the purchase orders we receive, the volume and mix of our products sold, and the channels through which our products are sold.

Cost of Goods Sold

Cost of goods sold consists primarily of the cost of eggs, butter and other raw materials, product packaging, co-manufacturing fees, direct labor and associated overhead costs, and plant and equipment depreciation and amortization. In addition, our cost of goods sold includes warehousing and transportation of inventory.

We historically contracted with farmers on an integrator basis, under which we purchased the birds required to produce the eggs, and provided the birds and feed supply to the farmer. Our integrator contracts generally have seven-year terms. In 2015, we shifted our focus toward a model in which we enter into buy-sell contracts with new farmers and existing farmers when their contracts expire. Our buy-sell contracts generally have three-year terms. Under these arrangements, the farmer is responsible for all of the working capital and investments required to produce the eggs and manage the farm, including purchasing the birds and feed supply. As of December 30, 2018, approximately 92% of the laying hens in our network of family farms were under buy-sell contracts and the remainder were under integrator contracts. The price we pay to purchase shell eggs from farmers fluctuates based on pallet weight, and under our buy-sell contracts, the price we pay is also indexed quarterly in arrears for changes in feed cost, which may cause our agreed-upon pricing under these contracts to fluctuate on a quarterly basis.

We work with our co-manufacturing partners on a purchase-order basis to produce all non-shell, pasture-raised egg products, including butter, ghee, hard-boiled eggs and liquid whole eggs.

We expect our cost of goods sold to increase in absolute dollars to support our growth. However, we expect that, over time, cost of goods sold will decrease as a percentage of net revenue, as a result of the scaling of our business and the increased percentage of laying hens under buy-sell contracts as our remaining integrator contracts expire.

Gross Profit and Gross Margin

Gross profit consists of our net revenue less costs of goods sold. Gross profit was \$34.8 million and gross margin was 33% in fiscal 2018. Gross profit and gross margin in fiscal 2018 were benefitted by in-sourcing egg processing through Egg Central Station, which was completed in September 2017.

Gross profit and gross margin can be negatively affected by feed costs and commodity shell egg prices. As we continue to expand production, increase processing efficiency, leverage the cost of our fixed production and staff costs, and introduce new egg products to better utilize our existing egg supply, we expect to have the opportunity to increase our gross margins over time.

Operating Expenses

Operating expenses consist of selling and marketing, general and administrative and shipping and distribution expenses.

Selling and Marketing

Selling and marketing expenses consist primarily of personnel costs and broker and contractor fees for selling and marketing functions, consisting of salaries, benefits, bonuses, stock-based compensation expense and sales commissions. Selling and marketing expenses also include advertising and digital media costs, agency fees, travel and entertainment costs, and costs associated with consumer promotions, product samples and sales aids incurred to acquire new customers, retain existing customers and build our brand awareness. We expect selling and marketing expenses to increase in absolute dollars as we increase our expansion efforts to meet our product demand, continue to build brand equity across our product portfolio and add personnel to our selling and marketing organization.

General and Administrative

General and administrative expenses consist primarily of personnel costs and contractor fees for finance, human resources and other administrative functions, consisting of salaries, benefits, bonuses and stock-based compensation expense. General and administrative expenses also include overhead costs for facilities, including associated depreciation and amortization expenses, and information technology-related expenses. We expect general and administrative expenses to increase in absolute dollars when we operate as a public company with increased personnel costs in finance, legal and accounting.

Shipping and Distribution

Shipping and distribution expenses consist primarily of costs related to cold storage and third-party freight for our products. We expect shipping and distribution expenses to increase in absolute dollars as we continue to scale our business.

Other Expense, Net

Other expense, net consists primarily of interest paid on our term loan under our revolving credit, term loan and security agreement, or the Credit Facility. Other expense, net also includes income earned on our money market funds included in cash and cash equivalents.

Provision for Income Taxes

Provision for income taxes consists of U.S. federal and state income taxes.

Net Loss Attributable to Noncontrolling Interests

In December 2016, we entered into an assignment and assumption agreement with Ovabrite, Inc., or Ovabrite, a technology company focused on developing technologies to detect egg fertility and chick gender. The initial stockholders of Ovabrite are also our stockholders, and the largest stockholder of Ovabrite is Matthew O'Hayer, our founder and executive chairman. In addition, we provide substantially all of the funding for the operations of Ovabrite.

Based upon this and other aspects of Ovabrite's design and operation, we determined that Ovabrite is a variable interest entity, or VIE, and we are the primary beneficiary as we have (i) the power to direct the activities of Ovabrite that most significantly impact Ovabrite's economic performance and (ii) the obligation to absorb losses that could potentially be significant to Ovabrite, or the right to receive benefits from Ovabrite that could potentially be significant to Ovabrite. Accordingly, we consolidate the results of Ovabrite and recognize the noncontrolling interests related to the VIE as equity in our consolidated financial statements separate from the parent entity's equity. Ovabrite's other stockholders' share of its earnings or loss is recorded in the consolidated statement of operations as net loss attributable to noncontrolling interests.

Liquidity and Capital Resources

Since inception, we have funded our operations with proceeds from sales of our capital stock, proceeds from borrowings and cash flows from our product sales. We had net income of \$5.6 million for the fiscal year ended December 30, 2018 and retained earnings of \$2.9 million as of December 30, 2018. We expect that our cash and cash equivalents, together with cash provided by our operating activities and proceeds from borrowings under our existing Credit Facility (as defined below), will be sufficient to fund our operating expenses for at least the next 12 months. Our future capital requirements will depend on many factors, including our pace of new and

existing customer growth, our investments in innovation, our investments in partnerships and unexplored channels and the final costs associated with completing our expansion of Egg Central Station. We may be required to seek additional equity or debt financing. In the event that we require additional financing, we may not be able to raise such financing on terms acceptable to us or at all. If we are unable to raise additional capital or generate cash flows necessary to expand our operations and invest in continued innovation and product expansion, we may not be able to compete successfully, which would harm our business, operations and financial condition.

Credit Facility

Our Credit Facility with PNC Bank, National Association includes a \$4.7 million initial term loan, a \$10.0 million revolving line of credit and an equipment note with a maximum borrowing capacity of \$750,000. The Credit Facility was originally entered into in October 2017 and matures on October 4, 2022.

On April 13, 2018 and April 25, 2018, we entered into amended loan agreements with PNC Bank, which we refer to as the First Amendment Loan and the Second Amendment Loan, respectively. The First Amendment Loan amended the Credit Facility to decrease the maximum borrowings under the equipment note from \$1.5 million to \$750,000, and to waive existing events of default. The Second Amendment Loan amended the Credit Facility to modify various definitions and terms that were not significant.

Borrowings under the term loan are repayable in monthly installments of principal and interest, followed by a balloon payment of all unpaid principal and accrued and unpaid interest due on October 4, 2022. Interest on borrowings under the term loan accrues at a rate, at our election at the time of borrowing, equal to (i) LIBOR plus 2.75% or (ii) 1.75% plus the sum of the Federal Funds Open Rate plus 50 basis points and the Daily LIBOR Rate plus 100 basis points. As of December 30, 2018, there was \$3.9 million outstanding under the term loan and the interest rate applicable to borrowings under the Credit Facility was 6.33%.

The maximum borrowing capacity under the revolving line of credit is \$10.0 million. Interest on borrowings under the revolving line of credit, as well as on swing loan advances thereunder, accrues at a rate, at our election at the time of borrowing, equal to (i) LIBOR plus 2.0% or (ii) 1.0% plus the alternate base rate. As of December 30, 2018, there were no outstanding borrowings under the revolving line of credit.

The maximum borrowing capacity under the equipment note is \$750,000, subject to certain restrictions. Any borrowings under the equipment note from October 4, 2018 through October 4, 2019 will be due and payable beginning the following month with 36 monthly installments of principal due through October 4, 2022, and all accrued and unpaid interest due October 4, 2022. Interest on borrowings under the equipment note accrue at a rate, at our election at the time of borrowing, equal to (i) LIBOR plus 2.75% or (ii) 1.75% plus the alternate base rate. As of December 30, 2018, there were no outstanding borrowings under the equipment note.

In February 7, 2019, we entered into the Third Amendment to our Credit Facility, which we refer to as the Third Amendment Loan. The Third Amendment Loan amended the Credit Facility to waive existing events of default.

The Credit Facility is secured by all of our assets and requires us to maintain three financial covenants: a fixed charge coverage ratio, a leverage ratio and a minimum EBITDA. The Credit Facility also contains various covenants relating to limitations on indebtedness, investments and acquisitions, sale of properties and liens and capital expenditures. Additionally, the Credit Facility contains other customary covenants, representations and events of default. As of December 30, 2018, we were in compliance with all covenants under the Credit Facility. See Note 10 to our consolidated financial statements included elsewhere in this prospectus for additional details related to our Credit Facility.

Cash Flows

The following table summarizes our cash flows for the fiscal year ended December 30, 2018:

	Year Ended December 30, 2018
	(in thousands)
Net cash provided by operating activities	\$ 11,424
Net cash used in investing activities	(1,911)
Net cash used in financing activities	(1,509)
Net increase in cash and cash equivalents during the year	<u>\$ 8,004</u>

Operating Activities

In fiscal 2018, net cash provided by operating activities was \$11.4 million resulting primarily from net income of \$5.6 million, an increase in accounts payable of \$4.9 million, an increase in accrued liabilities of \$2.9 million and non-cash charges of \$3.1 million, partially offset by an increase in accounts receivable of \$3.6 million, an increase in inventory of \$1.0 million, and an increase in prepaid expenses and other current assets of \$0.5 million. The increases in accounts payable and accrued expenses were primarily due to increases in a payment associated with an over recovery of promotions related to a customer and overall increase to inventory purchases and payroll related costs associated with our continued growth. The increases in accounts receivable were primarily due to new customers and distribution centers, in addition to increased orders from our existing customers, and the increases in prepaid expenses and other current assets were primarily due to our gain contingency in connection with our lawsuit settlement in which we were the plaintiff.

Investing Activities

In fiscal 2018, net cash used in investing activities was \$1.9 million, resulting primarily from purchases of property, plant and equipment used in ongoing operations.

Financing Activities

In fiscal 2018, net cash used in financing activities was \$1.5 million, primarily consisting of \$0.5 million of deferred royalty payments related to our 2014 acquisition of HEC, \$0.7 million of principal payments under our Credit Facility and \$0.4 million of principal payments under our capital lease obligations.

Non-GAAP Financial Measures

Adjusted EBITDA

We report our financial results in accordance with GAAP. However, management believes that Adjusted EBITDA, a non-GAAP financial measure, provides investors with additional useful information in evaluating our performance.

We calculate Adjusted EBITDA as net income, adjusted to exclude: (1) depreciation and amortization; (2) provision for income taxes; (3) stock-based compensation expense; (4) interest expense; (5) interest income; (6) change in fair value of contingent consideration; and (7) net litigation settlement gain.

Adjusted EBITDA is a financial measure that is not required by, or presented in accordance with GAAP. We believe that Adjusted EBITDA, when taken together with our financial results presented in accordance with

GAAP, provides meaningful supplemental information regarding our operating performance and facilitates internal comparisons of our historical operating performance on a more consistent basis by excluding certain items that may not be indicative of our business, results of operations or outlook. In particular, we believe that the use of Adjusted EBITDA is helpful to our investors as it is a measure used by management in assessing the health of our business, determining incentive compensation and evaluating our operating performance, as well as for internal planning and forecasting purposes.

Adjusted EBITDA is presented for supplemental informational purposes only, has limitations as an analytical tool and should not be considered in isolation or as a substitute for financial information presented in accordance with GAAP. Some of the limitations of Adjusted EBITDA include that (1) it does not properly reflect capital commitments to be paid in the future, (2) although depreciation and amortization are non-cash charges, the underlying assets may need to be replaced and Adjusted EBITDA does not reflect these capital expenditures, (3) it does not consider the impact of stock-based compensation expense, (4) it does not reflect other non-operating expenses, including interest expense, (5) it does not consider the impact of any contingent consideration liability valuation adjustments and (6) it does not reflect tax payments that may represent a reduction in cash available to us. In addition, our use of Adjusted EBITDA may not be comparable to similarly titled measures of other companies because they may not calculate Adjusted EBITDA in the same manner, limiting its usefulness as a comparative measure. Because of these limitations, when evaluating our performance, you should consider Adjusted EBITDA alongside other financial measures, including our net income and other results stated in accordance with GAAP.

The following table presents a reconciliation of Adjusted EBITDA to net income, the most directly comparable financial measure stated in accordance with GAAP, for the fiscal year ended December 30, 2018:

	Year Ended December 30, 2018 (in thousands)
Net income	\$ 5,629
Depreciation and amortization	1,437
Provision for income tax	723
Stock-based compensation expense	600
Interest expense	424
Change in fair value of contingent consideration (1)	92
Interest income	(9)
Net litigation settlement gain (2)	(1,000)
Adjusted EBITDA	<u>\$ 7,896</u>

(1) Amount reflects the change in fair value of a contingent consideration liability in connection with our 2014 acquisition of HEC.

(2) Amount reflects a gain in connection with a lawsuit settlement in which we were the plaintiff.

Contractual Obligations and Commitments

The following table summarizes our contractual obligations as of December 30, 2018:

	Payments Due by Period				
	Total	Less than 1 Year	1 to 3 Years	4 to 5 Years	More than 5 Years
	(in thousands)				
Long-term debt obligations (1)	\$4,546	\$ 897	\$1,668	\$1,981	\$ —
Capital lease obligations	1,828	498	996	334	—
Operating lease commitments	2,727	690	945	497	595
Total	<u>\$9,101</u>	<u>\$ 2,085</u>	<u>\$3,609</u>	<u>\$2,812</u>	<u>\$ 595</u>

(1) Reflects long-term debt obligations, including accrued interest calculated using an effective interest rate of 6.33%, which is the applicable interest rate at December 30, 2018.

In July 2019, we entered into a third amendment to our office space lease and exercised our expansion option. We agreed to rent an additional 1,962 rentable square feet for monthly minimum lease payments of \$19,000. Minimum lease payments are subject to periodic rent increases through April 2026, as a result of this amendment, and are excluded from the table above.

We purchase our inventories under long-term supply contracts with farms. Purchase commitments contained in these arrangements are variable dependent upon the quantity of eggs produced by the farms. As a result, these commitments have been excluded from the contractual obligations disclosed above. In addition, substantially all of the contracts with farms contain components that meet the definition of an operating lease under Leases (Topic 840), with respect to the property, plant and equipment used in the production of eggs. As consideration paid under these arrangements is variable, the lease payments are contingent rentals. The contingent rentals are capitalized into inventory when the related eggs are purchased and are expensed to cost of goods sold upon their sale to customers. As of December 30, 2018, all of the future lease payments associated with these arrangements were contingent rentals and were therefore excluded from the table above.

Seasonality

Demand for shell eggs fluctuates in response to seasonal factors. Shell egg demand tends to increase with the start of the school year and is highest prior to holiday periods, particularly Thanksgiving, Christmas and Easter and the lowest during the summer months. As a result of these seasonal and quarterly fluctuations, comparisons of our sales and operating results between different quarters within a single fiscal year are not necessarily meaningful comparisons.

Off-Balance Sheet Arrangements

We did not have during the periods presented, and we do not currently have, any off-balance sheet financing arrangements or any relationships with unconsolidated entities or financial partnerships, including entities sometimes referred to as structured finance or special purpose entities, that were established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

Critical Accounting Policies

We believe that the following accounting policies involve a high degree of judgment and complexity. Accordingly, these are the policies we believe are the most critical to aid in fully understanding and evaluating our consolidated financial condition and results of our operations. See Note 2 to our consolidated financial statements included elsewhere in this prospectus for a description of our other significant accounting policies. The preparation of our consolidated financial statements in conformity with GAAP requires us to make estimates and judgments that affect the amounts reported in those financial statements and related notes thereto. Although we believe that the estimates we use are reasonable, due to the inherent uncertainty involved in making those estimates, actual results reported in future periods could differ from those estimates.

Revenue Recognition

Revenue for the fiscal year ended December 30, 2018 is presented under Accounting Standards Codification, or ASC, 605, *Revenue Recognition*. Under ASC 605, we recognized revenue when all of the following criteria were met: (1) upon the transfer of title of the product, ownership, and risk of loss to the

customer, which typically occurs upon delivery and acceptance of the product by customers; (2) collection of the relevant receivable is reasonably assured; (3) persuasive evidence of an arrangement exists; and (4) the sales price is fixed or determinable.

We periodically provide sales incentive to our customers, including rebates, temporary price reductions, off-invoice discounts, retailer advertisements, product coupons and other trade activities. We periodically provide chargebacks to our customers, which include credits or discounts to customers in the event that products do not conform to customer specifications or expire at a customer's site. We record a provision for sales incentives at the later of the date at which the related revenue is recognized or the sales incentive is offered. At the end of each accounting period, we recognize a liability for an estimated promotional allowance reserve. We treat chargebacks and discount offers, when accepted by customers, as a reduction of the sales price of the related transaction. Current discount and inducement offers are presented as a net amount in net revenue and are estimated using our historical experience for similar discounts and inducement offers.

Consolidation of Variable Interest Entities

We consolidate all entities where there exists a controlling financial interest. We have considered our relationship with a certain entity to determine whether we have a variable interest in that entity and, if so, whether we are the primary beneficiary of the relationship. GAAP requires VIEs to be consolidated if an entity's interest in the VIE is a controlling financial interest. Under the variable interest model, a controlling financial interest is determined based on which entity, if any, has (1) the power to direct the activities of the VIE that most significantly impacts the VIEs economic performance and (2) the obligations to absorb losses that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE.

We perform ongoing reassessments of whether changes in the facts and circumstances regarding our involvement with a VIE would cause our consolidation conclusion to change. The consolidation status of the VIEs with which we are involved may change as a result of such reassessments. Changes in consolidation status are applied in accordance with GAAP.

Goodwill

Goodwill represents the excess of cost over the fair value of the net tangible and identifiable intangible assets acquired in a business combination. Goodwill is not amortized but is tested for impairment annually on October 1 or more frequently if events or changes in circumstances indicate that the asset may be impaired. We first assess qualitative factors to determine whether events or circumstances existed that would lead us to conclude it is more likely than not that the fair value of the reporting unit is below its carrying amount. If we determine that it is more likely than not that the fair value of the reporting unit is below the carrying amount, a quantitative goodwill assessment is required. In the quantitative evaluation, the fair value of the reporting unit is determined and compared to the carrying value. If the fair value is greater than the carrying value, then the carrying value is deemed to be recoverable and no further action is required. If the fair value estimate is less than the carrying value, goodwill is considered impaired for the amount by which the carrying amount exceeds the reporting unit's fair value and a charge is reported as impairment of goodwill in our consolidated statement of operations. We did not record any impairment during the fiscal year ended December 30, 2018.

Contingent Consideration

In connection with our 2014 acquisition of HEC, we were required to make royalty payments to prior owners of HEC. The royalty payments are contingent on our future purchase of eggs from supplier contracts that were acquired in the acquisition. These purchases of eggs are contingent because the occurrence of purchases are not guaranteed and the timing and amount of purchases are unknown. Fair value of the contingent consideration liability was determined at the acquisition date using unobservable inputs. These inputs included projected

financial information, market volatility, risk-adjusted discount rates and timing of contractual payments. Subsequent to the acquisition date, at each reporting date, the contingent consideration liability is remeasured to fair value with changes in fair value recorded within general and administrative expenses in our consolidated statement of operations.

Stock-Based Compensation

We measure stock-based awards granted to employees and directors based on their fair value on the date of the grant and recognize compensation expense for those awards over the requisite service period, which is generally the vesting period of the respective award. The fair value of each stock option grant is estimated on the date of grant using the Black-Scholes option-pricing model, which requires inputs based on certain subjective assumptions, including the expected stock price volatility, the expected term of the option, the risk-free interest rate for a period that approximates the expected term of the option and our expected dividend yield. To date, we have issued stock-based awards with only service-based vesting conditions and record the expense for these awards using the straight-line method.

For stock-based awards granted to consultants and non-employees, compensation expense is recognized over the shorter of the vesting period or the period during which services are rendered by such consultants and non-employees until completed. At the end of each financial reporting period prior to completion of the service, the fair value of these awards is re-measured using the then-current fair value of our common stock and updated assumption inputs in the Black-Scholes option-pricing model.

Common Stock Valuations

The fair value of the common stock underlying our stock-based awards has historically been determined by our board of directors, with input from management and contemporaneous third-party valuations. We believe that our board of directors has the relevant experience and expertise to determine the fair value of our common stock. Given the absence of a public trading market of our common stock, and in accordance with the American Institute of Certified Public Accountants Practice Aid, *Valuation of Privately-Held Company Equity Securities Issued as Compensation*, our board of directors exercised reasonable judgment and considered numerous objective and subjective factors to determine the best estimate of the fair value of our common stock at each grant date. These factors include:

- contemporaneous valuations of our common stock performed by independent third-party specialists;
- the prices, rights, preferences and privileges of our redeemable convertible preferred stock relative to those of our common stock;
- the prices of our common and convertible preferred stock sold to third-party investors by us and in secondary transactions or repurchased by us in arm's-length transactions;
- the lack of marketability of our common stock;
- our actual operating and financial performance;
- current business conditions and projections;
- hiring of key personnel and the experience of our management;
- the history of the company and the introduction of new products;
- our stage of development;
- the likelihood of achieving a liquidity event, such as an initial public offering, or a merger or acquisition of our company given prevailing market conditions;
- the market performance of comparable publicly traded companies; and
- the U.S. and global capital market conditions.

In valuing our common stock, our board of directors determined the equity value of our business using various valuation methods, including combinations of income and market approaches with input from management. The income approach estimates value based on the expectation of future cash flows that a company will generate. These future cash flows are discounted to their present values using a discount rate derived from an analysis of the cost of capital of comparable publicly traded companies in our industry or similar business operations as of each valuation date and is adjusted to reflect the risks inherent in our cash flows.

For each valuation, the equity value determined by the income and market approaches was then allocated to the common stock using either the option pricing method, or OPM. The option pricing method is based on a binomial lattice model, which allows for the identification of a range of possible future outcomes, each with an associated probability. The OPM is appropriate to use when the range of possible future outcomes is difficult to predict and thus creates highly speculative forecasts.

In addition, we considered any secondary transactions involving our capital stock. In our evaluation of those transactions, we considered the facts and circumstances of each transaction to determine the extent to which they represented a fair value exchange. Factors considered include transaction volume and timing, whether the transactions occurred among willing and unrelated parties, and whether the transactions involved investors with access to our financial information.

Application of these approaches involves the use of estimates, judgment and assumptions that are highly complex and subjective, such as those regarding our expected future net revenue, expenses, future cash flows, discount rates, market multiples, the selection of comparable companies, and the probability of possible future events. Changes in any or all of these estimates and assumptions or the relationships between those assumptions impact our valuations as of each valuation date and may have a material impact on the valuation of our common stock.

For valuations after the completion of this offering, our board of directors will determine the fair value of the common stock underlying our stock-based awards based on the closing price of our common stock on _____ as reported on the date of grant. Future expense amounts for any particular period could be affected by changes in our assumptions or market conditions.

Based on an assumed initial public offering price per share of \$ _____, the midpoint of the estimated offering price range set forth on the cover page of this prospectus, the aggregate intrinsic value of our outstanding stock options as of December 30, 2018 was \$ _____, with \$ _____ related to vested stock options.

Recent Accounting Pronouncements

See the sections titled “Summary of Significant Accounting Policies—Recently adopted accounting pronouncements” and “—Recently issued accounting pronouncements not yet adopted” in Note 2 to our consolidated financial statements included elsewhere in this prospectus for additional details.

Qualitative and Quantitative Disclosures about Market Risk

We are exposed to market risks in the ordinary course of our business. Market risk represents the risk of loss that may impact our financial position due to adverse changes in financial market prices and rates. Our market risk exposure is primarily the result of fluctuations in raw materials, ingredients, inflation and interest rates.

Raw Materials Pricing Risk

The packaging materials used for our products include cardboard, glass, corrugated fiberboard, kraft paper, flexible plastic, flexible film and paperboard. These raw materials are subject to price fluctuations that may

create price risk. A hypothetical 10% increase or decrease in the weighted-average cost of these raw materials as of December 30, 2018 would have resulted in an increase or decrease to cost of sales for fiscal 2018 of approximately \$0.8 million. We seek to mitigate the impact of raw materials cost increases by negotiating pricing agreements. We strive to offset the impact of raw materials cost increases with a combination of cost savings initiatives and efficiencies and price increases to our customers.

Ingredient Risk

We source our pasture-raised eggs and milk for our products from our network of small family farms. The price we pay to purchase shell eggs from farmers fluctuates based on pallet weight, and under our buy-sell contracts, which account for 92% of the laying hens in our network of family farms as of December 30, 2018, the price we pay is also indexed quarterly in arrears for changes in feed cost, which may cause our agreed-upon pricing under these contracts to fluctuate on a quarterly basis. Under the remainder of our contracts, we are directly responsible for purchasing feed. Either type of contract subjects us to risk of price fluctuations in feed ingredients, primarily consisting of corn and soy. We do not attempt to hedge against fluctuations in the prices of these ingredients by using future, forward, option or other derivative instruments. A hypothetical 10% increase or decrease in the weighted-average cost of these ingredients as of December 30, 2018 would have resulted in an increase or decrease to cost of sales for fiscal 2018 of approximately \$2.3 million. We strive to offset the impact of ingredient cost increases with a combination of cost savings initiatives and efficiencies and price increases to our customers.

Inflation Risk

We do not believe that inflation has had a material effect on our business, results of operations or financial condition. If our costs were to become subject to significant inflationary pressures, we may not be able to fully offset such higher costs through price increases. Our inability or failure to do so could harm our business, results of operations and financial condition.

Interest Rate Risk

We are subject to interest rate risk in connection with our Credit Facility. See the section titled “—Liquidity and Capital Resources—Credit Facility” above. Based on the average interest rate on the instruments under the Credit Facility during the fiscal year ended December 30, 2018 and to the extent that borrowings were outstanding, we do not believe that a hypothetical 10% change in the interest rate would have a material effect on our results of operations or financial condition for fiscal 2018.

Our interest-earning instruments also carry a degree of interest rate risk. As of December 30, 2018, we had cash and cash equivalents of \$11.8 million.

We do not enter into investments for trading or speculative purposes and have not used any derivative financial instruments to manage our interest rate risk exposure.

Foreign Currency Exchange Risk

All of our sales are denominated in U.S. dollars, and therefore our net revenue is not currently subject to significant foreign currency risk. We purchase certain equipment from foreign countries, and the cost related to this equipment is denominated in the currency of the applicable country. Additionally, to the extent our sourcing strategy changes or we commence generating revenue outside of the United States that is denominated in currencies other than the U.S. dollar, our results of operations could be impacted by changes in exchange rates. To date, we have not entered into any hedging arrangements with respect to foreign currency risk or other derivative financial instruments, although we may choose to do so in the future. A hypothetical 10% change in the relative value of the U.S. dollar to other currencies would not have had a material effect on our operating results for fiscal 2018.

Emerging Growth Company Status

In April 2012, the JOBS Act was enacted. Section 107 of the JOBS Act provides that an “emerging growth company” may take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. Therefore, an emerging growth company can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We have elected to use the extended transition period under the JOBS Act. Accordingly, our financial statements may not be comparable to the financial statements of public companies that comply with such new or revised accounting standards.

LETTER FROM OUR FOUNDER & EXECUTIVE CHAIRMAN

In 1980, I purchased a small farm on the outskirts of San Antonio where I kept a small flock of happy hens that roamed freely. Coupled with a varied diet, the environment in which these hens were raised helped them to produce some of the best eggs I had ever eaten. In fact, when we moved back to the city several years later, I could never find eggs that tasted like the ones my “girls” had laid. That got me wondering: Is it possible to produce amazing food in an environmentally responsible and humane manner on a commercial scale? From this question, the Vital Farms story began.

Twenty five years later, my wife Catherine and I founded Vital Farms on a 27-acre plot of land in Austin, Texas. Armed with a bucket of good intentions, 20 Rhode Island Red hens and, later, a thousand baby chicks, we proved that it is possible to produce the highest-quality, humanely raised food at scale. Our first sales came from farmers markets and restaurants in the Austin area. Less than a year later, our delicious eggs were discovered by Whole Foods, who helped transform our backyard passion into a thriving business.

We began with the purpose of bringing ethically produced food to the table. We executed on our purpose by curating a collection of well-supported family farms to operate within a strictly defined set of agricultural practices that includes the humane treatment of farm animals as a central tenet. A decade later, we remain committed to expanding on our purpose and promoting the superior nature of Vital Farms products. We educate consumers to migrate them from their typical food choices and, by doing so, create opportunities for more family farms to benefit from our ethical, humane and sustainable business model.

Through the lens of Conscious Capitalism, taking care of our stakeholders is paramount to what we do. It is the fabric of our brand. With that in mind, we have established deep, sustainable, long-term relationships with approximately 200 small family farms. Our principles resonate with today’s consumers, who increasingly care about animal welfare, environmental responsibility and ethical values. As a result, our brand has grown exceptionally over the last decade to become the market leader with a 73% share of the U.S. pasture-raised retail egg market.

Since our launch in 2007, we have grown to 21 retail SKUs across five product categories, most recently adding butter, hard-boiled eggs, ghee and liquid whole eggs to our portfolio. We offer our products through a multi-channel retail distribution network and have invested over \$19 million to create a highly efficient supply chain. Our premium and values-driven positioning engenders trust with consumers and makes Vital Farms a strategic and valuable brand for retailers. And, as we continue to build a trusted brand in eggs and butter, I am optimistic about the categories we could potentially disrupt to offer consumers and other stakeholders better options.

Our brand ethos of humane farming and ethically produced foods, coupled with our balanced focus on our stakeholders, has produced rewarding operational and financial results. Since the beginning of 2014, we have grown net revenue over 250%, entered our second major category, butter, and built our first state-of-the-art shell egg processing facility, Egg Central Station. Year-to-date net revenue through the third quarter of 2019 was up approximately 34%, and we continue to see strong interest from farmers looking to become a part of our attractive supply chain. As we continue to grow and expand, we remain vigilant in upholding our values, which truly do inform every decision that we make.

I am extremely gratified and humbled to be working with a group of amazing stakeholders: the farmers and suppliers, customers and consumers, communities and the environment, crew members and stockholders that have collectively written the Vital Farms story to date. As we move to our next chapter, we will endeavor to continually earn and uphold the trust of all of our stakeholders each and every day – including you.

Matthew O’Hayer

Founder & Executive Chairman

Our Company: Bringing Ethically Produced Food to the Table

Vital Farms is an ethical food company that is disrupting the U.S. food system. We have developed a framework that challenges the norms of the incumbent food model and allows us to bring high-quality products from our network of small family farms to a national audience. This framework has enabled us to become the leading U.S. brand of pasture-raised eggs and butter and the second largest U.S. egg brand by retail dollar sales. Our ethics are exemplified by our humane treatment of farm animals and sustainable farming practices. We believe these standards produce happy hens with varied diets, which produce better eggs. There is a seismic shift in consumer demand for ethically produced, natural, traceable, clean-label, great-tasting and nutritious foods. Supported by a steadfast adherence to the values on which we were founded, we have designed our brand and products to appeal to this consumer movement.

Our purpose is rooted in a commitment to Conscious Capitalism, which prioritizes the long-term benefits of each of our stakeholders (farmers and suppliers, customers and consumers, communities and the environment, crew members and stockholders). Our business decisions consider the impact on all of our stakeholders, in contrast with the factory farming model, which principally emphasizes cost reduction at the expense of animals, farmers, consumers, crew members, communities and the environment. These principles guide our day-to-day operations and, we believe, help us deliver a more sustainable and successful business. Our approach has been validated by our financial performance and our designation as a Certified B Corporation, a certification reserved for businesses that balance profit and purpose to meet the highest verified standards of social and environmental performance, public transparency and legal accountability.

We have sustainably scaled our brand through our strong relationships with small family farms and deliberate efforts to design and build the infrastructure to bring our products to a national audience. Today, with a network of approximately 200 family farms, we believe our ethically produced pasture-raised products have set the national standard for ethically produced food. We believe the success of our relationships with small family farms and the efficiency of our supply chain provide us with a competitive advantage in the approximately \$45

billion U.S. natural food and beverage industry, in which achieving reliable supply at a national scale can be challenging. In 2017, we opened Egg Central Station, a shell egg processing facility in Springfield, Missouri, which is centrally located within our network of family farms. Egg Central Station is capable of packing three million eggs per day and has achieved Safe Quality Food or SQF, Level 3 certification, the highest level of such certification from the Global Food Safety Initiative, or GFSI. In addition, Egg Central Station is the only egg facility, and we are one of only five companies, globally to have received the SQF Institute, or SQFI, Select Site certification, indicating that the site has voluntarily elected to undergo annual unannounced recertification audits by SQFI, the organization responsible for administering a global food safety and quality program known as the SQF Program. The design of Egg Central Station includes investments in support of each of our stakeholders, from our crew members (daylighting, climate control, slip resistant floors in the egg grading room), to the community and environment (consulting with the community before we built the facility, restoring native vegetation on the property, best-in-class storm water management), to our customers and consumers (food safety and maintenance investments far beyond regulatory requirements). We believe owning and operating this important element of our supply chain is a key differentiator and provides us with a competitive advantage. We have leveraged the scale and efficiency of Egg Central Station to significantly grow both our net revenue and gross margin.

Our loyal and growing consumer base has fueled the expansion of our brand from the natural channel to the mainstream channel and facilitated our entry into the foodservice channel. As of November 2019, we offer 21 retail SKUs through a multi-channel retail distribution network across approximately 13,000 stores. Our products generate stronger velocities and, we believe, greater profitability per unit for our retail customers in key traffic-generating categories as compared to products offered by our competitors. We believe we have significant room for growth within the retail and foodservice channels and can capture this opportunity by growing brand awareness and through new product innovation. We also believe there are incremental growth opportunities in additional distribution channels, including the convenience, drugstore, club, military and international markets, which we may access along with retail growth opportunities to enable us to continue our net revenue growth.

We have built a sustainable company founded on ethically produced products that increasingly resonate with consumers. Our trusted brand and Conscious Capitalism-focused business model have resulted in significant growth. We have increased net revenue from \$1.9 million in fiscal 2010 to \$106.7 million in fiscal 2018, which represents a 66% CAGR. From fiscal 2017 to fiscal 2018, we grew net revenue by 44% and the number of stores carrying our products increased by 11%. Going forward, we expect the consumer movement away from factory farming practices will continue to fuel demand for ethically produced food. According to a 2018 survey of nearly 30,000 international consumers, 62% want brands to have ethical values and demonstrate authenticity in all parts of their business. We believe these demands extend to the food industry and that consumers are recognizing the benefits of pasture-raised egg and dairy products. Management is committed to ensuring our values remain aligned with those of our consumers while delivering stockholder value.

Evidence of our historical success in continuing to scale our business is shown in the graphics below. All dates refer to the year ended December 31, except for 2018, which refers to the fiscal year ended December 30.

Our History

Matthew O’Hayer and his wife Catherine Stewart founded Vital Farms in 2007 on a 27-acre plot of land in Austin, Texas. Armed with a small flock of hens, they maintained a strong belief that a varied diet and better animal welfare practices would lead to superior eggs. Our first sales came from farmers markets and restaurants around Austin and, less than a year later, our eggs were discovered by Whole Foods. Matt and Catherine saw the opportunity to do something more than sell eggs to a few stores. They chose to build a sustainable company that aligned with the family farming community and was able to profitably deliver quality products to a devoted consumer base. As our business has continued to grow, our model remains rooted in trust and mutual accountability with our farmers, who are and will remain core to our business.

In 2014, our current president and chief executive officer, Russell Diez-Canseco, joined Vital Farms and led the development of our large and scalable network of family farms. In 2015, recognizing the opportunity to elevate our production process and bolster long-term growth and profitability, we began the design process for Egg Central Station, which opened in 2017 in Springfield, Missouri. We meticulously designed Egg Central Station in service of all of our stakeholders by improving on the best practices we observed across numerous world-class facilities. Today, Egg Central Station is capable of packing three million eggs per day and has achieved SQF Level 3 certification, the highest level of such certification from the GFSI. In addition, Egg Central Station is the only egg facility, and we are one of only five companies, globally to have received the SQFI Select Site certification.

Demand for our high-quality products has enabled us to expand our brand beyond the natural channel and into the mainstream channel through relationships with Albertsons, Kroger, Publix, Target, Walmart and numerous other national and regional food retailers. As of November 2019, our ethically produced pasture-raised products are sold in approximately 13,000 stores nationwide. Over the course of our journey, our founder, Matthew O’Hayer, has continued to inform our strategic vision and remains intimately involved with the business as our executive chairman, going so far as to personally read and ensure a written response to each email and letter we receive from our loyal consumers.

Our Purpose

Our purpose is to bring ethically produced food to the table. We do this by partnering with family farms that operate within our strictly defined set of ethical food production practices. We are motivated by the influence we have on rural communities through creating impactful, long-term business opportunities for small family farmers. Moreover, we are driven to stand up for sustainable production practices that have been largely cast aside under the factory farming system. In our view, this system has been consistently misguided, focused on producing products at lowest cost rather than driving long-term and sustainable benefits for all stakeholders.

Since inception, our values have been rooted in the principles of Conscious Capitalism. We believe managing our business in the best interest of all of our stakeholders will result in a more successful and sustainable enterprise. A key premise of our business model is our consumer-centric approach, which focuses on identifying consumer needs and developing products that address these needs. While remaining committed to ethical decision-making, we have achieved strong financial performance and earned the Certified B Corporation designation, reflecting our role as a contributor to the global cultural shift toward redefining success in business in order to build a more inclusive and sustainable economy. We believe our consumers connect with Vital Farms because they love our products, relate to our values and trust our practices.

Industry Overview

We operate in the large and growing U.S. natural food and beverage industry that, according to SPINS, LLC data, generated total retail sales of approximately \$45.0 billion in 2018 accounting for approximately 10% of total food and beverage sales and grew at an 8% CAGR between 2016 and 2018, outpacing total food and beverage growth of 1% over the same period. Consumer awareness of the negative health, environmental and agricultural impacts of processed food and factory farming standards has resulted in increased consumer demand for ethically produced food. We believe this trend has had a meaningful impact on the growth of the natural food industry, which is increasingly penetrating the broader U.S. food market as mainstream retailers respond to consumer demand. We believe increased demand for natural food and a willingness to pay a premium for brands focused on transparency, sustainability and ethical values will continue to be a catalyst for our growth.

According to SPINS, LLC data, the U.S. shell egg market in 2018 accounted for \$6 billion in retail sales and has grown at a CAGR of 6.4% between 2016 and 2018. Our relatively low household penetration of 2%, compared to the shell egg category penetration of 95%, provides a significant long-term growth opportunity for our business. Additionally, we estimate that the U.S. processed egg market in 2018 accounted for \$3 billion in retail sales. According to SPINS, LLC data, the U.S. butter market in 2018 accounted for \$3 billion in retail sales and has grown at a CAGR of 3.4% between 2016 and 2018. We believe the strength of our platform, coupled with significant investments in our crew members and infrastructure, position us to continue to deliver industry-leading growth across new and existing categories.

Our Strengths

Trusted Brand Aligned with Consumer Demands

We believe consumers have grown to trust our brand because of our adherence to our values and a high level of transparency. We have positioned our brand to capitalize on growing consumer interest in natural, clean-label, traceable, ethical, great-tasting and nutritious foods. Growing public awareness of major issues connected to animal farming, including human health, climate change and resource conservation, is closely aligned with our ethical mission. We believe consumers are increasingly focused on the source of their food and are willing to pay a premium for brands that deliver transparency, sustainability and integrity. As a company focused on driving the success of our stakeholders, our brand resonates with consumers who seek to align themselves with companies that share their values. Through our Vital Times newsletter and social media presence, we cultivate and support our relationship with consumers by communicating our values, building trust and promoting brand loyalty. For example, a survey we conducted in November 2019 found that 31% of our consumers surveyed insist on purchasing our egg brand and would not purchase another in its place.

Strategic and Valuable Brand for Retailers

Our historical performance has demonstrated that we are a strategic and valuable partner to retailers. We have innovated and grown into adjacent food categories while reaching a broad set of consumers through a variety of retail partners, including Albertsons, Kroger, Publix, Target and Walmart. As of November 2019, we are the number one or two egg brand by retail dollar sales for branded eggs with key customers such as Kroger, Sprouts and Target. We believe the success of our brand demonstrates that consumers are demanding premium products that meet a higher ethical standard. We have expanded into the mainstream channel while still continuing to command premium prices for our ethically produced products, which sell for as much as three times the price of commodity eggs. We believe that our products are more attractive to retail customers because they help generate growth, deliver strong gross profits and drive strong velocities, as represented by the natural channel velocities depicted below.

- (1) Channel Velocity (\$ / Store / Item / Week) is defined as weekly sales per store per item of our products sold in retailers included in the Natural Channel.
- (2) Refrigerated egg competitors represent shell eggs in the Natural Channel.
- (3) Refrigerated butter competitors represent butter brands in the Natural Channel, excluding clotted cream and clarified butter.

Supply Chain Rooted in Commitment to Our Stakeholders

Our ongoing commitment to the social and economic interests of our stakeholders guides our supply chain decisions. We carefully select and partner with family farms in the Pasture Belt, the U.S. region where pasture-raised eggs can be produced year-round. We establish supply contracts that we believe are attractive for all parties, demonstrate our commitment to our network of small family farms through educational programs that transfer critical best practice knowledge, and pay farmers competitive prices for high-quality pasture-raised eggs. We believe our commitment to farmers facilitates more sustainable farm operations and significantly reduces turnover. Our network of small family farms gives us a strategic advantage through a scaled and sustainable supply chain and allows us to go to market with the highest quality pasture-raised premium products.

Map of the Pasture Belt

Experienced and Passionate Team

We have an experienced and passionate executive management team that we refer to as the “C-crew,” which has approximately 60 years of combined industry experience and includes our president and chief executive officer, Russell Diez-Canseco, a seasoned food industry expert with over 16 years of relevant experience, including at H-E-B, a privately held supermarket chain. Our C-crew works in partnership with Matthew O’Hayer, our founder and executive chairman, who continues to inform our strategic vision with the entrepreneurial perspective gained through over 40 years of building businesses. We also have a deep bench of talent with strong business and operational experience, and crew members at all levels of our organization are passionate about addressing the needs of our stakeholders. We have leveraged the experience and passion of our C-crew, our founder and executive chairman, and our other crew members to grow net revenue over 250% since the beginning of 2014, enter our second major food category, butter, and build our first shell egg processing facility, Egg Central Station.

Our Growth Strategies

We believe our investments in our brand, our stakeholders and our infrastructure position us to continue delivering industry-leading growth that outpaces both the natural food industry and the overall food industry.

Expand Household Penetration through Greater Consumer Awareness

Critical to the success of our mission is our ability to share the Vital Farms story with a broader audience. By educating consumers about our brand, our values and the premium quality of our products, we intend to increase our household penetration. Our relatively low household penetration of 2% for our pasture-raised shell eggs, compared to the shell egg category penetration of 95%, shows that expanding the national presence of our brand offers a significant runway for future growth.

We are well positioned to increase household penetration of our products given their alignment with consumer trends and approachability with consumers. We intend to increase the number of consumers who buy our products by using digitally integrated media campaigns, social media tools and other owned media channels. We believe these efforts will educate consumers on our ethical values and the attractive attributes of our pasture-raised products, generate further demand for our products and ultimately expand our consumer base.

Grow Within the Retail Channel

By leveraging greater consumer awareness and demand for our brand, we believe there is significant opportunity to grow volume with existing retail customers. Our products generate stronger velocities and, we believe, greater profitability per unit for our retail customers in the categories in which we compete. By capturing greater shelf space, driving higher product velocities and increasing our SKU count, we believe there is meaningful runway for further growth with existing retail customers. Beyond our existing retail footprint, we believe there is significant opportunity to gain incremental stores from existing retail customers as well as to add new retail customers. We also believe there are significant further long-term opportunities in additional distribution channels, including the convenience, drugstore, club, military and international markets.

Expand Footprint across Foodservice

We believe there is significant demand for our products in the foodservice channel. We see tremendous opportunity for growth in this channel through sales to foodservice operators supported by joint marketing and advertising. Our brand has a differentiated value proposition with consumers, and we believe consumers are increasingly demanding ethically produced ingredients when they eat outside of the home. We believe that more consumers will look for our products on menus, particularly with foodservice partners whose values are aligned with our own, and that on-menu branding of our products as ingredients in popular meals and menu items will drive traffic and purchases in the foodservice channel. An example of our recent foodservice growth initiative is our relationship with Tacodeli, which sells breakfast tacos made exclusively with our pasture-raised shell eggs across 11 restaurant locations and more than 100 points of distribution, such as coffee shops and farmers market stands, across Texas. We believe branded foodservice offerings will further drive consumer awareness of our brand and purchase rates of our products in the retail channel.

Extend Our Product Offering through Innovation

The successes of our core products have confirmed our belief that there is significant demand for pasture-raised and ethically produced food products. We expect to continue to extend our product offerings through innovation in both new and existing categories. In 2018, we launched the only pasture-raised hard-boiled eggs in the U.S. market, and in 2019, we launched both ghee and liquid whole eggs, the latter of which are the only pasture-raised liquid whole eggs in the U.S. market. The success of our product portfolio and our proprietary consumer surveys confirm our belief that there is significant demand for our brand across a wide spectrum of food categories. Within this broader market, we believe the U.S. refrigerated value-added dairy category represents a total addressable market of \$33.6 billion and is the closest adjacency and best near-term opportunity for our brand. We have several products in our innovation pipeline that we believe will be successful in these adjacent markets.

Product Overview

We currently produce five pasture-raised products sourced from animals raised on small family farms: shell eggs, butter, hard-boiled eggs, ghee and liquid whole eggs.

Our original and core product is pasture-raised shell eggs. We defined the pasture-raised egg category by following European-rooted standards codified by the Certified Humane Program, which require each hen to have at least 108 square feet of land and daily outdoor access. Our pasture-raised shell eggs are ethically produced and our consumers consistently tell us that they provide a richer taste and color than other eggs on the market. The retail varieties of our pasture-raised shell eggs are based on supplemental feed type (certified organic, non-GMO project verified and conventional), egg size (medium, large, extra large and jumbo) and pack size (6, 12 and 18 count).

In 2015, we saw an opportunity in the U.S. refrigerated value-added dairy market for premium, pasture-raised butter with artisanal qualities, such as higher butterfat content, sea salt and traditional slow-churn methods. Our consumer research and basket analysis also identified butter as a highly complementary product category to eggs in terms of usage and buyer profile. Today, we offer unsalted and sea salted varieties of our pasture-raised butter, which has 85% butterfat and is sold in two-stick packs.

In March 2018, we launched pasture-raised hard-boiled eggs to broaden the appeal of our brand and satisfy an incremental usage occasion – ready-to-eat snacking. That launch was quickly followed by the introduction of our pasture-raised liquid whole eggs in August 2019. We currently provide the only pasture-raised liquid whole egg in the estimated \$3 billion U.S. processed egg market, which has seen little innovation in decades and has traditionally been dominated by egg whites.

In February 2019, we introduced pasture-raised ghee, followed in August 2019 by the release of a first of its kind ghee in a squeeze bottle format. Our pasture-raised ghee meets the standards consumers expect from the Vital Farms brand, with original and pink Himalayan salt varieties.

Motivated by our mission, our success and our customers' feedback, we continue to innovate and expand our product offering to address growing consumer demand for pasture-raised and ethically produced products.

Innovation

The successes of our core products have confirmed our belief that there is significant demand for pasture-raised and ethically produced food products. We expect to continue to extend our product offerings through innovation in both existing and new categories. We have a dedicated product development team that leverages comprehensive consumer insights and trend data to provide innovative solutions and ideas that meet new consumer needs and usage occasions. We also have a proven innovation model that utilizes a trusted network of partners to bring products to market without requiring significant upfront investment. We are committed to building on the success of our recent product launches and continuing to introduce consumers to our expanding range of ethically produced food products.

Marketing

Our multi-faceted, consumer-centric marketing strategy has been instrumental in building our brand and driving net revenue. Our marketing strategy is aimed at solidifying our brand's positioning as a leading provider of ethically produced food. We execute on this strategy by advertising through digitally integrated media campaigns, social media tools and other owned media channels. Our brand's standout packaging has been a signature communication vehicle since our inception. We maintain a presence across all major social media platforms.

Under the leadership of our chief marketing officer, Scott Marcus, our brand has grown rapidly into a market leader with a 73% share of the U.S. pasture-raised retail egg market. Our brand awareness is represented by a strong social media following, with over 77,000 Instagram followers as of November 2019. Building on prior success, we will continue to invest in the brand through digitally integrated national media campaigns and build customer loyalty through other media formats, including our quirky Vital Times newsletter, now in its tenth year of print, which is placed in each egg carton. During the past two years, we have circulated over 50 million copies of our Vital Times newsletter.

Building upon a landscape of shifting consumer preferences, we are focused on reaching new consumers to educate them about our ethically focused value proposition. We work continuously to understand our consumers and leverage those insights to develop impactful communication plans and messaging. We remain focused on deploying our sophisticated marketing capabilities and world-class sales team to ensure that both customers and consumers understand the Vital Farms story.

Our Customers

We market our products throughout the United States with the majority of our net revenue coming from our pasture-raised egg products. As of November 2019, we currently distribute through third parties and direct to retailers to reach approximately 13,000 stores. With significant expansion in recent years, our retail sales are evenly distributed between the natural channel and mainstream channel. Because of our brand equity, loyal consumer base and expanding line of high-quality products, we believe there are attractive growth opportunities across these channels, in addition to a sizable opportunity in the foodservice channel. We believe there are also incremental growth opportunities in additional distribution channels, including the convenience, drugstore, club, military and international markets, which we may access, along with retail growth opportunities, to enable us to continue our net revenue growth.

Natural Channel

Natural channel retailers, including Whole Foods and Sprouts, represented approximately 49% and % of our retail dollar sales in fiscal 2018 and fiscal 2019, respectively.

Mainstream Channel

Widespread consumer demand for high-quality and traceable foods has driven our expansion into the mainstream channel with national retailers, including Albertsons, Kroger, Publix, Target and Walmart. We began selling eggs in select Kroger divisions in 2014. Since that time, Kroger has grown to become our second largest customer, offering our products in over 2,000 stores. We also continue to expand our relationships with Albertsons, Publix, Target and Walmart. The mainstream channel represented approximately 51% and % of our retail dollar sales in fiscal 2018 and fiscal 2019, respectively.

Foodservice Channel

In addition to our primary natural and mainstream channels, we have a presence in foodservice through the sale of shell eggs to select accounts. We expect our foodservice business to continue to grow through expansive new relationships with broad-line distributors, as well as direct accounts. In fiscal 2018 and fiscal 2019, the foodservice channel accounted for 2% and %, respectively, of our net revenue. Our established foodservice relationships help to extend our marketing efforts through unique co-branding opportunities. We plan to continue to capitalize on these opportunities as we work to introduce new products through the foodservice channel.

One example of our successful foodservice programs is Tacodeli, a popular chain based in Austin, Texas with 11 restaurant locations and more than 100 points of distribution, such as coffee shops and farmers market stands, across Texas. In the spring of 2019, Tacodeli committed to exclusively using Vital Farms eggs for its breakfast tacos, branded with our logo on menus and taco wrappers. We have also built a marketing partnership with Tacodeli to demonstrate the quality of our co-branded offering and to increase consumer awareness of our brands via social media, public relations and other events.

Our products can also currently be found in micro-markets in the Austin, Texas offices of Apple Inc., Facebook, Inc., Google LLC and YETI. We also believe there is significant additional opportunity in the hospitality industry, college and universities, and additional restaurant chains.

Supply Chain

We have strategically designed our supply chain to ensure high-production standards and optimal year-round operation. We are motivated by the positive impact we have on rural communities and enjoy a strong relationship and reputation with our network of approximately 200 small family farms. In order to capitalize on this strong supply network, we built a state-of-the-art shell egg processing facility, Egg Central Station in Springfield, Missouri. Egg Central Station is approximately 82,000 square feet and utilizes highly automated equipment to grade and package our shell egg products. The design of our facility includes investments in support of each of our stakeholders, from our crew members (daylighting, climate control, slip resistant floors in the egg grading room), to the community and environment (consulting with the community before we built the facility, restoring native vegetation on the property, best-in-class storm water management), to our customers and consumers (food safety and maintenance investments far beyond regulatory requirements). Today, Egg Central Station is capable of packing three million eggs per day and has achieved SQF Level 3 certification, the highest level of such certification from the GSFI. In addition, Egg Central Station is the only egg facility, and we are one of only five companies, globally to have received the SQFI Select Site certification, indicating that the site has voluntarily elected to undergo annual unannounced recertification audits by SQFI, the organization responsible for administering a global food safety and quality program known as the SQF Program.

To facilitate further growth, we have established a plan to double the capacity of Egg Central Station through a mirror-image expansion adjacent to the existing location. We expect the expansion to be operational in 2021. We have estimated the cost of the expansion project to be \$23 million.

Our eggs are kept in on-farm coolers using precise equipment specified by us. The eggs are then collected on a regular basis by a third-party freight carrier and placed in cold storage until packing for shipment to customers. Each of our butter, ghee, hard-boiled eggs and liquid whole egg products have a dedicated co-manufacturing partner. To support the growth of our business, we are focused on expanding existing relationships and establishing new co-manufacturing relationships.

Our egg packaging consists of corrugated boxes and egg cartons. Our corrugated boxes are sourced from a supplier in Springfield, Missouri, and our egg cartons are sourced from Canada and Europe from a single-source supplier. Our other products are packaged in jars, bottles, film and cartons that are primarily managed by our co-manufacturing partners. In every case we strive to find the most sustainable and environmentally considered packaging, shipping materials and inks.

Competition

We operate in a highly competitive environment across each of our product categories. We have numerous competitors of varying sizes, including producers of private-label products, as well as producers of other branded egg and butter products that compete for trade merchandising support and consumer dollars. We compete with large egg companies such as Cal-Maine, Inc. and large international food companies such as Ornuva (Kerrygold). We also compete directly with local and regional egg companies, as well as private-label specialty egg products processed by other egg companies. In our market, competition is based on, among other things, product quality and taste, brand recognition and loyalty, product variety, product packaging and package design, shelf space, reputation, price, advertising, promotion and nutritional claims.

Shell eggs may be sourced from hens that are caged, cage free, free range or pasture raised. Standards for the minimum square footage allotted to egg laying hens for each of these sources is depicted below.

Large egg companies offer commodity eggs sourced from caged hens, and in an attempt to address growing consumer demand for ethically produced and higher quality eggs, they have also grown their cage-free and free-range offerings.

Although we operate in competitive industries, we believe that we have a strong and sustainable competitive advantage based on an ongoing process of values-driven decisions, our fundamental commitment to producing food ethically and humanely, the trust we have developed in our brand, and our ability to provide reliable supply to our distribution partners and customers. We built and operate what we believe is one of the largest sourcing and distribution networks of family farms with strong growth potential. By focusing on the interests of each of our stakeholders, we believe we have created a model that attracts the best family farm partners, produces the highest quality product and creates benefits for all parties. We believe our experience in building this network will provide significant scale and execution advantages as we continue to expand.

Government Regulation

We are subject to laws and regulations administered by various federal, state and local government agencies in the United States, such as the USDA, the FDA, the FTC, the EPA and the OSHA. These laws and regulations apply to the processing, packaging, distribution, sale, marketing, labeling, quality, safety and transportation of our products, as well as our occupational safety and health practices.

Under various federal statutes and implementing regulations, these agencies, among other things, prescribe the requirements and establish the standards for quality and safety and regulate our products and the manufacturing, labeling, marketing, promotion and advertising thereof. With respect to eggs in particular, the FDA and the USDA split jurisdiction depending on the type of product involved. While the FDA has primary responsibility for the regulation of shell eggs, the USDA has primary responsibility for the regulation of dried, frozen or liquid eggs and other “egg products,” subject to certain exceptions.

Among other things, the facilities in which our products are manufactured or processed must register with the FDA and/or the USDA, comply with cGMPs and comply with a range of food safety and labeling requirements established by the FDCA, as amended by the Food Safety Modernization Act of 2011, the EPIA, the OFPA and the AMA, among other laws implemented by the FDA, the USDA and other regulators. The FDA and the USDA have the authority to inspect these facilities depending on the type of product involved; For example, Egg Central Station, our facility in Springfield, Missouri, has been subject to periodic inspections by the USDA to evaluate compliance with certain applicable requirements, and the FDA may likewise inspect the facility. The FDA and the USDA also require that certain nutrition and product information appear on our product labels and, more generally, that our labels and labeling be truthful and non-misleading. Similarly, the FTC requires that our marketing and advertising be truthful, non-misleading and not deceptive to consumers. We are also restricted from making certain types of claims about our products, including nutrient content claims, health claims, organic claims and claims regarding the effects of our products on any structure or function of the body, whether express or implied, unless we satisfy certain regulatory requirements. We also participate in the USDA’s voluntary egg grading program, which requires compliance with additional labeling and facility requirements.

In addition, our suppliers are subject to numerous regulatory requirements. For example, the farmers who produce our shell eggs may be subject to requirements implemented by the FDA pertaining to pest control, salmonella enteritidis prevention and other requirements.

We are also subject to state and local food safety regulation, including registration and licensing requirements for our facilities, enforcement of standards for our products and facilities by state and local health agencies, and regulation of our trade practices in connection with selling our products.

We are also subject to labor and employment laws, laws governing advertising, privacy laws, safety regulations and other laws, including consumer protection regulations that regulate retailers or govern the promotion and sale of merchandise. Our operations, and those of our co-manufacturers, distributors and suppliers, are subject to various laws and regulations relating to environmental protection and worker health and safety matters.

Certified B Corporation

While not required by Delaware law or the terms of our certificate of incorporation, we have elected to have our social and environmental performance, accountability and transparency assessed against the proprietary criteria established by B Lab, an independent non-profit organization. As a result of this assessment, in December 2015, we were designated as a Certified B Corporation.

In order to be designated as a Certified B Corporation, companies are required to take a comprehensive and objective assessment of their positive impact on society and the environment. The assessment evaluates how a company's operations and business model impacts its workers, customers, suppliers, community and the environment using a 200-point scale. While the assessment varies depending on a company's size (number of employees), sector and location, representative indicators in the assessment include payment above a living wage, employee benefits, stakeholder engagement, supporting underserved suppliers and environmental benefits from a company's products or services. After completing the assessment, B Lab will verify the company's score to determine if it meets the 80-point minimum bar for certification. The review process includes a phone review, a random selection of indicators for verifying documentation and a random selection of company locations for onsite reviews, including employee interviews and facility tours. Once certified, every Certified B Corporation must make its assessment score transparent on B Lab's website.

Acceptance as a Certified B Corporation and continued certification is at the sole discretion of B Lab. To maintain our certification, we are required to update our assessment and verify our updated score with B Lab every two years. We will need to update our current certification no later than February 2020 and further update our certification within six months following the completion of this offering.

Public Benefit Corporation Status

In connection with our Certified B Corporation status and as a demonstration of our long-term commitment to our mission to bring ethically produced food to the table by coordinating a network of family farms to operate with a well-defined set of organic agricultural practices that includes the humane treatment of farm animals as a central tenet, we elected in October 2017 to be treated as a public benefit corporation under Delaware law.

Under Delaware law, a public benefit corporation is required to identify in its certificate of incorporation the public benefit or benefits it will promote and its directors have a duty to manage the affairs of the corporation in a manner that balances the pecuniary interests of the corporation's stockholders, the best interests of those materially affected by the corporation's conduct, and the specific public benefit or public benefits identified in the public benefit corporation's certificate of incorporation. Public benefit corporations organized in Delaware are also required to assess their benefit performance internally and to disclose publicly at least biennially a report detailing their success in meeting their benefit objectives.

As provided in our certificate of incorporation, the public benefits that we promote, and pursuant to which we manage our company, are: (i) bringing ethically produced food to the table; (ii) bringing joy to our customers through products and services; (iii) allowing crew members to thrive in an empowering, fun environment; (iv) fostering lasting partnerships with our farms and suppliers; (v) forging an enduring profitable business; and

(vi) being stewards of our animals, land, air and water, and being supportive of our community. See the section titled “Description of Capital Stock—Anti-Takeover Provisions—Public Benefit Corporation Status” for additional information.

Seasonality

Demand for shell eggs fluctuates in response to seasonal factors. Shell egg demand tends to increase with the start of the school year and is highest prior to holiday periods, particularly Thanksgiving, Christmas and Easter and the lowest during the summer months. As a result of these seasonal and quarterly fluctuations, comparisons of our sales and operating results between different quarters within a single fiscal year are not necessarily meaningful comparisons.

Trademarks and Other Intellectual Property

We own trademarks and other proprietary rights that are important to our business, including our principal trademark, Vital Farms. All of our trademarks are registered with the U.S. Patent and Trademark Office. Our trademarks are valuable assets that reinforce the distinctiveness of our brand to our consumers. We believe the protection of our trademarks, copyrights and domain names are important to our success. We aggressively protect our intellectual property rights by relying on trademark and copyright.

Culture and Employees

We take great pride in our culture. We embrace collaboration and creativity and encourage the iteration of ideas to address complex challenges. Transparency and open dialogue are central to how we work, and we aim to ensure that company news reaches our crew members first through internal channels. Despite our sustained growth, we still cherish our roots as an ethically driven food company and wherever possible empower crew members to act on great ideas that support our purpose and values regardless of their role or function within the company. We strive to hire great crew members, with backgrounds and perspectives as diverse as those of our consumers, and value them as stakeholders. We work to provide an environment where these talented people can have fulfilling careers addressing what we believe to be some of the biggest challenges in the food industry. Our crew members are among our best assets and are critical for our continued success. We expect to continue investing in hiring talented crew members and providing competitive compensation programs to our crew members.

As of September 29, 2019, we had approximately 149 full-time crew members, including 98 in operations, 24 in sales and marketing, 11 in finance and 16 in general and administrative functions, all of whom are located in the United States. Of our full-time crew members, three are contract workers. None of our crew members is represented by a labor union. We have never experienced a labor-related work stoppage, and we consider our relations with our crew members to be good.

Facilities

We lease our corporate headquarters located at 3601 South Congress Avenue, Austin, Texas, where we occupy approximately 9,000 square feet of office space pursuant to a lease that expires in April 2026, with an option to extend this lease for a successive period of five years. We own an approximately 82,000 square foot shell egg processing facility in Springfield, Missouri, which we refer to as Egg Central Station. We are in the process of expanding this facility to a total of approximately 153,000 square feet, and we expect this additional

capacity to be operational in 2021. We also lease warehouse space for 5,000 rentable pallet spaces in Webb City, Missouri pursuant to a lease that expires in December 2021. We believe that our current facilities are suitable and adequate to meet our current needs.

Legal Proceedings

We are subject to various legal proceedings and claims that arise in the ordinary course of our business. Although the outcome of these and other claims cannot be predicted with certainty, we do not believe the ultimate resolution of the current matters will have a material adverse effect on our business, financial condition, results of operations or cash flows.

Russell Diez-Canseco <i>President, Chief Executive Officer and Director</i>						

(1) Amounts reported represent the aggregate grant date fair value of the stock options granted to our named executive officers during fiscal 2019 under our 2013 Plan, computed in accordance with ASC Topic 718. The assumptions used in calculating the grant date fair value of the stock options reported in this column are set forth in the notes to our audited consolidated financial statements included elsewhere in this prospectus. This amount does not reflect the actual economic value that may be realized by the named executive officer.

Narrative to the Summary Compensation Table

Annual Base Salary

Our named executive officers receive a base salary to compensate them for services rendered to us. The base salary payable to each named executive officer is intended to provide a fixed component of compensation reflecting the executive’s skill set, experience, role and responsibilities. None of our named executive officers is currently party to an employment agreement or other agreement or arrangement that provides for automatic or scheduled increases in base salary. The 2019 base salaries for our named executive officers were as follows: (a) \$ for Mr. O’Hayer and (b) \$ for Mr. Diez-Canseco.

Bonus

Our named executive officers are eligible to receive discretionary annual bonuses of up to a percentage of the applicable executive’s gross base salary based on individual performance, company performance or as otherwise determined appropriate, as determined by our board of directors.

Equity-Based Incentive Awards

Our equity award program is the primary vehicle for offering long-term incentives to our executives. We believe that equity awards provide our executives with a strong link to our long-term performance, create an ownership culture and help to align the interests of our executives and our stockholders. To date, we have used stock option grants for this purpose because we believe they are an effective means by which to align the long-term interests of our executive officers with those of our stockholders. The use of options also can provide tax and other advantages to our executive officers relative to other forms of equity compensation. We believe that our equity awards are an important retention tool for our executive officers, as well as for our other employees.

We award stock options broadly to our employees, including to our non-executive employees. Grants to our executives and other employees are made at the discretion of our board of directors and are not made at any specific time period during a year.

Prior to this offering, all of the stock options we have granted were made pursuant to our 2013 Plan. Following this offering, we will grant equity incentive awards under the terms of our 2020 Plan. The terms of our equity plans are described under the section titled “—Equity Incentive Plans” below.

Outstanding Equity Awards as of December 29, 2019

The following table presents estimated information regarding outstanding equity awards held by our named executive officers as of December 29, 2019. All awards were granted pursuant to the 2013 Plan. Health and Welfare and Retirement Benefits; Perquisites

All of our current named executive officers are eligible to participate in our employee benefit plans, including our medical, dental, vision, disability and life insurance plans, in each case on the same basis as all of our other employees. We generally do not provide perquisites or personal benefits to our named executive officers, except in limited circumstances.

401(k) Plan

Our named executive officers are eligible to participate in a defined contribution retirement plan that provides eligible U.S. employees with an opportunity to save for retirement on a tax advantaged basis. Eligible employees may defer eligible compensation on a pre-tax or after-tax (Roth) basis, up to the statutorily prescribed annual limits on contributions under the Code. Contributions are allocated to each participant’s individual account and are then invested in selected investment alternatives according to the participants’ directions. We currently make matching contributions into the 401(k) plan on behalf of participants equal to 100% on participant contributions up to 3% of their compensation. Participants are immediately and fully vested on all contributions. The 401(k) plan is intended to be qualified under Section 401(a) of the Code with the 401(k) plan’s related trust intended to be tax exempt under Section 501(a) of the Code. As a tax-qualified retirement plan, contributions to the 401(k) plan (except for Roth contributions) and earnings on those contributions are not taxable to the employees until distributed from the 401(k) plan. Our board of directors may elect to adopt qualified or nonqualified benefit plans in the future, if it determines that doing so is in our best interests.

Equity Incentive Plans

2020 Equity Incentive Plan

We expect that our board of directors will adopt, and our stockholders will approve, prior to the closing of this offering, our 2020 Plan. We do not expect to issue equity awards under our 2020 Plan until after the closing of this offering. Our 2020 Plan will provide for the grant of incentive stock options, or ISOs, within the meaning of Section 422 of the Code to our employees and our parent and subsidiary corporations' employees, and for the grant of nonstatutory stock options, restricted stock awards, restricted stock unit awards, stock appreciation rights, performance stock awards and other forms of stock compensation to our employees, including officers, consultants and directors. Our 2020 Plan will also provide for the grant of performance cash awards to our employees, consultants and directors.

Authorized Shares. Initially, the maximum number of shares of our Class A common stock that may be issued under our 2020 Plan after it becomes effective will be _____ shares, which is the sum of (i) _____ new shares, plus (ii) the number of shares (not to exceed _____ shares) (1) that remain available for the issuance of awards under our 2013 Plan at the time our 2020 Plan becomes effective, and (2) any shares subject to outstanding stock options or other stock awards that were granted under our 2013 Plan that terminate or expire prior to exercise or settlement; are forfeited because of the failure to vest; or are reacquired or withheld (or not issued) to satisfy a tax withholding obligation or the purchase or exercise price. In addition, the number of shares of our Class A common stock reserved for issuance under our 2020 Plan will automatically increase on January 1 of each calendar year, starting on January 1, 2021 (assuming the 2020 Plan becomes effective in 2020) through January 1, 2030, in an amount equal to _____ % of the total number of shares of our capital stock outstanding on the last day of the calendar month before the date of each automatic increase, or a lesser number of shares determined by our board of directors. The maximum number of shares of our Class A common stock that may be issued on the exercise of ISOs under our 2020 Plan is _____ shares.

Shares subject to stock awards granted under our 2020 Plan that expire or terminate without being exercised in full or that are paid out in cash rather than in shares do not reduce the number of shares available for issuance under our 2020 Plan. If any shares of Class A common stock issued pursuant to a stock award are forfeited back to or repurchased or reacquired by us for any reason, the shares that are forfeited or repurchased or reacquired will revert to and again become available for issuance under the 2020 Plan. Any shares reacquired in satisfaction of tax withholding obligations or as consideration for the exercise or purchase price of a stock award will again become available for issuance under the 2020 Plan.

The maximum number of shares of Class A common stock subject to stock awards granted under the 2020 Plan or otherwise during any one calendar year to any non-employee director, taken together with any cash fees paid by us to such non-employee director during such calendar year for service on the board of directors, will not exceed \$ _____ in total value (calculating the value of any such stock awards based on the grant date fair value of such stock awards for financial reporting purposes), or, with respect to the calendar year in which a non-employee director is first appointed or elected to our board of directors, \$ _____.

Plan Administration. Our board of directors, or a duly authorized committee or subcommittee of our board of directors, will administer our 2020 Plan and is referred to as the "plan administrator" herein. Our board of directors may also delegate to one or more of our officers the authority to (i) designate employees (other than officers) to receive specified stock awards and (ii) determine the number of shares subject to such stock awards, provided that the officer may not grant any such awards to himself. Our board of directors will specify the total number of shares of our Class A common stock that may be subject to stock awards granted by such officer in this manner. Under our 2020 Plan, our board of directors has the authority to determine award recipients, grant dates, the numbers and types of stock awards to be granted, the applicable fair market value, and the provisions of each stock award, including the period of exercisability and the vesting schedule applicable to a stock award.

Under the 2020 Plan, the board of directors also generally has the authority to effect, with the consent of any adversely affected participant, (i) the reduction of the exercise, purchase, or strike price of any outstanding

award; (ii) the cancellation of any outstanding award and the grant in substitution therefore of other awards, cash, or other consideration; or (iii) any other action that is treated as a repricing under generally accepted accounting principles. Under the 2020 Plan, our board of directors also has the authority to submit any amendment to the 2020 Plan for stockholder approval.

Stock Options. ISOs and nonstatutory stock options, or NSOs, are granted under stock option agreements adopted by the plan administrator. The plan administrator determines the exercise price for stock options, within the terms and conditions of the 2020 Plan, provided that the exercise price of a stock option generally cannot be less than 100% of the fair market value of our Class A common stock on the date of grant. Options granted under the 2020 Plan vest at the rate specified in the stock option agreement as determined by the plan administrator.

The plan administrator determines the term of stock options granted under the 2020 Plan, up to a maximum of ten years. Unless the terms of an optionholder's stock option agreement provide otherwise, if an optionholder's service relationship with us or any of our affiliates ceases for any reason other than disability, death, or cause, the optionholder may generally exercise any vested options for a period of three months following the cessation of service. This period may be extended in the event that exercise of the option is prohibited by applicable securities laws or our insider trading policy. If an optionholder's service relationship with us or any of our affiliates ceases due to death, or an optionholder dies within a certain period following cessation of service, the optionholder or a beneficiary may generally exercise any vested options for a period of 18 months following the date of death. If an optionholder's service relationship with us or any of our affiliates ceases due to disability, the optionholder may generally exercise any vested options for a period of 12 months following the cessation of service. In the event of a termination for cause, options generally terminate upon the termination date. In no event may an option be exercised beyond the expiration of its term.

Acceptable consideration for the purchase of Class A common stock issued upon the exercise of a stock option will be determined by the plan administrator and may include: (i) cash, check, bank draft or money order; (ii) a broker- assisted cashless exercise; (iii) the tender of shares of our Class A common stock previously owned by the optionholder; (iv) a net exercise of the option if it is an NSO; or (v) other legal consideration approved by the plan administrator.

Unless the plan administrator provides otherwise, options generally are not transferable except by will or the laws of descent and distribution. Subject to approval of the plan administrator or a duly authorized officer in each case, (i) an option may be transferred pursuant to a domestic relations order, official marital settlement agreement, or other divorce or separation instrument and (ii) an optionholder may designate a beneficiary who may exercise the option following the optionholder's death.

Tax Limitations on ISOs. The aggregate fair market value, determined at the time of grant, of our Class A common stock with respect to ISOs that are exercisable for the first time by an award holder during any calendar year under all of our stock plans may not exceed \$100,000. Options or portions thereof that exceed such limit will generally be treated as NSOs. No ISO may be granted to any person who, at the time of the grant, owns or is deemed to own stock possessing more than 10% of our total combined voting power or that of any of our affiliates unless (i) the option exercise price is at least 110% of the fair market value of the stock subject to the option on the date of grant, and (ii) the term of the ISO does not exceed five years from the date of grant.

Restricted Stock Unit Awards. Restricted stock unit awards are granted under restricted stock unit award agreements adopted by the plan administrator. Restricted stock unit awards may be granted in consideration for any form of legal consideration that may be acceptable to our board of directors and permissible under applicable law. A restricted stock unit award may be settled by cash, delivery of stock, a combination of cash and stock as deemed appropriate by the plan administrator, or in any other form of consideration set forth in the restricted stock unit award agreement. Additionally, dividend equivalents may be credited in respect of shares covered by a restricted stock unit award. Except as otherwise provided in the applicable award agreement or other written agreement, restricted stock unit awards that have not vested will be forfeited once the participant's continuous service ends for any reason.

Restricted Stock Awards. Restricted stock awards are granted under restricted stock award agreements adopted by the plan administrator. A restricted stock award may be awarded in consideration for cash, check, bank draft or money order, past or future services to us, or any other form of legal consideration that may be acceptable to our board of directors and permissible under applicable law. The plan administrator determines the terms and conditions of restricted stock awards, including vesting and forfeiture terms. If a participant's service relationship with us ends for any reason, we may receive any or all of the shares of Class A common stock held by the participant that have not vested as of the date the participant terminates service with us through a forfeiture condition or a repurchase right.

Stock Appreciation Rights. Stock appreciation rights are granted under stock appreciation right agreements adopted by the plan administrator. The plan administrator determines the purchase price or strike price for a stock appreciation right, which generally cannot be less than 100% of the fair market value of our Class A common stock on the date of grant. A stock appreciation right granted under the 2020 Plan vests at the rate specified in the stock appreciation right agreement as determined by the plan administrator. The appreciation distribution may be made in shares of our stock, in cash, in any combination of the two, or in any other form of consideration, as determined by our board of directors and contained in the applicable award agreements.

The plan administrator determines the term of stock appreciation rights granted under the 2020 Plan, up to a maximum of ten years. If a participant's service relationship with us or any of our affiliates ceases for any reason other than cause, disability, or death, the participant may generally exercise any vested stock appreciation right for a period of three months following the cessation of service, or any other period set by the applicable award agreement, so long as such period complies with applicable law. This period may be further extended in the event that exercise of the stock appreciation right following such a termination of service is prohibited by applicable securities laws or our insider trading policy. If a participant's service relationship with us, or any of our affiliates, ceases due to disability or death, or a participant dies within a certain period following cessation of service, the participant or a beneficiary may generally exercise any vested stock appreciation right for a period of 12 months in the event of disability and 18 months in the event of death, or any other period set by the applicable award agreement, so long as such period complies with applicable law. In the event of a termination for cause, stock appreciation rights generally terminate immediately upon the occurrence of the event giving rise to the termination of the individual for cause. In no event may a stock appreciation right be exercised beyond the expiration of its term.

Performance Awards. The 2020 Plan permits the grant of performance-based stock and cash awards. Our compensation committee may structure awards so that the shares of our stock, cash, or other property will be issued or paid only following the achievement of certain pre-established performance goals during a designated performance period.

The performance goals that may be selected include one or more of the following: (i) sales; (ii) revenue; (iii) assets; (iv) expenses; (v) market penetration or expansion; (vi) earnings from operations; (vii) earnings before or after deduction for all or any portion of interest, taxes, depreciation, amortization, incentives, service fees or extraordinary or special items, whether or not on a continuing operations or an aggregate or per share basis; (viii) net income or net income per common share (basic or diluted); (ix) return on equity, investment, capital or assets; (x) one or more operating ratios; (xi) borrowing levels, leverage ratios or credit rating; (xii) market share; (xiii) capital expenditures; (xiv) cash flow, free cash flow, cash flow return on investment, or net cash provided by operations; (xv) stock price, dividends or total stockholder return; (xvi) development of new technologies or products; (xvii) sales of particular products or services; (xviii) economic value created or added; (xix) operating margin or profit margin; (xx) customer acquisition or retention; (xxi) raising or refinancing of capital; (xxii) successful hiring of key individuals; (xxiii) resolution of significant litigation; (xxiv) acquisitions and divestitures (in whole or in part); (xxv) joint ventures and strategic alliances; (xxvi) spin-offs, split-ups and the like; (xxvii) reorganizations; (xxviii) recapitalizations, restructurings, financings (issuance of debt or equity) or refinancings; (xxix) or strategic business criteria, consisting of one or more objectives based on the following goals: achievement of timely development, design management or enrollment, meeting specified market

penetration or value added, payor acceptance, patient adherence, peer reviewed publications, issuance of new patents, establishment of or securing of licenses to intellectual property, product development or introduction, geographic business expansion, cost targets, cost reductions or savings, customer satisfaction, operating efficiency, acquisition or retention, employee satisfaction, information technology, corporate development (including, without limitation, licenses, innovation, research or establishment of third-party collaborations), manufacturing or process development, legal compliance or risk reduction, patent application or issuance goals, or goals relating to acquisitions, divestitures or other business combinations (in whole or in part), joint ventures or strategic alliances; and (xxx) other measures of performance selected by the board of directors.

The performance goals may be based on company-wide performance or performance of one or more business units, divisions, affiliates, or business segments, and may be either absolute or relative to the performance of one or more comparable companies or the performance of one or more relevant indices. Our board of directors is authorized at any time in its sole discretion, to adjust or modify the calculation of a performance goal for such performance period in order to prevent the dilution or enlargement of the rights of participants, (i) in the event of, or in anticipation of, any unusual or extraordinary corporate item, transaction, event or development; (ii) in recognition of, or in anticipation of, any other unusual or nonrecurring events affecting us, or our financial statements in response to, or in anticipation of, changes in applicable laws, regulations, accounting principles, or business conditions; or (iii) in view of the board of director's assessment of our business strategy, performance of comparable organizations, economic and business conditions, and any other circumstances deemed relevant. Specifically, the board of directors is authorized to make adjustment in the method of calculating attainment of performance goals and objectives for a performance period as follows: (1) to exclude the dilutive effects of acquisitions or joint ventures; (2) to assume that any business divested by us achieved performance objectives at targeted levels during the balance of a performance period following such divestiture; and (3) to exclude the effect of any change in the outstanding shares of our common stock by reason of any stock dividend or split, stock repurchase, reorganization, recapitalization, merger, consolidation, spin-off, combination or exchange of shares or other similar corporate change, or any distributions to common stockholders other than regular cash dividends. In addition, the board of directors is authorized to make adjustment in the method of calculating attainment of performance goals and objectives for a performance period as follows: (A) to exclude restructuring and/or other nonrecurring charges; (B) to exclude exchange rate effects, as applicable, for non-U.S. dollar denominated net sales and operating earnings; (C) to exclude the effects of changes to generally accepted accounting standards required by the Financial Accounting Standards Board; (D) to exclude the effects of any items that are "unusual" in nature or occur "infrequently" as determined under generally accepted accounting principles; (E) to exclude the effects to any statutory adjustments to corporate tax rates; and (F) to make other appropriate adjustments selected by the board of directors.

Other Stock Awards. The plan administrator may grant other awards based in whole or in part by reference to our Class A common stock. The plan administrator will set the number of shares under the stock award and all other terms and conditions of such awards.

Changes to Capital Structure. In the event there is a specified type of change in our capital structure, such as a stock split, reverse stock split, or recapitalization, appropriate adjustments will be made to (i) the class(es) and maximum number of shares reserved for issuance under the 2020 Plan; (ii) the class(es) and maximum number of shares by which the share reserve may increase automatically each year; (iii) the class(es) and maximum number of shares that may be issued on the exercise of ISOs; and (iv) the class(es) and number of shares and exercise price, strike price, or purchase price, if applicable, of all outstanding stock awards.

Corporate Transactions. Our 2020 Plan provides that in the event of certain specified significant corporate transactions (or a change in control, as defined below), unless otherwise provided in an award agreement or other written agreement between us and the award holder, the plan administrator may take one or more of the following actions with respect to such stock awards:

- arrange for the assumption, continuation, or substitution of a stock award by a successor corporation;

- arrange for the assignment of any reacquisition or repurchase rights held by us to a successor corporation;
- accelerate the vesting, in whole or in part, of the stock award and provide for its termination if not exercised (if applicable) at or before the effective time of the transaction;
- arrange for the lapse, in whole or in part, of any reacquisition or repurchase rights held by us;
- cancel or arrange for the cancellation of the stock award, to the extent not vested or not exercised before the effective time of the transaction, in exchange for a cash payment, if any; or
- make a payment in any form determined by our board of directors equal to the excess, if any, of (A) the value of the property the participant would have received on exercise of the award immediately before the effective time of the transaction, over (B) any exercise price payable by the participant in connection with the exercise.

The plan administrator is not obligated to treat all stock awards or portions of stock awards in the same manner and is not obligated to take the same actions with respect to all participants.

Under the 2020 Plan, a corporate transaction is generally the consummation of: (i) a sale of all or substantially all of our assets; (ii) the sale or disposition of more than 50% of our outstanding securities; (iii) a merger or consolidation where we do not survive the transaction; or (iv) a merger or consolidation where we do survive the transaction but the shares of our Class A common stock outstanding immediately before such transaction are converted or exchanged into other property by virtue of the transaction.

Change in Control. In the event of a change in control, the plan administrator may take any of the above-mentioned actions. Awards granted under the 2020 Plan may be subject to additional acceleration of vesting and exercisability upon or after a change in control as may be provided in the applicable stock award agreement or in any other written agreement between us or any affiliate and the participant, but in the absence of such provision, no such acceleration will automatically occur. Under the 2020 Plan, a change in control is generally: (i) the acquisition by any person or company of more than 50% of the combined voting power of our then outstanding stock (unless made in connection with this offering or to allow us to obtain financing through the issuance of equity securities); (ii) a merger, consolidation or similar transaction in which our stockholders immediately before the transaction do not own, directly or indirectly, more than 50% of the combined voting power of the surviving entity (or the parent of the surviving entity) in substantially the same proportions as their ownership immediately prior to such transaction; (iii) a sale, lease, exclusive license or other disposition of all or substantially all of our assets other than to an entity more than 50% of the combined voting power of which is owned by our stockholders in substantially the same proportions as their ownership of our outstanding voting securities immediately prior to such transaction; (iv) a complete dissolution or liquidation of the company; or (v) when a majority of our board of directors becomes comprised of individuals who were not serving on our board of directors on the date of the underwriting agreement related to this offering, or the incumbent board, or whose nomination, appointment, or election was not approved by a majority of the incumbent board still in office.

Plan Amendment or Termination. Our board of directors has the authority to amend, suspend, or terminate our 2020 Plan, provided that such action does not materially impair the existing rights of any participant without such participant's written consent. Certain material amendments also require the approval of our stockholders. No ISOs may be granted after the tenth anniversary of the date our board of directors adopts our 2020 Plan. No stock awards may be granted under our 2020 Plan while it is suspended or after it is terminated.

2013 Incentive Plan

General. Our board of directors adopted and our stockholders approved our 2013 Plan in August 2013. We have subsequently amended our 2013 Plan in September 2014, April 2016 and August 2019, the purpose of

which was to increase the number of shares available for issuance under our 2013 Plan. Our 2013 Plan will be suspended prior to the completion of this offering in connection with our adoption of our 2020 Plan; however, awards outstanding under our 2013 Plan will continue in full effect in accordance with their existing terms.

Share Reserve. The maximum number of shares of our common stock that may be issued under our 2013 Plan is _____ shares, plus any shares subject to stock options or other stock awards granted under the 2013 Plan that would have otherwise returned to our 2013 Plan (such as upon the expiration or termination of a stock award prior to vesting). The maximum number of shares that may be issued upon the exercise of ISOs under our 2013 Plan is _____ shares. As of December 29, 2019, options to purchase _____ shares of common stock, at exercise prices ranging from \$ _____ to \$ _____ per share, or a weighted-average exercise price of \$ _____ per share were outstanding under our 2013 Plan.

Administration. Our board of directors or a duly authorized committee of our board of directors administers our 2013 Plan and the stock awards granted under it. Subject to the terms of our 2013 Plan, our board of directors has full power and authority to establish rules and regulations for the administration of the 2013 Plan and to make such determinations under, and issue such interpretations of, the 2013 Plan and any outstanding stock awards thereunder as it deems necessary or advisable. Our board of directors has the full authority to determine (i) with respect to the option grants, which eligible persons are to receive option grants, the time or times when such option grants are to be made, the number of shares to be covered by each such grant, the status of the granted option as either an ISO or NSO, the time or times at which each option is to become exercisable, the vesting schedule (if any) applicable to the option shares, the maximum term for which the option is to remain outstanding, and any restrictions on transfer of shares received on the exercise of option grants, and (ii) with respect to stock issuances, which eligible persons are to receive stock issuances, the time or times when such issuances are to be made, the number of shares to be issued to each Participant, the vesting schedule (if any) applicable to the issued shares, the consideration to be paid for such shares, and any restrictions on transfer for shares issued thereunder.

Types of Awards. Our 2013 Plan provides for the discretionary grant of stock options, including ISOs or NSOs, and restricted stock awards to our and our affiliates' employees, members of our board of directors, consultants and other independent advisors. ISOs may be granted only to employees. We do not have any outstanding restricted stock awards under the 2013 Plan.

Options. The exercise price of options granted under our 2013 Plan may not be less than 100% (or 110% in the case of incentive stock options granted to certain stockholders) of the fair market value of our common stock on the grant date. Options expire at the time determined by the administrator, but in no event more than ten years after they are granted, and generally expire earlier if the optionholder's service terminates.

Corporate Transaction. Unless otherwise provided at the time of grant, in the event of a corporate transaction, the vesting of each outstanding option will automatically accelerate and each option will become fully exercisable immediately prior to the effective date of such corporate transaction, and if not exercised, will terminate immediately following the consummation of the corporate transaction, unless, such option is assumed, replaced or substituted with a comparable equity or cash entitlement. In addition, unless prohibited at the time of grant or assigned to the successor entity, all outstanding repurchase rights will terminate automatically upon a corporate transaction, and the shares subject to such terminated rights will immediately vest in full. Assumed options will be adjusted as appropriate in connection with the corporate transaction. In addition, the plan administrator has the discretion to provide that all or any portion of any options that are assumed or replaced in the corporate transaction and do not otherwise accelerate at that time will be accelerated upon a subsequent termination of the option holder's service within 12 months following closing, and that the options may remain outstanding through the end of their term or through the one year anniversary of termination of service, or to provide for full acceleration of the options upon consummation of the corporate transaction, regardless of whether they are assumed or replaced.

In general, a “corporate transaction” means: (i) a merger or consolidation in which the company is not the surviving entity and in which the beneficial owners of the company prior to the transaction own less than 50% of the voting securities of the surviving entity (calculated on a fully diluted basis); (ii) a sale, transfer or other disposition of all or substantially all of our assets; (iii) a complete liquidation or dissolution of the company; (iv) the acquisition by any person or entity, or any group of persons or entities, directly or indirectly, of more than 50% of the issued and outstanding voting securities of the company (calculated on a fully diluted basis) other than in a transaction approved by a majority of the disinterested directors of the company; (v) the election to our board of directors of a majority of directors different from those persons currently serving on our board or nominees of the incumbent directors; or (vi) a public announcement of a tender or exchange offer by any person for 50% or more of the outstanding securities of the company that our board of directors approves or fails to oppose in its statements in Schedule 14D-9 under the Exchange Act unless such tender or exchange offer is approved by a majority of the disinterested directors of the company. A transaction shall not constitute a corporate transaction if its sole purpose is to change the state of the company’s incorporation or to create a holding company that will be beneficially owned in substantially the same proportions by the persons or entities who held the company’s securities immediately before such transaction.

Transferability. A participant may not transfer stock awards under our 2013 Plan other than by will, the laws of descent and distribution, or as otherwise provided under our 2013 Plan.

Plan Amendment or Termination. Our board of directors has the authority to amend or modify our 2013 Plan, provided that such action is approved by our stockholders to the extent stockholder approval is necessary, and provided further that no amendment or modification may be made that adversely affects the rights of a participant with respect to outstanding awards without the participant’s consent. As described above, our 2013 Plan will be suspended upon the effective date of our 2020 Plan.

2020 Employee Stock Purchase Plan

General. We expect that our board of directors will adopt, and our stockholders will approve, prior to the closing of this offering, our ESPP. The ESPP will become effective immediately prior to and contingent upon the date of the underwriting agreement related to this offering. The purpose of the ESPP is to secure the services of new employees, to retain the services of existing employees, and to provide incentives for such individuals to exert maximum efforts toward our success and that of our affiliates. The ESPP is intended to qualify as an “employee stock purchase plan” within the meaning of Section 423 of the Code for U.S. employees. In addition, we may make grants of purchase rights that do not comply with Section 423 of the Code, or Non-423 Grants.

Share Reserve. Following this offering, the ESPP authorizes the issuance of _____ shares of our common stock under purchase rights granted to our employees or to employees of any of our designated affiliates. The number of shares of our Class A common stock reserved for issuance will automatically increase on January 1 of each calendar year, beginning on January 1, 2021 (assuming the ESPP becomes effective in 2020) through January 1, 2030, by the lesser of (i) _____ % of the total number of shares of our Class A common stock and our Class B common stock outstanding on the last day of the calendar month before the date of the automatic increase and (ii) _____ shares of our Class A common stock; provided that before the date of any such increase, our board of directors may determine that such increase will be less than the amount set forth in clauses (i) and (ii). As of the date hereof, no shares of our common stock have been purchased under the ESPP.

Administration. Our board of directors administers the ESPP and may delegate its authority to administer the ESPP to our compensation committee, which may further delegate its authority to administer the ESPP to a subcommittee. The ESPP is implemented through a series of offerings under which eligible employees are granted purchase rights to purchase shares of our Class A common stock on specified dates during such offerings. Under the ESPP, we may specify offerings with durations of not more than 27 months, and may specify shorter purchase periods within each offering. The administrator will establish for each offering, one or more purchase dates on which shares of our Class A common stock will be purchased for employees participating in the offering. An offering under the ESPP may be terminated under certain circumstances.

Payroll Deductions. Generally, all regular employees, including executive officers, employed by us or by any of our designated affiliates, may participate in the ESPP and may contribute, normally through payroll deductions, up to 15% of their earnings (as defined in the ESPP) for the purchase of our Class A common stock under the ESPP. Unless otherwise determined by our board of directors, Class A common stock will be purchased for the accounts of employees participating in the ESPP at a price per share that is at least the lesser of (i) 85% of the fair market value of a share of our Class A common stock on the first date of an offering or (ii) 85% of the fair market value of a share of our Class A common stock on the date of purchase.

Limitations. Employees may have to satisfy one or more of the following service requirements before participating in the ESPP, as determined by our board of directors, including: (i) being customarily employed for more than 20 hours per week; (ii) being customarily employed for more than five months per calendar year; or (iii) continuous employment with us or one of our affiliates for a period of time (not to exceed two years). No employee may purchase shares under the ESPP at a rate in excess of \$25,000 worth of our common stock based on the fair market value per share of our common stock at the beginning of an offering for each calendar year such a purchase right is outstanding. Finally, no employee will be eligible for the grant of any purchase rights under the ESPP if immediately after such rights are granted, such employee has voting power over 5% or more of our outstanding capital stock measured by vote or value under Section 424(d) of the Code. The board of directors may exclude employees from receiving Non-423 Grants if the board of directors determines that these grants would not be practical or advisable.

Changes to Capital Structure. In the event that there occurs a change in our capital structure that affects the shares of our stock subject to the ESPP through such actions as a stock split, merger, consolidation, reorganization, recapitalization, reincorporation, stock dividend, dividend in property other than cash, large nonrecurring cash dividend, liquidating dividend, combination of shares, exchange of shares, change in corporate structure, or similar transaction, the board of directors will make appropriate adjustments to: (i) the class(es) and maximum number of shares reserved under the ESPP; (ii) the class(es) and maximum number of shares by which the share reserve may increase automatically each year; (iii) the class(es) and number of shares subject to and purchase price applicable to outstanding offerings and purchase rights; and (iv) the class(es) and number of shares that are subject to purchase limits under ongoing offerings.

Corporate Transactions. In the event of certain significant corporate transactions, any then-outstanding rights to purchase our stock under the ESPP may be assumed, continued, or substituted for by any surviving or acquiring entity (or its parent company). If the surviving or acquiring entity (or its parent company) elects not to assume, continue, or substitute for such purchase rights, then the participants' accumulated payroll contributions will be used to purchase shares of our Class A common stock within 10 business days before such corporate transaction, and such purchase rights will terminate immediately.

Under the ESPP, a corporate transaction is generally the consummation of: (i) a sale of all or substantially all of our assets, as determined by the board; (ii) the sale or disposition of more than 50% of our outstanding securities; (iii) a merger or consolidation where we do not survive the transaction; and (iv) a merger or consolidation where we do survive the transaction but the shares of our Class A common stock outstanding immediately before such transaction are converted or exchanged into other property by virtue of the transaction.

Amendment or Termination. Our board of directors has the authority to amend or terminate our ESPP, provided that except in certain circumstances such amendment or termination may not materially impair any outstanding purchase rights without the holder's consent. We will obtain stockholder approval of any amendment to our ESPP as required by applicable law or listing requirements.

Limitations on Liability and Indemnification Matters

Our amended and restated certificate of incorporation that will be in effect on the completion of this offering will contain provisions that limit the liability of our current and former directors for monetary damages to the

fullest extent permitted by Delaware law. Delaware law provides that directors of a corporation will not be personally liable for monetary damages for any breach of fiduciary duties as directors, except liability for:

- (1) any breach of the director's duty of loyalty to the corporation or its stockholders;
- (2) any act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;
- (3) unlawful payments of dividends or unlawful stock repurchases or redemptions; or
- (4) any transaction from which the director derived an improper personal benefit.

Such limitation of liability does not apply to liabilities arising under federal securities laws and does not affect the availability of equitable remedies such as injunctive relief or rescission.

Our amended and restated certificate of incorporation that will be in effect on the completion of this offering will authorize us to indemnify our directors, officers, employees and other agents to the fullest extent permitted by Delaware law. Our amended and restated bylaws that will be in effect on the completion of this offering will provide that we are required to indemnify our directors and officers to the fullest extent permitted by Delaware law and may indemnify our other employees and agents. Our amended and restated bylaws will also provide that, on satisfaction of certain conditions, we will advance expenses incurred by a director or officer in advance of the final disposition of any action or proceeding, and permit us to secure insurance on behalf of any officer, director, employee or other agent for any liability arising out of his or her actions in that capacity regardless of whether we would otherwise be permitted to indemnify him or her under the provisions of Delaware law. We have entered and expect to continue to enter into agreements to indemnify our directors, executive officers and other employees as determined by our board of directors. With certain exceptions, these agreements provide for indemnification for related expenses including attorneys' fees, judgments, fines and settlement amounts incurred by any of these individuals in any action or proceeding. We believe these provisions in our amended and restated certificate of incorporation and amended and restated bylaws and these indemnification agreements are necessary to attract and retain qualified persons as directors and officers. We also maintain customary directors' and officers' liability insurance.

The limitation of liability and indemnification provisions in our amended and restated certificate of incorporation and amended and restated bylaws may discourage stockholders from bringing a lawsuit against our directors for breach of their fiduciary duty. They may also reduce the likelihood of derivative litigation against our directors and officers, even though an action, if successful, might benefit us and other stockholders. Further, a stockholder's investment may be adversely affected to the extent that we pay the costs of settlement and damage awards against directors and officers as required by these indemnification provisions.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted for our directors, executive officers or persons controlling us, we have been informed that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Rule 10b5-1 Sales Plans

Our directors and officers may adopt written plans, known as Rule 10b5-1 plans, in which they will contract with a broker to buy or sell shares of our Class A common stock or Class B common stock on a periodic basis. Under a Rule 10b5-1 plan, a broker executes trades under parameters established by the director or officer when entering into the plan, without further direction from them. The director or officer may amend a Rule 10b5-1 plan in some circumstances and may terminate a plan at any time. Our directors and executive officers may also buy or sell additional shares outside of a Rule 10b5-1 plan when they do not possess of material nonpublic information, subject to compliance with the terms of our insider trading policy.

Relationship with Ovabrite, Inc.

In May 2016, we entered into a master joint development and production distribution agreement, or the JDPD Agreement, with Novatrans Group SA, or Novatrans, for the development of certain technology related to determining certain properties of an egg, including fertility.

Pursuant to the JDPD Agreement, in December 2016, we entered into an assignment agreement with Ovabrite, Inc., or Ovabrite, whereby we granted and assigned to Ovabrite all of our rights and obligations under

the JDPD Agreement. In consideration for the assignment and grant of rights under the JDPD Agreement, Ovabrite issued an unsecured promissory note in a principal amount of \$0.4 million, or the First Note, to us that represented the total cash paid by us to Novatrans under the JDPD Agreement. Interest on the First Note accrued at an annual rate of 1.46%, and Ovabrite was required to make semi-annual payments on amounts outstanding under the First Note, including any accrued but unpaid interest, until the First Note matured on December 23, 2021.

Additionally, in December 2016, we extended an unsecured line of credit to Ovabrite to be used for working capital under which Ovabrite's maximum borrowing capacity was \$50,000, or the Ovabrite Line of Credit. Interest on the Ovabrite Line of Credit accrued at an annual rate of 1.46%, and Ovabrite was required to make semi-annual payments on amounts outstanding under the line of credit, including any accrued but unpaid interest, until the Ovabrite Line of Credit matured on December 23, 2021. As of December 29, 2019, Ovabrite's outstanding borrowings under the Ovabrite Line of Credit were \$, including \$ of accrued interest.

In December 2016, we entered into a services agreement with Ovabrite under which we provide certain administrative services to Ovabrite in exchange for a monthly management fee. There were no payments paid by Ovabrite to us in fiscal 2017 or fiscal 2018. Ovabrite paid us \$ in fiscal 2019.

In November 2017, Ovabrite modified the First Note and the Ovabrite Line of Credit and issued a 1.45% unsecured convertible promissory note to us in a principal amount of \$0.5 million plus previously accrued and unpaid interest of \$6,460, or the Ovabrite Convertible Note. In the event of a qualified sale of Ovabrite equity securities to one or more investors resulting in gross proceeds to Ovabrite of at least \$1.0 million, all principal and accrued and unpaid interest on the Ovabrite Convertible Note was automatically convertible into a number of shares of Ovabrite's equity securities issued in such a financing equal to the outstanding principal and accrued but unpaid interest on the Ovabrite Convertible Note, divided by an amount equal to 80% of the lowest price per share of the equity security sold in the financing. In the event of a non-qualified sale of Ovabrite equity securities, or a Nonqualified Financing, all principal and accrued and unpaid interest on the Ovabrite Convertible Note was contingently convertible into a number of shares of Ovabrite's equity securities issued in such a financing equal to the outstanding principal and accrued but unpaid interest on the Ovabrite Convertible Note, divided by an amount equal to 80% of the lowest price per share of the equity security sold in the financing.

In November 2017, Ovabrite issued 1,065,038 shares of convertible preferred stock, or the Series 2017 Preferred Stock, at \$0.14 per share for gross proceeds of \$50,000, which constituted a Nonqualified Financing. In April 2018, as a result of the Nonqualified Financing event that occurred in November 2017, we elected to exercise our option to convert the outstanding principal balance of the Ovabrite Convertible Note into 4,459,490 shares of Series 2017 Preferred Stock at a conversion price of \$0.112672 per share.

As of the date of this prospectus, we hold approximately % of the capital stock of Ovabrite. Additionally, as of the date of this prospectus, Matthew O'Hayer holds approximately % of the capital stock of Ovabrite, and certain of our other directors, officers and holders of more than 5% of our capital stock also hold capital stock of Ovabrite.

Matthew O'Hayer and our director Karl Khoury serve as the directors of Ovabrite. Mr. O'Hayer is the chief executive officer of Ovabrite and Jason Dale is the chief financial officer of Ovabrite.

Relationship with Whole Foods

We serve the majority of our natural channel retail customers through food distributors, such as UNFI, which purchases, stores, sells and delivers our products to Whole Foods. As a result, we are not able to precisely attribute our net revenue to Whole Foods. In fiscal 2017, fiscal 2018 and fiscal 2019, UNFI accounted for 37%, 36% and % of our net revenue. We rely on third-party data and internal analysis to calculate the portion of retail sales attributable to Whole Foods. Whole Foods is affiliated with Bowie Strategic Investments, Inc., and

our director Elisabeth Foster is a global vice president at Whole Foods and an assistant secretary at Bowie Strategic Investments, Inc.

Director Loans

In February 2019, we loaned \$3.2 million to Matthew O’Hayer and \$800,000 to Jason Jones, which we collectively refer to as the 2019 Director Loans. Each of the 2019 Director Loans was made pursuant to a non-recourse promissory note with interest at a rate per annum calculated at the lower of (i) the maximum applicable non-usurious rate of interest and (ii) the LIBOR rate (as defined in the Credit Facility), as such rate may be in effect from time to time, plus 2%. The initial interest rate on the 2019 Director Loans was 4.78%. Unless a 2019 Director Loan is accelerated in accordance with its terms, we will terminate it upon the earliest to occur of (i) August 7, 2022, (ii) the date of closing of a Liquidity Transaction (as defined in the applicable 2019 Director Loan) and (iii) prior to the time such note would be prohibited by the Sarbanes-Oxley Act.

In connection with his respective promissory note, Mr. O’Hayer pledged and assigned to us a security interest in 542,373 shares of our common stock held by him, and Mr. Jones pledged and assigned to us a security interest in 135,594 shares of our common stock held by him.

As security for the payment of our obligations under the Credit Facility, in February 2019 we collaterally assigned and granted a security interest in the 2019 Director Loans to PNC Bank, National Association, including all rights to receive payments under the 2019 Director Loans and all proceeds thereof.

Mr. O’Hayer repaid his 2019 Director Loan in full on November 26, 2019. As of December 29, 2019, the balance of the 2019 Director Loan to Mr. Jones was \$, including principal and \$ of accrued interest.

Stockholders Agreement

In connection with our convertible preferred stock and common stock financings, we entered into a stockholders agreement, which contains, among other things, registration rights, information rights, voting rights with respect to the election of directors, co-sale rights and rights of first refusal, with certain holders of our capital stock. The parties to the stockholders agreement include: entities affiliated with Arborview Capital Partners LP, where our director Karl Khoury is a partner; entities affiliated with Bowie Strategic Investments, Inc., entities affiliated with Inherent Group, LLC, where our director Anthony Davis is chief executive officer and chief investment officer; entities affiliated with InvestEco Capital Corp; entities affiliated with Manna Tree Partners; entities affiliated with SJF Ventures; and entities affiliated with Sunrise Strategic Partners, LLC.

This stockholders agreement will terminate upon the completion of this offering, except with respect to registration rights, as more fully described in the section titled “Description of Capital Stock—Stockholder Registration Rights.” See also the section titled “Principal and Selling Stockholders” for additional information regarding beneficial ownership of our capital stock.

Right of First Refusal

Pursuant to our bylaws and the stockholders agreement described above, we, our assignees and certain holders of our capital stock (including entities that hold more than 5% of our capital stock and entities that are affiliated with certain of our directors) have a right to purchase shares of our capital stock that our stockholders propose to sell to other parties, subject to certain exceptions. These rights will terminate upon the completion of this offering. Since January 1, 2017, we have waived our right of first refusal in connection with certain sales of shares of our capital stock, including the June 2017 sales by Matthew O’Hayer and Jason Jones, as described above. See the section titled “Principal and Selling Stockholders” for additional information regarding beneficial ownership of our capital stock.

Liquidity Commitment Agreements

In connection with certain of our sales of capital stock, Matthew O’Hayer entered into agreements with us and certain of our stockholders, including certain beneficial owners of more than 5% of our capital stock and entities affiliated with certain of our directors, to use his commercially reasonable best efforts to cause us to list our common stock on a securities exchange or enter into one or more liquidity transactions. Upon the completion of this offering, these agreements will be satisfied in full.

Equity Grants to Directors and Executive Officers

We have granted stock options to certain of our directors and executive officers. For more information regarding the stock options and stock awards granted to our directors and named executive officers, see the sections titled “Management—Director Compensation” and “Executive Compensation.”

Indemnification Agreements

Our amended and restated certificate of incorporation that will be in effect on the completion of this offering will contain provisions limiting the liability of directors, and our amended and restated bylaws that will be in effect on the completion of this offering will provide that we will indemnify each of our directors and officers to the fullest extent permitted under Delaware law. Our amended and restated certificate of incorporation and amended and restated bylaws that will be in effect on the completion of this offering will also provide our board of directors with discretion to indemnify our employees and other agents when determined appropriate by the board. In addition, we have entered into an indemnification agreement with each of our directors and executive officers, which requires us to indemnify them. For more information regarding these agreements, see the section titled “Executive Compensation—Limitations on Liability and Indemnification Matters.”

Policies and Procedures for Transactions with Related Persons

Prior to the completion of this offering, we intend to adopt a policy that our executive officers, directors, nominees for election as a director, beneficial owners of more than 5% of any class of our common stock and any members of the immediate family of any of the foregoing persons are not permitted to enter into a related person transaction with us without the approval or ratification of our board of directors or our audit committee. Any request for us to enter into a transaction with an executive officer, director, nominee for election as a director, beneficial owner of more than 5% of any class of our common stock or any member of the immediate family of any of the foregoing persons, in which the amount involved exceeds \$120,000 and such person would have a direct or indirect interest, must be presented to our board of directors or our audit committee for review, consideration and approval. In approving or rejecting any such proposal, our board of directors or our audit committee is to consider the material facts of the transaction, including whether the transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances and the extent of the related person’s interest in the transaction.

PRINCIPAL AND SELLING STOCKHOLDERS

The following table sets forth information with respect to the beneficial ownership of our shares as of December 29, 2019 by:

Except as indicated by the footnotes below, we believe, based on information furnished to us, that the persons and entities named in the table below have sole voting and sole investment power with respect to all shares that they beneficially own, subject to applicable community property laws.

Applicable percentage ownership before this offering is based on no shares of Class A common stock and shares of Class B common stock outstanding as of December 29, 2019, assuming the automatic conversion of all outstanding shares of convertible preferred stock into shares of Class B common stock, which will occur immediately prior to the completion of this offering. Applicable percentage ownership after this offering is based on (1) shares of Class A common stock and (2) shares of Class B common stock outstanding immediately after the completion of this offering, assuming no exercise by the underwriters of their option to purchase additional shares of Class A common stock from us and the selling stockholders. In computing the number of shares beneficially owned by a person and the percentage ownership of such person, we deemed to be outstanding all shares subject to options held by the person that are currently exercisable, or exercisable or would vest based on service-based vesting conditions within 60 days of December 29, 2019. However, except as described above, we did not deem such shares outstanding for the purpose of computing the percentage ownership of any other person.

DESCRIPTION OF CAPITAL STOCK

General

The following description of our capital stock and certain provisions of our amended and restated certificate of incorporation and amended and restated bylaws are summaries and are qualified by reference to the amended and restated certificate of incorporation and the amended and restated bylaws that will be in effect on the completion of this offering. Copies of these documents have been filed with the SEC as exhibits to our registration statement, of which this prospectus forms a part. The descriptions of our common stock and preferred stock reflect changes to our capital structure that will be in effect on the completion of this offering.

On the completion of this offering, our amended and restated certificate of incorporation will provide for two classes of common stock, Class A common stock and Class B common stock, and will authorize shares of undesignated preferred stock, the rights, preferences and privileges of which may be designated from time to time by our board of directors.

Upon the completion of this offering, our authorized capital stock will consist of _____ shares, all with a par value of \$0.0001 per share, of which:

- _____ shares will be designated Class A common stock;
- _____ shares will be designated Class B common stock; and
- _____ shares will be designated preferred stock.

As of December 29, 2019, we had outstanding:

- _____ no shares of Class A common stock; and
- _____ shares of Class B common stock, which assumes the automatic conversion of all outstanding shares of convertible preferred stock into shares of Class B common stock.

Our Class B common stock was held by _____ stockholders of record as of December 29, 2019. Our board of directors is authorized, without stockholder approval except as required by the listing standards of _____, to issue additional shares of our capital stock.

Class A Common Stock and Class B Common Stock

Voting Rights

The Class A common stock is entitled to one vote per share on any matter that is submitted to a vote of our stockholders. Holders of our Class B common stock are entitled to _____ votes per share on any matter submitted to our stockholders. Holders of shares of Class B common stock and Class A common stock will vote together as a single class on all matters (including the election of directors) submitted to a vote of stockholders, unless otherwise required by Delaware law.

Under Delaware law, holders of our Class A common stock or Class B common stock would be entitled to vote as a separate class if a proposed amendment to our amended and restated certificate of incorporation would increase or decrease the aggregate number of authorized shares of such class, increase or decrease the par value of the shares of such class, or alter or change the powers, preferences or special rights of the shares of such class so as to affect them adversely. As a result, in these limited instances, the holders of a majority of the Class A common stock could defeat any amendment to our amended and restated certificate of incorporation. For example, if a proposed amendment to our amended and restated certificate of incorporation provided for the Class A common stock to rank junior to the Class B common stock with respect to (1) any dividend or distribution, (2) the distribution of proceeds were we to be acquired or (3) any other right, Delaware law would require the vote of the Class A common stock as a separate class. In this instance, the holders of a majority of Class A common stock could defeat that amendment to our amended and restated certificate of incorporation.

Our amended and restated certificate of incorporation that will be in effect on the completion of this offering will not provide for cumulative voting for the election of directors.

Economic Rights

Except as otherwise will be expressly provided in our amended and restated certificate of incorporation that will be in effect on the completion of this offering or required by applicable law, all shares of Class A common stock and Class B common stock will have the same rights and privileges and rank equally, share ratably and be identical in all respects for all matters, including those described below.

Dividends and Distributions. Subject to preferences that may apply to any shares of preferred stock outstanding at the time, the holders of Class A common stock and Class B common stock will be entitled to share equally, identically and ratably, on a per share basis, with respect to any dividend or distribution of cash or property paid or distributed by the company, unless different treatment of the shares of the affected class is approved by the affirmative vote of the holders of a majority of the outstanding shares of such affected class, voting separately as a class. See the section titled “Dividend Policy” for additional information.

Liquidation Rights. On our liquidation, dissolution or winding-up, the holders of Class A common stock and Class B common stock will be entitled to share equally, identically and ratably in all assets remaining after the payment of any liabilities, liquidation preferences, and accrued or declared but unpaid dividends, if any, with respect to any outstanding preferred stock, unless a different treatment is approved by the affirmative vote of the holders of a majority of the outstanding shares of such affected class, voting separately as a class.

Change of Control Transactions. The holders of Class A common stock and Class B common stock will be treated equally and identically with respect to shares of Class A common stock or Class B common stock owned by them, unless different treatment of the shares of each class is approved by the affirmative vote of the holders of a majority of the outstanding shares of the class treated differently, voting separately as a class, on (a) the closing of the sale, transfer or other disposition of all or substantially all of our assets, (b) the consummation of a merger, reorganization, consolidation or share transfer which results in our voting securities outstanding immediately before the transaction (or the voting securities issued with respect to our voting securities outstanding immediately before the transaction) representing less than a majority of the combined voting power of the voting securities of the company or the surviving or acquiring entity or (c) the closing of the transfer (whether by merger, consolidation or otherwise), in one transaction or a series of related transactions, to a person or group of affiliated persons of securities of the company if, after closing, the transferee person or group would hold 50% or more of the outstanding voting power of the company (or the surviving or acquiring entity). However, consideration to be paid or received by a holder of common stock in connection with any such assets sale, merger, reorganization, consolidation or share transfer under any employment, consulting, severance or other arrangement will be disregarded for the purposes of determining whether holders of common stock are treated equally and identically.

Subdivisions and Combinations. If we subdivide or combine in any manner outstanding shares of Class A common stock or Class B common stock, the outstanding shares of the other classes will be subdivided or combined in the same manner.

No Preemptive or Similar Rights

Our Class A common stock and Class B common stock are not entitled to preemptive rights, and are not subject to conversion, redemption or sinking fund provisions, except for the conversion provisions with respect to the Class B common stock described below.

Conversion

Each share of Class B common stock is convertible at any time at the option of the holder into one share of Class A common stock. After the completion of this offering, on any transfer of shares of Class B common stock,

whether or not for value, each such transferred share will automatically convert into one share of Class A common stock, except for certain transfers described in our amended and restated certificate of incorporation that will be in effect on the completion of this offering, including transfers for tax and estate planning purposes, so long as the transferring holder continues to hold sole voting and dispositive power with respect to the shares transferred.

Any holder's shares of Class B common stock will convert automatically into shares of Class A common stock, on a one-to-one basis, upon the following: (1) the sale or transfer of such share of Class B common stock; (2) the death of the Class B common stockholder; and (3) the final conversion date, defined as the earlier of (a) the first trading day on or after the date on which the outstanding shares of Class B common stock represent less than % of the then outstanding Class A and Class B common stock, (b) the anniversary of this offering or (c) the date specified by vote of the holders of a majority of the outstanding shares of Class B common stock, voting as a single class.

Once transferred and converted into Class A common stock, the Class B common may not be reissued.

Fully Paid and Non-Assessable

In connection with this offering, our legal counsel will opine that the shares of our Class A common stock to be issued under this offering will be fully paid and non-assessable.

Preferred Stock

As of December 29, 2019, there were shares of our convertible preferred stock outstanding. Immediately prior to the completion of this offering, each outstanding share of our convertible preferred stock will automatically convert into one share of our Class B common stock.

On the completion of this offering and under our amended and restated certificate of incorporation that will be in effect on the completion of this offering, our board of directors may, without further action by our stockholders, fix the rights, preferences, privileges and restrictions of up to an aggregate of shares of preferred stock in one or more series and authorize their issuance. These rights, preferences and privileges could include dividend rights, conversion rights, voting rights, terms of redemption, liquidation preferences and the number of shares constituting any series or the designation of such series, any or all of which may be greater than the rights of our Class A common stock or Class B common stock. Any issuance of our preferred stock could adversely affect the voting power of holders of our Class A common stock or Class B common stock, and the likelihood that such holders would receive dividend payments and payments on liquidation. In addition, the issuance of preferred stock could have the effect of delaying, deferring or preventing a change of control or other corporate action. On the completion of this offering, no shares of preferred stock will be outstanding. We have no present plan to issue any shares of preferred stock.

Options

As of December 29, 2019, shares of our Class B common stock were issuable on the exercise of outstanding options to purchase shares of our Class B common stock under our 2013 Plan, with a weighted-average exercise price of \$ per share.

Registration Rights

Stockholder Registration Rights

We are party to a stockholders agreement that provides that certain holders of our capital stock, including certain holders of at least 5% of our capital stock and entities affiliated with certain of our directors, have certain

registration rights, as set forth below. This stockholders agreement was entered into as of March 1, 2019. The registration of shares of our common stock by the exercise of registration rights described below would enable the holders to sell these shares without restriction under the Securities Act when the applicable registration statement is declared effective. We will pay the registration expenses, other than underwriting discounts and commissions, of the shares registered by the demand, piggyback and Form S-3 registrations described below.

Generally, in an underwritten offering, the managing underwriter, if any, has the right, subject to specified conditions, to limit the number of shares such holders may include. The demand, piggyback and Form S-3 registration rights described below will expire upon the earliest to occur of: (a) five years after the first sale of our common stock following the effective date of the registration statement, of which this prospectus is a part; (b) the closing of a Deemed Liquidation Event, as defined in our amended and restated certificate of incorporation; or (c) with respect to any particular stockholder, such time as such stockholder can sell all of its shares under Rule 144 under the Securities Act or another similar exemption during any three-month period.

Demand Registration Rights

The holders of an aggregate of _____ shares of our Class B common stock will be entitled to certain demand registration rights. At any time beginning 180 days after the effective date of the registration statement, of which this prospectus is a part, such holders are entitled to registration rights under the stockholders agreement, on not more than one occasion, provided that the holders of at least 20% of such shares as are then outstanding request that we register all or a portion of their shares. Such request for registration must cover shares with an anticipated aggregate offering price, net of underwriting discounts and commissions, of at least \$15 million.

Piggyback Registration Rights

In connection with this offering, the holders of an aggregate of _____ shares of our capital stock were entitled to, and the necessary percentage of holders waived, their rights to notice of this offering and to include their shares of registrable securities in this offering. After this offering, in the event that we propose to register any of our securities under the Securities Act, either for our own account or for the account of other security holders, the holders of these shares will be entitled to certain piggyback registration rights allowing such holders to include their shares in such registration, subject to certain marketing and other limitations. As a result, whenever we propose to file a registration statement under the Securities Act, subject to certain exceptions, the holders of these shares are entitled to notice of the registration and have the right to include their shares in the registration, subject to limitations that the underwriters may impose on the number of shares included in the offering.

Form S-3 Registration Rights

The holders of an aggregate of _____ shares of Class B common stock will be entitled to certain Form S-3 registration rights. If we are eligible to file a registration statement on Form S-3, these holders have the right, upon written request from holders of at least 15% of such shares as are then outstanding, to have such shares registered by us if the anticipated aggregate offering price of such shares, net of underwriting discounts and commissions, is at least \$5 million, subject to exceptions set forth in the stockholders agreement.

Anti-Takeover Provisions

Certificate of Incorporation and Bylaws

Because our stockholders do not have cumulative voting rights, stockholders holding a majority of the voting power of our shares of common stock will be able to elect all of our directors. Our amended and restated certificate of incorporation and amended and restated bylaws that will be in effect on the completion of this offering will provide for stockholder actions at a duly called meeting of stockholders or, before the date on which

all shares of common stock convert into a single class, by written consent. A special meeting of stockholders may be called by a majority of our board of directors, the chair of our board of directors, our chief executive officer or our lead independent director. Our amended and restated bylaws to be effective on the completion of this offering will establish an advance notice procedure for stockholder proposals to be brought before an annual meeting of our stockholders, including proposed nominations of persons for election to our board of directors.

Our amended and restated certificate of incorporation that will be in effect on the completion of this offering will further provide for a dual-class common stock structure, which provides our current investors, officers and employees with control over all matters requiring stockholder approval, including the election of directors and significant corporate transactions, such as a merger or other sale of our company or its assets.

In accordance with our amended and restated certificate of incorporation that will be in effect on the completion of this offering, immediately after this offering, our board of directors will be divided into three classes with staggered three-year terms.

The foregoing provisions will make it more difficult for another party to obtain control of us by replacing our board of directors. Since our board of directors has the power to retain and discharge our officers, these provisions could also make it more difficult for existing stockholders or another party to effect a change in management. In addition, the authorization of undesignated preferred stock makes it possible for our board of directors to issue preferred stock with voting or other rights or preferences that could impede the success of any attempt to change our control.

These provisions, including the dual-class structure of our common stock, are intended to preserve our existing control structure after completion of this offering, facilitate our continued product innovation and the risk-taking that it requires, permit us to continue to prioritize our long-term goals rather than short-term results, enhance the likelihood of continued stability in the composition of our board of directors and its policies and to discourage certain types of transactions that may involve an actual or threatened acquisition of us. These provisions are also designed to reduce our vulnerability to an unsolicited acquisition proposal and to discourage certain tactics that may be used in proxy fights. However, these provisions could have the effect of discouraging others from making tender offers for our shares and may have the effect of deterring hostile takeovers or delaying changes in our control or management. As a consequence, these provisions may also inhibit fluctuations in the market price of our stock that could result from actual or rumored takeover attempts.

Public Benefit Corporation Status

We are a public benefit corporation under Section 362 of the Delaware General Corporation Law. As a result, we may not, without the approval of the holders of two-thirds of the voting power of our outstanding stock, amend our certificate of incorporation to delete or amend a provision relating to our public benefit corporation status or our public benefit purpose (or effect a merger or consolidation that would result in the deletion or amendment of such a provision).

Additionally, as a public benefit corporation, our board of directors is required by the Delaware General Corporation Law to manage or direct our business and affairs in a manner that balances the pecuniary interests of our stockholders, the best interests of those materially affected by our conduct, and the specific public benefits identified in our certificate of incorporation. Under the Delaware General Corporation Law, our stockholders may bring a derivative suit to enforce this requirement only if they own (individually or collectively), at least 2% of our outstanding shares or, upon the completion of this offering, the lesser of such percentage or shares of at least \$2 million in market value.

We believe that our public benefit corporation status will make it more difficult for another party to obtain control of us without maintaining our public benefit corporation status and purpose.

Section 203 of the Delaware General Corporation Law

When we have a class of voting stock that is either listed on a national securities exchange or held of record by more than 2,000 stockholders, we will be subject to Section 203 of the Delaware General Corporation Law, which prohibits a Delaware corporation from engaging in any business combination with any interested stockholder for a period of three years after the date that such stockholder became an interested stockholder, subject to certain exceptions.

Choice of Forum

Our amended and restated certificate of incorporation to be effective on the completion of this offering will provide that the Court of Chancery of the State of Delaware (or, if and only if the Court of Chancery of the State of Delaware lacks subject matter jurisdiction, any state court located within the State of Delaware or, if and only if all such state courts lack subject matter jurisdiction, the federal district court for the District of Delaware) is the exclusive forum for actions or proceedings brought under Delaware statutory or common law: (1) any derivative action or proceeding brought on our behalf; (2) any action asserting a breach of fiduciary duty; (3) any action asserting a claim against us arising under the Delaware General Corporation Law; (4) any action regarding our amended and restated certificate of incorporation or our amended and restated bylaws; (5) any action as to which the Delaware General Corporation Law confers jurisdiction to the Court of Chancery of the State of Delaware; or (6) any action asserting a claim against us that is governed by the internal affairs doctrine.

In addition, our amended and restated certificate of incorporation will provide that the federal district courts of the United States of America will be the exclusive forum for resolving any complaint asserting a cause of action arising under the Securities Act, subject to and contingent upon a final adjudication in the State of Delaware of the enforceability of such exclusive forum provision.

Limitations of Liability and Indemnification

See the section titled “Executive Compensation—Limitations on Liability and Indemnification Matters.”

Exchange Listing

Our Class A common stock is currently not listed on any securities exchange. We intend to apply to have our Class A common stock approved for listing on _____ under the symbol “_____.”

Transfer Agent and Registrar

On the completion of this offering, the transfer agent and registrar for our Class A common stock and Class B common stock will be _____. The transfer agent’s address is _____.

SHARES ELIGIBLE FOR FUTURE SALE

Prior to this offering, there has been no public market for our Class A common stock. Future sales of substantial amounts of our Class A common stock, including shares issued on the exercise of outstanding options, in the public market after this offering, or the possibility of these sales or issuances occurring, could adversely affect the prevailing market price for our Class A common stock or impair our ability to raise equity capital.

Based on our shares outstanding as of December 29, 2019, on the completion of this offering, a total of _____ shares of Class A common stock and _____ shares of Class B common stock will be outstanding, assuming the automatic conversion of all of our outstanding shares of convertible preferred stock into an aggregate of _____ shares of Class B common stock. Of these shares, all of the Class A common stock sold in this offering by us, plus any shares sold by exercise of the underwriters' option to purchase additional Class A common stock from us and the selling stockholders, will be freely tradable in the public market without restriction or further registration under the Securities Act, unless these shares are held by "affiliates," as that term is defined in Rule 144 under the Securities Act, or Rule 144.

The remaining shares of Class A common stock and Class B common stock will be, and _____ shares of Class A common stock or Class B common stock subject to stock options will be on issuance, "restricted securities," as that term is defined in Rule 144. These restricted securities are eligible for public sale only if they are registered under the Securities Act or if they qualify for an exemption from registration under Rule 144 or Rule 701 under the Securities Act, or Rule 701, which are summarized below. Restricted securities may also be sold outside of the United States to non-U.S. persons in accordance with Rule 904 of Regulation S under the Securities Act.

Subject to the lock-up agreements described below and the provisions of Rule 144, Rule 701 or Regulation S under the Securities Act, as well as our insider trading policy, these restricted securities will be available for sale in the public market after the date of this prospectus.

Rule 144

In general, under Rule 144 as currently in effect, once we have been subject to public company reporting requirements of Section 13 or 15(d) of the Exchange Act for at least 90 days, an eligible stockholder is entitled to sell such shares without complying with the manner of sale, volume limitation or notice provisions of Rule 144, subject to compliance with the public information requirements of Rule 144. To be an eligible stockholder under Rule 144, such stockholder must not be deemed to have been one of our affiliates for purposes of the Securities Act at any time during the 90 days preceding a sale and must have beneficially owned the shares proposed to be sold for at least six months, including the holding period of any prior owner other than our affiliates. If such a person has beneficially owned the shares proposed to be sold for at least one year, including the holding period of any prior owner other than our affiliates, then such person is entitled to sell such shares without complying with any of the requirements of Rule 144, subject to the expiration of the lock-up agreements described below.

In general, under Rule 144, as currently in effect, our affiliates or persons selling shares on behalf of our affiliates are entitled to sell shares on expiration of the lock-up agreements described below, subject, in the case of restricted securities, to such shares having been beneficially owned for at least six months. Beginning 90 days after the date of this prospectus, within any three-month period, such stockholders may sell a number of shares that does not exceed the greater of:

- 1% of the number of Class A common stock then outstanding, which will equal approximately _____ shares immediately after this offering, assuming no exercise of the underwriters' option to purchase additional shares of Class A common stock from us and the selling stockholders; or
- the average weekly trading volume of our Class A common stock on the _____ during the four calendar weeks preceding the filing of a notice on Form 144 with respect to such sale.

Sales under Rule 144 by our affiliates or persons selling shares on behalf of our affiliates are also subject to certain manner of sale provisions and notice requirements and to the availability of current public information about us.

Rule 701

Rule 701 generally allows a stockholder who was issued shares under a written compensatory plan or contract and who is not deemed to have been an affiliate of our company during the immediately preceding 90 days, to sell these shares in reliance on Rule 144, but without being required to comply with the public information, holding period, volume limitation or notice provisions of Rule 144. Rule 701 also permits affiliates of our company to sell their Rule 701 shares under Rule 144 without complying with the holding period requirements of Rule 144. All holders of Rule 701 shares, however, are required by that rule to wait until 90 days after the date of this prospectus before selling those shares under Rule 701, subject to the expiration of the lock-up agreements described below.

Form S-8 Registration Statements

We intend to file one or more registration statements on Form S-8 under the Securities Act with the SEC to register the offer and sale of shares of our Class A common stock and Class B common stock to be issued under our 2013 Plan, 2020 Plan and ESPP. These registration statements will become effective immediately on filing. Shares covered by these registration statements will then be eligible for sale in the public markets, subject to vesting restrictions, any applicable lock-up agreements described below, and Rule 144 limitations applicable to affiliates.

Lock-Up Arrangements

We, the selling stockholders, all of our directors, executive officers and the holders of substantially all of our common stock and securities exercisable for or convertible into our Class A common stock and Class B common stock outstanding immediately on the completion of this offering, have agreed, or will agree, with the underwriters that, until 180 days after the date of this prospectus, we and they will not, without the prior written consent of _____, offer, sell, contract to sell, pledge, grant any option to purchase, lend make any short sale or otherwise dispose of any shares of common stock, or any options or warrants to purchase any shares of common stock, or any securities convertible into, exchangeable for or that represent the right to receive shares of common stock. These agreements are described in the section titled “Underwriting.” _____ may, in its sole discretion, release any of the securities subject to these lock-up agreements at any time.

In addition to the restrictions contained in the lock-up agreements described above, we have entered into agreements with all of our security holders that contain market stand-off provisions imposing restrictions on the ability of such security holders to offer, sell or transfer our equity securities for a period of 180 days following the date of this prospectus.

Registration Rights

Upon the completion of this offering, the holders of _____ shares of our Class B common stock will be entitled to certain rights with respect to the registration of the offer and sale of their shares under the Securities Act. Registration of these shares under the Securities Act would result in the shares becoming freely tradable without restriction under the Securities Act immediately on the effectiveness of the registration. See the section titled “Description of Capital Stock—Registration Rights” for additional information.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES TO NON-U.S. HOLDERS

The following discussion is a summary of the material U.S. federal income tax consequences to Non-U.S. Holders (as defined below) of the purchase, ownership and disposition of our Class A common stock issued pursuant to this offering, but does not purport to be a complete analysis of all potential tax effects. The effects of other U.S. federal tax laws, such as estate and gift tax laws, and any applicable state, local or non-U.S. tax laws are not discussed. This discussion is based on the Code, Treasury Regulations promulgated thereunder, judicial decisions, and published rulings and administrative pronouncements of the IRS, in each case in effect as of the date hereof. These authorities may change or be subject to differing interpretations. Any such change or differing interpretation may be applied retroactively in a manner that could adversely affect a Non-U.S. Holder. We have not sought and will not seek any rulings from the IRS regarding the matters discussed below. There can be no assurance the IRS or a court will not take a contrary position to that discussed below regarding the tax consequences of the purchase, ownership and disposition of our Class A common stock.

This discussion is limited to Non-U.S. Holders that hold our Class A common stock as a “capital asset” within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all U.S. federal income tax consequences relevant to a Non-U.S. Holder’s particular circumstances, including the impact of the Medicare contribution tax on net investment income. In addition, it does not address consequences relevant to Non-U.S. Holders subject to special rules, including, without limitation:

- U.S. expatriates and former citizens or long-term residents of the United States;
- persons subject to the alternative minimum tax;
- persons holding our common stock as part of a hedge, straddle or other risk reduction strategy or as part of a conversion transaction or other integrated investment;
- banks, insurance companies, and other financial institutions;
- brokers, dealers or traders in securities;
- “controlled foreign corporations,” “passive foreign investment companies” and corporations that accumulate earnings to avoid U.S. federal income tax;
- partnerships or other entities or arrangements treated as partnerships for U.S. federal income tax purposes (and investors therein);
- tax-exempt organizations or governmental organizations;
- persons deemed to sell our common stock under the constructive sale provisions of the Code;
- persons who hold or receive our Class A common stock pursuant to the exercise of any employee stock option or otherwise as compensation;
- persons for whom our common stock constitutes “qualified small business stock” within the meaning of Section 1202 of the Code;
- tax-qualified retirement plans;
- “qualified foreign pension funds” as defined in Section 897(l)(2) of the Code and entities all of the interests of which are held by qualified foreign pension funds; and
- persons subject to special tax accounting rules as a result of any item of gross income with respect to our Class A common stock being taken into account in an applicable financial statement.

If an entity treated as a partnership for U.S. federal income tax purposes holds our Class A common stock, the tax treatment of a partner in the partnership will depend on the status of the partner, the activities of the partnership and certain determinations made at the partner level. Accordingly, partnerships holding our Class A common stock and the partners in such partnerships should consult their tax advisors regarding the U.S. federal income tax consequences to them.

THIS DISCUSSION IS FOR INFORMATIONAL PURPOSES ONLY AND IS NOT TAX ADVICE. INVESTORS SHOULD CONSULT THEIR TAX ADVISORS WITH RESPECT TO THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR CLASS A COMMON STOCK ARISING UNDER THE U.S. FEDERAL ESTATE OR GIFT TAX LAWS OR UNDER THE LAWS OF ANY STATE, LOCAL OR NON-U.S. TAXING JURISDICTION OR UNDER ANY APPLICABLE INCOME TAX TREATY.

Definition of Non-U.S. Holder

For purposes of this discussion, a “Non-U.S. Holder” is any beneficial owner of our Class A common stock that is neither a “U.S. person” nor an entity treated as a partnership for U.S. federal income tax purposes. A U.S. person is any person that, for U.S. federal income tax purposes, is or is treated as any of the following:

- an individual who is a citizen or resident of the United States;
- a corporation created or organized under the laws of the United States, any state thereof or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust that (1) is subject to the primary supervision of a U.S. court and all substantial decisions of which are subject to the control of one or more “United States persons” (within the meaning of Section 7701(a)(30) of the Code) or (2) has a valid election in effect to be treated as a United States person for U.S. federal income tax purposes.

Distributions

As described in the section titled “Dividend Policy,” we do not anticipate declaring or paying any cash dividends on our Class A common stock in the foreseeable future. However, if we do make distributions of cash or property on our Class A common stock, such distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Amounts not treated as dividends for U.S. federal income tax purposes will constitute a return of capital and first be applied against and reduce a Non-U.S. Holder’s adjusted tax basis in its Class A common stock, but not below zero. Any excess will be treated as capital gain and will be treated as described below under “—Sale or Other Taxable Disposition.”

Subject to the discussion below on effectively connected income, dividends paid to a Non-U.S. Holder will be subject to U.S. federal withholding tax at a rate of 30% of the gross amount of the dividends (or such lower rate specified by an applicable income tax treaty, provided the Non-U.S. Holder furnishes a valid IRS Form W-8BEN or W-8BEN-E (or other applicable documentation) certifying qualification for the lower treaty rate). A Non-U.S. Holder that does not timely furnish the required documentation, but that qualifies for a reduced treaty rate, may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. Holders should consult their tax advisors regarding their entitlement to benefits under any applicable tax treaty.

If dividends paid to a Non-U.S. Holder are effectively connected with the Non-U.S. Holder’s conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, the Non-U.S. Holder maintains a permanent establishment in the United States to which such dividends are attributable), the Non-U.S. Holder will be exempt from the U.S. federal withholding tax described above. To claim the exemption, the Non-U.S. Holder must furnish to the applicable withholding agent a valid IRS Form W-8ECI, certifying that the dividends are effectively connected with the Non-U.S. Holder’s conduct of a trade or business within the United States.

Any such effectively connected dividends will be subject to U.S. federal income tax on a net income basis at the regular graduated rates. A Non-U.S. Holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such effectively connected dividends, as adjusted for certain items. Non-U.S. Holders should consult their tax advisors regarding any applicable tax treaties that may provide for different rules.

Sale or Other Taxable Disposition

A Non-U.S. Holder will not be subject to U.S. federal income tax on any gain realized upon the sale or other taxable disposition of our Class A common stock unless:

- the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, the Non-U.S. Holder maintains a permanent establishment in the United States to which such gain is attributable);
- the Non-U.S. Holder is a nonresident alien individual present in the United States for 183 days or more during the taxable year of the disposition and certain other requirements are met; or
- our Class A common stock constitutes a U.S. real property interest, or USRPI, by reason of our status as a U.S. real property holding corporation, or USRPHC, for U.S. federal income tax purposes.

Gain described in the first bullet point above generally will be subject to U.S. federal income tax on a net income basis at the regular graduated rates. A Non-U.S. Holder that is a corporation also may be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such effectively connected gain, as adjusted for certain items.

Gain described in the second bullet point above will be subject to U.S. federal income tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty), which may be offset by certain U.S. source capital losses of the Non-U.S. Holder (even though the individual is not considered a resident of the United States), provided the Non-U.S. Holder has timely filed U.S. federal income tax returns with respect to such losses.

With respect to the third bullet point above, we believe we currently are not, and do not anticipate becoming, a USRPHC. Because the determination of whether we are a USRPHC depends, however, on the fair market value of our USRPIs relative to the fair market value of our non-U.S. real property interests and our other business assets, there can be no assurance we currently are not a USRPHC or will not become one in the future. Even if we are or were to become a USRPHC, gain arising from the sale or other taxable disposition by a Non-U.S. Holder will not be subject to U.S. federal income tax if our Class A common stock is "regularly traded," as defined by applicable Treasury Regulations, on an established securities market, and such Non-U.S. Holder owned, actually and constructively, 5% or less of our Class A common stock throughout the shorter of the five-year period ending on the date of the sale or other taxable disposition or the Non-U.S. Holder's holding period.

Non-U.S. Holders should consult their tax advisors regarding any applicable tax treaties that may provide for different rules.

Information Reporting and Backup Withholding

Payments of dividends on our Class A common stock will not be subject to backup withholding, provided the applicable withholding agent does not have actual knowledge or reason to know the holder is a United States person and the holder either certifies its non-U.S. status, such as by furnishing a valid IRS Form W-8BEN, W-8BEN-E or W-8ECI, or otherwise establishes an exemption. However, information returns are required to be filed with the IRS in connection with any dividends on our Class A common stock paid to the Non-U.S. Holder,

regardless of whether any tax was actually withheld. In addition, proceeds of the sale or other taxable disposition of our Class A common stock within the United States or conducted through certain U.S.-related brokers generally will not be subject to backup withholding or information reporting if the applicable withholding agent receives the certification described above and does not have actual knowledge or reason to know that such holder is a United States person, or the Non-U.S. Holder otherwise establishes an exemption. Proceeds of a disposition of our Class A common stock conducted through a non-U.S. office of a non-U.S. broker generally will not be subject to backup withholding or information reporting.

Copies of information returns that are filed with the IRS may also be made available under the provisions of an applicable treaty or agreement to the tax authorities of the country in which the Non-U.S. Holder resides or is established.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a Non-U.S. Holder's U.S. federal income tax liability, provided the required information is timely furnished to the IRS.

Additional Withholding Tax on Payments Made to Foreign Accounts

Withholding taxes may be imposed under Sections 1471 to 1474 of the Code (such Sections commonly referred to as the Foreign Account Tax Compliance Act, or FATCA) on certain types of payments made to non-U.S. financial institutions and certain other non-U.S. entities. Specifically, a 30% withholding tax may be imposed on dividends on, or (subject to the proposed Treasury Regulations discussed below) gross proceeds from the sale or other disposition of, our Class A common stock paid to a "foreign financial institution" or a "non-financial foreign entity" (each as defined in the Code), unless (1) the foreign financial institution undertakes certain diligence and reporting obligations, (2) the non-financial foreign entity either certifies it does not have any "substantial United States owners" (as defined in the Code) or furnishes identifying information regarding each substantial United States owner, or (3) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules. If the payee is a foreign financial institution and is subject to the diligence and reporting requirements in (1) above, it must enter into an agreement with the U.S. Department of the Treasury requiring, among other things, that it undertake to identify accounts held by certain "specified United States persons" or "United States owned foreign entities" (each as defined in the Code), annually report certain information about such accounts, and withhold 30% on certain payments to non-compliant foreign financial institutions and certain other account holders. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules.

Under the applicable Treasury Regulations and administrative guidance, withholding under FATCA generally applies to payments of dividends on our Class A common stock. While withholding under FATCA would have applied also to payments of gross proceeds from the sale or other disposition of stock on or after January 1, 2019, proposed Treasury Regulations eliminate FATCA withholding on payments of gross proceeds entirely. Taxpayers generally may rely on these proposed Treasury Regulations until final Treasury Regulations are issued.

Prospective investors should consult their tax advisors regarding the potential application of withholding under FATCA to their investment in our common stock.

Shares sold by the underwriters to the public will initially be offered at the initial public offering price set forth on the cover page of this prospectus. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$ _____ per share from the initial public offering price. After the initial offering of the shares, the representatives may change the offering price and the other selling terms. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

We and our officers, directors and holders of substantially all of our common stock, including the selling stockholders, have agreed with the underwriters, subject to certain exceptions, not to dispose of or hedge any common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of the underwriting agreement continuing through the date 180 days after the date of this prospectus, except with the prior written consent of the representatives. This agreement does not apply to any existing employee benefit plans. See the section titled "Shares Available for Future Sale" for a discussion of certain transfer restrictions.

Prior to the offering, there has been no public market for the shares. The initial public offering price has been negotiated among the representatives and us. Among the factors to be considered in determining the initial public offering price of the shares, in addition to prevailing market conditions, will be our historical performance, estimates of our business potential and earnings prospects, an assessment of our management and the consideration of the above factors in relation to market valuation of companies in related businesses.

We intend to apply to have our Class A common stock approved for listing on _____ under the symbol “_____.”

In connection with the offering, the underwriters may purchase and sell shares of our Class A common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in this offering, and a short position represents the amount of such sales that have not been covered by subsequent purchases. A “covered short position” is a short position that is not greater than the amount of additional shares for which the underwriters’ option described above may be exercised. The underwriters may cover any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to cover the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase additional shares pursuant to the option described above. “Naked” short sales are any short sales that create a short position greater than the amount of additional shares for which the option described above may be exercised. The underwriters must cover any such naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our Class A common stock in the open market after pricing that could adversely affect investors who purchase in this offering. Stabilizing transactions consist of various bids for or purchases of our Class A common stock made by the underwriters in the open market prior to the completion of this offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of our Class A stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of our Class A common stock. As a result, the price of our Class A common stock may be higher than the price that otherwise might exist in the open market. The underwriters are not required to engage in these activities and may end any of these activities at any time. These transactions may be effected on _____, in the over-the-counter market or otherwise.

We estimate that our share of the total expenses of this offering, excluding underwriting discounts and commissions, will be approximately \$ _____. We have agreed to reimburse the underwriters for expenses related to any applicable state securities filings and to the Financial Industry Regulatory Authority, Inc. incurred by them in connection with this offering in an amount up to \$ _____.

We and the selling stockholders have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Certain of the underwriters and their respective affiliates have provided, and may in the future provide, a variety of these services to us and to persons and entities with relationships with us, for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the underwriters and their respective affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments and actively trade securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own account and for the accounts of their customers, and such investment and trading activities may involve or relate to assets, securities and/or instruments of the issuer (directly, as collateral securing other obligations or otherwise) and/or persons and entities with relationships with the issuer. The underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

CHANGES IN INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

In 2019, we decided to engage new auditors as our independent accountants to audit our financial statements. Our board of directors approved the change of accountants to KPMG LLP. Accordingly, we dismissed RSM US LLP on August 19, 2019.

The report on our consolidated financial statements prepared by RSM US LLP under AICPA auditing standards for the 2018 fiscal year did not contain an adverse opinion or disclaimer of opinion and was not qualified or modified as to uncertainty, audit scope, or accounting principles. There were (i) no disagreements with RSM US LLP on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements, if not resolved to the satisfaction of RSM US LLP, would have caused RSM US LLP to make reference to the subject matter of the disagreements in connection with its reports and (ii) no reportable events of the type listed in paragraphs (A) through (D) of Item 304(a)(1)(v) of Regulation S-K issued by the SEC, in connection with the audit of our financial statements for the 2018 fiscal year and the subsequent period through the replacement of RSM US LLP with KPMG LLP.

Neither we nor anyone acting on our behalf consulted with KPMG LLP at any time prior to their retention by us as our independent registered public accounting firm regarding any of the matters described in Item 304(a)(2)(i) or Item 304(a)(2)(ii) of Regulation S-K.

We have provided RSM US LLP with a copy of the disclosures set forth under the heading “Changes in Independent Registered Public Accounting Firm” included in this prospectus and have requested that RSM US LLP furnish a letter addressed to the SEC stating whether or not RSM US LLP agrees with statements related to them made by us under the heading “Changes in Independent Registered Public Accounting Firm” in this prospectus. A copy of that letter will be filed as Exhibit 16.1 to the registration statement of which this prospectus forms a part.

Vital Farms, Inc.:

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheet of Vital Farms, Inc. and subsidiaries (the Company) as of December 30, 2018, the related consolidated statements of operations, redeemable convertible preferred stock and stockholders' equity, and cash flows for the year then ended, and the related notes (collectively, the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 30, 2018, and the results of its operations and its cash flows for the year then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB and in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audit provides a reasonable basis for our opinion.

VITAL FARMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands, except share and per share amounts)

1. Nature of the Business and Basis of Presentation

Vital Farms, Inc. (“Vital Farms”) was incorporated in Delaware on June 6, 2013 and is headquartered in Austin, Texas. Vital Farms packages, markets and distributes pasture-raised shell eggs, pasture-raised butter and other products. These products are sold under the trade names Vital Farms, Alfresco Farms, Lucky Ladies and RedHill Farms, primarily to retail foodservice channels in the United States.

Vital Farms Arkansas, LLC, Vital Farms Missouri, LLC, Backyard Eggs, LLC, Barn Door Farms, LLC and Sagebrush Foodservice, LLC are all wholly owned subsidiaries of Vital Farms (collectively referred to with Vital Farms as the “Company”). All significant intercompany transactions and balances have been eliminated in the Vital Farms consolidated financial statements.

The consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and include the accounts of Vital Farms, its subsidiaries and a variable interest entity (“VIE”) in which Vital Farms has an interest and is the primary beneficiary. See Note 3, “Variable Interest Entity.” The noncontrolling interest attributable to the Company’s VIE is presented as a separate component from stockholders’ equity in the consolidated balance sheet.

Change in Fiscal Year: In January 2018, the Company elected to change from a calendar year ending on December 31 to a 52-53-week fiscal year, ending on the last Sunday in December, effective beginning with the first quarter of 2018. In a 52-53-week fiscal year, each of the Company’s fiscal quarters consist of 13 weeks. The additional week in a 53-week fiscal year is added to the fourth quarter, making such quarter consist of 14 weeks. The Company’s first 53-week fiscal year will be fiscal 2023 which the Company expects to begin on December 26, 2022 and end on December 31, 2023.

Liquidity and Going Concern: In accordance with Accounting Standards Update (“ASU”) No. 2014-15, Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern (Subtopic 205-40), the Company has evaluated whether there are certain conditions and events, considered in the aggregate, that raise substantial doubt about the Company’s ability to continue as a going concern within one year after the date that the consolidated financial statements are issued.

Through December 30, 2018, the Company has funded its operations primarily with cash flows from product sales, proceeds from the sale of its capital stock and proceeds from borrowings under its existing Credit Facility (as defined in Note 10, “Long-Term Debt”). The Company recognized net income of \$5,629 for the year ended December 30, 2018. In addition, the Company had retained earnings of \$2,854 as of December 30, 2018. As of December 6, 2019, the issuance date of the consolidated financial statements, the Company expects that its cash and cash equivalents of \$11,815 as of December 30, 2018, together with cash provided by operating activities, will be sufficient to fund its operating expenses and capital expenditure requirements for at least 12 months from the issuance date of the consolidated financial statements. The future viability of the Company beyond that point is dependent on its ability to raise additional capital to finance its operations.

2. Summary of Significant Accounting Policies

Use of Estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Such estimates principally include revenue recognition, determination of

VITAL FARMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands, except share and per share amounts)

useful lives for property and equipment, goodwill, contingent consideration, allowance for doubtful accounts, inventory obsolescence, valuation of common stock, stock option valuations, redeemable noncontrolling interest, accrual liabilities and income taxes. Actual results could differ from those estimates.

Unaudited Pro Forma Information: The unaudited pro forma balance sheet data as of December 30, 2018 assumes the automatic conversion of all outstanding shares of the Company’s Series B, Series C and Series D convertible preferred stock (collectively, “Preferred Stock”) into shares of the Company’s common stock immediately upon the closing of the Company’s planned initial public offering (“IPO”). The shares of the Company’s common stock expected to be issued, and the related net proceeds expected to be received, in connection with the planned IPO are excluded from such pro forma information.

The unaudited pro forma basic and diluted net income per share for the year ended December 30, 2018 assumes the automatic conversion of all outstanding shares of Preferred Stock into shares of the Company’s common stock immediately upon the closing of the Company’s planned IPO, as though the conversion had occurred as of the beginning of the period. The shares of the Company’s common stock expected to be issued, and the related net proceeds expected to be received, in connection with the planned IPO are excluded from such pro forma information.

Concentrations of Credit Risk and Significant Customers: Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash and cash equivalents and accounts receivable. The Company maintains deposits with large financial institutions that the Company believes are of high credit quality. At times the Company’s cash and cash equivalents balances with individual banking institutions are in excess of federally insured limits. The Company has not experienced any losses related to its cash and cash equivalents balances.

As of December 30, 2018, the Company had customers that individually represented 10% or more of the Company’s accounts receivable, net and customers that individually exceeded 10% or more of the Company’s net revenue for the year ended December 30, 2018. The percentage of net revenue from these significant customers during the year ended December 30, 2018 and accounts receivable, net due from these significant customers as of December 30, 2018 are as follows:

	Net Revenue Year Ended December 30, 2018	Accounts Receivable, Net As Of December 30, 2018
Customer A	36%	10%
Customer B	14%	29%
Customer C	10%	*

* Accounts receivable was less than 10%.

The Company performs ongoing credit evaluations of its customers’ financial condition but does not require collateral to support customer receivables.

Cash and Cash Equivalents: The Company considers all short-term, highly liquid investments purchased with an original maturity of three months or less at the date of purchase to be cash equivalents. Cash deposits are all in financial institutions in the United States. As of December 30, 2018, cash and cash equivalents consisted of cash on deposit with balances denominated in U.S. dollars and investments in money market funds.

Deferred Offering Costs: The Company capitalizes certain legal, accounting and other third-party fees that are directly related to the Company’s in-process equity financings, including the planned IPO, until such financings are consummated. After consummation of an equity financing, these costs are recorded as a reduction of the

VITAL FARMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands, except share and per share amounts)

proceeds received as a result of the financing. Should a planned equity financing be abandoned, terminated or significantly delayed, the deferred offering costs are immediately written off to operating expenses. There were no deferred offering costs capitalized as of December 30, 2018.

Variable Interest Entity: The Company consolidates all entities where a controlling financial interest exists. The Company has considered its relationships with a certain entity to determine whether the Company has a variable interest in that entity, and if so, whether the Company is the primary beneficiary of the relationship. GAAP requires VIEs to be consolidated if an entity's interest in the VIE is a controlling financial interest. Under the variable model, a controlling financial interest is determined based on which entity, if any, has (i) the power to direct the activities of the VIE that most significantly impacts the VIE's economic performance and (ii) the obligations to absorb losses that could potentially be significant to the VIE or the right to receive benefits from the VIE that could potentially be significant to the VIE.

Management performs ongoing reassessments of whether changes in the facts and circumstances regarding the Company's involvement with a VIE will cause the consolidation conclusion to change. The consolidation status of a VIE may change as a result of such reassessments. Changes in consolidation status are applied prospectively in accordance with GAAP.

Segment Information: The Company operates and manages its business as one reportable and operating segment. The Company's chief executive officer, who is the chief operating decision maker, reviews financial information on an aggregate basis for purposes of evaluating financial performance and allocating resources. All of the Company's long-lived assets and customers are located in the United States.

Fair Value of Financial Instruments: Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The three levels of inputs that may be used to measure fair value are defined below:

- Level 1 - Quoted prices in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 - Unobservable inputs that are supported by little or no market activity that are significant to determining the fair value of the assets or liabilities, including pricing models, discounted cash flow methodologies and similar techniques.

The carrying amounts of the Company's long-term debt approximate the fair value based on consideration of current borrowing rates available to the Company (Level 2 input). The carrying values of accounts receivable, accounts payable, accrued expenses and other current liabilities approximate their fair values due to the short-term nature of these assets and liabilities.

Accounts Receivable: Accounts receivable are stated at invoice value less estimated allowances for doubtful accounts. The Company establishes an allowance for doubtful accounts as losses are estimated to have occurred through a provision for bad debts charged to earnings. Losses are charged against the allowance when management believes the un-collectability of a receivable is confirmed. These losses have been immaterial to date. Subsequent recoveries, if any, are credited to the allowance. The allowance for doubtful accounts is evaluated on a regular basis by management and is based on the credit risk of specific customers, past collection

VITAL FARMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands, except share and per share amounts)

history, and management's evaluation of accounts receivable. The evaluation is inherently subjective, as it requires estimates that are susceptible to significant revision as more information becomes available. The Company did not record an allowance for doubtful accounts at December 30, 2018.

Inventories: Inventories are stated at the lower of cost (determined under the first-in, first-out method) or net realizable value. Inventory includes eggs, butter, packaging, feed, laying hens, pullets, merchandise and equipment parts. A reduction in the carrying value of an inventory item from cost to net realizable value is recorded in cost of goods sold with the offset to inventory. Any inventory that does not meet the quality control standards of the Company is separated and a reserve is recorded for the cost.

The cost associated with laying hens and pullets are accumulated up to the production stage which involves a growing period of approximately 24 weeks, and are amortized to cost of goods sold over their productive lives, which are generally 54 weeks.

Property, Plant and Equipment, Net: Property, plant and equipment are stated at cost, net of accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method over the estimated useful lives. The general range of useful lives of other property, plant and equipment is as follows:

	<u>Estimated Useful Life</u>
Land	N/A
Building and improvements	39 years
Vehicles	5 years
Machinery and equipment	2 to 7 years
Furniture and fixtures	5 years
Leasehold improvements	Lesser of lease term or 5 years

When assets are sold or retired, the cost and related accumulated depreciation or amortization of assets disposed of are removed from the accounts, with any resulting gain or loss recorded in income from operations in the consolidated statement of operations. Costs of repairs and maintenance are expensed as incurred.

Goodwill: Goodwill represents the excess of cost over the fair value of the net tangible and identifiable intangible assets acquired in a business combination. Goodwill is not amortized but is tested for impairment annually on the first day of the fourth fiscal quarter or more frequently if events or changes in circumstances indicate that the asset may be impaired. The Company's goodwill impairment test is performed at the enterprise level given the sole reporting unit.

The Company first assesses qualitative factors to determine whether events or circumstances existed that would lead the Company to conclude that it is more likely than not that the fair value of the reporting unit is below its carrying amount. If the Company determines that it is more likely than not that the fair value of the reporting unit is below the carrying amount, a quantitative goodwill assessment is required. In the quantitative evaluation, the fair value of the reporting unit is determined and compared to the carrying value. If the fair value is greater than the carrying value, then the carrying value is deemed to be recoverable and no further action is required. If the fair value estimate is less than the carrying value, goodwill is considered impaired for the amount by which the carrying amount exceeds the reporting unit's fair value and a charge is reported as impairment of goodwill in the consolidated statement of operations.

No impairment was recorded during the fiscal year ended December 30, 2018.

VITAL FARMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands, except share and per share amounts)

Impairment of Long-Lived Assets: The Company reviews the carrying value of property, plant and equipment for impairment whenever events and circumstances indicate the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects and the effects of obsolescence, demand, competition and other economic factors. The Company did not recognize an impairment loss during the year ended December 30, 2018.

Contingent Consideration: In connection with the Company's acquisition of Heartland Eggs, LLC ("HEC") in 2014, the Company was required to make royalty payments to prior owners of HEC. The royalty payments are contingent on the Company's future purchase of eggs from supplier contracts that were acquired in the HEC acquisition. The royalty payments are deemed to be contingent because the future egg purchases are not guaranteed, and the timing and amount of any such purchases are unknown. The fair value of the contingent consideration was determined at the acquisition date using unobservable inputs (Level 3 inputs). These inputs included projected financial information, market volatility, risk-adjusted discount rates and timing of contractual payments. Subsequent to the acquisition date, at each reporting date, the contingent consideration liability is remeasured to fair value with changes in fair value recorded within general and administrative expenses in the Company's consolidated statement of operations.

Noncontrolling Interest: The Company recognizes noncontrolling interest related to VIE's, in which the Company is the primary beneficiary, as equity in the consolidated financial statements separate from the parent entity's equity. The amount of net loss attributable to noncontrolling interests are included in consolidated net income on the face of the consolidated statement of operations. Changes in the parent entity's ownership interest in a subsidiary that do not result in deconsolidation are treated as equity transactions if the parent entity retains its controlling financial interest. In addition, when a subsidiary is deconsolidated, any retained noncontrolling equity investment in the former subsidiary will be initially measured at fair value and the difference between the carrying value and fair value of the retained interest will be recorded as a gain or loss. Affiliate equity interests where the Company has certain rights to demand settlement are presented at their current redemption values, as redeemable noncontrolling interest in the consolidated balance sheet. Because these transactions take place between entities under common control, any gains or losses attributable to these transactions are required to be included within additional paid-in-capital on the consolidated balance sheet.

Income Taxes: Income taxes are computed using the asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in the consolidated financial statements. In estimating future tax consequences, the Company considers all expected future events other than enactment of changes in tax laws or rates. A valuation allowance is recorded, if necessary, to reduce net deferred tax assets to their realizable values if management does not believe it is more likely than not that the net deferred tax assets will be realized.

The Company follows the provisions of the authoritative guidance from the Financial Accounting Standards Board ("FASB") on accounting for uncertainty in income taxes. These provisions provide a comprehensive model for the recognition, measurement and disclosure in financial statements of uncertain income tax positions that a company has taken or expects to take on a tax return. Under these provisions, a company can recognize the benefit of an income tax position only if it is more likely than not (greater than 50%) that the tax position will be sustained upon tax examination, based solely on the technical merits of the tax position. Otherwise, no benefit can be recognized. Assessing an uncertain tax position begins with the initial determination of the sustainability of the position and is measured at the largest amount of benefit that is greater than 50% likely of being realized

VITAL FARMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

upon ultimate settlement. As of each balance sheet date, unresolved uncertain tax positions must be reassessed. Additionally, the Company must accrue interest and related penalties, if applicable, on all tax exposures for which reserves have been established consistent with jurisdictional tax laws.

The Company's policy is to recognize interest and penalties related to uncertain tax positions in the provision for income taxes. As of December 30, 2018, the Company had no accrued interest or penalties related to uncertain tax positions.

Net Income per Share Attributable to Vital Farms, Inc. Stockholders: The Company applies the two-class method to compute basic and diluted net income per share attributable to Vital Farms, Inc. stockholders when shares meet the definition of participating securities. The two-class method determines net income per share for each class of the Company's common stock and Preferred Stock according to dividends declared or accumulated and participation rights in undistributed earnings. The two-class method requires income available to common stockholders of Vital Farms, Inc. for the period to be allocated between the Company's common stock and Preferred Stock based upon their respective rights to share in the earnings as if all income for the period had been distributed. During periods of loss, there is no allocation required under the two-class method since the Preferred Stock does not have a contractual obligation to share in the Company's losses.

Basic net income per share attributable to Vital Farms, Inc. stockholders is computed by dividing net income by the weighted-average number of shares outstanding during the period without consideration of potentially dilutive common stock. Diluted net income per share reflects the potential dilution that could occur if securities or other contracts to issue shares of the Company's common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company unless inclusion of such shares would be anti-dilutive. For periods in which the Company reports net losses, diluted net loss per common share attributable to Vital Farms, Inc. stockholders is the same as basic net loss, because potentially dilutive common shares are not assumed to have been issued if their effect is anti-dilutive.

Revenue Recognition: The Company generates revenue primarily through sales of products, including pasture-raised eggs and butter, to its customers, which include natural channel retailers, mainstream channel retailers and foodservice partners. The Company sells its products to customers on a purchase-order basis.

The Company recognizes revenue when all the following criteria are met: (i) upon the transfer of title of the product, ownership and risk of loss to the customer, which typically occurs upon delivery and acceptance of the product by customers; (ii) collection of the relevant receivable is reasonably assured; (iii) persuasive evidence of an arrangement exists; and (iv) the sales price is fixed or determinable. The Company periodically offers sales incentives to its customers to encourage purchases. These sales incentives include discounts, in-store promotions, volume rebates and other similar offers. Provision for sales incentives is recorded at the later of the date at which the related revenue is recognized or the sales incentive is offered. At the end of each accounting period, the Company recognizes a liability for an estimated promotional allowance reserve. Chargebacks and discount offers, when accepted by customers, are treated as a reduction of the sales price of the related transaction. Current discount and inducement offers are presented as a net amount in net revenue. For the year ended December 30, 2018, the Company recorded chargebacks of \$1,388 and discounts of \$14,384.

Treasury Stock: The Company records treasury stock activities under the cost method whereby the cost of the acquired stock is recorded as treasury stock. The Company's accounting policy upon the formal retirement of treasury stock is to deduct the par value from the Company's common stock and to reflect any excess of cost over par value as a reduction to additional paid-in capital (to the extent created by previous issuances of the shares).

VITAL FARMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands, except share and per share amounts)

Shipping and Distribution: The Company's shipping and distribution costs include costs incurred with third-party carriers to transport products to customers and salaries and overhead costs related to activities to prepare the Company's products for shipment. Shipping and distribution costs were \$8,615 during the year ended December 30, 2018.

Stock-Based Compensation: The Company measures all stock-based awards granted to employees and directors based on the fair value on the date of the grant and recognizes compensation expense for those awards, over the requisite service period, which is generally the vesting period of the respective award. The fair value of each stock option grant is estimated on the date of grant using the Black-Scholes option-pricing model, which requires inputs based on certain subjective assumptions, including the expected stock price volatility, the expected term of the option the risk-free interest rate for a period that approximates the expected term of the option, and the Company's expected dividend yield. To date, the Company has issued stock-based awards with only service-based vesting conditions and records the expense for these awards using the straight-line method. See Note 14, "Stock-Based Compensation."

For stock-based awards granted to consultants and non-employees, compensation expense is recognized over the shorter of the vesting period or the period during which services are rendered by such consultants and non-employees until completed. At the end of each financial reporting period prior to completion of the service, the fair value of these awards is re-measured using the then-current fair value of the Company's common stock and updated assumption inputs in the Black-Scholes option-pricing model.

The Company classifies stock-based compensation expense in its consolidated statement of operations in the same manner in which the award recipient's payroll costs are classified or in which the award recipient's service payments are classified.

Stock Option Valuation: The fair value of stock option grants is estimated using the Black-Scholes option-pricing model. The Company historically has been a private company and lacks company-specific historical and implied volatility information. Therefore, it estimates its expected stock volatility based on the historical volatility of a publicly traded set of peer companies and expects to continue to do so until such time as it has adequate historical data regarding the volatility of its own traded stock price. For options with service-based vesting conditions, the expected term of the Company's stock options has been determined utilizing the "simplified" method for awards that qualify as "plain-vanilla" options. The expected term of stock options granted to non-employee consultants is equal to the contractual term of the option award. The risk-free interest rate is determined by reference to the U.S. Treasury yield curve in effect at the time of grant of the award for time periods approximately equal to the expected term of the award. Expected dividend yield is based on the fact that the Company has never paid cash dividends and does not expect to pay any cash dividends in the foreseeable future.

Advertising and Promotion Expenses: Advertising and promotion expenses consist primarily of costs incurred promoting and marketing the Company's products. The Company expenses all advertising and promotion costs as incurred. During the year ended December 30, 2018, the Company incurred advertising and promotion expenses of approximately \$4,613.

Recent Accounting Pronouncements: From time to time, new accounting pronouncements are issued by the FASB under its Accounting Standards Codification or other standard setting bodies. The Company is an emerging growth company, as defined in the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"). Under the JOBS Act, emerging growth companies can delay adopting new or revised accounting standards issued subsequent to the enactment of the JOBS Act until such time as those standards apply to private companies. Company has elected to use this extended transition period for complying with new or revised accounting standards that have different effective dates for public and private companies until the earlier of the date that it (i) is no longer an emerging growth company or (ii) it affirmatively and irrevocably opts out of the extended transition period provided in the JOBS Act. As a result, these financial statements may not be comparable to companies that comply with the new or revised accounting pronouncements as of public company effective dates.

Recently Adopted Accounting Pronouncements: In January 2017, the FASB issued ASU 2017-04, Intangibles – Goodwill and Other, that simplifies the accounting for goodwill impairment for all entities by requiring impairment charges to be based on the first step in the current two-step impairment test under ASC 350. Under current guidance, if the fair value of a reporting unit is lower than its carrying amount (Step 1), an entity calculates any impairment charge by comparing the implied fair value of goodwill with its carrying amount (Step 2). The implied fair value of goodwill is calculated by deducting the current fair value of all assets and liabilities of the reporting unit from the reporting unit's fair value as determined in Step 1. Under ASU 2017-04, if a reporting unit's carrying amount exceeds its fair value, an entity will record an impairment charge based on that difference. The impairment charge will be limited to the amount of goodwill allocated to that reporting unit. The guidance is effective for fiscal years beginning after December 15, 2020, and early adoption is permitted for annual and interim goodwill impairment testing dates after January 1, 2017. The guidance must be applied prospectively. The Company adopted this standard on January 1, 2018 and the adoption of this standard did not have a material impact on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, Compensation – Stock Compensation: Improvements to Employee Share-Based Payment Accounting (Topic 718). The new guidance simplifies certain aspects related to income taxes, statement of cash flows, and forfeitures when accounting for share-based payment transactions. Certain of the amendments related to timing of the recognition of tax benefits and tax withholding requirements should be applied using a modified retrospective transition method. Amendments related to the presentation of the statement of cash flows should be applied retrospectively. All other provisions may be applied on a prospective or modified retrospective basis. The Company adopted this standard on January 1, 2018 and elected to prospectively account for forfeitures as they occur. The adoption of this standard did not have a material impact on the Company's consolidated financial statements.

Recently Issued Accounting Pronouncements Not Yet Adopted: In August 2018, the FASB issued ASU 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement, which modifies the disclosure requirements for fair value measurements. The standard is effective for all entities for fiscal years and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted. The Company does not expect the adoption of ASU 2018-13 to have a material impact on its consolidated financial statements.

In June 2018, the FASB issued ASU 2018-07, Improvements to Nonemployee Share-Based Payment Accounting (Topic 718), which simplifies the accounting for share-based payments to nonemployees by aligning it with the accounting for share-based payments to employees, with certain exceptions. The new standard is effective for non-public companies for annual reporting periods beginning after December 15, 2019 with early adoption permitted. The Company does not expect the adoption of ASU 2018-17 to have a material impact on its consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments (Topic 230), which amends the guidance in ASC 230 on the classification of certain cash receipts and payments in the statement of cash flows. This standard clarifies the classification of

certain cash receipts and cash payments in the statement of cash flows, including debt prepayment or extinguishment costs, settlement of contingent consideration arising from a business combination, insurance settlement proceeds, and distributions from certain equity method investees. For non-public companies, the guidance in the ASU is effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. The Company does not expect the adoption of the new guidance to have a material impact on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). The guidance in ASU 2016-02 supersedes the leasing guidance in Topic 840, Leases. Under the new guidance, lessees are required to recognize lease assets and lease liabilities on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the consolidated statement of operations. An entity may adopt the guidance either (1) retrospectively to each prior reporting period presented in the financial statements with a cumulative-effect adjustment recognized at the beginning of the earliest comparative period presented or (2) retrospectively at the beginning of the period of adoption through a cumulative-effect adjustment. The Company expects to adopt the guidance retrospectively at the beginning of the period of adoption, January 1, 2020, through a cumulative-effect adjustment, and will not apply the new standard to comparative periods presented. The new standard provides a number of practical expedients. Upon adoption, the Company expects to elect all of the practical expedients available. The Company is currently evaluating the impact of its pending adoption of ASU 2016-02 on its consolidated financial statements.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments – Credit Losses (Topic 326), Measurement of Credit Losses on Financial Instruments, which requires financial assets measured at amortized cost to be presented at the net amount expected to be collected. The measurement of expected credit losses is based on relevant information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amounts. An entity must use judgment in determining the relevant information and estimation methods that are appropriate in its circumstances. For non-public companies, the guidance in ASU 2016-13 is effective for fiscal years beginning after December 15, 2020 and interim periods within fiscal years beginning after December 15, 2021. The Company is currently evaluating the impact of its pending adoption of ASU 2016-13 on its consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), to supersede nearly all existing revenue recognition guidance under GAAP. The core principle of ASU 2014-09 is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration to which an entity is expected to be entitled for those goods or services. ASU 2014-09 defines a five-step process to achieve this core principle and, in doing so, more judgment and estimates may be required within the revenue recognition process than required under existing GAAP, including identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each performance obligation. ASU 2014-09, as deferred one year by ASU 2015-14, will be effective for annual reporting periods beginning after December 15, 2018, using either of two methods: (a) retrospective to each prior reporting period presented with the option to elect certain practical expedients, as defined within ASU 2014-09; or (b) retrospective with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application and providing certain additional disclosures, as defined in ASU 2014-09. The Company is in the process of completing an initial evaluation of the potential impact from adopting the new standard, including a detailed review of performance obligations for all material revenue streams. The Company will adopt the standard using the modified retrospective method. The Company anticipates that the adoption of the new guidance will result in an increase to retained earnings on its

consolidated opening balance sheet as of December 31, 2018 and is currently evaluating the impact of its pending adoption of ASU 2014-09 on its consolidated financial statements.

3. Variable Interest Entity

In May 2016, the Company entered into a master joint development and production distribution agreement (the “JDPD Agreement”) with Novatrans Group SA (“Novatrans”) for the development of certain technology related to determining certain properties of an egg, including fertility (the “TeraEgg Technology”). In May 2016, pursuant to the JDPD Agreement, the Company paid \$446 to Novatrans for research and development activities in connection with the TeraEgg Technology.

In December 2016, pursuant to the JDPD Agreement, the Company entered into an assignment agreement with Ovabrite, Inc. (“Ovabrite”), whereby the Company granted and assigned to Ovabrite all rights and obligations of the Company under the JDPD Agreement. Ovabrite was incorporated in the state of Delaware in November 2016. The founding stockholders of Ovabrite are also stockholders of the Company, with the majority stockholder of Ovabrite’s equity at the time of formation serving as the Company’s executive chairman and member of the Company’s board of directors. Ovabrite is a related party because its principal owners are stockholders of the Company and Ovabrite is deemed to be a VIE.

In December 2016, in consideration for the assignment and grant of rights under the JDPD Agreement, Ovabrite issued an unsecured promissory note in a principal amount of \$446 (the “First Note”) to the Company, which represented the total cash paid by the Company to Novatrans under the JDPD Agreement. Interest on the First Note accrued at an annual rate of 1.46%, and Ovabrite was required to make semi-annual payments on amounts outstanding under the First Note, including any accrued but unpaid interest, until the First Note matured on December 23, 2021.

In December 2016, the Company extended an unsecured line of credit to Ovabrite to be used for working capital under which Ovabrite’s maximum borrowing capacity was \$50 (the “Ovabrite Line of Credit”). Interest on the Ovabrite Line of Credit accrued at an annual rate of 1.46%, and Ovabrite was required to make semi-annual payments on amounts outstanding under the Ovabrite Line of Credit including any accrued but unpaid interest, until the Ovabrite Line of Credit matured on December 23, 2021.

In December 2016, the Company entered into a services agreement with Ovabrite under which the Company provides certain administrative services to Ovabrite in exchange for a monthly management fee.

In November 2017, Ovabrite modified the First Note and the Ovabrite Line of Credit and issued a 1.45% unsecured convertible promissory note to the Company in a principal amount of \$496 plus previously accrued and unpaid interest of \$6 (the “Ovabrite Convertible Note”). In the event of a qualified sale of Ovabrite equity securities to one or more investors resulting in gross proceeds to Ovabrite of at least \$1,000, all principal and accrued and unpaid interest on the Ovabrite Convertible Note was automatically convertible into a number of shares of Ovabrite’s equity securities issued in such a financing equal to the outstanding principal and accrued but unpaid interest on the Ovabrite Convertible Note, divided by an amount equal to 80% of the lowest price per share of the equity security sold in the financing. In the event of a non-qualified sale of Ovabrite equity securities (a “Nonqualified Financing”), all principal and accrued and unpaid interest on the Ovabrite Convertible Note was contingently convertible into a number of shares of Ovabrite’s equity securities issued in such a financing equal to the outstanding principal and accrued but unpaid interest on the Ovabrite Convertible Note, divided by an amount equal to 80% of the lowest price per share of the equity security sold in such financing.

In November 2017, Ovabrite issued 1,065,038 shares of convertible preferred stock (the “Series 2017 Preferred Stock”) at \$0.14 per share for gross proceeds of \$150, which constituted a Nonqualified Financing; issuance

costs associated with the financing were de minimis. In March 2018, in connection with the Series 2017 Preferred Stock purchase agreement, Ovabrite issued an additional 177,506 shares of Series 2017 Preferred Stock at \$0.14 per shares for gross proceeds of \$25 to its stockholders; issuance costs associated with the financing were de minimis. In April 2018, as a result of the Nonqualified Financing event that occurred in November 2017, the Company elected to exercise its option to convert the outstanding principal balance of the Ovabrite Convertible Note into 4,459,490 shares of Series 2017 Preferred Stock at a conversion price of \$0.112672 per share.

The Company is the primary beneficiary of the VIE as the Company has (i) the power to direct the activities of Ovabrite that most significantly impact Ovabrite's economic performance and (ii) the obligation to absorb losses that could potentially be significant to Ovabrite, or the right to receive benefits from Ovabrite that could potentially be significant to Ovabrite. Therefore, the assets, liabilities, and results of operations of Ovabrite are included in the consolidated financial statements.

Redeemable Noncontrolling Interests: In connection with the consolidation of Ovabrite, the Company recognized the issuance of Series 2017 Preferred Stock in November 2017 and April 2018 as redeemable noncontrolling interests. The Series 2017 Preferred Stock is considered redeemable noncontrolling interests and are classified in mezzanine equity on the consolidated balance sheet as the shares are redeemable upon an event that is not solely within the control of Ovabrite. A liquidation, dissolution or winding up of Ovabrite would constitute a redemption event, which may be outside of Ovabrite's control. The redeemable noncontrolling interests were measured at fair value upon issuance. Subsequent measurement depends on either (i) the redeemable noncontrolling interests becoming redeemable at fair value or (ii) when the Series 2017 Preferred Stock becomes, or is probable of becoming, redeemable. The noncontrolling interest has not been remeasured to fair value since issuance because it is currently not probable that the Series 2017 Preferred Stock will become redeemable based on the likelihood of occurrence of certain events that would prevent it from becoming redeemable. If the Company determines that redemption of the Series 2017 Preferred Stock is probable, the noncontrolling interest will be remeasured to fair value, with changes in the carrying value recognized within additional paid-in-capital.

In the event of any voluntary or involuntary liquidation, dissolution or winding up of Ovabrite or deemed liquidation event, the holders of the shares of outstanding Series 2017 Preferred Stock shall be entitled to an amount equal to the greater of (a) the Series 2017 Original Issue price, plus any dividends declared but unpaid or (b) such amount per share as would have been payable had all shares been converted into Ovabrite common stock immediately prior to such liquidation, dissolution or winding up or deemed liquidation event.

The contingent consideration in the table above relates to royalty payments in connection with the HEC acquisition. The fair value of the contingent consideration was determined based on significant inputs not observable in the market, which represents a Level 3 measurement within the fair value hierarchy. See Note 2, "Summary of Significant Accounting Policies."

The Company used a discounted cash flow valuation technique which incorporates estimates and assumptions to value the contingent consideration. Key estimates and assumptions impacting the fair value measurement include: (i) projected financial information, (ii) market volatility, (iii) risk-adjusted discount rates and (iv) timing of contractual payments.

The following table presents the unobservable inputs incorporated into the valuation of contingent consideration:

Fair Value Liability	Valuation Technique	Unobservable Input	Amount

		Royalty rate per dozen eggs	\$ 0.07

On April 13, 2018 and April 25, 2018, the Company entered into amended loan agreements in connection with the Credit Facility (the “First Amendment Loan” and “Second Amendment Loan,” respectively). The First Amendment Loan was entered to decrease the maximum borrowings under the equipment note from \$1,500 to \$750 and to waive existing events of default. The Second Amendment Loan was entered to modify various definitions and terms that were not significant.

The Credit Facility also contains various covenants relating to limitations on indebtedness, on investments and acquisitions, on the sale of properties and on liens and capital expenditures. The Credit Facility also contains other customary covenants, representations and events of default.

The Company incurred debt issuance costs of \$219 during the year ended December 31, 2017 relating to the Credit Facility. These costs were capitalized as loan origination fees and recorded as debt issuance costs. The debt issuance costs are reflected as a reduction of the carrying value of long-term debt on the Company’s consolidated balance sheet and is being amortized to interest expense over the term of the Credit Facility using the effective interest method. Upon any voluntary or involuntary liquidation, dissolution or winding up of the Company, holders of Series B Preferred Stock and Series C Preferred Stock will be entitled to be paid out of the assets of the Company available for distribution to its stockholders, before any payment shall be made to the holders of the Company's common stock, an amount equal to the greater of (i) \$8.12 per share of Series B Preferred Stock, plus any declared but unpaid dividends, or \$11.98 per share of Series C Preferred Stock or (ii) such amount per share as would have been payable had all shares of Series B Preferred Stock and Series C Preferred Stock been converted into shares of the Company's common stock immediately prior to such liquidation, dissolution or deemed liquidation event; provided that, if upon any liquidation event the amounts payable with respect to any series of Series B Preferred Stock and Series C Preferred Stock, are not paid in full, the holders thereof shall share ratably in all the assets available for payment in proportion to the full respective liquidation preference amount to which they are entitled. 15. Income Taxes

For the year ended December 30, 2018, the provision for income taxes consisted of the following:

	Year Ended December 30, 2018
Current:	
Federal	\$ —
State	3
Deferred:	
Federal	794
State	(74)
Provision for income taxes	<u>\$ 723</u>

VITAL FARMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands, except share and per share amounts)

The reconciliation of the federal statutory income tax provision to the Company's effective income tax provision is as follows:

	Year Ended December 30, 2018
Provision (benefit) at statutory rate at 21%	\$ 1,334
State income taxes, net of federal (benefit)	182
Permanent difference	129
Change in deferred tax asset valuation allowance	(655)
Other	(267)
Provision for income taxes	<u>\$ 723</u>

Deferred income taxes reflect the net tax effects of loss and credit carryforwards and temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The Company's deferred income tax assets and liabilities at December 30, 2018 were comprised of the following:

	December 30, 2018
Deferred tax assets:	
Accrued expenses	\$ 844
Inventory reserve	108
Net operating loss carryforwards	230
Other	105
Total deferred tax assets	1,287
Less: Valuation allowance	(115)
Net deferred tax assets	<u>\$ 1,172</u>
Deferred tax liabilities:	
Prepaid expenses	\$ 92
Property and equipment	1,783
Total deferred tax liabilities	1,875
Net deferred tax liability	<u>\$ 703</u>

A valuation allowance is required to be established when it is more likely than not that all or a portion of a deferred tax asset will not be realized. Realization of deferred tax assets is dependent upon future earnings, the timing and amount of which are uncertain. A full review of all positive and negative evidence needs to be considered, including the Company's current and past performance, the market environments in which the Company operates, the utilization of past tax credits, the length of carry back and carry forward periods and tax planning strategies that might be implemented. Management considered the scheduled reversal of deferred tax liabilities and projected future taxable income in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, with the exception of the OvaBrite deferred tax assets for which a full valuation allowance has been recorded, management believes it is more likely than not that the Company will realize the benefits of these deductible differences at December 30, 2018. The net change in the total valuation allowance for the year ended December 30, 2018 was a decrease of approximately \$655.

VITAL FARMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Amounts in thousands, except share and per share amounts)

Valuation allowance as of beginning of year	\$770
Increases recorded to income tax provision	40
Decreases recorded as a benefit to income tax provision	(695)
Valuation allowance as of end of year	<u>\$115</u>

At December 30, 2018, the Company has net operating loss carryforwards for federal and state income tax purposes of \$780 and \$300, respectively, which begin to expire in 2036 and 2021, respectively, if not utilized. In addition, Ovabrite, for which we do not file a consolidated tax return, has net operating loss carryforwards of \$270 for which a full valuation allowance has been recorded.

As of December 30, 2018, the Company had unrecognized tax benefits, which represent the aggregate tax effect of the differences between tax return positions and the benefits recognized in the Company's financial statements. At December 30, 2018 an insignificant amount of the unrecognized tax benefits, if recognized, would affect the Company's annual effective tax rate. The unrecognized tax benefits are long-term in nature and included within deferred tax liability, net on the consolidated balance sheet.

The following table reflects changes in gross unrecognized tax benefits:

	<u>December 30, 2018</u>
Gross tax contingencies as of beginning of year	\$ 201
Increase in gross tax contingencies	113
Gross tax contingencies as of end of year	<u>\$ 314</u>

The Company files a U.S. federal income tax return, as well as income tax returns in various states. The tax years through 2018 remain open to examination by the tax jurisdictions to which the Company is subject.

Supplier Contracts: The Company purchases its inventories under long-term supply contracts with farms. Purchase commitments contained in these arrangements are variable dependent upon the quantity of eggs produced by the farms. Accordingly, there are no estimable future purchase commitments associated with these supplier contracts. As of December 30, 2018, all of the future minimum purchase commitments associated with these supplier contracts were contingent payments. In addition, substantially all of the supplier contracts with farms contain components that meet the definition of an operating lease under Topic 840, Leases, with respect to the property, plant and equipment used in the production of eggs. As consideration paid under these arrangements is variable, the lease payments are contingent rentals. The contingent rentals are capitalized into inventory in the consolidated balance sheet when the related eggs are purchased and are expensed to cost of goods sold in the statement of operations upon their sale to customers. As of December 30, 2018, all of the future lease payments associated with these arrangements were contingent rentals and are excluded from the future minimum lease payments disclosed in the table above.

The maximum potential amount of future payments the Company could be required to make under these indemnification agreements is, in many cases, unlimited. As of December 30, 2018, the Company has not incurred any material costs as a result of such indemnifications.

Litigation: The Company is subject to various claims and contingencies which are in the scope of ordinary and routine litigation incidental to its business, including those related to regulation, litigation, business transactions, employee-related matters and taxes, among others. When the Company becomes aware of a claim or potential claim, the likelihood of any loss or exposure is assessed. If it is probable that a loss will result and the amount of the loss can be reasonably estimated, the Company records a liability for the loss. The liability recorded includes probable and estimable legal costs incurred to date and future legal costs to the point in the legal matter where the Company believes a conclusion to the matter will be reached. If the loss is not probable or the amount of the loss cannot be reasonably estimated, the Company discloses the claim if the likelihood of a potential loss is reasonably possible.

In 2018, the Company settled a lawsuit, in which the Company was the plaintiff. Accordingly, the Company has consolidated the results of Ovabrite since November 2016. All transactions between the Company and Ovabrite have been eliminated in consolidation.

19. 401(K) Savings Plan

The Company established a defined contribution savings plan under Section 401(k) of the Internal Revenue Code of 1986, as amended. This plan covers substantially all employees who meet minimum age and service requirements and allows participants to defer a portion of their annual compensation on a pre-tax basis. Item 17. Undertakings.

The undersigned registrant hereby undertakes to provide to the underwriters at the closing specified in the underwriting agreement certificates in such denominations and registered in such names as required by the underwriters to permit prompt delivery to each purchaser.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant under the foregoing provisions or otherwise, the registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such

liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this registration statement in reliance on Rule 430A and contained in a form of prospectus filed by the registrant under Rule 424(b)(1) or (4) or 497(h) under the Securities Act will be deemed to be part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus will be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time will be deemed to be the initial bona fide offering thereof.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the registrant has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in Austin, Texas, on _____, 2020.

SECOND AMENDED AND RESTATED BYLAWS

OF

VITAL FARMS, INC.

These SECOND AMENDED AND RESTATED BYLAWS of Vital Farms, Inc., a Delaware corporation, amend and restate in their entirety the Bylaws of the corporation previously adopted by the corporation's Board of Directors.

ARTICLE I

OFFICES

SECTION 1.01. *Registered Office.* The registered office of the corporation in the State of Delaware shall be in the City of Wilmington, County of New Castle, and the name of its registered agent shall be Corporation Service Company.

SECTION 1.02. *Other Offices.* The corporation may also have offices at such other places both within and without the State of Delaware as the Board of Directors may from time to time determine or the business of the corporation may require.

ARTICLE II

MEETINGS OF STOCKHOLDERS

SECTION 2.01. *Annual Meeting.* The annual meeting of stockholders for the election of directors, and for the transaction of any other proper business, shall be held at such date and time as shall be designated from time to time by the Board of Directors and stated in the notice of the meeting.

SECTION 2.02. *Special Meeting.* Special meetings of the stockholders, for any purpose or purposes, unless otherwise prescribed by statute or by the Company's certificate of incorporation (as may be amended from time to time, the "**Certificate of Incorporation**"), may be called at any time by the Chairman of the Board, the Chief Executive Officer or the President of the corporation or by the Board of Directors or by written order of a majority of the directors and shall be called by the President, the Chief Executive Officer or the Secretary at the request in writing of stockholders owning not less than ten percent (10%) of the capital stock of the corporation issued and outstanding and entitled to vote. Such request shall state the purposes of the proposed meeting.

SECTION 2.03. *Place of Meeting.* All meetings of stockholders shall be held at such place, if any, either within or without the State of Delaware, as shall be designated from time to time by the Board of Directors and stated in the notice of such meeting. The Board of Directors may, in its sole discretion and subject to such guidelines and procedures as the Board of Directors may from time to time adopt, determine that the meeting shall not be held at any specific place, but may instead be held solely by means of remote communication.

SECTION 2.04. *Notice of Meeting.* Written or other proper notice of any meeting of stockholders, stating the place, if any, date and hour of the meeting, the means of remote communications, if any, by which stockholders and proxyholders may be deemed to be present in person and vote at such adjourned meetings, and, in the case of a special meeting, the purpose or purposes thereof, shall be given to each stockholder entitled to vote thereat, not less than ten (10) nor more than sixty (60) days before the meeting. Business transacted at any special meeting of stockholders shall be limited to the purposes stated in the notice.

SECTION 2.05. *Voting List.* The officer who has charge of the stock ledger of the corporation shall prepare and make, at least ten (10) days before every meeting of stockholders, a complete list of the stockholders entitled to vote at the meeting, arranged in alphabetical order, and showing the address of each stockholder and the number of shares registered in the name of each stockholder. Such list shall be open to the examination of any stockholder, for any purpose germane to the meeting, during ordinary business hours, for a period of at least ten (10) days prior to the meeting (i) on a reasonably accessible electronic network, provided that the information required to gain access to such list is provided with the notice of the meeting, or (ii) during ordinary business hours, at the principal place of business of the corporation. If the meeting is to be held at a specific place, then the list shall be produced and kept at the time and place of the meeting during the whole time thereof, and may be inspected by any stockholder who is present. If the meeting is to be held solely by means of remote communication, then the list shall also be open to the examination of any stockholder during the whole time of the meeting on a reasonably accessible electronic network, and the information required to access such list shall be provided with the notice of the meeting.

SECTION 2.06. *Quorum.* At any meeting of the stockholders, the holders of a majority of the shares issued and outstanding and entitled to vote thereat, present in person or represented by proxy, shall constitute a quorum for the transaction of business, except as otherwise provided by statute, by the Certificate of Incorporation or by these bylaws. If, however, such quorum shall not be present or represented at any meeting of the stockholders, the stockholders entitled to vote thereat, present in person or represented by proxy, shall have power to adjourn the meeting from time to time, without notice other than announcement at the meeting, until a quorum shall be present or represented. At such adjourned meeting at which a quorum shall be present or represented any business may be transacted which might have been transacted at the meeting as originally notified. If the adjournment is for more than thirty (30) days, or if after the adjournment a new record date is fixed for the adjourned meeting, a notice of the adjourned meeting shall be given to each stockholder of record entitled to vote at the meeting.

SECTION 2.07. *Voting*. When a quorum is present at any meeting of the stockholders, the vote of the holders of a majority of the shares entitled to vote on the subject matter and present in person or represented by proxy shall decide any question brought before such meeting, unless the question is one upon which, by express provision of (i) applicable statutes, (ii) the Certificate of Incorporation, (iii) any agreement among the stockholders or (iv) these bylaws, a different vote is required, in which case such express provision shall govern and control the decision of such question. Except as otherwise provided in the Certificate of Incorporation and/or any agreement among the stockholders, each stockholder entitled to vote at any meeting of the stockholders shall be entitled to one vote for each share of capital stock held by the stockholder.

SECTION 2.08. *Proxies*. Each stockholder entitled to vote at a meeting of the stockholders may authorize, by an instrument in writing subscribed by such stockholder, bearing a date not more than three (3) years prior to voting, unless such instrument provides for a longer period, and filed with the Secretary of the corporation before, or at the time of the meeting, another person or persons to act for him by proxy.

SECTION 2.09. *Consent of Stockholders*. Unless otherwise provided in the Certificate of Incorporation or any agreement among the stockholders, any action required to be taken at any annual or special meeting of stockholders of the corporation, or any action which may be taken at any annual or special meeting of such stockholders, may be taken without a meeting, without prior notice and without a vote, if a consent in writing, setting forth the action so taken, shall be signed by the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted. Prompt notice of the taking of the corporate action without a meeting by less than unanimous written consent shall be given to those stockholders who have not consented in writing. A telegram, cablegram or other electronic transmission consenting to an action to be taken and transmitted by a stockholder or proxyholder, or by a person or persons authorized to act for a stockholder or proxyholder, shall be deemed to be written, signed and dated, for the purposes of this Section to the extent permitted by law.

SECTION 2.10. *Voting of Stock of Certain Holders*. Shares of the corporation's capital stock standing in the name of another corporation, domestic or foreign, may be voted by such officer, agent, or proxy as the bylaws of such corporation may prescribe, or in the absence of such provision, as the Board of Directors of such corporation may determine. Shares standing in the name of a deceased person may be voted by the executor or administrator of such deceased person, either in person or by proxy. Shares standing in the name of a guardian, conservator, or trustee may be voted by such fiduciary, either in person or by proxy, but no such fiduciary shall be entitled to vote shares held in such fiduciary capacity without a transfer of such shares into the name of such fiduciary. Shares standing in the name of a receiver may be voted by such receiver. A stockholder whose shares are pledged shall be entitled to vote such shares, unless in the transfer by the pledgor on the books of the corporation, he or she has expressly empowered the pledgee to vote thereon, in which case only the pledgee, or his or her proxy, may represent the stock and vote thereon.

SECTION 2.11. *Treasury Stock.* The corporation shall not vote, directly or indirectly, shares of its own capital stock owned by it; and such shares shall not be counted in determining the total number of outstanding shares of the corporation's capital stock.

SECTION 2.12. *Fixing Record Date.* The Board of Directors may fix in advance a date, which shall not be more than sixty (60) days nor less than ten (10) days preceding the date of any meeting of stockholders, nor more than sixty (60) days preceding the date for payment of any dividend or distribution, or the date for the allotment of rights, or the date when any change, or conversion or exchange of capital stock shall go into effect, or a date in connection with obtaining a consent, as a record date for the determination of the stockholders entitled to notice of, and to vote at, any such meeting and any adjournment thereof, or entitled to receive payment of any such dividend or distribution, or to receive any such allotment of rights, or to exercise the rights in respect of any such change, conversion or exchange of capital stock, or to give such consent, and in such case such stockholders and only such stockholders as shall be stockholders of record on the date so fixed, shall be entitled to such notice of, and to vote at, any such meeting and any adjournment thereof, or to receive payment of such dividend or distribution, or to receive such allotment of rights, or to exercise such rights, or to give such consent, as the case may be, notwithstanding any transfer of any stock on the books of the corporation after any such record date fixed as aforesaid.

ARTICLE III

BOARD OF DIRECTORS

SECTION 3.01. *Powers.* The business and affairs of the corporation shall be managed by or under the direction of its Board of Directors, which may exercise all such powers of the corporation and do all such lawful acts and things as are not by statute or by the Certificate of Incorporation or any agreement among the stockholders or by these bylaws directed or required to be exercised or done by the stockholders.

SECTION 3.02. *Number, Election and Term.* Unless otherwise provided in the Certificate of Incorporation and/or an agreement among the stockholders, the number of directors shall be fixed from time to time by the Board of Directors. Directors need not be stockholders. Each director shall hold office until his successor is elected and qualified, or until his earlier death or resignation or removal in the manner hereinafter provided. Subject to the provisions of the Certificate of Incorporation and/or an agreement among the stockholders regarding the election of directors, at each meeting of the stockholders for the election of directors at which a quorum is present, the persons receiving the greatest number of votes, up to the number of directors to be elected, of the stockholders present in person or by proxy and entitled to vote thereon shall be the directors; provided, however, that for purposes of such vote no stockholder shall be allowed to cumulate his votes. Election of directors may be conducted in any manner approved at such meeting unless otherwise required by law.

SECTION 3.03. *Vacancies, Additional Directors, and Removal from Office.* Any director or the entire Board of Directors may be removed, with or without cause, at any time, by vote of the stockholders entitled to elect such director under the Certificate of Incorporation, an agreement among the stockholders or these bylaws, or by written consent of such stockholders pursuant to Section 2.09 of Article II. Vacancies occurring on the Board of Directors for any reason may be filled by vote of the stockholders entitled to elect such director under the Certificate of Incorporation, an agreement among the stockholders or these bylaws.

SECTION 3.04. *Resignation.* Any director may resign at any time upon notice given in writing or by electronic transmission to the corporation. A resignation from the Board of Directors shall be deemed to take effect immediately upon receipt of such notice or at such other time as the director may specify in the notice.

SECTION 3.05. *Regular Meetings.* A regular meeting of the Board of Directors shall be held each year, without other notice than this bylaw, at the place of, and immediately following, the annual meeting of stockholders; and other regular meetings of the Board of Directors may be held at such places (within or without the State of Delaware), if any, and at such times as the Board of Directors may provide, by resolution, without other notice than such resolution.

SECTION 3.06. *Special Meetings.* A special meeting of the Board of Directors may be called by the Chairman of the Board of Directors, by the President of the corporation or the Chief Executive Officer of the corporation and shall be called by the Secretary on the written request of any director. Notice of special meetings of the Board of Directors shall be given to each director at least forty-eight (48) hours prior to the time of such meeting and shall be given in writing or by electronic transmission. Each such notice shall state the time and place (within or without the State of Delaware), if any, of the meeting but need not state the purposes thereof, except that notice shall be given of any proposed amendment to the bylaws if it is to be adopted at any special meeting or with respect to any other matter where notice is required by statute or by these bylaws.

SECTION 3.07. *Quorum.* A majority of the Board of Directors (including at least two "Investor Directors" as defined in the Stockholders Agreement) shall constitute a quorum for the transaction of business at any meeting of the Board of Directors, and the act of a majority of the directors present at any meeting at which there is a quorum shall be the act of the Board of Directors, except as may be otherwise specifically provided by statute, by the Certificate of Incorporation, by any agreement among the stockholders, or by these bylaws. If a quorum shall not be present at any meeting of the Board of Directors, the directors present thereat may adjourn the meeting from time to time, without notice other than announcement at the meeting, until a quorum shall be present.

SECTION 3.08. *Communications.* Members of the Board of Directors, or of any committee thereof, may participate in a meeting of such board or committee by means of conference telephone or other communications equipment by means of which all persons participating in the meeting can hear each other, and participation in a meeting pursuant to this Section shall constitute presence in person at such meeting.

SECTION 3.09. *Action Without Meeting.* Unless otherwise restricted by the Certificate of Incorporation, any agreement among the stockholders, or these bylaws, any action required or permitted to be taken at any meeting of the Board of Directors, or of any committee thereof as provided in Article IV of these bylaws, may be taken without a meeting, if all the members of the Board of Directors or of such committee, as the case may be, consent thereto in writing or by electronic transmission, and the writing or writings or electronic transmission or transmissions are filed with the minutes of proceedings of the Board of Directors or such committee. Such filing shall be in paper form if the minutes are maintained in paper form and shall be in electronic form if the minutes are maintained in electronic form.

SECTION 3.10. *Compensation.* Unless otherwise restricted by the Certificate of Incorporation or these bylaws, the Board of Directors shall have the authority to fix the compensation of directors. The directors may be paid their expenses, if any, of attendance at each meeting of the board of directors and may be paid a fixed sum for attendance at each meeting of the Board of Directors or a stated salary as director. Nothing herein shall preclude any director from serving the corporation in any other capacity and receiving compensation therefor. Members of special or standing committees may be allowed like compensation for attending committee meetings.

ARTICLE IV

COMMITTEE OF DIRECTORS

SECTION 4.01. *Designation, Powers and Name.* The Board of Directors may, by resolution passed by a majority of the whole Board of Directors, designate one or more committees, including, if they shall so determine, an Executive Committee, each such committee to consist of one or more of the directors of the corporation and at least two Investor Directors as such term is defined in the Stockholders Agreement. The committee shall have and may exercise such of the powers of the Board of Directors in the management of the business and affairs of the corporation as may be provided in such resolution. The committee may authorize the seal of the corporation to be affixed to all papers that may require it. The Board of Directors may designate one or more directors as alternate members of any committee, who may replace any absent or disqualified member at any meeting of such committee. In the absence or disqualification of any member of such committee or committees, the member or members thereof present at any meeting and not disqualified from voting, whether or not he, she, or they constitute a quorum, may unanimously appoint another member of the Board of Directors to act at the meeting in the place of any such absent or disqualified member. Such committee or committees shall have such name or names and such limitations of authority as may be determined from time to time by resolution adopted by the Board of Directors.

SECTION 4.02. *Minutes.* Each committee of directors shall keep regular minutes of its proceedings and report the same to the Board of Directors when required.

SECTION 4.03. *Compensation.* Members of special or standing committees may be allowed compensation for attending committee meetings, if the Board of Directors shall so determine.

ARTICLE V

NOTICE

SECTION 5.01. *Methods of Giving Notice.* Whenever, under the provisions of applicable statutes, the Certificate of Incorporation or these bylaws, notice is required to be given to any director, member of any committee or stockholder, it shall not be necessary that personal notice be given, and such notice may be given in writing, by mail, addressed to such director, member, or stockholder at his or her address as it appears on the records of the corporation or at his or her residence or usual place of business, with postage thereon prepaid, and such notice shall be deemed to be given at the time when the same shall be deposited in the United States mail. Notice also may be given in any other proper form, as authorized by the Delaware General Corporation Law. Notice that is given by facsimile shall be deemed delivered when sent to a number at which any director, member or stockholder has consented to receive such notice. Notice by telegram or cablegram shall be deemed to be given when the same shall be filed. Notice that is given in person or by telephone shall be deemed to be given when the same shall be delivered. Without limiting the manner by which notice otherwise may be given effectively to any director, member or stockholder, any notice given under any provision of these bylaws shall be effective if given by a form of electronic transmission consented to by such person. Notice given by electronic mail shall be deemed delivered when directed to an electronic mail address at which such person has consented to receive notice and notice given by a posting on an electronic network together with separate notice to such person of such specific posting shall be deemed delivered upon the later of (a) such posting and (b) the giving of such separate notice. Notice given by any other form of electronic transmission shall be deemed given when directed to any director, member or stockholder in the manner consented to by such director, member or stockholder.

SECTION 5.02. *Waiver.* Whenever any notice is required to be given under the provisions of an applicable statute, the Certificate of Incorporation, or these bylaws, a waiver thereof in writing, signed by the person or persons entitled to said notice, or a waiver by electronic transmission by the person or persons entitled to said notice, whether before or after the time stated therein, shall be deemed equivalent thereto. Attendance of a person at a meeting shall constitute a waiver of notice of such meeting, except when the person attends a meeting for the express purpose of objecting, at the beginning of the meeting, to the transaction of any business because the meeting is not lawfully called or convened.

ARTICLE VI

OFFICERS

SECTION 6.01. *Officers.* The officers of the corporation shall be a President, one or more Vice Presidents, any one or more of which may be designated Executive Vice President or Senior Vice President, a Secretary and a Treasurer. The Board of Directors may appoint such other officers and agents, including a Chairman of the Board, a Vice Chairman of the Board, a Chief Executive Officer, Assistant Vice Presidents, Assistant Secretaries, and Assistant Treasurers, in each case as the Board of Directors shall deem necessary, who shall hold their offices for such terms and shall exercise such powers and perform such duties as shall be determined by the Board. Any two or more offices may be held by the same person. The Chairman and Vice Chairman of the Board, if any, shall be elected from among the directors. With the foregoing exceptions, none of the other officers need be a director, and none of the officers need be a stockholder of the corporation.

SECTION 6.02. *Election and Term of Office.* The officers of the corporation shall be elected annually by the Board of Directors at its first regular meeting held after the annual meeting of stockholders or as soon thereafter as conveniently possible. Each officer shall hold office until his or her successor shall have been chosen and shall have qualified or until his or her death or the effective date of his or her resignation or removal, or until he or she shall cease to be a director in the case of the Chairman and the Vice Chairman.

SECTION 6.03. *Removal and Resignation.* Any officer or agent elected or appointed by the Board of Directors may be removed without cause at any time by the Board of Directors. Any officer may resign at any time by giving written notice to the corporation. Any such resignation shall take effect at the date of the receipt of such notice or at any later time specified therein, and unless otherwise specified therein, the acceptance of such resignation shall not be necessary to make it effective.

SECTION 6.04. *Vacancies.* Any vacancy occurring in any office of the corporation by death, resignation, removal, or otherwise, may be filled by the Board of Directors for the unexpired portion of the term.

SECTION 6.05. *Salaries.* The salaries of all officers and agents of the corporation shall be fixed by the Board of Directors or pursuant to its direction; and no officer shall be prevented from receiving such salary by reason of his or her also being a director.

SECTION 6.06. *Chairman of the Board.* The Chairman of the Board (if such office is created by the Board) shall preside at all meetings of the Board of Directors or of the stockholders of the corporation. The Chairman shall formulate and submit to the Board of Directors or the Executive Committee matters of general policy for the corporation and shall perform such other duties as usually appertain to the office or as may be prescribed by the Board of Directors or the Executive Committee.

SECTION 6.07. *Vice Chairman of the Board.* The Vice Chairman of the Board (if such office is created by the Board) shall, in the absence or disability of the Chairman of the Board, perform the duties and exercise the powers of the Chairman of the Board. The Vice Chairman shall perform such other duties as from time to time may be prescribed by the Board of Directors or the Executive Committee or assigned by the Chairman of the Board.

SECTION 6.08. *President; Chief Executive Officer.* The President and the Chief Executive Officer (if such office is created by the Board), which posts may be held by the same or different persons, shall be the chief executive officers of the corporation and, subject to the control of the Board of Directors, shall in general supervise and control the business and affairs of the corporation. In the absence of the Chairman of the Board or the Vice Chairman of the Board (if such offices are created by the Board), the President or the Chief Executive Officer shall preside at all meetings of the Board of Directors and of the stockholders. Either such person may also preside at any such meeting attended by the Chairman or Vice Chairman of the Board if he or she is so designated by the Chairman, or in the Chairman's absence by the Vice Chairman. Both shall have the power to appoint and remove subordinate officers, agents, and employees, except those elected or appointed by the Board of Directors. The President and the Chief Executive Officer both shall keep the Board of Directors and the Executive Committee fully informed and shall consult them concerning the business of the corporation. Either may sign certificates for shares of the corporation and any deeds, bonds, mortgages, contracts, checks, notes, drafts, or other instruments that the Board of Directors has authorized to be executed, except in cases where the signing and execution thereof has been expressly delegated by these bylaws or by the Board of Directors to some other officer or agent of the corporation, or shall be required by law to be otherwise executed. Either shall vote, or give a proxy to any other officer of the corporation to vote, all shares of stock of any other corporation standing in the name of the corporation and in general he or she shall perform all other duties normally incident to the office of President or Chief Executive Officer, as the case may be, and such other duties as may be prescribed by the stockholders, the Board of Directors or the Executive Committee from time to time.

SECTION 6.09. *Vice Presidents.* In the absence of the President and the Chief Executive Officer, or in the event of their inability or refusal to act, the Executive Vice President (or in the event there shall be no Vice President designated Executive Vice President, any Vice President designated by the Board) shall perform the duties and exercise the powers of the President and the Chief Executive Officer. Any Vice President may sign, with the Secretary or Assistant Secretary, certificates for shares of the corporation. The Vice Presidents shall perform such other duties as from time to time may be assigned to them by the President, the Chief Executive Officer or the Board of Directors.

SECTION 6.10. *Secretary.* The Secretary shall (a) keep the minutes of the meetings of the stockholders, the Board of Directors and committees of directors; (b) see that all notices are duly given in accordance with the provisions of these bylaws and as required by law; (c) be custodian of the corporate records and of the seal of the corporation, and see that the seal of the corporation or a facsimile thereof is affixed to all certificates for shares prior to the issue thereof and to all documents, the execution of which on behalf of the corporation under its seal is duly authorized in accordance with the provisions of these bylaws; (d) keep or cause to be kept a

register of the post office address of each stockholder which shall be furnished by such stockholder; (e) sign with the President, the Chief Executive Officer or an Executive Vice President or Vice President, certificates for shares of the corporation, the issue of which shall have been authorized by resolution of the Board of Directors; (f) have general charge of the stock transfer books of the corporation; and (g) in general, perform all duties normally incident to the office of Secretary and such other duties as from time to time may be assigned to him by the President, the Chief Executive Officer or the Board of Directors.

SECTION 6.11. *Treasurer*. If required by the Board of Directors, the Treasurer shall give a bond for the faithful discharge of his or her duties in such sum and with such surety or sureties as the Board of Directors shall determine. He or she shall (a) have charge and custody of and be responsible for all funds and securities of the corporation; (b) receive and give receipts for moneys due and payable to the corporation from any source whatsoever and deposit all such moneys in the name of the corporation in such banks, trust companies, or other depositories as shall be selected in accordance with the provisions of Section 7.03 of these bylaws; (c) prepare, or cause to be prepared, for submission at each regular meeting of the Board of Directors, at each annual meeting of the stockholders, and at such other times as may be required by the Board of Directors, the President, or the Chief Executive Officer, a statement of financial condition of the corporation in such detail as may be required; and (d) in general, perform all the duties incident to the office of Treasurer and such other duties as from time to time may be assigned to him by the President, the Chief Executive Officer or the Board of Directors.

SECTION 6.12. *Assistant Secretary and Treasurer*. The Assistant Secretaries and Assistant Treasurers shall, in general, perform such duties as shall be assigned to them by the Secretary or the Treasurer, respectively, or by the President, the Chief Executive Officer, the Board of Directors, or the Executive Committee. The Assistant Secretaries and Assistant Treasurers shall, in the absence of the Secretary or Treasurer, respectively, perform all functions and duties which such absent officers may delegate, but such delegation shall not relieve the absent officer from the responsibilities and liabilities of his or her office. The Assistant Secretaries may sign, with the President, the Chief Executive Officer or a Vice President, certificates for shares of the corporation, the issue of which shall have been authorized by a resolution of the Board of Directors. The Assistant Treasurers shall respectively, if required by the Board of Directors, give bonds for the faithful discharge of their duties in such sums and with such sureties as the Board of Directors shall determine.

ARTICLE VII

CONTRACTS, CHECKS AND DEPOSITS

SECTION 7.01. *Contracts*. Subject to the provisions of Section 6.01, the Board of Directors may authorize any officer, officers, agent, or agents, to enter into any contract or execute and deliver any instrument in the name of and on behalf of the corporation, and such authority may be general or confined to specific instances.

SECTION 7.02. *Checks.* All checks, demands, drafts, or other orders for the payment of money, notes, or other evidences of indebtedness issued in the name of the corporation, shall be signed by such officer or officers or such agent or agents of the corporation, and in such manner, as shall be determined by the Board of Directors.

SECTION 7.03. *Deposits.* All funds of the corporation not otherwise employed shall be deposited from time to time to the credit of the corporation in such banks, trust companies, or other depositories as the Board of Directors may select.

ARTICLE VIII

CERTIFICATES OF STOCK

SECTION 8.01. *Issuance.* Each stockholder of this corporation shall be entitled to a certificate or certificates showing the number of shares of capital stock registered in his or her name on the books of the corporation. The certificates shall be in such form as may be determined by the Board of Directors, shall be issued in numerical order and shall be entered in the books of the corporation as they are issued. They shall exhibit the holder's name and number of shares and shall be signed by the President, the Chief Executive Officer, or a Vice President and by the Secretary or an Assistant Secretary. The same person shall be permitted to sign a single stock certificate in more than one capacity. If any certificate is countersigned (a) by a transfer agent other than the corporation or any employee of the corporation, or (b) by a registrar other than the corporation or any employee of the corporation, any other signature on the certificate may be a facsimile. If the corporation shall be authorized to issue more than one class of stock or more than one series of any class, the designations, preferences, and relative participating, optional, or other special rights of each class of stock or series thereof and the qualifications, limitations, or restrictions of such preferences and rights shall be set forth in full or summarized on the face or back of the certificate which the corporation shall issue to represent such class of stock; provided that, except as otherwise provided by statute, in lieu of the foregoing requirements there may be set forth on the face or back of the certificate which the corporation shall issue to represent such class or series of stock, a statement that the corporation will furnish to each stockholder who so requests the designations, preferences and relative, participating, optional, or other special rights of each class of stock or series thereof and the qualifications, limitations, or restrictions of such preferences and rights. All certificates surrendered to the corporation for transfer shall be canceled and no new certificate shall be issued until the former certificate for a like number of shares shall have been surrendered and canceled, except that in the case of a lost, stolen, destroyed, or mutilated certificate a new one may be issued therefor upon such terms and with such indemnity, if any, to the corporation as the Board of Directors may prescribe. Certificates shall not be issued representing fractional shares of stock.

SECTION 8.02. *Lost Certificates.* The Board of Directors may direct a new certificate or certificates to be issued in place of any certificate or certificates theretofore issued by the corporation alleged to have been lost, stolen, or destroyed, upon the making of an affidavit of that fact by the person claiming the certificate of stock to be lost, stolen or destroyed. When authorizing such issue of a new certificate or certificates, the Board of Directors may, in its

discretion and as a condition precedent to the issuance thereof, require (1) the owner of such lost, stolen, or destroyed certificate or certificates, or his or her legal representative, to advertise the same in such manner as it shall require, (2) such owner to give the corporation a bond in such sum as it may direct as indemnity against any claim that may be made against the corporation with respect to the certificate or certificates alleged to have been lost, stolen, or destroyed, or (3) both.

SECTION 8.03. *Transfers.* Upon surrender to the corporation or the transfer agent of the corporation of a certificate for shares duly endorsed or accompanied by proper evidence of succession, assignment, or authority to transfer, it shall be the duty of the corporation to issue a new certificate to the person entitled thereto, cancel the old certificate, and record the transaction upon its books. Transfers of shares shall be made only on the books of the corporation by the registered holder thereof, or by his or her attorney thereunto authorized by power of attorney and filed with the Secretary of the corporation or the Transfer Agent.

SECTION 8.04. *Registered Stockholders.* The corporation shall be entitled to treat the holder of record of any share or shares of the corporation's capital stock as the holder in fact thereof and, accordingly, shall not be bound to recognize any equitable or other claim to or interest in such share or shares on the part of any other person, whether or not it shall have express or other notice thereof, except as otherwise provided by the laws of the State of Delaware.

ARTICLE IX

DIVIDENDS

SECTION 9.01. *Declaration.* Subject to the provisions of the Certificate of Incorporation or any agreement among the stockholders, dividends with respect to the shares of the corporation's capital stock may be declared by the Board of Directors at any regular or special meeting, pursuant to applicable law. Dividends may be paid in cash, in property, or in shares of capital stock, subject to the provisions of the Certificate of Incorporation and any agreement among the stockholders.

SECTION 9.02. *Reserve.* Before payment of any dividend, there may be set aside out of any funds of the corporation available for dividends such sum or sums as the Board of Directors from time to time, in their absolute discretion, think proper as a reserve or reserves to meet contingencies, or for equalizing dividends, or for repairing or maintaining any property of the corporation, or for such other purpose as the Board of Directors shall think conducive to the interest of the corporation, and the Board of Directors may modify or abolish any such reserve in the manner in which it was created.

ARTICLE X

INDEMNIFICATION

SECTION 10.01. *Third Party Actions.* The corporation shall indemnify any director or officer of the corporation, and may indemnify any other person, who was or is a party or is threatened to be made a party to any threatened, pending, or completed action, suit, or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that he or she is or was a director, officer, employee, or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee, or agent of another corporation, partnership, joint venture, trust, or other enterprise, against expenses (including attorneys' fees), judgments, fines, and amounts paid in settlement actually and reasonably incurred by him or her in connection with such action, suit, or proceeding if he or she acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful. The termination of any action, suit, or proceeding by judgment, order, settlement, or conviction, or upon a plea of *nolo contendere* or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he or she reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that his or her conduct was unlawful.

SECTION 10.02. *Actions by or in the right of the corporation.* The corporation shall indemnify any director or officer, and may indemnify any other person, who was or is a party or is threatened to be made a party to any threatened, pending, or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that he or she is or was a director, officer, employee, or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee, or agent of another corporation, partnership, joint venture, trust, or other enterprise against expenses (including attorneys' fees) actually and reasonably incurred by him or her in connection with the defense or settlement of such action or suit if he or she acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the corporation and except that no indemnification shall be made in respect of any claim, issue, or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses as the Court of Chancery or such other court shall deem proper.

SECTION 10.03. *Mandatory Indemnification.* To the extent that a present or former director or officer of the corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in Sections 10.01 and 10.02, or in defense of any claim, issue or matter therein, such person shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith.

SECTION 10.04. *Determination of Conduct.* Any indemnification under Section 10.01 or 10.02 of this Article X (unless ordered by a court) shall be made by the corporation only as authorized in the specific case upon a determination that indemnification of the present or former director, officer, employee, or agent is proper in the circumstances because he or she has met the applicable standard of conduct set forth in Section 10.01 or 10.02 of this Article X. Such determination shall be made (a) by a majority vote of directors who were not parties to such action, suit or proceeding, even though less than a quorum, or (b) by a committee of such directors designated by majority vote of such directors, even though less than a quorum, or (c) if there are no such directors, or if such directors so direct, by independent legal counsel in a written opinion, or (d) by the stockholders.

SECTION 10.05. *Payment of Expenses in Advance.* Expenses (including attorneys' fees) incurred in defending a civil or criminal action, suit, or proceeding will be paid by the corporation in advance of the final disposition of such action, suit, or proceeding upon receipt of an undertaking by or on behalf of the director, officer, employee, or agent to repay such amount if it shall ultimately be determined that he or she is not entitled to be indemnified by the corporation as authorized in this Article X. Such expenses (including attorneys' fees) incurred by former directors and officers or other employees and agents may be so paid upon such terms and conditions, if any, as the corporation deems appropriate, provided that such expenses (including attorneys' fees) incurred by former non-employee directors will be paid upon the same terms and conditions as for active directors.

SECTION 10.06. *Indemnity Not Exclusive.* The indemnification and advancement of expenses provided or granted hereunder shall not be deemed exclusive of any other rights to which those seeking indemnification or advancement of expenses may be entitled under the Certificate of Incorporation, any other bylaw, agreement, vote of stockholders, or disinterested directors or otherwise, both as to action in his or her official capacity and as to action in another capacity while holding such office.

SECTION 10.07. *Definitions.* For purposes of this Article X:

(a) "the corporation" shall include, in addition to the resulting corporation, any constituent corporation (including any constituent of a constituent) absorbed in a consolidation or merger that, if its separate existence had continued, would have had power and authority to indemnify its directors, officers, and employees or agents, so that any person who is or was a director, officer, employee or agent of such constituent corporation, or is or was serving at the request of such constituent corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, shall stand in the same position under this Article X with respect to the resulting or surviving corporation as he or she would have with respect to such constituent corporation if its separate existence had continued;

(b) "other enterprises" shall include employee benefit plans;

(c) "fines" shall include any excise taxes assessed on a person with respect to any employee benefit plan;

(d) “serving at the request of the corporation” shall include any service as a director, officer, employee, or agent of the corporation that imposes duties on, or involves services by, such director, officer, employee, or agent with respect to an employee benefit plan, its participants or beneficiaries; and

(e) a person who acted in good faith and in a manner he or she reasonably believed to be in the interest of the participants and beneficiaries of an employee benefit plan shall be deemed to have acted in a manner “not opposed to the best interests of the corporation” as referred to in this Article X.

SECTION 10.08. *Continuation of Indemnity.* The indemnification and advancement of expenses provided or granted hereunder shall, unless otherwise provided when authorized or ratified, continue as to a person who has ceased to be a director, officer, employee, or agent and shall inure to the benefit of the heirs, executors, and administrators of such a person

SECTION 10.09. *Primacy of Indemnification.* The corporation hereby acknowledges that those seeking and/or entitled to indemnification hereunder (each, an “Indemnitee”) may have certain rights to indemnification, advancement of expenses and/or insurance provided by third parties, including private equity funds, investment funds and/or certain of their affiliates (collectively, the “Fund Indemnitors”). The corporation hereby agrees (i) that it is the indemnitor of first resort (i.e., its obligations to any Indemnitee are primary and any obligation of the Fund Indemnitors to advance expenses or to provide indemnification for the same expenses or liabilities incurred by such Indemnitee are secondary), (ii) that it shall be required to advance the full amount of expenses incurred by any Indemnitee and shall be liable for the full amount of all expenses, judgments, penalties, fines and amounts paid in settlement to the extent legally permitted and as required by the terms of the Certificate of Incorporation of the corporation or these bylaws (or any other agreement between the corporation and any such Indemnitee), without regard to any rights that an Indemnitee may have against the Fund Indemnitors, and, (iii) that it irrevocably waives, relinquishes and releases the Fund Indemnitors from any and all claims against the Fund Indemnitors for contribution, subrogation or any other recovery of any kind in respect thereof. The corporation further agrees that no advancement or payment by the Fund Indemnitors on behalf of any Indemnitee with respect to any claim for which an Indemnitee has sought indemnification from the corporation shall affect the foregoing and the Fund Indemnitors shall have a right of contribution and/or be subrogated to the extent of such advancement or payment to all of the rights of recovery of an Indemnitee against the corporation. The corporation agrees that the Fund Indemnitors are express third party beneficiaries of the terms of this Section 10.09.

ARTICLE XI

MISCELLANEOUS

SECTION 11.01. *Seal.* The corporate seal, if one is authorized by the Board of Directors, shall have inscribed thereon the name of the corporation, and the words “Corporate Seal, Delaware.” The seal may be used by causing it or a facsimile thereof to be impressed or affixed or otherwise reproduced.

SECTION 11.02. *Books*. The books of the corporation may be kept (subject to any provision contained in the statutes) outside the State of Delaware at the offices of the corporation, or at such other place or places as may be designated from time to time by the Board of Directors.

SECTION 11.03. *Right of First Refusal*. Except as provided in that certain Fifth Amended and Restated Stockholders Agreement dated December 3, 2015 (the "Stockholders Agreement"), as may be further amended and/or amended and restated from time to time (which Stockholders Agreement shall control any transfer of shares of Common Stock by the parties to that agreement rather than the provisions of this Section 11.03), and subject to the exclusions described in Section 11.03(h), no stockholder shall sell, assign, pledge, or in any manner transfer any of the shares of common stock of the corporation ("Common Stock") or any right or interest therein held by such stockholder, whether voluntarily or by operation of law, or by gift or otherwise, except by a transfer which meets the requirements hereinafter set forth in this bylaw.

(a) If the stockholder receives from anyone a bona fide offer acceptable to the stockholder to purchase any Common Stock held by such stockholder, then the stockholder shall first give written notice thereof to the corporation. The notice shall name the proposed transferee and state the number of shares of Common Stock to be transferred, the price per share and all other terms and conditions of the offer

(b) For fifteen (15) days following receipt of such notice, the corporation or its assigns shall have the option to purchase all or, with the consent of the stockholder, any lesser part of the Common Stock specified in the notice at the price and upon the terms set forth in such bona fide offer. In the event the corporation elects to purchase all or, as agreed by the stockholder, a lesser part, of the Common Stock, it shall give written notice to the selling stockholder of its election and settlement for said Common Stock shall be made as provided below in paragraph (c).

(c) In the event the corporation elects to acquire any of the Common Stock of the selling stockholder as specified in said selling stockholder's notice, the Secretary of the corporation shall so notify the selling stockholder and settlement thereof shall be made in cash within thirty (30) days after the Secretary of the corporation receives said selling stockholder's notice; provided that if the terms of payment set forth in said selling stockholder's notice were other than cash against delivery, the corporation shall pay for said Common Stock on the same terms and conditions set forth in said selling stockholder's notice.

(d) In the event the corporation does not elect to acquire all of the Common Stock specified in the selling stockholder's notice, said selling stockholder may, within the sixty (60) day period following the expiration of the option rights granted to the corporation, sell elsewhere the Common Stock specified in said selling stockholder's notice which were not acquired by the corporation, in accordance with the provisions of paragraph (c) of this bylaw, provided that said sale shall not be on terms and conditions more favorable to the purchaser than those contained in the bona fide offer set forth in said selling stockholder's notice. All Common Stock so sold by said selling stockholder shall continue to be subject to the provisions of this bylaw in the same manner as before said transfer.

(e) Anything to the contrary contained herein notwithstanding, the following transactions shall be exempt from the provisions of this bylaw:

(1) A stockholder's transfer of any or all Common Stock held either during such stockholder's lifetime or on death by will or intestacy to such stockholder's immediate family. "Immediate family" as used herein shall mean spouse (including, without limitation, any domestic partner or partner by virtue of same-sex marriage and/or civil union), lineal or adopted descendent, father, mother, brother, or sister of the stockholder making such transfer.

(2) A stockholder's bona fide pledge or mortgage of any Common Stock with a commercial lending institution, provided that any subsequent transfer of said Common Stock by said institution shall be conducted in the manner set forth in this bylaw.

(3) A stockholder's transfer of any or all of such stockholder's Common Stock to any other stockholder of the corporation.

(4) A stockholder's transfer of any or all of such stockholder's Common Stock to a person who, at the time of such transfer, is an officer or director of the corporation.

(5) A corporate stockholder's transfer of any or all of its Common Stock pursuant to and in accordance with the terms of any merger, consolidation, reclassification of Common Stock or capital reorganization of the corporate stockholder, or pursuant to a sale of all or substantially all of the stock or assets of a corporate stockholder.

(6) A corporate stockholder's transfer of any or all of its Common Stock to any or all of its stockholders or to such stockholder's subsidiaries.

(7) A transfer of any or all of the Common Stock held by a stockholder which is a limited or general partnership to any or all of its partners.

In any such case, the transferee, assignee, or other recipient shall receive and hold such Common Stock subject to the provisions of this bylaw, and there shall be no further transfer of such Common Stock except in accord with this bylaw.

(f) Any sale or transfer, or purported sale or transfer, of Common Stock shall be null and void unless the terms, conditions, and provisions of this bylaw are strictly observed and followed

(g) The foregoing right of first refusal shall terminate on either of the following dates, whichever shall first occur:

(1) The closing of the sale of Common Stock of the corporation is first offered to the public in a firm commitment underwritten public offering pursuant to a registration statement filed with, and declared effective by, the Securities and Exchange Commission under the Securities Act of 1933, as amended; or

(2) Upon any deemed liquidation event (as may be defined in the Corporation's Certificate of Incorporation).

The certificates representing the Common Stock which are subject to this Article XI shall bear the following legend so long as the foregoing right of first refusal remains in effect:

"THE SHARES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO A RIGHT OF FIRST REFUSAL OPTION IN FAVOR OF THE CORPORATION, AS PROVIDED IN THE BYLAWS OF THE CORPORATION."

(h) The provisions of this bylaw Section 11.03 shall not apply to (i) any transfer of shares of Preferred Stock of the corporation or any transfer of shares of Common Stock issued upon conversion thereof, (ii) any transfer of up to 1,700,000 shares of Common Stock by existing stockholders to Inherent Partners, LP, Bowie Strategic Investments, Inc., or any other third party investor on or prior to January 31, 2016, (iii) any transfer of shares of Common Stock described in clause (ii), and/or (iv) any transfer of shares of Common Stock by the parties to the Stockholders Agreement.

SECTION 11.04. *Order of Precedence.* In the event of a conflict in the provisions of the (i) the Certificate of Incorporation, (ii) any agreement among the stockholders or (iii) these bylaws, the Certificate of Incorporation shall control over any conflicting provision in an agreement among the stockholders or these bylaws, and any agreement among the stockholders shall control over any conflicting provision in these bylaws.

ARTICLE XII

SECTION HEADINGS

The headings contained in these bylaws are for reference purposes only and shall not be construed to be part of and shall not affect in any way the meaning or interpretation of these bylaws.

ARTICLE XIII

AMENDMENT

These bylaws may be altered, amended, or repealed or new bylaws may be adopted by a majority of the number of directors then constituting the Board of Directors at any regular meeting of the Board of Directors without prior notice, or at any special meeting of the Board of Directors if notice of such alteration, amendment, or repeal be contained in the notice of such special meeting, or by the written consent of the Board of Directors pursuant to Section 3.09 of Article III, except as otherwise provided by statute, by the Certificate of Incorporation or by these bylaws.

ARTICLE XIV

Unless the corporation consents in writing to the selection of an alternative forum, the Court of Chancery in the State of Delaware shall be the sole and exclusive forum for any stockholder (including a beneficial owner) to bring (i) any derivative action or proceeding brought on behalf of the corporation, (ii) any action asserting a claim of breach of fiduciary duty owed by any director, officer or other employee of the corporation to the corporation or the corporation's

stockholders, (iii) any action asserting a claim against the corporation, its directors, officers or employees arising pursuant to any provision of the Delaware General Corporation Law or the corporation's certificate of incorporation or bylaws or (iv) any action asserting a claim against the corporation, its directors, officers or employees governed by the internal affairs doctrine, except for, as to each of (i) through (iv) above, any claim as to which the Court of Chancery determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination), which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery, or for which the Court of Chancery does not have subject matter jurisdiction. If any provision or provisions of this Article XIV shall be held to be invalid, illegal or unenforceable as applied to any person or entity or circumstance for any reason whatsoever, then, to the fullest extent permitted by law, the validity, legality and enforceability of such provisions in any other circumstance and of the remaining provisions of this Article XIV (including, without limitation, each portion of any sentence of this Article XIV containing any such provision held to be invalid, illegal or unenforceable that is not itself held to be invalid, illegal or unenforceable) and the application of such provision to other persons or entities and circumstances shall not in any way be affected or impaired thereby.

VITAL FARMS, INC.
2013 INCENTIVE PLAN

ARTICLE ONE
GENERAL PROVISIONS

1.1 Purpose and Date of the Plan.

This 2013 Incentive Plan, adopted as of August 31, 2013, is intended to promote the interests of **Vital Farms, Inc.**, a Delaware corporation, by providing eligible persons with the opportunity to acquire a proprietary interest in the Corporation, in order to attract prospective officers and employees of the Corporation, and retain and reward existing officers and employees,

Capitalized terms shall have the meanings assigned to such terms in the attached Appendix.

1.2 Structure of the Plan.

A. The Plan shall be divided into two separate equity programs:

1. the Option Grant Program under which eligible persons may, at the discretion of the Plan Administrator, be granted options to purchase shares of Common Stock, and

2. the Stock Issuance Program under which eligible persons may, at the discretion of the Plan Administrator, be issued shares of Common Stock directly, either through the immediate purchase of such shares or as a bonus for services rendered to the Corporation (or any Parent or Subsidiary).

B. The provisions of Articles One and Four shall apply to both equity programs under the Plan and shall govern the interests of all persons under the Plan.

1.3 Administration of the Plan.

A. The Plan shall be administered by the Board. However, any or all administrative functions otherwise exercisable by the Board may be delegated to the Committee. Members of the Committee shall serve for such period of time as the Board may determine and may be removed by the Board at any time. The Board may also at any time terminate the functions of the Committee and reassume all powers and authority previously delegated to the Committee.

B. The Plan Administrator shall have full power and authority to establish such rules and regulations as it may deem appropriate for proper administration of the Plan and to make such determinations under, and issue such interpretations of, the Plan and any outstanding options or stock issuances thereunder as the Plan Administrator may deem necessary or advisable. Decisions of the Plan Administrator shall be final and binding on all parties who have an interest in the Plan or any option or stock issuance thereunder.

1.4 Eligibility.

A. The persons eligible to participate in the Plan are as follows:

1. Employees,

2. non-employee members of the Board or the board of directors of any Parent or Subsidiary, and
3. consultants and other independent advisors who provide services to the Corporation (or any Parent or Subsidiary).

B. The Plan Administrator shall have full authority to determine (i) with respect to the option grants under the Option Grant Program, which eligible persons are to receive option grants, the time or times when such option grants are to be made, the number of shares to be covered by each such grant, the status of the granted option as either an Incentive Option or a Non-Statutory Option, the time or times at which each option is to become exercisable, the vesting schedule (if any) applicable to the option shares, the maximum term for which the option is to remain outstanding, and any restrictions on transfer of shares received on the exercise of option grants, and (ii) with respect to stock issuances under the Stock Issuance Program, which eligible persons are to receive stock issuances, the time or times when such issuances are to be made, the number of shares to be issued to each Participant, the vesting schedule (if any) applicable to the issued shares, the consideration to be paid for such shares, and any restrictions on transfer for shares issued under the Stock Issuance Program.

C. The Plan Administrator shall have the absolute discretion either to grant options in accordance with the Option Grant Program or to effect stock issuances in accordance with the Stock Issuance Program.

1.5 Stock Subject to the Plan.

A. Subject to Section 1.5.C., the stock issuable under the Plan shall be shares of authorized but unissued or reacquired Common Stock. The maximum number of shares of Common Stock that may be issued over the term of the Plan shall not exceed 538,635 shares, unless increased in accordance with the terms hereof.

B. Shares of Common Stock subject to outstanding options shall be added back to the number of shares of Common Stock reserved for issuance under the Plan and shall be available for subsequent issuance under the Plan to the extent (i) the options expire or terminate for any reason prior to exercise in full or (ii) the options are canceled in accordance with the cancellation-regrant provisions of Article Two. Unvested shares issued under the Plan, and subsequently forfeited or repurchased by the Corporation at the original issue price paid per share pursuant to the Corporation's repurchase rights under the Plan, shall be added back to the number of shares of Common Stock reserved for issuance under the Plan and shall be available for reissuance through one or more subsequent option grants or direct stock issuances under the Plan.

C. In the event of any stock split, stock dividend, merger, reorganization, recapitalization, combination of shares, exchange of shares or other change affecting the outstanding Common Stock as a class without the Corporation's receipt of consideration, appropriate adjustments shall be made to (i) the maximum number and/or class of securities issuable under the Plan and (ii) the number and/or class of securities and the exercise price per share in effect under each outstanding option in order to prevent the dilution or enlargement of rights and benefits thereunder. The adjustments determined by the Plan Administrator shall be final, binding and conclusive. In no event shall any such adjustments be made in connection with the conversion of one or more outstanding shares of the Corporation's preferred stock into shares of Common Stock.

1.6 Drag-Along Rights

A. Except as otherwise approved by the Board, any agreement conveying Incentive Stock to a Participant shall contain provisions that obligate Participants to transfer up to 100% of their Incentive Stock to a purchaser if so required by the sellers of capital stock comprising two-thirds of the outstanding voting power of the Corporation's capital stock, on the same terms and conditions as , and to vote in favor of certain Corporate Transactions, when required by two-thirds of the outstanding voting power of the Corporation's capital stock.

B. The language embodying the obligations of Participants set forth in Section 1.6.B. shall be set forth in the Stock Issuance Agreement or agreement with respect to the exercise of each Option.

ARTICLE TWO
OPTION GRANT PROGRAM

2.1 Option Terms.

Each option shall be evidenced by one or more documents in the form approved by the Plan Administrator; provided, however, that each document shall comply with the terms specified below. Each document evidencing an Incentive Option shall be subject to the provisions of the Plan applicable to such options.

A. Exercise Price.

1. The exercise price per share shall be fixed by the Plan Administrator and may be equal to or greater than the Fair Market Value per share of Common Stock on the option Grant Date.

2. The exercise price shall become immediately due upon exercise of the option and shall, subject to the provisions of Section 4.1 and the documents evidencing the option, be payable as follows:

(i) In cash or check made payable to the Corporation;

(ii) If permitted by the Plan Administrator, in shares of Common Stock held for the requisite period necessary to avoid a charge to the Corporation's earnings for financial reporting purposes and valued at Fair Market Value on the Exercise Date;

(iii) If the Plan Administrator so permits, and the Common Stock is registered under Section 12(g) of the 1934 Act at the time the option is exercised and to the extent the option is exercised for vested shares, through a special sale and remittance procedure pursuant to which Optionee shall concurrently provide irrevocable written instructions to (a) a Corporation-designated brokerage firm to effect the immediate sale of the purchased shares and remit to the Corporation, out of the sale proceeds available on the settlement date, sufficient funds to cover the aggregate exercise price payable for the purchased shares plus all applicable federal, state and local income and employment taxes required to be withheld by the Corporation by reason of such exercise and (b) the Corporation to deliver the certificates for the purchased shares directly to such brokerage firm in order to complete the sale; or

(iv) If permitted by the Plan Administrator, and then permitted as valid consideration by applicable corporate law, by delivery of a promissory note, the terms of which shall be determined by the Plan Administrator in its sole discretion.

3. The Plan Administrator may, in its discretion, require an Optionee to pay to the Corporation (or the Corporation's Subsidiary if the Optionee is an employee of a Subsidiary of the Corporation), at the time of the exercise of an option or thereafter, the amount that the Plan Administrator deems necessary to satisfy the Corporation's or its Subsidiary's current or future obligation to withhold federal, state, or local income or other taxes that the Optionee incurs by exercising an option. In connection with the exercise of an option requiring tax withholding, an Optionee may (a) direct the Corporation to withhold from the shares of Common Stock to be issued to the Optionee the number of shares necessary to satisfy the Corporation's obligation to withhold taxes, that determination to be based on the shares' Fair Market Value as of the date of exercise; (b) deliver to the Corporation sufficient shares of Common Stock (based upon the Fair Market Value as of the date of such delivery) to satisfy the Corporation's tax withholding obligations, which tax withholding obligation is based on the shares' Fair Market Value as of the later of the date of exercise or the date as of which the shares of Common Stock issued in connection with such exercise become includable in the income of the Optionee; or (c) deliver sufficient cash to the Corporation to satisfy its tax withholding obligations. Optionees who elect to use

such a Common Stock withholding feature must make the election at the time and in the manner that the Committee prescribes. The Plan Administrator may, at its sole option, deny any Optionee's request to satisfy withholding obligations through Common Stock instead of cash. If the Plan Administrator subsequently determines that the aggregate Fair Market Value (as determined above) of any shares of Common Stock withheld or delivered as payment of any tax withholding obligation is insufficient to discharge that tax withholding obligation, then the Optionee shall pay to the Corporation, immediately upon the Plan Administrator's request, the amount of that deficiency in the form of payment requested by the Plan Administrator.

4. If the exercise of an Option does not give rise to an obligation to withhold federal income or other taxes on the date of exercise, the Plan Administrator may, in its discretion, require an Optionee to place shares of Common Stock purchased under the option in escrow for the benefit of the Corporation until such time as federal income or other tax withholding is no longer required with respect to such shares or until such withholding is required on amounts included in the gross income of the Optionee as a result of the exercise of an Option or the disposition of shares of Common Stock acquired pursuant to the exercise. At such later time, the Plan Administrator, in its discretion, may require an Optionee to pay to the Corporation the amount that the Corporation deems necessary to satisfy the Corporation's obligations to withhold federal, state, or local income or other taxes incurred by reason of the exercise of the option or the disposition of shares of Common Stock. Upon receipt of such payment by the Corporation, such shares of Common Stock shall be released from escrow to the Optionee.

B. Exercise and Term of Options. Each option shall be exercisable at such time or times during such period and for the number of shares as shall be determined by the Plan Administrator and set forth in the documents evidencing the option. However, no option shall have a term in excess of 10 years measured from the option Grant Date.

C. Effect of Termination of Service.

1. The following provisions shall govern the exercise of any options held by Optionee at the time of cessation of Service, death or Permanent Disability, unless otherwise determined by the Plan Administrator:

(i) Any option outstanding at the time of Optionee's cessation of Service for any reason (other than death, Permanent Disability or Misconduct) shall remain exercisable for a period of 90 days thereafter and as set forth in the documents evidencing the option, but no option shall be exercisable after the expiration of the option term.

(ii) Any option exercisable in whole or in part by Optionee at the time of Optionee's death shall remain exercisable for a period of one year thereafter and as set forth in the documents evidencing the option, but no option shall be exercisable after the expiration of the option term. Such option may be exercisable subsequently by the personal representative of Optionee's estate or by the person or persons to whom the option is transferred pursuant to Optionee's will or in accordance with the laws of descent and distribution.

(iii) Any option exercisable in whole or in part by Optionee at the time of cessation of Service due to Permanent Disability shall remain exercisable for a period of one year thereafter and as set forth in the documents evidencing the option, but no option shall be exercisable after the expiration of the option term.

(iv) During the applicable post-Service exercise period, the option may not be exercised in the aggregate for more than the number of vested shares for which the option is exercisable on the date of Optionee's cessation of Service. Upon the expiration of the applicable exercise period or (if earlier) upon the expiration of the option term, the option shall terminate and cease to be outstanding for any vested shares for which the option has not been exercised. However, the option shall, immediately upon Optionee's cessation of Service, terminate and cease to be outstanding to the extent the option is not otherwise at that time exercisable for vested shares.

(v) If Optionee's Service is terminated for Misconduct, then all outstanding options held by Optionee shall terminate immediately and cease to be outstanding.

2. The Plan Administrator shall have the discretion, exercisable either at the time an option is granted or at any time while the option remains outstanding, to:

(i) extend the period of time for which the option is to remain exercisable following Optionee's cessation of Service from the period otherwise in effect for that option to such greater period of time as the Plan Administrator shall deem appropriate, but in no event beyond the expiration of the option term, and/or

(ii) permit the option to be exercised, during the applicable post-Service exercise period, not only with respect to the number of vested shares of Common Stock for which such option is exercisable at the time of Optionee's cessation of Service but also with respect to one or more additional installments in which Optionee would have vested under the option had Optionee continued in Service.

D. Shareholder Rights. The holder of an option shall have no shareholder rights with respect to the shares subject to the option until such person shall have exercised the option, paid the exercise price and become a holder of record of the purchased shares.

E. Repurchase Rights. The Plan Administrator shall have the discretion to grant options that are exercisable for unvested shares of Common Stock. If Optionee ceases Service while holding such unvested shares, the Corporation shall have the right to repurchase, at the exercise price paid per share, if any, any or all of those unvested shares. The terms upon which such repurchase right shall be exercisable (including the period and procedure for exercise and the appropriate vesting schedule for the purchased shares) shall be established by the Plan Administrator and set forth in the document evidencing such repurchase right. As used in this Article Two, the term "repurchase rights" includes the Corporation's rights to receive back without consideration unvested shares which are forfeited.

F. First Refusal Rights. Until such time as the Common Stock is first registered under Section 12(g) of the 1934 Act, or such other time as is determined by the Plan Administrator and set forth in the Stock Issuance Agreement or other separate agreement, the Corporation shall have a right of first refusal with respect to any proposed disposition by Optionee (or any successor in interest) of any shares of Common Stock issued under the Option Grant Program. Such right of first refusal shall be exercisable in accordance with the terms established by the Plan Administrator and set forth in the document evidencing such right.

G. Limited Transferability of Options. During the lifetime of Optionee, Incentive Options shall be exercisable only by Optionee and shall not be assignable or transferable other than by will or by the laws of descent and distribution following Optionee's death. However, a Non-Statutory Option may, in connection with Optionee's estate plan, be assigned in whole or in part during Optionee's lifetime to one or more members of Optionee's immediate family or to an estate planning entity established exclusively for Optionee or for one or more of such family members. In addition, Non-Statutory Options may, with the consent of the Plan Administrator, be assigned in whole or in part during Optionee's lifetime to an entity of which Optionee is an officer, director, shareholder, partner or affiliate. The assigned portion may only be exercised by the person or persons who acquire a proprietary interest in the option pursuant to the assignment. The terms applicable to the assigned portion shall be the same as those in effect for the option immediately prior to such assignment and shall be set forth in such documents issued to the assignee as the Plan Administrator may deem appropriate.

2.2 Incentive Options.

The terms specified below shall be applicable to all Incentive Options. Except as modified by the provisions of this Section 2.2, all the provisions of Articles One, Two and Four shall be applicable to Incentive Options. Options designated as Non-Statutory Options shall not be subject to the terms of this Section 2.2.

- A. Eligibility. Incentive Options may only be granted to Employees.
- B. Exercise Price. The exercise price per share shall not be less than 100% of the Fair Market Value per share of Common Stock on the option Grant Date.
- C. Dollar Limitation. The aggregate Fair Market Value of the shares of Common Stock (determined as of the respective date or dates of grant) for which one or more options granted to any Employee under the Plan (or any other option plan of the Corporation or any Parent or Subsidiary) may for the first time become exercisable as Incentive Options during any one calendar year shall not exceed the sum of \$100,000. To the extent the Employee holds two or more such options that become exercisable for the first time in the same calendar year, the foregoing limitation on the exercisability of such options as Incentive Options shall be applied on the basis of the order in which such options are granted.
- D. 10% Shareholder. If any Employee to whom an Incentive Option is granted is a 10% Shareholder, then the exercise price per share shall not be less than 110% of the Fair Market Value per share of Common Stock on the option Grant Date and the option term shall not exceed five years measured from the option Grant Date.

2.3 Corporate Transaction.

A. In the event of any Corporate Transaction, each outstanding option shall automatically accelerate so that each option shall, immediately prior to the effective date of the Corporate Transaction, become fully exercisable for all of the shares of Common Stock at the time subject to such option and may be exercised for any or all of those shares as fully-vested shares of Common Stock. However, an outstanding option shall not so accelerate if and to the extent: (i) such option is, in connection with the Corporate Transaction, either to be assumed by the successor corporation (or parent thereof) or to be replaced with a comparable option to purchase shares of the capital stock of the successor corporation (or parent thereof), (ii) such option is to be replaced with a cash incentive program of the successor that preserves the spread existing on the unvested option shares at the time of the Corporate Transaction and provides for subsequent payout in accordance with the same vesting schedule applicable to such option or (i) the acceleration of such option is subject to other limitations imposed by the Plan Administrator at the time of the option grant. The determination of option comparability under clause (i) above shall be made by the Plan Administrator, and the Plan Administrator's determination shall be final, binding and conclusive.

B. All outstanding repurchase rights shall also terminate automatically, and the shares of Common Stock subject to those terminated rights shall immediately vest in full, in the event of any Corporate Transaction, except to the extent: (i) those repurchase rights are to be assigned to the successor corporation (or parent thereof) in connection with such Corporate Transaction or (ii) such accelerated vesting is precluded by other limitations imposed by the Plan Administrator at the time the repurchase right is issued.

C. Immediately following consummation of the Corporate Transaction, all outstanding options shall terminate and cease to be outstanding, except to the extent assumed by the successor corporation (or parent thereof).

D. Each option that is assumed in connection with a Corporate Transaction shall be appropriately adjusted, immediately after such Corporate Transaction, to apply to the number and class of securities that would have been issuable to Optionee in consummation of such Corporate Transaction had the option been exercised immediately prior to such Corporate Transaction. Appropriate adjustments to reflect such Corporate Transaction shall also be made to (i) the number and class of securities available for issuance under the Plan following the consummation of such Corporate Transaction and (ii) the exercise price payable per share under each outstanding option, provided that the aggregate exercise price payable for such securities shall remain the same.

E. The Plan Administrator shall have the discretion, exercisable at the time the option is granted or at any time while the option remains outstanding, to provide that any options that are

assumed or replaced in the Corporate Transaction and do not otherwise accelerate at that time, shall be subject to the requirement that if Optionee's Service should subsequently terminate by reason of an Involuntary Termination within 12 months following the effective date of such Corporate Transaction, all or part of Optionee's unvested options shall vest immediately, and any options so accelerated shall remain exercisable for fully-vested shares until the earlier of (i) the expiration of the option term or (ii) the expiration of the one-year period measured from the effective date of the Involuntary Termination.

F. The Plan Administrator shall have the discretion, exercisable either at the time the option is granted or at any time while the option remains outstanding, to provide for the automatic acceleration of one or more outstanding options (and the automatic termination of one or more outstanding repurchase rights with the immediate vesting of the shares of Common Stock subject to those rights) upon the occurrence of a Corporate Transaction, whether or not those options are to be assumed or replaced (or those repurchase rights are to be assigned) in the Corporate Transaction.

G. The portion of any Incentive Option accelerated in connection with a Corporate Transaction shall remain exercisable as an Incentive Option only to the extent the applicable \$100,000 limitation is not exceeded. To the extent such dollar limitation is exceeded, the accelerated portion of such option shall be exercisable as a Non-Statutory Option under the federal tax laws.

H. The grant of options under the Plan shall in no way affect the right of the Corporation to adjust, reclassify, reorganize or otherwise change its capital or business structure or to merge, consolidate, dissolve, liquidate or sell or transfer all or any part of its business or assets.

2.4 Cancellation and Re-Grant of Options.

The Plan Administrator shall have the authority to effect, at any time and from time to time, with the consent of the affected option holders, the cancellation of any or all outstanding options under the Option Grant Program and to grant in substitution new options covering the same or different number of shares of Common Stock but with an exercise price per share based on the Fair Market Value per share of Common Stock on the new Grant Date.

ARTICLE THREE STOCK ISSUANCE PROGRAM

3.1 Stock Issuance Terms.

Shares of Common Stock may be issued under the Stock Issuance Program through direct and immediate issuances without any intervening option grants. Each such stock issuance shall be evidenced by a Stock Issuance Agreement that complies with the items specified below.

A. Purchase Price.

1. The purchase price per share, if any, shall be fixed by the Plan Administrator.

2. Subject to the provisions of Section 4.1, shares of Common Stock may be issued under the Stock Issuance Program for items of consideration which the Plan Administrator may deem appropriate in each individual instance and which meet the requirements of applicable corporation law.

B. Vesting Provisions.

1. Shares of Common Stock issued under the Stock Issuance Program may, in the discretion of the Plan Administrator, be fully and immediately vested upon issuance or may vest in one or more installments over the Participant's period of Service or upon attainment of specified performance objectives.

2. Any new, substituted or additional securities or other property (including money paid other than as a regular cash dividend) that the Participant may have the right to receive with respect

to the Participant's unvested shares of Common Stock by reason of any stock dividend, stock split, recapitalization, combination of shares, exchange of shares or other change affecting the outstanding Common Stock as a class without the Corporation's receipt of consideration shall be issued subject to (i) the same vesting requirements applicable to the Participant's unvested shares of Common Stock and (ii) such escrow arrangement as the Plan Administrator shall deem appropriate.

3. The Participant shall have full shareholder rights with respect to any shares of Common Stock issued to the Participant under the Stock Issuance Program, whether or not the Participant's interest in those shares is vested. Accordingly, the Participant shall have the right to vote such shares and to receive any dividends paid on such shares.

4. If the Participant ceases to remain in Service while holding one or more unvested shares of Common Stock issued under the Stock Issuance Program or if the performance objectives are not attained with respect to one or more of such unvested shares of Common Stock, then those shares shall be immediately surrendered to the Corporation for cancellation, and the Participant shall have no further shareholder rights with respect to those shares. To the extent the surrendered shares were previously issued to the Participant for consideration paid in cash or cash equivalent (including the Participant's purchase-money indebtedness), the Corporation shall repay to the Participant the cash consideration paid for the surrendered shares and shall cancel the unpaid principal balance of any outstanding purchase-money note of the Participant attributable to the surrendered shares. As used in this Article Three, the term "repurchase rights" includes the Corporation's rights to receive back without consideration unvested shares which are forfeited by Participant.

5. The Plan Administrator may, in the Plan Administrator's sole discretion, waive the surrender and cancellation of one or more unvested shares of Common Stock (or other assets attributable thereto) that would otherwise occur upon the cessation of the Participant's Service or the non-attainment of the performance objectives applicable to such shares. Such waiver shall result in the immediate vesting of the Participant's interest in the shares of Common Stock as to which the waiver applies. Such waiver may be effected at any time, whether before or after the Participant's cessation of Service or the attainment or non-attainment of the applicable performance objectives.

C. First Refusal Rights; Other Restrictions on Transfer. Until such time as the Common Stock is first registered under Section 12(g) of the 1934 Act, or such other time as is determined by the Plan Administrator and set forth in the Stock Issuance Agreement or other separate agreement, the Corporation shall have a right of first refusal with respect to any proposed disposition by the Participant (or any successor in interest) of any shares of Common Stock issued under the Stock Issuance Program. Such right of first refusal shall be exercisable in accordance with the terms established by the Plan Administrator and set forth in the Stock Issuance Agreement or other separate agreement. In addition, the Plan Administrator may impose other restrictions or conditions on the transfer of shares of Common Stock issued under the Stock Issuance Program at the time such shares are issued, which restrictions shall be set forth in the Stock Issuance Agreement or other separate agreement.

3.2 Corporate Transaction.

A. All of the outstanding repurchase rights under the Stock Issuance Program shall terminate automatically, and all the shares of Common Stock subject to those terminated rights shall immediately vest in full, in the event of any Corporate Transaction, except to the extent (i) those repurchase rights are assigned to the successor corporation (or parent thereof) in connection with such Corporate Transaction or (ii) such accelerated vesting is precluded by other limitations imposed in the Stock Issuance Agreement.

B. The Plan Administrator shall have the discretion, exercisable either at the time the unvested shares are issued or at any time while the Corporation's repurchase right remains outstanding, to provide for the automatic termination of one or more outstanding repurchase rights that are assigned in the Corporate Transaction, and the immediate vesting of the shares of Common Stock subject to those rights, if the Participant's Service should subsequently terminate by reason of an Involuntary Termination within 18 months following the effective date of such Corporate Transaction.

C. The Plan Administrator shall have the discretion, exercisable either at the time the unvested shares are issued or at any time while the Corporation's repurchase right remains outstanding, to provide for the automatic termination of one or more outstanding repurchase rights, and the immediate vesting of the shares of Common Stock subject to those rights, upon the occurrence of a Corporate Transaction, whether or not those repurchase rights are assigned in connection with the Corporate Transaction.

3.3 Share Escrow/Legends.

Unvested shares may, in the Plan Administrator's discretion, be held in escrow by the Corporation until the Participant's interest in such shares vests or may be issued directly to the Participant with restrictive legends on the certificates evidencing those unvested shares.

ARTICLE FOUR **MISCELLANEOUS**

4.1 Financing.

A. The Plan Administrator may permit any Optionee or Participant to pay the option exercise price or the purchase price for shares issued under the Plan by delivering a promissory note payable in one or more installments. The terms of any such promissory note (including the interest rate and the terms of repayment) shall be established by the Plan Administrator in the Plan Administrator's sole discretion. Promissory notes may be authorized with or without security or collateral. In all events, the maximum credit available to Optionee or Participant may not exceed the sum of (i) the aggregate option exercise price or purchase price payable for the purchased shares plus (ii) any federal, state and local income and employment tax liability incurred by Optionee or the Participant in connection with the option exercise or share purchase; provided, however, the shares purchased upon the exercise of an option shall not be paid through the use of a promissory note if such payment is not permitted as valid consideration by applicable corporate law.

B. The Plan Administrator may, in the Plan Administrator's sole discretion, determine that one or more such promissory notes shall be subject to forgiveness by the Corporation in whole or in part upon such terms as the Plan Administrator may deem appropriate.

4.2 Effective Date and Term of the Plan.

A. The Plan shall become effective when adopted by the Board, and shall be submitted to the Corporation's shareholders for approval. If such shareholder approval is not obtained within 12 months after the date of the Board's adoption of the Plan, then all options previously granted under the Plan shall automatically, without any action on the part of the Corporation, be treated as Non-Statutory Options. The Plan Administrator may grant options and issue shares under the Plan at any time after the effective date of the Plan and before the date fixed herein for termination of the Plan.

B. The Plan shall terminate upon the earliest of (i) the expiration of the 10-year period measured from the date the Plan is adopted by the Board, (ii) the date on which all shares available for issuance under the Plan shall have been issued as fully vested shares or (iii) the termination of all outstanding options in connection with a Corporate Transaction. Upon such Plan termination, all options and unvested stock issuances outstanding under the Plan shall continue to have full force and effect in accordance with the provisions of the documents evidencing such options or issuances.

4.3 Amendment of the Plan.

A. The Board shall have complete and exclusive power and authority to amend or modify the Plan in any or all respects. However, no such amendment or modification shall adversely affect any rights and obligations with respect to options or unvested stock issuances at the time outstanding under the Plan, unless Optionee or the Participant consents to such amendment or modification. In addition, certain amendments may require shareholder approval pursuant to applicable laws or regulations.

B. Options to purchase shares of Common Stock may be granted under the Plan and shares of Common Stock may be issued under the Plan that are in each instance in excess of the number of shares then available for issuance under the Plan, provided any excess shares actually issued under the Plan are held in escrow until there is obtained shareholder approval of an amendment sufficiently increasing the number of shares of Common Stock available for issuance under the Plan. If such shareholder approval is not obtained within 12 months after the date the first such excess grants or issuances are made, then (i) any unexercised options granted on the basis of such excess shares shall terminate and cease to be outstanding and (ii) the Corporation shall promptly refund to Optionees and the Participants the exercise or purchase price paid for any excess shares issued under the Plan and held in escrow, together with interest (at the applicable Short-Term Federal Rate) for the period the shares were held in escrow, and such shares shall thereupon be automatically canceled and cease to be outstanding.

4.4 Use of Proceeds.

Any cash proceeds received by the Corporation from the sale of shares of Common Stock under the Plan shall be used for general corporate purposes.

4.5 Withholding.

The Corporation's obligation to deliver shares of Common Stock upon the exercise of any options or upon the issuance or vesting of such shares issued under the Plan shall be subject to the satisfaction of all applicable federal, state and local income and employment tax withholding requirements.

4.6 Regulatory Approvals.

The implementation of the Plan, the granting of any option under the Plan and the issuance of any shares of Common Stock (i) upon the exercise of any option or (ii) under the Stock Issuance Program shall be subject to the Corporation's procurement of all approvals and permits required by regulatory authorities having jurisdiction over the Plan, the options granted under it and the shares of Common Stock issued pursuant to the Plan.

4.7 No Employment or Service Rights.

Nothing in the Plan shall confer upon Optionee or the Participant any right to continue in Service for any period of specific duration or interfere with or otherwise restrict in any way the rights of the Corporation (or any Parent or Subsidiary employing or retaining such person) or of Optionee or the Participant, which rights are hereby expressly reserved by each, to terminate such person's Service at any time for any reason, with or without cause.

4.8 Not Subject to ERISA.

This Plan shall not be subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended.

EXECUTED as of the date of adoption first above written.

C. Capitalized terms in this Agreement not otherwise defined herein shall have the meanings assigned to them in the Plan.

NOW, THEREFORE, it is hereby agreed as follows:

1. Grant of Option. The Company hereby grants to Optionee, as of the Grant Date, an option to purchase up to the number of shares subject to the option (the "Option Shares") specified in Part I. The Option Shares shall be purchasable from time to time during the option term specified in Section 2 at the exercise price per share set forth on Part I (the "Exercise Price").

2. Option Term. This option shall have a term of 10 years measured from the Grant Date and shall accordingly expire at the close of business on the tenth anniversary of the Grant Date as set forth on Part I (the "Expiration Date"), unless sooner terminated in accordance with the terms hereof.

3. Limited Transferability. This option shall be neither transferable nor assignable by Optionee other than by will or by the laws of descent and distribution following Optionee's death and may be exercised, during Optionee's lifetime, only by Optionee. However, if this option is designated as a Non-Statutory Option in Part I, then this option may be assigned in whole or in part during Optionee's lifetime pursuant to a "Permitted Transfer", as defined below. The assigned portion may only be exercised by the person or persons who acquire a proprietary interest in the option pursuant to the Permitted Transfer. The terms applicable to the assigned portion shall be the same as those in effect for this option immediately prior to such assignment and shall be set forth in such documents issued to the assignee as the Plan Administrator may deem appropriate.

As used herein, "Permitted Transfer" shall mean a transfer of the Non-Statutory Option (i) to one or more members of Optionee's immediate family or to an estate planning entity established exclusively for Optionee or one or more members of Optionee's immediate family, or (ii) with the consent of the Plan Administrator, to an entity of which Optionee is an officer, director, shareholder, partner or affiliate. "Immediate family," as used herein shall mean spouse or partner, lineal descendant or antecedent, father, mother, brother or sister.

4. Exercisability/Vesting.

(a) This option shall vest and be exercisable as set forth in Part I (the "Vesting Schedule"), such Vesting Schedule being subject to acceleration as set forth in this Agreement. Subject to the relevant provisions and limitations contained herein, Optionee may exercise options which have vested in accordance with the Vesting Schedule. Optionee may not exercise unvested options unless specifically permitted in Part I hereof.

(b) If so designated in Part I, this option shall be immediately exercisable for any or all of the Option Shares, whether or not the Option Shares are vested in accordance with the Vesting

Schedule, and shall remain so exercisable until the Expiration Date or sooner termination of the option term in accordance with the terms hereof. Option Shares purchased under this option shall be subject to repurchase rights of the Company as set forth in this Agreement.

(c) If the option is immediately exercisable and Optionee exercises such option, Optionee shall, in accordance with the Vesting Schedule, vest in the Option Shares in one or more installments over his or her period of Service. Vesting in the Option Shares may be accelerated pursuant to the provisions of Section 6. In no event, however, shall any additional Option Shares vest following Optionee's cessation of Service.

5. Cessation of Service. The option term specified in Section 2 shall terminate (and this option shall cease to be outstanding) prior to the Expiration Date should any of the following provisions become applicable:

(a) If Optionee ceases to remain in Service for any reason (other than death, Permanent Disability or Misconduct) while this option is outstanding, then Optionee shall have a period of 3 months (commencing with the date of such cessation of Service) during which to exercise this option, but in no event shall this option be exercisable at any time after the Expiration Date.

(b) If Optionee dies while this option is outstanding, then the personal representative of Optionee's estate or the person or persons to whom the option is transferred pursuant to Optionee's will or in accordance with the laws of descent and distribution shall have the right to exercise this option. Such right shall lapse and this option shall cease to be outstanding upon the earlier of (A) the expiration of the 12-month period measured from the date of Optionee's death or (B) the Expiration Date.

(c) If Optionee ceases Service by reason of Permanent Disability while this option is outstanding, then Optionee shall have a period of 12 months, commencing with the date of such cessation of Service, during which to exercise this option. In no event shall this option be exercisable at any time after the Expiration Date.

(d) If Optionee's Service is terminated for Misconduct, then this option shall terminate immediately and cease to remain outstanding.

(e) During the post-Service exercise period, this option may not be exercised in the aggregate for more than the number of Option Shares in which Optionee is, at the time of Optionee's cessation of Service, vested in accordance with the Vesting Schedule. Upon the expiration of such post-Service exercise period or, if earlier, upon the Expiration Date, this option shall terminate and cease to be outstanding for any vested Option Shares for which the option has not been exercised. To the extent Optionee is not vested in the Option Shares at the time of Optionee's cessation of Service, this option shall immediately terminate and cease to be outstanding with respect to those shares.

6. Corporate Transaction.

(a) All the Option Shares subject to this option at the time of a Corporate Transaction but not otherwise vested shall automatically vest and the Company's repurchase rights with respect to those Option Shares set forth in this Agreement shall immediately terminate so that this option shall, immediately prior to the effective date of the Corporate Transaction, become exercisable for all of the Option Shares as fully-vested shares of Common Stock and may be exercised for any or all of those Option Shares. No such accelerated vesting of the Option Shares, however, shall occur if and to the extent: (i) this option is, in connection with the Corporate Transaction, either to be assumed by the successor Company (or parent thereof) or to be replaced with a comparable option to purchase shares of the capital stock of the successor Company (or parent thereof), and the Company's repurchase rights with respect to the Option Shares are to be assigned to such successor Company (or parent thereof) or (ii) this option is to be replaced with a cash incentive program of the successor Company which preserves the spread existing on the unvested Option Shares at the time of the Corporate Transaction (the excess of the Fair Market Value of those Option Shares over the Exercise Price payable for such shares) and provides for subsequent payout in accordance with the Vesting Schedule. The determination of option comparability under clause (i) shall be made by the Plan Administrator, and its determination shall be final, binding and conclusive.

(b) Immediately following the Corporate Transaction, this option shall terminate and cease to be outstanding, except to the extent assumed by the successor Company (or parent thereof) in connection with the Corporate Transaction.

(c) If this option is assumed in connection with a Corporate Transaction, then this option shall be appropriately adjusted, immediately after such Corporate Transaction, to apply to the number and class of securities which would have been issuable to Optionee in consummation of such Corporate Transaction had the option been exercised immediately prior to such Corporate Transaction, and appropriate adjustments shall also be made to the Exercise Price provided the aggregate Exercise Price shall remain the same.

(d) [Intentionally omitted]

(e) This Agreement shall not in any way affect the right of the Company to adjust, reclassify, reorganize or otherwise change its capital or business structure or to merge, consolidate, dissolve, liquidate or sell or transfer all or any part of its business or assets.

7. Proprietary Information. In consideration of the Company's grant of this option and the Company's agreement to provide Optionee with confidential information of the Company, Optionee agrees to keep confidential and not to use or to disclose to others at any time during Optionee's period of Service and after Optionee's cessation of Service, for whatever reason, except as expressly consented to in writing by the Company or required by law, any secrets or confidential technology or proprietary information of the Company or any of its clients, including without limitation, any customer list, marketing plans or materials, or other trade secrets of the Company, or any matter or thing ascertained by Optionee through Optionee's affiliation with the Company, the use or disclosure of which matter or thing that might reasonably be construed to be contrary to the best interests of the Company or to give any other party a competitive advantage over the Company. Optionee further agrees that upon Optionee's cessation of Service, Optionee will neither take nor retain, without prior written authorization from the Company, any documents pertaining to the Company (other than paycheck stubs, benefit information, offer letters, or other materials pertaining to his salary or benefits with the Company). Without limiting the generality of the foregoing, Optionee agrees that Optionee will not retain, use or disclose any papers, customer lists, marketing materials or information, books, records, files, or other documents, copies thereof, or notes or other materials derived therefrom, or other confidential information of any kind belonging to the Company pertaining to the Company's business, sales, financial condition or products (or any similar materials relating to the Company's clients). Without limiting other possible remedies to the Company for the breach of this covenant, Optionee agrees that injunctive or other equitable relief shall be available to enforce this covenant, such relief to be without the necessity of posting a bond, cash, or otherwise. Optionee further agrees that if any restriction contained in this Section is held by any court to be unenforceable or unreasonable, a lesser restriction shall be enforced in its place and remaining restrictions contained herein shall be enforced independently of each other. Optionee's obligations under this Section apply to all confidential information of the Company as well as to any and all confidential information relating to the Company's Subsidiaries.

8. Noncompetition.

(a) Basis of Covenants. The Company's business involves providing organic and natural poultry eggs and farm products to the wholesale and retail marketplaces. Optionee recognizes that the Company's decision to enter into this Agreement and to grant the option herein granted is induced primarily because of the covenants and assurances made by Optionee in this Agreement, that irrevocable harm and damage will be done to the Company if Optionee violates the obligation to maintain the confidentiality of proprietary information, or competes with the Company. Optionee stipulates and agrees that the consideration given by the Company in granting this option and in granting Optionee access to the confidential information of the Company gives rise to the Company's interest in the promises made by Optionee in this Section; further, Optionee stipulates that the

promises Optionee makes in this Section are designated to enforce the promises made by Optionee, including those set forth in Section 7. Optionee will continue to receive the Company's proprietary information and will receive training of substantial value as a result of Optionee's affiliation with the Company.

(b) **Noncompetition Covenant.** Optionee agrees that during Optionee's period of Service and for a period of 24 months following Optionee's cessation of Service, for whatever reason, Optionee shall not, directly or indirectly, as an employee, employer, contractor, consultant, agent, principal, shareholder, corporate officer, director, or in any other individual or representative capacity, engage or participate in any business or practice that is in competition in any manner whatsoever with the business of the Company. Any breach or attempted breach of this covenant or the covenants in Section 7 shall be deemed to be a termination for Misconduct under the Plan. For the purpose of this agreement, competition, competes or competing shall be defined as including without limitation, any business in the production of chicken eggs and other products that are marketed as "pastured" or "pasture-raised" or any similar term including or referencing the word "pasture", or any term implying that specifically to the birds producing such eggs are raised on pasture where each bird has 20 square feet or more of such area at any given time.

(c) **Nonsolicitation Covenant.** In addition, Optionee agrees that during Optionee's period of Service and for a period of 24 months following Optionee's cessation of Service, for whatever reason, Optionee shall not solicit, contract, or otherwise communicate for the purpose of soliciting business with any person, company or business of the sale or distribution of chicken eggs and other products that are marketed as "pastured" or "pasture-raised" or any similar term including or referencing the word "pasture, or any term implying that the birds producing such eggs are raised on pasture where each bird has 20 square feet or more of such area at any given time that was a client, customer, supplier, vendor or prospective client, customer, supplier or vendor of the Company, whom Optionee personally solicited, contacted, communicated with or accepted business from while Optionee was an employee of the Company at any time during the 12 months preceding termination of Service.

(d) **Non-Interference Covenant.** Optionee covenants and agrees that, for a period of 24 months following cessation of Service, for whatever reason, that Optionee shall not recruit, hire or attempt to recruit or hire, directly or by assisting others, any other employees of the Company, nor shall Optionee contact or communicate with any other employees of the Company for the purpose of inducing other employees to terminate their employment with the Company. For purposes of this covenant, "other employees" means employees who are actively employed by the Company at the time of the attempted recruiting or hiring.

9. Remedies.

(a) The covenants contained in Sections 7 and 8 shall be construed as an agreement ancillary to the other provisions of this Agreement and the existence of any claim or cause of action of Optionee against the Company, whether predicated on this Agreement or otherwise, shall not constitute a defense to the enforcement by the Company of such covenants. Without limiting other possible remedies to the Company for breach of the covenants in Sections 7 and 8, Optionee agrees that injunctive or other equitable relief will be available to enforce such covenants, such relief to be without the necessity of posting a bond, cash, or otherwise.

(b) If Optionee violates any of the covenants of Section 8, the 24-month term of the restriction violated shall be extended by the amount of time that Optionee was in violation.

(c) The Company and Optionee further agree that if any restriction contained in Section 7 or 8 is held by any appropriate forum to be unenforceable or unreasonable, a lesser restriction will be enforced in its place and remaining restrictions contained herein will be enforced independently of each other. Optionee agrees to pay any attorneys' fees, and expenses incurred by the Company if the Company chooses, in its sole discretion, to enforce any provision hereunder.

Without in any way limiting the other terms and provisions of this Agreement or the Plan, if Optionee violates Section 7 or 8 of this Agreement at a time that Optionee holds unexercised options granted under the Plan, such options shall be deemed immediately cancelled and shall have no further force and effect. In addition, if Optionee violates Section 7 or 8 of this Agreement following Optionee's exercise of options and acquisition of Option Shares, the Company shall have the right to repurchase such Option Shares for the Exercise Price per Option Share in accordance with the terms of the Stock Purchase Agreement between the Company and Optionee, in addition to Optionee's payment of all other damages that the Company has suffered as result of Optionee's breach, and to all other relief to which the Company is entitled under this Agreement and under applicable law.

10. Adjustment in Option Shares. If any stock split, stock dividend, recapitalization, combination of shares, exchange of shares or other change affecting the outstanding Common Stock as a class without the Company's receipt of consideration, appropriate adjustments shall be made to (a) the total number and/or class of securities subject to this option and (b) the Exercise Price in order to reflect such change and thereby preclude a dilution or enlargement of benefits hereunder.

11. Shareholder Rights. The holder of this option shall not have any shareholder rights with respect to the Option Shares until such person shall have exercised the option, paid the Exercise Price and become a holder of record of the purchased shares.

12. Manner of Exercising Option.

(a) In order to exercise this option with respect to all or any part of the Option Shares for which this option is at the time exercisable, Optionee (or any other person or persons exercising the option) must take the following actions:

(i) Execute and deliver to the Company a Stock Purchase Agreement substantially in the form attached hereto as Exhibit A for the Option Shares for which the option is exercised, or such other form as may be prescribed by the Company.

(ii) Pay the aggregate Exercise Price, plus all applicable federal, state and local income and employment taxes, if any, for the purchased shares in one or more of the following forms:

(A) cash or check made payable to the Company;

(B) a promissory note payable to the Company, but only to the extent authorized by the Plan Administrator in accordance with Section 19;

(C) if then permitted by the Plan Administrator, in shares of Common Stock held by Optionee (or any other person or persons exercising the option) for the requisite period necessary to avoid a charge to the Company's earnings for financial reporting purposes and valued at Fair Market Value on the Exercise Date; or

(D) if the Common Stock is registered under Section 12(g) of the 1934 Act and to the extent the option is exercised for vested Option Shares, through a special sale and remittance procedure pursuant to which Optionee (or any other person or persons exercising the option) shall concurrently provide irrevocable written instructions (i) to a Company-designated brokerage firm to effect the immediate sale of the purchased shares and remit to the Company, out of the sale proceeds available on the settlement date, sufficient funds to cover the aggregate Exercise Price payable for the purchased shares plus all applicable federal, state and local income and employment taxes required to be withheld by the Company by reason of such exercise and (ii) to the Company to deliver the certificates for the purchased shares directly to such brokerage firm in order to complete the sale.

Except to the extent the sale and remittance procedure is utilized in connection with the option exercise, payment of the Exercise Price must accompany the Stock Purchase Agreement delivered to the Company in connection with the option exercise.

(iii) Furnish to the Company appropriate documentation that the person exercising the option (if other than Optionee) has the right to exercise the option.

(iv) Execute and deliver to the Company such written representations as may be requested by the Company in order for it to comply with the applicable requirements of federal and state securities laws.

(b) As soon as practical after the Exercise Date, the Company shall issue to or on behalf of Optionee (or any other person or persons exercising the option) a certificate for the purchased Option Shares, with the appropriate legends affixed thereto. To the extent any such Option Shares are subject to repurchase rights, the certificates for those Option Shares shall be endorsed with an appropriate legend evidencing the Company's repurchase rights and may be held in escrow with the Company until such shares vest.

(c) In no event may this option be exercised for any fractional shares.

13. REPURCHASE RIGHTS; TRANSFER RESTRICTIONS. ALL OPTION SHARES ACQUIRED UPON THE EXERCISE OF THE OPTION MAY BE SUBJECT TO CERTAIN REPURCHASE RIGHTS, DRAG- ALONG RIGHTS, VOTING AGREEMENTS AND TRANSFER RESTRICTIONS EXERCISABLE BY THE COMPANY AND ITS ASSIGNS. THE TERMS OF SUCH RIGHTS ARE SPECIFIED IN THE STOCK PURCHASE AGREEMENT.

14. No Employment or Service Contract. Nothing in this Agreement shall confer upon Optionee any right to continue in Service for any period of specific duration or interfere with or otherwise restrict in any way the rights of the Company (or any Parent or Subsidiary employing or retaining Optionee) or of Optionee, which rights are hereby expressly reserved by each, to terminate Optionee's Service at any time for any reason, with or without cause and with or without notice.

15. Compliance with Laws and Regulations.

(a) The exercise of this option and the issuance of the Option Shares upon such exercise shall be subject to compliance by the Company and Optionee with all applicable requirements of law relating thereto and with all applicable regulations of any stock exchange (or to Nasdaq National Market, if applicable) on which the Common Stock may be listed for trading at the time of such exercise and issuance. As a condition precedent to the exercise of the option granted hereby, the Company may require Optionee to satisfy any qualifications that may be necessary or appropriate, to evidence compliance with any applicable law or regulation and to make any representation or warranty with respect thereto as may be requested by the Company.

(b) The inability of the Company to obtain approval from any regulatory body having authority deemed by the Company to be necessary to the lawful issuance and sale of any Common Stock pursuant to this option shall relieve the Company of any liability with respect to the non-issuance or sale of the Common Stock as to which such approval shall not have been obtained. The Company, however, shall use its best efforts to obtain all such approvals.

(c) OPTIONEE IS CAUTIONED THAT THE OPTION MAY NOT BE EXERCISED UNLESS THE FOREGOING CONDITIONS ARE SATISFIED. ACCORDINGLY, OPTIONEE MAY NOT BE ABLE TO EXERCISE THE OPTION WHEN DESIRED EVEN THOUGH THE OPTION IS VESTED.

16. Arbitration. Any legal or equitable claims or disputes between Optionee and the Company, including without limitation, those arising out of or in connection with the Service, or the termination of Service, of Optionee by the Company (other than a suit for injunctive relief) will be resolved exclusively by binding arbitration. This Agreement applies to the following allegations, disputes, and claims for relief, but is not limited to those listed: wrongful discharge under statutory law and common law; employment discrimination based on federal, state, or local statute, ordinance, or governmental regulation; retaliatory discharge or other action; compensation disputes; tortious conduct; contractual violations (although no contractual relationship, other than at will employment and this Agreement and agreement to arbitrate, is hereby created); ERISA violations; and other statutory and common law claims and disputes.

The arbitration proceedings shall be conducted in Austin, Texas in accordance with the Commercial Dispute Resolution Rules (the “CDR Rules”) of the American Arbitration Association (“AAA”) in effect at the time a demand for arbitration is made. Optionee is entitled to representation by an attorney throughout the proceedings at his own expense; however, the Company agrees not to use an attorney in the arbitration hearing if the Optionee agrees to the same.

One arbitrator shall be used and shall be chosen by mutual agreement of the parties. If, within 30 days after the Optionee notifies the Company of an arbitrable dispute, no arbitrator has been chosen, an arbitrator shall be chosen from a list or lists of proposed arbitrators submitted by the AAA pursuant to its CDR Rules, except that (a) the number of preemptory strikes shall not be limited, and (b) if the parties fail to select an arbitrator from one or more lists, AAA shall not have the power to appoint the arbitrator but shall continue to submit lists until the arbitrator has been selected. The arbitrator shall coordinate, and limit as appropriate, all pre-arbitral discovery, which shall include document production, information requests, and depositions. The arbitrator shall issue a written decision and award stating the reasons therefor. The decision and award shall be final and binding on parties, their heirs, executors, administrators, successors, and assigns, and shall be treated as strictly confidential by the parties. The costs and expenses of the arbitration shall be borne evenly by the parties.

17. Successors and Assigns. Except to the extent otherwise provided in Sections 3 and 6, the provisions of this Agreement shall inure to the benefit of, and be binding upon, the Company and Company’s assigns, the Company and its successors and assigns and Optionee, Optionee’s assigns and the legal representatives, heirs and legatees of Optionee’s estate.

18. Notices. Any notice required to be given or delivered to the Company under the terms of this Agreement shall be in writing and addressed to the Company at the Company’s principal corporate offices. Any notice required to be given or delivered to Optionee shall be in writing and addressed to Optionee at the address indicated on Part I. All notices shall be deemed effective upon personal delivery or upon deposit in the U.S. mail, postage prepaid and properly addressed to the party to be notified.

19. Financing. The Plan Administrator may, in its absolute discretion made without any obligation to do so, permit Optionee to pay the Exercise Price for the purchased Option Shares by delivering a full-recourse promissory note payable to the Company. The terms of any such promissory note (including the interest rate, the requirements for collateral and the terms of repayment) shall be established by the Plan Administrator in its sole discretion.

20. Construction. This Agreement and the option evidenced hereby are made and granted pursuant to the Plan and are in all respects limited by and subject to the terms of the Plan. All decisions of the Plan Administrator with respect to any question or issue arising under this Agreement shall be conclusive and binding on all persons having an interest in this option.

21. Governing Law. **This Agreement shall be governed by the laws of the State of Texas without giving effect to any choice or conflict of law provisions.**

22. Acknowledgement: Optionee hereby acknowledges receipt of a copy of the Plan in the form attached hereto as Exhibit B.

23. Shareholder Approval.

(a) If this option is designated in Part I as an Incentive Option, then its character as an Incentive Option is subject to approval of the Plan by the Company’s shareholders within 12 months after the adoption of the Plan by the Board. If such shareholder approval is not obtained, then this option, if designated as an Incentive Option in Part I, shall automatically, without any action on the part of the Company or Optionee, be treated as a Non-Statutory Option.

(b) If the Option Shares covered by this Agreement exceed, as of the Grant Date, the number of shares of Common Stock that may be issued under the Plan, then this option shall be void with respect to such excess shares, unless shareholder approval of an amendment sufficiently increasing the number of shares of Common Stock issuable under the Plan is obtained in accordance with the provisions of the Plan.

24. Severability. If any provision of this Agreement is held by final judgment of a court of competent jurisdiction to be invalid, illegal or unenforceable, such invalid, illegal or unenforceable provision shall be severed from the remainder of this Agreement, and the remainder of this Agreement shall be enforced. In addition, the invalid, illegal or unenforceable provision shall be deemed to be automatically modified, and, as so modified, to be included in this Agreement, such modification being made to the minimum extent necessary to render the provision valid, legal and enforceable. Notwithstanding the foregoing, however, if the severed or modified provision concerns all or a portion of the essential consideration to be delivered under this Agreement by one party to the other, the remaining provisions of this Agreement shall also be modified to the extent necessary to equitably adjust the parties' respective rights and obligations hereunder.

25. Entire Agreement. Except as provided below, the Plan, this Agreement, including the exhibits and schedules attached hereto, if any, contains the entire agreement of the parties with respect to the subject matters hereof, and supersedes all prior agreements between them, whether oral or written, of any nature whatsoever with respect to the subject matter hereof. However, this Agreement does not supersede the Company's rights under any agreement between Optionee and the Company that (i) protects the Company's proprietary information or intellectual property, or (ii) prohibits Optionee from competing with the Company or soliciting the Company's customers, suppliers or employees; rather all such rights of the Company under any such agreements shall be in addition to the rights granted herein. In addition, if the Company and Optionee have entered into a separate agreement concerning arbitration of claims, the Company shall elect, within 10 days of notice from Optionee of a claim to be arbitrated, whether any such arbitration shall be governed by the provisions of this Agreement or of such separate agreement.

VITAL FARMS, INC.
STOCK PURCHASE AGREEMENT

THIS STOCK PURCHASE AGREEMENT (this "Agreement") is made as of this _____ day of _____, 20____, by and between Vital Farms, Inc., a Delaware corporation (the "Company"), and ("Optionee"), under the Company's 2013 Incentive Plan (the "Plan").

Capitalized terms in this Agreement not otherwise defined herein shall have the meanings assigned to them in the Plan.

1. Exercise of Option.

(a) Purchase. Optionee hereby purchases _____ shares of Common Stock (the "Purchased Shares") pursuant to that certain Stock Option Agreement (the "Option Agreement") dated _____, 20____ (the "Grant Date"), to purchase up to _____ shares of Common Stock under the Plan at the exercise price of \$[_____] per share (the "Exercise Price").

(b) Payment. Concurrently with the delivery of this Agreement to the Company, Optionee shall pay the Exercise Price, plus all applicable federal, state and local income and employment taxes, if any, for the Purchased Shares in accordance with the provisions of the Option Agreement and, if the Purchased Shares are not fully vested (the "Unvested Shares"), shall deliver a duly-executed blank Stock Power in the form attached hereto as Exhibit I with respect to the Purchased Shares.

(c) Escrow. The Company shall have the right to hold the Purchased Shares in escrow until those shares have vested in accordance with the Vesting Schedule set forth in Part I of the Option Agreement (when so vested, the "Vested Shares").

(d) Shareholder Rights. Until such time as the Company exercises the Repurchase Right or the First Refusal Right (as defined below), Optionee or any successor in interest (Optionee and any successor-in-interest being sometimes referred to herein as "Owner"), shall have all the rights of a shareholder (including voting, dividend and liquidation rights) with respect to the Purchased Shares, subject, however, to the transfer restrictions of Section 2.

2. Transfer Restrictions.

(a) Restricted Securities. The Purchased Shares have not been registered under the Securities Act of 1933, as amended ("1933 Act"), and are being issued to Optionee in reliance upon one or more exemptions from such registration provided by Securities and Exchange Commission ("SEC"). Optionee hereby confirms that Optionee has been informed that the Purchased Shares are restricted securities under the 1933 Act and may not be resold or transferred unless the Purchased Shares are first registered under the federal securities laws or unless an exemption from such registration is available. Accordingly, Optionee hereby acknowledges that Optionee is prepared to hold the Purchased Shares for an indefinite period and that Optionee is aware that SEC Rule 144 issued under the 1933 Act, which exempts certain resales of restricted securities, is not presently available to exempt the resale of the Purchased Shares from the registration requirements of the 1933 Act.

(b) Restrictions on Disposition of Purchased Shares. Optionee shall not transfer, assign, encumber or otherwise dispose of any Unvested Shares. Without the Company's consent, Optionee shall not transfer, assign, encumber or otherwise dispose of any Vested Shares other than a Permitted Transfer (as defined below) unless and until there is compliance with all of the following requirements:

(i) Optionee shall have provided the Company with a written summary of the terms and conditions of the proposed disposition.

(ii) Optionee shall have complied with all requirements of this Agreement applicable to the disposition of the Purchased Shares, including without limitation, the First Refusal Right and Market Stand-Off (as defined below).

(iii) Optionee shall have provided the Company with written assurances, in form and substance satisfactory to the Company, that (A) the proposed disposition does not require registration of the Purchased Shares under the 1933 Act or (B) all appropriate action necessary for compliance with the registration requirements of the 1933 Act or any exemption from registration available under the 1933 Act (including Rule 144 promulgated thereunder) has been taken.

The Company shall not be required (i) to transfer on its books any Purchased Shares that have been sold or transferred in violation of the provisions of this Agreement or (ii) to treat as the Owner of the Purchased Shares, or otherwise to accord voting, dividend or liquidation rights to, any transferee to whom the Purchased Shares have been transferred in contravention of this Agreement.

(c) Transferee Obligations. Each person, other than the Company, to whom the Purchased Shares are transferred by means of a Permitted Transfer must, as a condition precedent to the validity of such transfer, acknowledge in writing to the Company that such person is bound by the provisions of this Agreement and that the transferred shares are subject to (i) the Repurchase Right, (ii) the First Refusal Right and (iii) the Market Stand-Off, to the same extent such shares would be so subject if retained by Optionee.

(d) Restrictive Legends. The stock certificates for all Purchased Shares shall be endorsed with substantially the following restrictive legends:

THE SECURITIES REPRESENTED BY THIS CERTIFICATE HAVE BEEN ACQUIRED FOR INVESTMENT AND HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, OR ANY STATE SECURITIES LAWS. WITHOUT SUCH REGISTRATION, SUCH SECURITIES MAY NOT BE SOLD, PLEDGED, HYPOTHECATED OR OTHERWISE TRANSFERRED AT ANY TIME WHATSOEVER, EXCEPT UPON DELIVERY TO THE COMPANY OF AN OPINION OF COUNSEL SATISFACTORY TO THE COMPANY THAT REGISTRATION IS NOT REQUIRED FOR SUCH TRANSFER AND/OR THE SUBMISSION TO THE COMPANY OF SUCH OTHER EVIDENCE AS MAY BE SATISFACTORY TO THE COMPANY TO THE EFFECT THAT ANY SUCH TRANSFER WILL NOT BE IN VIOLATION OF THE SECURITIES ACT OF 1933, AS AMENDED, AND/OR APPLICABLE STATE SECURITIES LAWS AND/OR ANY RULE OR REGULATION PROMULGATED THEREUNDER.

THE SHARES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO CERTAIN TRANSFER RESTRICTIONS AND CERTAIN REPURCHASE RIGHTS AND RIGHTS OF FIRST REFUSAL GRANTED TO THE COMPANY AND ACCORDINGLY, MAY NOT BE SOLD, ASSIGNED, TRANSFERRED, ENCUMBERED, OR IN ANY MANNER DISPOSED OF EXCEPT IN CONFORMITY WITH THE TERMS OF A STOCK PURCHASE AGREEMENT BETWEEN THE COMPANY AND THE REGISTERED HOLDER OF THE SHARES (OR THE PREDECESSOR IN INTEREST TO THE SHARES). A COPY OF SUCH AGREEMENT IS MAINTAINED AT THE COMPANY'S PRINCIPAL CORPORATE OFFICES.

(e) Market Stand-Off.

(i) In connection with any underwritten public offering by the Company of its equity securities pursuant to an effective registration statement filed under the 1933 Act, including the Company's initial public offering ("IPO"), Owner shall not sell, make any short sale of, loan, hypothecate, pledge, grant any option for the purchase of, or otherwise dispose or transfer for value or otherwise agree to engage in any of the foregoing transactions with respect to, any Purchased Shares without the prior written consent of the Company or its underwriters. Such restriction (the "Market Stand-Off") shall be in effect for such period of time from and after the effective date of the final prospectus for the offering as may be requested by the Company or such underwriters. In no event, however, shall such period exceed 180 days.

(ii) Owner shall be subject to the Market Stand-Off provided and only if the officers and directors of the Company are also subject to similar restrictions.

(iii) Any new, substituted or additional securities that are by reason of any Recapitalization (as defined below) or Corporate Transaction distributed with respect to the Purchased Shares shall be immediately subject to the Market Stand-Off, to the same extent the Purchased Shares are at such time covered by such provisions.

(iv) In order to enforce the Market Stand-Off, the Company may impose stop transfer instructions with respect to the Purchased Shares until the end of the applicable stand-off provisions.

(f) Permitted Transfer. A “Permitted Transfer” shall mean a transfer of the Purchased Shares (i) to one or more members of Optionee’s immediate family or to an estate planning entity established exclusively for Optionee or one or more members of Optionee’s immediate family, (ii) to persons pursuant to Optionee’s will or the laws of intestate succession following Optionee’s death, (iii) to the Company in pledge as security for any purchase-money indebtedness incurred by Optionee in connection with the acquisition of the Purchased Shares, or (iv) with the consent of the Plan Administrator, to an entity of which Optionee is an officer, director, shareholder, partner or affiliate. “Immediate family” as used herein shall mean spouse or partner, lineal descendant or antecedent, father, mother, brother or sister.

3. Repurchase Right.

(a) Grant. The Company, or its assigns, is hereby granted the right (the “Repurchase Right”), exercisable at any time during the 90-day period following the date Optionee ceases for any reason to remain in Service, to repurchase at the Exercise Price all or any portion of the Unvested Shares. Except as otherwise set forth herein, Unvested Shares shall be repurchased at the Exercise Price.

(b) Exercise of Repurchase Right. The Repurchase Right shall be exercisable by written notice delivered to each Owner of the Unvested Shares prior to the expiration of the 90-day exercise period. The notice shall indicate the number of Unvested Shares to be repurchased and the date on which the repurchase is to be effected, such date to be not more than 30 days after the date of such notice. The certificates representing the Unvested Shares to be repurchased shall be delivered to the Company prior to the close of business on the date specified for the repurchase. Concurrently with the receipt of such stock certificates, the Company shall pay to Owner, in cash or cash equivalents (including the cancellation of a purchase money indebtedness), an amount equal to the Exercise Price previously paid for the Unvested Shares that are to be repurchased from Owner.

(c) Termination of Repurchase Right. In addition, the Repurchase Right shall terminate and cease to be exercisable with respect to any and all Purchased Shares in which Optionee vests in accordance with the Vesting Schedule, subject, however, to Section 4(g). All Purchased Shares as to which the Repurchase Right lapses shall, however, remain subject to (i) the First Refusal Right and (ii) the Market Stand-Off.

(d) Aggregate Vesting Limitation. If the option is exercised in more than one increment so that Optionee is a party to one or more other Stock Purchase Agreements (the “Prior Purchase Agreements”) which are executed prior to the date of this Agreement, then the total number of Purchased Shares as to which Optionee shall be deemed to have a fully-vested interest under this Agreement and all Prior Purchase Agreements shall not exceed in the aggregate the number of Purchased Shares in which Optionee would otherwise at the time be vested, in accordance with the Vesting Schedule, had all the Purchased Shares, including those acquired under the Prior Purchase Agreements, have been acquired exclusively under this Agreement.

(e) Recapitalization. Any new, substituted or additional securities or other property (including cash paid other than as a regular cash dividend) that is by reason of any stock split, stock dividend, recapitalization, combination of shares, exchange of shares or other change

affecting the outstanding Common Stock as a class without the Company's receipt of consideration (a "Recapitalization"), distributed with respect to the Purchased Shares shall be immediately subject to the Repurchase Right, but only to the extent the Purchased Shares are at the time covered by such right. Appropriate adjustments to reflect such distribution shall be made to the number and/or class of Purchased Shares subject to this Agreement and to the price per share to be paid upon the exercise of the Repurchase Right in order to reflect the effect of any such Recapitalization upon the Company's capital structure; provided, however, that the aggregate purchase price shall remain the same.

(f) Corporate Transaction.

(i) The Repurchase Right shall be assignable to the successor entity in any Corporate Transaction. However, to the extent the successor entity does not accept such assignment, the Repurchase Right shall lapse immediately prior to the consummation of the Corporate Transaction.

(ii) To the extent the Repurchase Right remains in effect following a Corporate Transaction, such right shall apply to the new capital stock or other property, including any cash payments, received in exchange for the Purchased Shares upon consummation of the Corporate Transaction, but only to the extent the Purchased Shares are at the time covered by such right. Appropriate adjustments shall be made to the price per share payable upon exercise of the Repurchase Right to reflect the effect of the Corporate Transaction upon the Company's capital structure; provided, however, that the aggregate purchase price shall remain the same. The new securities or other property, including cash payments, issued or distributed with respect to the Purchased Shares upon consummation of the Corporate Transaction shall immediately be deposited in escrow with the Company (or the successor entity) and shall not be released from escrow until Optionee vests in such securities or other property in accordance with the same Vesting Schedule in effect for the Purchased Shares.

(iii) The Repurchase Right shall automatically lapse in its entirety, and all the Purchased Shares shall immediately vest in full, upon an Involuntary Termination of Optionee's Service within 18 months following the effective date of a Corporate Transaction in which the Repurchase Right has been assigned.

(g) Repurchase Option Upon Termination for Misconduct or Violation of Non- compete. Notwithstanding anything to the contrary herein, the Option Agreement or in the Plan, if an Owner who is an employee of the Company is terminated for Misconduct or violates, or attempts to violate, the non-competition or non-solicitation provisions of the Option Agreement, all Unvested Shares held by Owner shall be automatically forfeited and shall cease to be outstanding, without the payment of consideration therefor, and additionally, the Company shall have the option to repurchase all or any portion of any Vested Shares. The Company may, but is not obligated to, exercise its option by delivering written notice to each Owner of the Vested Shares within 90 days following the date of such termination. The notice shall indicate the number of Vested Shares to be repurchased and the date on which the repurchase is to be effected, such date to be not more than 30 days after the date of such notice. The certificate(s) representing the Vested Shares to be repurchased shall be delivered to the Company prior to the close of business on the date specified for the repurchase, along with a duly executed stock power(s) transferring the Vested Shares to the Company. Concurrently with the receipt of such stock certificate(s) and duly executed stock power(s), the Company shall pay to Owner, by check, cash or cash equivalents (including the cancellation of any purchase-money indebtedness), an amount equal to the aggregate Exercise Price of the Vested Shares that are to be repurchased from Owner; provided, however, if Owner fails to deliver such certificate(s) and stock power(s) to the Company in a timely manner and the Company makes the check, cash or cash equivalents available to Owner on the date specified in the notice for repurchase of the Vested Shares, then the Vested Shares shall be deemed to have been repurchased by the Company as of such date, notwithstanding Owner's failure to deliver the stock certificate(s) evidencing such Vested Shares and stock power(s) transferring the Vested Shares to the Company. The Company's repurchase option shall terminate with respect to any Vested Shares for which it is not timely exercised under this Section, provided that all Vested Shares as to which the repurchase option lapses shall, however, remain subject to (i) the First Refusal Right and (ii) the Market Stand-Off.

4. Right of First Refusal.

(a) Grant. The Company is hereby granted the right of first refusal (the “First Refusal Right”), exercisable in connection with any proposed transfer of the Purchased Shares in which Optionee has vested in accordance with the Vesting Schedule and has the right to sell hereunder. For purposes of this Section 4, the term “transfer” shall include any sale, assignment, pledge, encumbrance or other disposition of the Purchased Shares intended to be made by Owner, but shall not include any Permitted Transfer.

(b) Notice of Intended Disposition. In the event any Owner of Purchased Shares in which Optionee has vested desires to accept a bona fide third-party offer for the transfer of any or all of such shares (the Purchased Shares subject to such offer to be hereinafter referred to as the “Target Shares”), Owner shall promptly (a) deliver to the Company written notice (the “Disposition Notice”) of the terms of the offer, including the purchase price and the identity of the third-party offeror, and (b) provide satisfactory proof that the disposition of the Target Shares to such third-party offeror would not be in contravention of the provisions set forth in Section 2.

(c) Exercise of First Refusal Right. The Company shall, for a period of 45 days following receipt of the Disposition Notice, have the right to repurchase any or all of the Target Shares subject to the Disposition Notice upon the same terms as those specified therein or upon such other terms not materially different from those specified in the Disposition Notice to which Owner consents. Such right shall be exercisable by delivery of written notice (the “Exercise Notice”) to Owner prior to the expiration of the 45-day exercise period. If such right is exercised with respect to all the Target Shares, then the Company shall effect the repurchase of such shares, including payment of the purchase price, not more than 15 business days after delivery of the Exercise Notice; and at such time the certificates representing the Target Shares shall be delivered to the Company.

If the purchase price specified in the Disposition Notice is payable in property other than cash or evidences of indebtedness, the Company shall have the right to pay the purchase price in cash equal in amount to the value of such property. If Owner and the Company cannot agree on such cash value within 30 days after the Company’s receipt of the Disposition Notice, the valuation shall be made by an appraiser of recognized standing selected by Owner and the Company or, if they cannot agree on an appraiser within 45 days after the Company’s receipt of the Disposition Notice, each shall select an appraiser of recognized standing and the two appraisers shall designate a third appraiser of recognized standing, whose appraisal shall be determinative of such value. The cost of such appraisal shall be shared equally by Owner and the Company. The closing shall then be held on the later of (i) the 15th business day following delivery of the Exercise Notice or (ii) the 15th business day after such valuation shall have been made.

(d) Non-Exercise of First Refusal Right. In the event the Exercise Notice is not given to Owner prior to the expiration of the 45-day exercise period, Owner shall have a period of 30 days thereafter in which to sell or otherwise dispose of the Target Shares to the third-party offeror identified in the Disposition Notice upon terms, including the purchase price, no more favorable to such third-party offeror than those specified in the Disposition Notice; provided, however, that any such sale or disposition must not be effected in contravention of the provisions of Section 2. The third-party offeror shall acquire the Target Shares free and clear of the Repurchase Right, but the acquired shares shall remain subject to the provisions of Section 2, the First Refusal Right, and the Market Stand-Off. If Owner does not effect such sale or disposition of the Target Shares within the specified 30-day period, the First Refusal Right shall continue to be applicable to any subsequent disposition of the Target Shares by Owner until such right lapses.

(e) Recapitalization/Corporate Transaction.

(i) Any new, substituted or additional securities or other property which is by reason of any Recapitalization distributed with respect to the Purchased Shares shall be immediately subject to the First Refusal Right, but only to the extent the Purchased Shares are at the time covered by such right.

(ii) In the event of a Corporate Transaction or transaction to change the state of the Company's incorporation or to create a holding company that will be owned in substantially the same proportions by the persons or entities who held the Company's securities immediately before such transaction, the First Refusal Right shall remain in full force and effect and shall apply to the new capital stock or other property received in exchange for the Purchased Shares in consummation of the Corporate Transaction, but only to the extent the Purchased Shares are at the time covered by such right.

(f) Lapse. The First Refusal Right shall lapse upon the earliest to occur of (i) the first date on which shares of the Common Stock are held of record by more than 500 persons, (ii) a determination is made by the Board that a public market exists for the outstanding shares of Common Stock or (iii) an firm commitment underwritten IPO covering the offer and sale of the Common Stock in the aggregate amount of at least \$10,000,000. However, the Market Stand-Off shall continue to remain in full force and effect following the lapse of the First Refusal Right.

5. Drag-Along Rights

(a) Notwithstanding any other provision of this Agreement, if shareholders owning greater than 70% of the outstanding voting power of the capital stock of the Company of all classes (the "Selling Shareholders") elect to sell all of their stock to any person (the "Drag-Along Purchaser"), then the Selling Shareholders shall have the authority and right to require that Optionee transfer 100% of his or her Incentive Stock (as defined in the Plan) to the Drag-Along Purchaser at the same purchase price and otherwise upon the same terms and subject to the same conditions as apply to sale of the Selling Shareholders' stock.

(b) The Selling Shareholders electing to sell their stock shall provide at least fifteen (15) days written notice of such sale to the Company and the Optionee, including the name of the Drag-Along Purchaser, the consideration to be received for such stock and the other material terms and conditions of such sale. After the delivery of such notice, the Selling Shareholders shall provide Optionee with any additional information as is reasonably requested with respect to such sale. In the event that the consideration, terms and/or conditions set forth in the initial notice are thereafter amended in any material respect, the Selling Shareholders shall give written notice of the amended terms and conditions of the proposed sale to Optionee and each such notice of any material amendments to the terms shall be given at least 10 days prior to the sale.

(c) All sales of stock pursuant to this Section 5 shall be consummated at the offices of the Corporation, unless the Selling Shareholders elect otherwise, on a date specified by the Selling Shareholders (i) not less than fifteen (15) nor more than sixty (60) days after the initial notice delivered pursuant to subparagraph (a) above and (ii) not less than five (5) days after written notice of the date for such consummation is given by the Selling Shareholders to the Optionee. The delivery of certificates (if any) or other instruments evidencing such stock shall be made on such date, against payment of the purchase price for such stock, with such other instruments of transfer of such stock as may be reasonably requested by the Selling Shareholders and the Company. Additionally, Optionee shall comply with any other conditions to closing generally applicable to shareholders selling stock in such transaction. Optionee shall receive the same price and form of consideration as that received by the Selling Shareholders for his or her stock. To the extent that the parties to the sale are to provide any indemnification or otherwise assume any other post-closing liabilities, the Selling Shareholders and Optionee selling stock in a transaction under this Section 5 shall do so severally and not jointly (and on a pro rata basis in accordance with their respective stock being sold, provided that any Selling Shareholder, in his or her sole discretion, may assume greater liabilities) and their respective potential liability thereunder shall not exceed the proceeds received, subject to customary exceptions in excess of such limits. Furthermore, the Selling Shareholders and Optionee shall only be required to give customary representations and warranties, including, but not limited to, title to interests conveyed, legal authority and capacity and non-contravention of other agreements.

(d) Optionee, when selling capital stock in a transaction pursuant to this Section 5, shall bear his or her own expenses of such sale.

(e) In the event the Board has approved a Corporate Transaction other than a sale of stock as described in Section 5(a), and shareholders owning greater than 66 2/3% of the outstanding voting power of the capital stock of the Corporation of all classes (the “Approving Shareholders”) indicate in writing to the Participants (the “Approval Notice”) that they will vote their capital stock (in person, by proxy or by action by written consent, as applicable) in favor of such Corporate Transaction in the form attached to such Approval Notice, then each Participant shall vote (in person, by proxy or by action by written consent, as applicable) all Incentive Stock in favor of, and adopt, such Corporate Transaction in the form attached to such Approval Notice and to vote in opposition to any and all other proposals that could delay or impair the ability of the Company to consummate such Corporate Transaction. The Approval Notice shall be given to each Participant no later than 10 days prior to the vote or effective date of the written consent for such Corporate Transaction.

(f) Each Participant hereby constitutes and appoints as his or her proxies and hereby grants a power of attorney to the Chief Executive Officer of the Corporation, with full power of substitution, with respect to the voting of Incentive Shares as provided herein, and hereby authorizes each of them to represent and to vote, if and only if the Participant (i) fails to vote or (ii) attempts to vote (whether by proxy, in person or by written consent), in a manner which is inconsistent with the terms of this Section 5, all of such Participant’s Incentive Stock in favor of the approval of a Corporate Transaction as required herein. Each Participant hereby revokes any and all previous proxies or powers of attorney with respect to the Incentive Stock and shall not hereafter, unless and until the provisions of this Section 5 terminate, purport to grant any other proxy or power of attorney with respect to any of the Incentive Stock, deposit any of the Incentive Stock into a voting trust or enter into any agreement, except as provided herein, arrangement or understanding with any person or entity, directly or indirectly, to vote, grant any proxy or give instructions with respect to the voting of any of Incentive Stock, in each case, with respect to any of the matters set forth in this Section 5.

6. Special Tax Election.

(a) Section 83(b) Election. Under Code Section 83, the excess of the Fair Market Value of the Purchased Shares on the date any forfeiture restrictions applicable to such shares lapse, over the Exercise Price paid for such shares, will be reportable as ordinary income on the lapse date. For this purpose, the term “forfeiture restrictions” includes the right of the Company to repurchase the Purchased Shares pursuant to the Repurchase Right. Optionee may elect under Code Section 83(b) to be taxed at the time the Purchased Shares are acquired, rather than when and as such Purchased Shares cease to be subject to such forfeiture restrictions. Such election must be filed with the Internal Revenue Service within 30 days after the date of this Agreement. Even if the Fair Market Value of the Purchased Shares on the date of this Agreement equals the Exercise Price paid (and thus no tax is payable), the election must be made to avoid adverse tax consequences in the future. **THE FORM FOR MAKING THIS ELECTION IS ATTACHED AS EXHIBIT II HERETO. OPTIONEE UNDERSTANDS THAT FAILURE TO MAKE THIS FILING WITHIN THE APPLICABLE 30-DAY PERIOD WILL RESULT IN THE RECOGNITION OF ORDINARY INCOME AS THE FORFEITURE RESTRICTIONS LAPSE.**

(b) FILING RESPONSIBILITY. **OPTIONEE ACKNOWLEDGES THAT IT IS OPTIONEE’S SOLE RESPONSIBILITY, AND NOT THE COMPANY’S, TO FILE A TIMELY ELECTION UNDER CODE SECTION 83(b), EVEN IF OPTIONEE REQUESTS THE COMPANY OR ITS REPRESENTATIVES TO MAKE THIS FILING ON HIS OR HER BEHALF.**

7. Arbitration. Any legal or equitable claims or disputes between Optionee and the Company, including without limitation, those arising out of or in connection with the Service, or the termination of Service, of Optionee by the Company (other than a suit for injunctive relief) will be resolved exclusively by binding arbitration. This Agreement applies to the following allegations, disputes, and claims for relief, but is not limited to those listed: wrongful discharge under statutory law and common law; employment discrimination based on federal, state, or local statute, ordinance, or governmental regulation; retaliatory discharge or other action; compensation disputes; tortious conduct; contractual violations (although no contractual relationship, other than at will employment and this Agreement and agreement to arbitrate, is hereby created); ERISA violations; and other statutory and common law claims and disputes.

The arbitration proceedings shall be conducted in Austin, Texas in accordance with the Commercial Dispute Resolution Rules (the “CDR Rules”) of the American Arbitration Association (“AAA”) in effect at the time a demand for arbitration is made. Optionee is entitled to representation by an attorney throughout the proceedings at his own expense; however, the Company agrees not to use an attorney in the arbitration hearing if Optionee agrees to the same.

One arbitrator shall be used and shall be chosen by mutual agreement of the parties. If, within 30 days after Optionee notifies the Company of an arbitrable dispute, no arbitrator has been chosen, an arbitrator shall be chosen from a list or lists of proposed arbitrators submitted by the AAA pursuant to its CDR Rules, except that (a) the number of preemptory strikes shall not be limited, and (b) if the parties fail to select an arbitrator from one or more lists, AAA shall not have the power to appoint the arbitrator but shall continue to submit lists until the arbitrator has been selected. The arbitrator shall coordinate, and limit as appropriate, all pre-arbitral discovery, which shall include document production, information requests, and depositions. The arbitrator shall issue a written decision and award stating the reasons therefor. The decision and award shall be final and binding on both parties, their heirs, executors, administrators, successors, and assigns, and shall be treated as strictly confidential by the parties. The costs and expenses of the arbitration shall be borne evenly by the parties.

8. General Provisions.

(a) Assignment. The Company may assign the Repurchase Right and/or the First Refusal Right to any person or entity selected by the Board, including without limitation, one or more shareholders of the Company.

(b) No Employment or Service Contract. Nothing in this Agreement or in the Plan shall confer upon Optionee any right to continue in Service for any period of specific duration or interfere with or otherwise restrict in any way the rights of the Company (or any Parent or Subsidiary employing or retaining Optionee) or of Optionee, which rights are hereby expressly reserved by each, to terminate Optionee’s Service at any time for any reason, with or without cause.

(c) Notices. Any notice required to be given under this Agreement shall be in writing and shall be deemed effective upon personal delivery or upon deposit in the U.S. mail, registered or certified, postage prepaid and properly addressed to the party entitled to such notice at the address indicated below such party’s signature line on this Agreement or at such other address as such party may designate by 10 days advance written notice under this Section to all other parties to this Agreement.

(d) No Waiver. The failure of the Company in any instance to exercise the Repurchase Right or the First Refusal Right shall not constitute a waiver of any other repurchase rights and/or rights of first refusal that may subsequently arise under the provisions of this Agreement or any other agreement between the Company and Optionee. No waiver of any breach or condition of this Agreement shall be deemed to be a waiver of any other or subsequent breach or condition, whether of like or different nature.

(e) Cancellation of Shares. If the Company shall make available, at the time and place and in the amount and form provided in this Agreement, the consideration for the Purchased Shares to be repurchased in accordance with the provisions of this Agreement, then from and after such time, the person from whom such shares are to be repurchased shall no longer have any rights as a holder of such shares other than the right to receive payment of such consideration in accordance with this Agreement. Such shares shall be deemed purchased in accordance with the applicable provisions hereof, and the Company shall be deemed the owner and holder of such shares, whether or not the certificates therefor have been delivered as required by this Agreement.

(f) Optionee Undertaking. Optionee hereby agrees to take whatever additional action and execute whatever additional documents the Company may deem necessary or advisable in order to carry out or effect one or more of the obligations or restrictions imposed on either Optionee or the Purchased Shares pursuant to the provisions of this Agreement.

(g) Agreement Applicable to Community Interests. Any right or interest of a spouse of an Owner in the Purchased Shares, whether such right or interest is created by law (including community property laws) or otherwise, shall for all purposes hereof be included in, deemed a part of and bound by the same terms hereof as the Purchased Shares to which such right or interest relates or appertains, and any action taken, offer made or purchase right exercisable hereunder with reference to Purchased Shares owned by an Owner shall be applicable to any right or interest which the spouse of such Owner may have or be entitled to have therein. The spouse of Optionee agrees to execute the attached Spousal Consent to evidence the foregoing agreements as a condition precedent to the delivery of the Purchased Shares to Optionee, unless waived by the Plan Administrator, in its sole discretion.

(h) Termination. The Company may terminate the Plan at any time; however, such termination will not modify the terms and conditions of this Agreement without Optionee's consent.

(i) Severability. If any provision of this Agreement is held by final judgment of a court of competent jurisdiction to be invalid, illegal or unenforceable, such invalid, illegal or unenforceable provision shall be severed from the remainder of this Agreement, and the remainder of this Agreement shall be enforced. In addition, the invalid, illegal or unenforceable provision shall be deemed to be automatically modified, and, as so modified, to be included in this Agreement, such modification being made to the minimum extent necessary to render the provision valid, legal and enforceable. Notwithstanding the foregoing, however, if the severed or modified provision concerns all or a portion of the essential consideration to be delivered under this Agreement by one party to the other, the remaining provisions of this Agreement shall also be modified to the extent necessary to equitably adjust the parties' respective rights and obligations hereunder.

(j) Entire Agreement. Except as provided below, this Agreement, including the exhibits and schedules attached hereto, if any, contains the entire agreement of the parties with respect to the subject matters hereof, and supersedes all prior agreements between them, whether oral or written, of any nature whatsoever with respect to the subject matter hereof. However, this Agreement does not supersede the Company's rights under any agreement between Optionee and the Company that (i) protects the Company's proprietary information or intellectual property, or (ii) prohibits Optionee from competing with the Company or soliciting the Company's customers, suppliers or employees; rather all such rights of the Company under any such agreements shall be in addition to the rights granted herein. In addition, if the Company and Optionee have entered into a separate agreement concerning arbitration of claims, the Company shall elect, within 10 days of notice from Optionee of a claim to be arbitrated, whether any such arbitration shall be governed by the provisions of this Agreement or of such separate agreement.

(k) Governing Law. This Agreement shall be governed by the laws of the State of Texas without giving effect to any choice or conflict of law provisions.

(l) Successors and Assigns. The provisions of this Agreement shall inure to the benefit of, and be binding upon, the Company and its successors and assigns and upon Optionee, Optionee's assigns and the legal representatives, heirs and legatees of Optionee's estate, whether or not any such person shall have become a party to this Agreement and have agreed in writing to join herein and be bound by the terms hereof.

EXHIBIT II

FEDERAL INCOME TAX CONSEQUENCES AND
SECTION 83(b) TAX ELECTION

1. Federal Income Tax Consequences and Section 83(b) Election For Exercise of Non- Statutory Option. If the Purchased Shares are acquired pursuant to the exercise of a Non-Statutory Option, as specified in the Option Agreement, then under Code Section 83, the excess of the Fair Market Value of the Purchased Shares on the date any forfeiture restrictions applicable to such shares lapse over the Exercise Price paid for such shares will be reportable as ordinary income on the lapse date. For this purpose, the term “forfeiture restrictions” includes the right of the Company to repurchase the Purchased Shares pursuant to the Repurchase Right. However, Optionee may elect under Code Section 83(b) to be taxed at the time the Purchased Shares are acquired, rather than when and as such Purchased Shares cease to be subject to such forfeiture restrictions. Such election must be filed with the Internal Revenue Service within 30 days after the date of the Agreement. Even if the Fair Market Value of the Purchased Shares on the date of the Agreement equals the Exercise Price paid (and thus no tax is payable), the election must be made to avoid adverse tax consequences in the future. The form for making this election is attached as part of this exhibit. **FAILURE TO MAKE THIS FILING WITHIN THE APPLICABLE 30-DAY PERIOD WILL RESULT IN THE RECOGNITION OF ORDINARY INCOME BY OPTIONEE AS THE FORFEITURE RESTRICTIONS LAPSE.**

2. Federal Income Tax Consequences and Conditional Section 83(b) Election for Exercise of Incentive Option. If the Purchased Shares are acquired pursuant to the exercise of an Incentive Option, as specified in the Option Agreement, then the following tax principles shall be applicable to the Purchased Shares:

(i) For regular tax purposes, no taxable income will be recognized at the time the option is exercised.

(ii) The excess of (a) the Fair Market Value of the Purchased Shares on the date the option is exercised or (if later) on the date any forfeiture restrictions applicable to the Purchased Shares lapse over (b) the Exercise Price paid for the Purchased Shares will be includible in Optionee’s taxable income for alternative minimum tax purposes.

(iii) If Optionee makes a disqualifying disposition of the Purchased Shares, the Optionee will recognize ordinary income in the year of such disposition equal in amount to the excess of (a) the Fair Market Value of the Purchased Shares on the date the option is exercised or (if later) on the date any forfeiture restrictions applicable to the Purchased Shares lapse over (b) the Exercise Price paid for the Purchased Shares. Any additional gain recognized upon the disqualifying disposition will be either short-term or long-term capital gain depending upon the period the Purchased Shares are held prior to the disposition.

(iv) For purposes of the foregoing, the term “forfeiture restrictions” will include the right of the Company to repurchase the Purchased Shares pursuant to the Repurchase Right. The term “disqualifying disposition” means any sale or other disposition of the Purchased Shares within two years after the Grant Date or within one year after the exercise date of the option.

(v) In the absence of final Treasury Regulations relating to Incentive Options, it is not certain whether Optionee may, in connection with the exercise of the option for any Purchased Shares at the time subject to forfeiture restrictions, file a protective election under Code Section 83(b) which would limit (a) Optionee’s alternative minimum taxable income upon exercise and (b) Optionee’s ordinary income upon a disqualifying disposition to the excess of the Fair Market Value of the Purchases Shares on the date the option is exercised over the Exercise Price paid for the Purchased Shares. Accordingly, such election if properly filed will only be allowed to the extent the final Treasury Regulations permit such a protective election. Page 2 of the attached form for making the election should be filed with any election made in connection with the exercise of an Incentive Option.

SECTION 83(b) TAX ELECTION

This statement is being made under Section 83(b) of the Internal Revenue Code, pursuant to Treas. Reg. Section 1.83-2.

(1) The taxpayer who performed the services is:

Name: _____

Address: _____

Taxpayer Ident. No.: _____

- (2) The property with respect to which the election is being made is _____ shares of common stock of _____, Inc., a _____ corporation.
- (3) The property was issued on _____, ____.
- (4) The taxable year in which the election is being made is the calendar year 200__.
- (5) The property is subject to a substantial risk of forfeiture because the taxpayer's rights in the property are conditioned upon the future performance of substantial services.
- (6) The fair market value at the time of transfer (determined without regard to any restriction other than a restriction which by its terms will never lapse) is \$____ per share.
- (7) The amount paid for such property is \$____ per share.
- (8) A copy of this statement was furnished to _____, Inc., for whom taxpayer rendered the services underlying the transfer of property.
- (9) This statement is executed on _____, 200__.

Taxpayer

This election must be filed with the Internal Revenue Service Center with which taxpayer files his or her federal income tax returns within 30 days after the execution date of the Stock Purchase Agreement. This filing should be made by registered or certified mail, return receipt requested. Optionee must retain two copies of the completed form for filing with his or her federal and state tax returns for the current tax year and an additional copy for his or her records.

The property described in the above Section 83(b) election is comprised of shares of common stock acquired pursuant to the exercise of an incentive stock option under Section 422 of the Internal Revenue Code (the "Code"). Accordingly, it is the intent of the Taxpayer to utilize this election to achieve the following tax results:

1. The purpose of this election is to have the alternative minimum taxable income attributable to the purchased shares measured by the amount by which the fair market value of such shares at the time of their transfer to the Taxpayer exceeds the purchase price paid for the shares. In the absence of this election, such alternative minimum taxable income would be measured by the spread between the fair market value of the purchased shares and the purchase price which exists on the various lapse dates in effect for the forfeiture restrictions applicable to such shares. The election is to be effective to the full extent permitted under the Code.

2. Section 421(a)(1) of the Code expressly excludes from income any excess of the fair market value of the purchased shares over the amount paid for such shares. Accordingly, this election is also intended to be effective in the event there is a "disqualifying disposition" of the shares, within the meaning of Section 421(b) of the Code, which would otherwise render the provisions of Section 83(a) of the Code applicable at that time. Consequently, the Taxpayer hereby elects to have the amount of disqualifying disposition income measured by the excess of the fair market value of the purchased shares on the date of transfer to the Taxpayer over the amount paid for such shares. Since Section 421(a) presently applies to the shares which are the subject of this Section 83(b) election, no taxable income is actually recognized for regular tax purposes at this time, and no income taxes are payable, by the Taxpayer as a result of this election.

THIS PAGE 2 IS TO BE ATTACHED TO ANY SECTION 83(b) ELECTION FILED IN CONNECTION WITH THE EXERCISE OF AN INCENTIVE STOCK OPTION UNDER THE FEDERAL TAX LAWS.

Should any amount required to be paid as interest hereunder, or as fees or other charges under this Agreement or any other agreement with Agent or Lenders, or with respect to any other Obligation under this Agreement, become due, same shall be deemed a request for a Revolving Advance maintained as a Domestic Rate Loan as of the date such payment is due, in the amount required to pay in full such interest, fee, charge or Obligation, and such request shall be irrevocable.

(b) Notwithstanding the provisions of subsection (a) above, in the event any Borrower desires to obtain a LIBOR Rate Loan for any Advance (other than a Swing Loan), Borrowing Agent shall give Agent written notice by no later than 1:00 p.m. on the day which is three (3) Business Days prior to the date such LIBOR Rate Loan is to be borrowed, specifying (i) the date of the proposed borrowing (which shall be a Business Day), (ii) the type of borrowing and the amount of such Advance to be borrowed, which amount shall be in a minimum amount of \$100,000 and in integral multiples of \$100,000 thereafter, and (iii) the duration of the first Interest Period therefor. No LIBOR Rate Loan shall be made available to any Borrower during the continuance of a Default or an Event of Default. After giving effect to each requested LIBOR Rate Loan, including those which are converted from a Domestic Rate Loan under Section 2.2(e), there shall not be outstanding more than eight (8) LIBOR Rate Loans, in the aggregate at any time.

(c) Each Interest Period of a LIBOR Rate Loan shall commence on the date such LIBOR Rate Loan is made and shall end on such date as Borrowing Agent may elect as set forth in subsection (b)(iii) above, provided that the exact length of each Interest Period shall be determined in accordance with the practice of the interbank market for offshore Dollar deposits and no Interest Period shall end after the last day of the Term.

(d) Borrowing Agent shall elect the initial Interest Period applicable to a LIBOR Rate Loan by its notice of borrowing given to Agent pursuant to Section 2.2(b) or by its notice of conversion given to Agent pursuant to Section 2.2(e), as the case may be. Borrowing Agent shall elect the duration of each succeeding Interest Period by giving irrevocable written notice to Agent of such duration not later than 1:00 p.m. on the day which is three (3) Business Days prior to the last day of the then current Interest Period applicable to such LIBOR Rate Loan. If Agent does not receive timely notice of the Interest Period elected by Borrowing Agent, Borrowing Agent shall be deemed to have elected to convert such LIBOR Rate Loan to a Domestic Rate Loan as of the last day of the Interest Period applicable to such LIBOR Rate Loan subject to Section 2.2(e) below.

(e) Provided that no Default or Event of Default shall have occurred and be continuing, Borrowing Agent may, on the last Business Day of the then current Interest Period applicable to any outstanding LIBOR Rate Loan, or on any Business Day with respect to Domestic Rate Loans, convert any such loan into a loan of another type in the same aggregate principal amount provided that any conversion of a LIBOR Rate Loan shall be made only on the last Business Day of the then current Interest Period applicable to such LIBOR Rate Loan. If

Borrowing Agent desires to convert a loan, Borrowing Agent shall give Agent written notice by no later than 1:00 p.m. (i) on the day which is three (3) Business Days prior to the date on which such conversion is to occur with respect to a conversion from a Domestic Rate Loan to a LIBOR Rate Loan, or (ii) on the day which is one (1) Business Day prior to the date on which such conversion is to occur (which date shall be the last Business Day of the Interest Period for the applicable LIBOR Rate Loan) with respect to a conversion from a LIBOR Rate Loan to a Domestic Rate Loan, specifying, in each case, the date of such conversion, the loans to be converted and if the conversion is to a LIBOR Rate Loan, the duration of the first Interest Period therefor.

(f) At its option and upon written notice given prior to 1:00 p.m. at least three (3) Business Days prior to the date of such prepayment, any Borrower may, subject to Section 2.2(g) hereof, prepay the LIBOR Rate Loans in whole at any time or in part from time to time with accrued interest on the principal being prepaid to the date of such repayment. Such Borrower shall specify the date of prepayment of Advances which are LIBOR Rate Loans and the amount of such prepayment. In the event that any prepayment of a LIBOR Rate Loan is required or permitted on a date other than the last Business Day of the then current Interest Period with respect thereto, such Borrower shall indemnify Agent and Lenders therefor in accordance with Section 2.2(g) hereof.

(g) Each Borrower shall indemnify Agent and Lenders and hold Agent and Lenders harmless from and against any and all losses or expenses that Agent and Lenders may sustain or incur as a consequence of any prepayment, conversion of or any default by any Borrower in the payment of the principal of or interest on any LIBOR Rate Loan or failure by any Borrower to complete a borrowing of, a prepayment of or conversion of or to a LIBOR Rate Loan after notice thereof has been given, including, but not limited to, any interest payable by Agent or Lenders to lenders of funds obtained by it in order to make or maintain its LIBOR Rate Loans hereunder. A certificate as to any additional amounts payable pursuant to the foregoing sentence submitted by Agent or any Lender to Borrowing Agent shall be conclusive absent manifest error.

(h) Notwithstanding any other provision hereof, if any Applicable Law, treaty, regulation or directive, or any change therein or in the interpretation or application thereof, including without limitation any Change in Law, shall make it unlawful for Lenders or any Lender (for purposes of this subsection (h), the term "Lender" shall include any Lender and the office or branch where any Lender or any Person controlling such Lender makes or maintains any LIBOR Rate Loans) to make or maintain its LIBOR Rate Loans, the obligation of Lenders (or such affected Lender) to make LIBOR Rate Loans hereunder shall forthwith be cancelled and Borrowers shall, if any affected LIBOR Rate Loans are then outstanding, promptly upon request from Agent, either pay all such affected LIBOR Rate Loans or convert such affected LIBOR Rate Loans into loans of another type. If any such payment or conversion of any LIBOR Rate Loan is made on a day that is not the last day of the Interest Period applicable to such LIBOR Rate Loan, Borrowers shall pay Agent, upon Agent's request, such amount or amounts set forth in clause (g) above. A certificate as to any additional amounts payable pursuant to the foregoing sentence submitted by Lenders to Borrowing Agent shall be conclusive absent manifest error.

All such Equipment Loans shall be in such amounts as are requested by Borrowing Agent, but in no event shall any Equipment Loan exceed eighty percent (80%) of the Net Invoice Cost of the equipment being purchased by Borrowers and the total amount of all Equipment Loans advanced (I) during the First Borrowing Period (defined below) shall not exceed, in the aggregate, \$750,000 and (II) hereunder shall not exceed, in the aggregate, the Maximum Equipment Loan Amount. At the end of the First Borrowing Period, Agent shall calculate the aggregate principal balance of all then outstanding Equipment Loans, which amount shall amortize in equal and consecutive monthly installments of principal, based on a 36-month amortization schedule, the first of which installments shall be due and payable on the first day of the next month after the end of the First Borrowing Period, and the remaining installments of which shall be due and payable on the first day of each month thereafter (the amount of each such monthly installment, the "First Borrowing Period Monthly Installment"). At the end of the Second Borrowing Period, Agent shall calculate the aggregate principal balance of all then

outstanding Equipment Loans made during the Second Borrowing Period, which amount shall amortize in equal and consecutive monthly installments of principal, based on a 36-month amortization schedule (the amount of each such monthly installment, the "Second Borrowing Period Monthly Installment"). Commencing automatically on the first day of the next month after the end of the Second Borrowing Period, and continuing on the first day of each month thereafter, Borrowers shall pay an increased amount of principal each month in respect of all Equipment Loans, until paid in full, which monthly amount shall equal the sum of the First Borrowing Period Monthly Installment plus the Second Borrowing Period Monthly Installment, provided, however, that the aggregate principal balance of all Equipment Loans, together with all accrued and unpaid interest thereon, and all unpaid fees, costs and expenses payable hereunder in connection therewith, shall be due and payable in full upon the expiration of the Term, subject to acceleration upon the occurrence of an Event of Default under this Agreement or termination of this Agreement. Equipment Loans shall be evidenced by one or more secured promissory notes (collectively, the "Equipment Note") in substantially the form attached hereto as Exhibit 2.3(b). The Equipment Loans may consist of Domestic Rate Loans or LIBOR Rate Loans, or a combination thereof, as Borrowing Agent may request; and in the event that Borrowers desire to obtain or extend any Equipment Loan (or any portion thereof) as a LIBOR Rate Loan or to convert any Equipment Loan (or any portion thereof) from a Domestic Rate Loan to a LIBOR Rate Loan, Borrowing Agent shall comply with the notification requirements set forth in Sections 2.2(b) and/or (e) and the provisions of Sections 2.2(b) through (h) shall apply.

(a) Subject to the terms and conditions set forth in this Agreement, and in order to minimize the transfer of funds between Lenders and Agent for administrative convenience, Agent, Lenders holding Revolving Commitments and Swing Loan Lender agree that in order to facilitate the administration of this Agreement, Swing Loan Lender may, at its election and option made in its sole discretion cancelable at any time for any reason whatsoever, make swing loan advances ("Swing Loans") available to Borrowers as provided for in this Section 2.4 at any time or from time to time after the date hereof to, but not including, the expiration of the Term, in an aggregate principal amount up to but not in excess of the Maximum Swing Loan Advance Amount, provided that the outstanding aggregate principal amount of Swing Loans and the Revolving Advances at any one time outstanding shall not exceed an amount equal to the lesser of (i) the Maximum Revolving Advance Amount less the Maximum Undrawn Amount of all outstanding Letters of Credit or (ii) the Formula Amount. All Swing Loans shall be Domestic Rate Loans only. Borrowers may borrow (at the option and election of Swing Loan Lender), repay and re-borrow (at the option and election of Swing Loan Lender) Swing Loans and Swing Loan Lender may make Swing Loans as provided in this Section 2.4 during the period between Settlement Dates. All Swing Loans shall be evidenced by a secured promissory note (the "Swing Loan Note") substantially in the form attached hereto as Exhibit 2.4(a). Swing Loan Lender's agreement to make Swing Loans under this Agreement is cancelable at any time for any reason whatsoever and the making of Swing Loans by Swing Loan Lender from time to time shall not create any duty or obligation, or establish any course of conduct, pursuant to which Swing Loan Lender shall thereafter be obligated to make Swing Loans in the future.

(b) Upon either (i) any request by Borrowing Agent for a Revolving Advance made pursuant to Section 2.2(a) hereof or (ii) the occurrence of any deemed request by Borrowers for a Revolving Advance pursuant to the provisions of the last sentence of Section 2.2(a) hereof, Swing Loan Lender may elect, in its sole discretion, to have such request or deemed request treated as a request for a Swing Loan, and may advance same day funds to Borrowers as a Swing Loan; provided that notwithstanding anything to the contrary provided for herein, Swing Loan Lender may not make Swing Loan Advances if Swing Loan Lender has been notified by Agent or by Required Lenders that one or more of the applicable conditions set forth in Section 8.2 of this Agreement have not been satisfied or the Revolving Commitments have been terminated for any reason.

(c) Upon the making of a Swing Loan (whether before or after the occurrence of a Default or an Event of Default and regardless of whether a Settlement has been requested with respect to such Swing Loan), each Lender holding a Revolving Commitment shall be deemed, without further action by any party hereto, to have unconditionally and irrevocably purchased from Swing Loan Lender, without recourse or warranty, an undivided interest and participation in such Swing Loan in proportion to its Revolving Commitment Percentage. Swing Loan Lender or Agent may, at any time, require the Lenders holding Revolving Commitments to fund such participations by means of a Settlement as provided for in Section 2.6(d) below. From and after the date, if any, on which any Lender holding a Revolving Commitment is required to fund, and funds, its participation in any Swing Loans purchased hereunder, Agent shall promptly distribute to such Lender its Revolving Commitment Percentage of all payments of principal and interest and all proceeds of Collateral received by Agent in respect of such Swing Loan; provided that no Lender holding a Revolving Commitment shall be obligated in any event to make Revolving Advances in an amount in excess of its Revolving Commitment Amount minus its Participation Commitment (taking into account any reallocations under Section 2.22) of the Maximum Undrawn Amount of all outstanding Letters of Credit.

2.5. Disbursement of Advance Proceeds. All Advances shall be disbursed from whichever office or other place Agent may designate from time to time and, together with any and all other Obligations of Borrowers to Agent or Lenders, shall be charged to Borrowers' Account on Agent's books. The proceeds of each Revolving Advance or Swing Loan requested by Borrowing Agent on behalf of any Borrower or deemed to have been requested by any Borrower under Sections 2.2(a), 2.6(b) or 2.14 hereof shall, (i) with respect to requested Revolving Advances, to the extent Lenders make such Revolving Advances in accordance with Section 2.2(a), 2.6(b) or 2.14 hereof, and with respect to Swing Loans made upon any request by Borrowing Agent for a Revolving Advance to the extent Swing Loan Lender makes such Swing Loan in accordance with Section 2.4(b) hereof, be made available to the applicable Borrower on the day so requested by way of credit to such Borrower's operating account at PNC, or such other bank as Borrowing Agent may designate following notification to Agent, in immediately available federal funds or other immediately available funds or, (ii) with respect to Revolving Advances deemed to have been requested by any Borrower or Swing Loans made upon any deemed request for a Revolving Advance by any Borrower, be disbursed to Agent to be applied to the outstanding Obligations giving rise to such deemed request. During the Term, Borrowers may use the Revolving Advances and Swing Loans by borrowing, prepaying and re-borrowing, all in accordance with the terms and conditions hereof.

2.6. Making and Settlement of Advances.

(a) Each borrowing of Revolving Advances shall be advanced according to the applicable Revolving Commitment Percentages of Lenders holding the Revolving Commitments (subject to any contrary terms of Section 2.22). The Term Loan shall be advanced according to the applicable Term Loan Commitment Percentages of Lenders holding the Term Loan Commitments. Each borrowing of Equipment Loans shall be advanced according to the applicable Equipment Loan Commitment Percentages of Lenders holding the Equipment Loan Commitments. Each borrowing of Swing Loans shall be advanced by Swing Loan Lender alone.

(b) Promptly after receipt by Agent of a request or a deemed request for a Revolving Advance pursuant to Section 2.2(a) or an Equipment Loan pursuant to Section 2.3(b) and, with respect to Revolving Advances, to the extent Agent elects not to provide a Swing Loan or the making of a Swing Loan would result in the aggregate amount of all outstanding Swing Loans exceeding the maximum amount permitted in Section 2.4(a), Agent shall notify Lenders holding the Revolving Commitments or Lenders holding an Equipment Loan Commitment, as applicable, of its receipt of such request specifying the information provided by Borrowing Agent and the apportionment among Lenders of the requested Revolving Advance or Equipment Loan, as applicable, as determined by Agent in accordance with the terms hereof. Each Lender shall remit the principal amount of each Revolving Advance or Equipment Loan, as applicable, to Agent such that Agent is able to, and Agent shall, to the extent the applicable Lenders have made funds available to it for such purpose and subject to Section 8.2 and 8.3, fund such Revolving Advance or Equipment Loan, as applicable, to Borrowers in U.S. Dollars and immediately available funds at the Payment Office prior to the close of business, on the applicable borrowing date; provided that if any applicable Lender fails to remit such funds to Agent in a timely manner, Agent may elect in its sole discretion to fund with its own funds the Revolving Advance or Equipment Loan, as applicable, of such Lender on such borrowing date, and such Lender shall be subject to the repayment obligation in Section 2.6(c) hereof.

(c) Unless Agent shall have been notified by telephone, confirmed in writing, by any Lender holding a Revolving Commitment or Lender holding an Equipment Loan Commitment, as applicable that such Lender will not make the amount which would constitute its applicable Revolving Commitment Percentage of the requested Revolving Advance or its applicable Equipment Loan Commitment Percentage of the requested Equipment Loan, as applicable, available to Agent, Agent may (but shall not be obligated to) assume that such Lender has made such amount available to Agent on such date in accordance with Section 2.6(b) and may, in reliance upon such assumption, make available to Borrowers a corresponding amount. Agent will promptly notify Borrowing Agent of its receipt of any such notice from a Lender. In such event, if a Lender has not in fact made its applicable Revolving Commitment Percentage of the requested Revolving Advance or its applicable Equipment Loan Commitment Percentage of the requested Equipment Loan, as applicable, available to Agent, then the applicable Lender and Borrowers severally agree to pay to Agent on demand such corresponding amount with interest thereon, for each day from and including the date such amount is made available to Borrowers through but excluding the date of payment to Agent, at (i) in the case of a payment to be made by such Lender, the greater of (A) (x) the daily average Federal Funds Effective Rate (computed on the basis of a year of 360 days) during such period as quoted by Agent, times (y) such amount or (B) a rate determined by Agent in accordance with banking

industry rules on interbank compensation, and (ii) in the case of a payment to be made by Borrower, the Revolving Interest Rate for Revolving Advances that are Domestic Rate Loans or the Term Loan Rate for Equipment Loans that are Domestic Rate Loans, as applicable. If such Lender pays its share of the applicable Revolving Advance or Equipment Loan, as applicable, to Agent, then the amount so paid shall constitute such Lender's Revolving Advance or Equipment Loan, as applicable. Any payment by Borrowers shall be without prejudice to any claim Borrowers may have against a Lender holding a Revolving Commitment that shall have failed to make such payment to Agent. A certificate of Agent submitted to any Lender or Borrower with respect to any amounts owing under this paragraph (c) shall be conclusive, in the absence of manifest error.

(d) Agent, on behalf of Swing Loan Lender, shall demand settlement (a "Settlement") of all or any Swing Loans with Lenders holding the Revolving Commitments on at least a weekly basis, or on any more frequent date that Agent elects or that Swing Loan Lender at its option exercisable for any reason whatsoever may request, by notifying Lenders holding the Revolving Commitments of such requested Settlement by facsimile, telephonic or electronic transmission no later than 3:00 p.m. on the date of such requested Settlement (the "Settlement Date"). Subject to any contrary provisions of Section 2.22, each Lender holding a Revolving Commitment shall transfer the amount of such Lender's Revolving Commitment Percentage of the outstanding principal amount (plus interest accrued thereon to the extent requested by Agent) of the applicable Swing Loan with respect to which Settlement is requested by Agent, to such account of Agent as Agent may designate not later than 5:00 p.m. on such Settlement Date if requested by Agent by 3:00 p.m., otherwise not later than 5:00 p.m. on the next Business Day. Settlements may occur at any time notwithstanding that the conditions precedent to making Revolving Advances set forth in Section 8.2 have not been satisfied or the Revolving Commitments shall have otherwise been terminated at such time. All amounts so transferred to Agent shall be applied against the amount of outstanding Swing Loans and, when so applied shall constitute Revolving Advances of such Lenders accruing interest as Domestic Rate Loans. If any such amount is not transferred to Agent by any Lender holding a Revolving Commitment on such Settlement Date, Agent shall be entitled to recover such amount on demand from such Lender together with interest thereon as specified in Section 2.6(c).

(e) If any Lender or Participant (a "Benefited Lender") shall at any time receive any payment of all or part of its Advances, or interest thereon, or receive any Collateral in respect thereof (whether voluntarily or involuntarily or by set-off) in a greater proportion than any such payment to and Collateral received by any other Lender, if any, in respect of such other Lender's Advances, or interest thereon, and such greater proportionate payment or receipt of Collateral is not expressly permitted hereunder, such Benefited Lender shall purchase for cash from the other Lenders a participation in such portion of each such other Lender's Advances, or shall provide such other Lender with the benefits of any such Collateral, or the proceeds thereof, as shall be necessary to cause such Benefited Lender to share the excess payment or benefits of such Collateral or proceeds ratably with each of the other Lenders; provided, however, that if all or any portion of such excess payment or benefits is thereafter recovered from such Benefited Lender, such purchase shall be rescinded, and the purchase price and benefits returned, to the extent of such recovery, but without interest. Each Borrower consents to the foregoing and agrees, to the extent it may effectively do so under Applicable Law, that each Lender so purchasing a portion of another Lender's Advances may exercise all rights of payment (including

rights of set-off) with respect to such portion as fully as if such Lender were the direct holder of such portion, and the obligations owing to each such purchasing Lender in respect of such participation and such purchased portion of any other Lender's Advances shall be part of the Obligations secured by the Collateral, and the obligations owing to each such purchasing Lender in respect of such participation and such purchased portion of any other Lender's Advances shall be part of the Obligations secured by the Collateral.

2.7. Maximum Advances. The aggregate balance of Revolving Advances plus Swing Loans outstanding at any time shall not exceed the lesser of (a) the Maximum Revolving Advance Amount less the aggregate Maximum Undrawn Amount of all issued and outstanding Letters of Credit or (b) the Formula Amount.

2.8. Manner and Repayment of Advances.

(a) The Revolving Advances and Swing Loans shall be due and payable in full on the last day of the Term subject to earlier prepayment as herein provided. The Term Loan shall be due and payable as provided in Section 2.3(a) hereof and shall be due and payable in full on the last day of the Term, subject to mandatory prepayments as herein provided. The Equipment Loans shall be due and payable as provided in Section 2.3(b) hereof and shall be due and payable in full on the last day of the Term, subject to mandatory prepayments as herein provided. Notwithstanding the foregoing, all Advances shall be subject to earlier repayment upon (x) acceleration upon the occurrence of an Event of Default under this Agreement or (y) termination of this Agreement. Each payment (including each prepayment) by any Borrower on account of the principal of and interest on the Advances (other than the Term Loan and Equipment Loans) shall be applied, first to the outstanding Swing Loans and next, pro rata according to the applicable Revolving Commitment Percentages of Lenders, to the outstanding Revolving Advances (subject to any contrary provisions of Section 2.22). Each payment (including each prepayment) by any Borrower on account of the principal of and interest on the Term Loan shall be applied to the Term Loan pro rata according to the Term Loan Commitment Percentages of Lenders in the inverse order of maturities thereof. Each payment (including each prepayment) by any Borrower on account of the principal of and interest on the Equipment Loans shall be applied to the applicable Equipment Loan pro rata according to the Equipment Loan Commitment Percentages of Lenders in the inverse order of maturities thereof.

(b) Each Borrower recognizes that the amounts evidenced by checks, notes, drafts or any other items of payment relating to and/or proceeds of Collateral may not be collectible by Agent on the date received by Agent. Agent shall conditionally credit Borrowers' Account for each item of payment on the next Business Day after the Business Day on which such item of payment is received by Agent (and the Business Day on which each such item of payment is so credited shall be referred to, with respect to such item, as the "Application Date"). Agent is not, however, required to credit Borrowers' Account for the amount of any item of payment which is unsatisfactory to Agent and Agent may charge Borrowers' Account for the amount of any item of payment which is returned, for any reason whatsoever, to Agent unpaid. Subject to the foregoing, Borrowers agree that for purposes of computing the interest charges under this Agreement, each item of payment received by Agent shall be deemed applied by Agent on account of the Obligations on its respective Application Date. Borrowers further agree that there is a monthly float charge payable to Agent for Agent's sole benefit, in an amount equal

to (y) the face amount of all items of payment received during the prior month (including items of payment received by Agent as a wire transfer or electronic depository check) multiplied by (z) the Revolving Interest Rate with respect to Domestic Rate Loans for one (1) Business Day. All proceeds received by Agent shall be applied to the Obligations in accordance with Section 4.8(h).

(c) All payments of principal, interest and other amounts payable hereunder, or under any of the Other Documents shall be made to Agent at the Payment Office not later than 1:00 p.m. on the due date therefor in Dollars in federal funds or other funds immediately available to Agent. Agent shall have the right to effectuate payment of any and all Obligations due and owing hereunder by charging Borrowers' Account or by making Advances as provided in Section 2.2 hereof.

(d) Except as expressly provided herein, all payments (including prepayments) to be made by any Borrower on account of principal, interest, fees and other amounts payable hereunder shall be made without deduction, setoff or counterclaim and shall be made to Agent on behalf of Lenders to the Payment Office, in each case on or prior to 1:00 p.m., in Dollars and in immediately available funds.

2.9. Repayment of Excess Advances. If at any time the aggregate balance of outstanding Revolving Advances, Swing Loans, Term Loans, Equipment Loans and/or Advances taken as a whole exceeds the maximum amount of such type of Advances and/or Advances taken as a whole (as applicable) permitted hereunder, such excess Advances shall be immediately due and payable without the necessity of any demand, at the Payment Office, whether or not a Default or an Event of Default has occurred.

2.10. Statement of Account. Agent shall maintain, in accordance with its customary procedures, a loan account ("Borrowers' Account") in the name of Borrowers in which shall be recorded the date and amount of each Advance made by Agent or Lenders and the date and amount of each payment in respect thereof; provided, however, the failure by Agent to record the date and amount of any Advance shall not adversely affect Agent or any Lender. Each month, Agent shall send to Borrowing Agent a statement showing the accounting for the Advances made, payments made or credited in respect thereof, and other transactions between Agent, Lenders and Borrowers during such month. The monthly statements shall be deemed correct and binding upon Borrowers in the absence of manifest error and shall constitute an account stated between Lenders and Borrowers unless Agent receives a written statement of Borrowers' specific exceptions thereto within thirty (30) days after such statement is received by Borrowing Agent. The records of Agent with respect to Borrowers' Account shall be conclusive evidence absent manifest error of the amounts of Advances and other charges thereto and of payments applicable thereto.

2.11. Letters of Credit.

(a) Subject to the terms and conditions hereof, Issuer shall issue or cause the issuance of standby letters of credit denominated in Dollars ("Letters of Credit") for the account of any Borrower except to the extent that the issuance thereof would then cause the sum of (i) the outstanding Revolving Advances plus (ii) the outstanding Swing Loans, plus (iii) the Maximum

Undrawn Amount of all outstanding Letters of Credit, plus (iv) the Maximum Undrawn Amount of the Letter of Credit to be issued to exceed the lesser of (x) the Maximum Revolving Advance Amount or (y) the Formula Amount (calculated without giving effect to the deductions provided for in Section 2.1(a)(y)(iii)). The Maximum Undrawn Amount of all outstanding Letters of Credit shall not exceed in the aggregate at any time the Letter of Credit Sublimit. All disbursements or payments related to Letters of Credit shall be deemed to be Domestic Rate Loans consisting of Revolving Advances and shall bear interest at the Revolving Interest Rate for Domestic Rate Loans. Letters of Credit that have not been drawn upon shall not bear interest (but fees shall accrue in respect of outstanding Letters of Credit as provided in Section 3.2 hereof).

(b) Notwithstanding any provision of this Agreement, Issuer shall not be under any obligation to issue any Letter of Credit if (i) any order, judgment or decree of any Governmental Body or arbitrator shall by its terms purport to enjoin or restrain Issuer from issuing any Letter of Credit, or any Law applicable to Issuer or any request or directive (whether or not having the force of law) from any Governmental Body with jurisdiction over Issuer shall prohibit, or request that Issuer refrain from, the issuance of letters of credit generally or the Letter of Credit in particular or shall impose upon Issuer with respect to the Letter of Credit any restriction, reserve or capital requirement (for which Issuer is not otherwise compensated hereunder) not in effect on the date of this Agreement, or shall impose upon Issuer any unreimbursed loss, cost or expense which was not applicable on the date of this Agreement, and which Issuer in good faith deems material to it, or (ii) the issuance of the Letter of Credit would violate one or more policies of Issuer applicable to letters of credit generally.

2.12. Issuance of Letters of Credit.

(a) Borrowing Agent, on behalf of any Borrower, may request Issuer to issue or cause the issuance of a Letter of Credit by delivering to Issuer, with a copy to Agent at the Payment Office, prior to 1:00 p.m., at least five (5) Business Days prior to the proposed date of issuance, such Issuer's form of Letter of Credit Application (the "Letter of Credit Application") completed to the satisfaction of Agent and Issuer; and, such other certificates, documents and other papers and information as Agent or Issuer may reasonably request. Issuer shall not issue any requested Letter of Credit if such Issuer has received notice from Agent or any Lender that one or more of the applicable conditions set forth in Section 8.2 of this Agreement have not been satisfied or the commitments of Lenders to make Revolving Advances hereunder have been terminated for any reason.

(b) Each Letter of Credit shall, among other things, (i) provide for the payment of sight drafts, or other written demands for payment, and (ii) have an expiry date not later than twelve (12) months after such Letter of Credit's date of issuance and in no event later than the last day of the Term. Each standby Letter of Credit shall be subject either to the Uniform Customs and Practice for Documentary Credits as most recently published by the International Chamber of Commerce at the time a Letter of Credit is issued (the "UCP") or the International Standby Practices (International Chamber of Commerce Publication Number 590), or any subsequent revision thereof at the time a standby Letter of Credit is issued, as determined by Issuer, and each trade Letter of Credit shall be subject to the UCP.

(c) Agent shall use its reasonable efforts to notify Lenders of the request by Borrowing Agent for a Letter of Credit hereunder.

2.13. Requirements For Issuance of Letters of Credit. Borrowing Agent shall authorize and direct any Issuer to name the applicable Borrower as the “Applicant” or “Account Party” of each Letter of Credit. If Agent is not the Issuer of any Letter of Credit, Borrowing Agent shall authorize and direct Issuer to deliver to Agent all instruments, documents, and other writings and property received by Issuer pursuant to the Letter of Credit and to accept and rely upon Agent’s instructions and agreements with respect to all matters arising in connection with the Letter of Credit, the application therefor.

2.14. Disbursements, Reimbursement.

(a) Immediately upon the issuance of each Letter of Credit, each Lender holding a Revolving Commitment shall be deemed to, and hereby irrevocably and unconditionally agrees to, purchase from Issuer a participation in each Letter of Credit and each drawing thereunder in an amount equal to such Lender’s Revolving Commitment Percentage of the Maximum Undrawn Amount of such Letter of Credit (as in effect from time to time) and the amount of such drawing, respectively.

(b) In the event of any request for a drawing under a Letter of Credit by the beneficiary or transferee thereof, Issuer will promptly notify Agent and Borrowing Agent. Regardless of whether Borrowing Agent shall have received such notice, Borrowers shall reimburse (such obligation to reimburse Issuer shall sometimes be referred to as a “Reimbursement Obligation”) Issuer prior to 12:00 Noon, on each date that an amount is paid by Issuer under any Letter of Credit (each such date, a “Drawing Date”) in an amount equal to the amount so paid by Issuer. In the event Borrowers fail to reimburse Issuer for the full amount of any drawing under any Letter of Credit by 12:00 Noon, on the Drawing Date, Issuer will promptly notify Agent and each Lender holding a Revolving Commitment thereof, and Borrowers shall be automatically deemed to have requested that a Revolving Advance maintained as a Domestic Rate Loan be made by Lenders to be disbursed on the Drawing Date under such Letter of Credit, and Lenders holding the Revolving Commitments shall be unconditionally obligated to fund such Revolving Advance (all whether or not the conditions specified in Section 8.2 are then satisfied or the commitments of Lenders to make Revolving Advances hereunder have been terminated for any reason) as provided for in Section 2.14(c) immediately below. Any notice given by Issuer pursuant to this Section 2.14(b) may be oral if promptly confirmed in writing; provided that the lack of such a confirmation shall not affect the conclusiveness or binding effect of such notice.

(c) Each Lender holding a Revolving Commitment shall upon any notice pursuant to Section 2.14(b) make available to Issuer through Agent at the Payment Office an amount in immediately available funds equal to its Revolving Commitment Percentage (subject to any contrary provisions of Section 2.22) of the amount of the drawing, whereupon the participating Lenders shall (subject to Section 2.14(d)) each be deemed to have made a Revolving Advance maintained as a Domestic Rate Loan to Borrowers in that amount. If any Lender holding a Revolving Commitment so notified fails to make available to Agent, for the benefit of Issuer, the amount of such Lender’s Revolving Commitment Percentage of such

amount by 2:00 p.m. on the Drawing Date, then interest shall accrue on such Lender's obligation to make such payment, from the Drawing Date to the date on which such Lender makes such payment (i) at a rate per annum equal to the Federal Funds Effective Rate during the first three (3) days following the Drawing Date and (ii) at a rate per annum equal to the rate applicable to Revolving Advances maintained as a Domestic Rate Loan on and after the fourth day following the Drawing Date. Agent and Issuer will promptly give notice of the occurrence of the Drawing Date, but failure of Agent or Issuer to give any such notice on the Drawing Date or in sufficient time to enable any Lender holding a Revolving Commitment to effect such payment on such date shall not relieve such Lender from its obligations under this Section 2.14(c), provided that such Lender shall not be obligated to pay interest as provided in Section 2.14(c)(i) and (ii) until and commencing from the date of receipt of notice from Agent or Issuer of a drawing.

(d) With respect to any unreimbursed drawing that is not converted into a Revolving Advance maintained as a Domestic Rate Loan to Borrowers in whole or in part as contemplated by Section 2.14(b), because of Borrowers' failure to satisfy the conditions set forth in Section 8.2 hereof (other than any notice requirements) or for any other reason, Borrowers shall be deemed to have incurred from Agent a borrowing (each a "Letter of Credit Borrowing") in the amount of such drawing. Such Letter of Credit Borrowing shall be due and payable on demand (together with interest) and shall bear interest at the rate per annum applicable to a Revolving Advance maintained as a Domestic Rate Loan. Each applicable Lender's payment to Agent pursuant to Section 2.14(c) shall be deemed to be a payment in respect of its participation in such Letter of Credit Borrowing and shall constitute a "Participation Advance" from such Lender in satisfaction of its Participation Commitment in respect of the applicable Letter of Credit under this Section 2.14.

(e) Each applicable Lender's Participation Commitment in respect of the Letters of Credit shall continue until the last to occur of any of the following events: (x) Issuer ceases to be obligated to issue or cause to be issued Letters of Credit hereunder; (y) no Letter of Credit issued or created hereunder remains outstanding and uncanceled; and (z) all Persons (other than Borrowers) have been fully reimbursed for all payments made under or relating to Letters of Credit.

2.15. Repayment of Participation Advances.

(a) Upon (and only upon) receipt by Agent for the account of Issuer of immediately available funds from Borrowers (i) in reimbursement of any payment made by Issuer or Agent under the Letter of Credit with respect to which any Lender has made a Participation Advance to Agent, or (ii) in payment of interest on such a payment made by Issuer or Agent under such a Letter of Credit, Agent will pay to each Lender holding a Revolving Commitment, in the same funds as those received by Agent, the amount of such Lender's Revolving Commitment Percentage of such funds, except Agent shall retain the amount of the Revolving Commitment Percentage of such funds of any Lender holding a Revolving Commitment that did not make a Participation Advance in respect of such payment by Agent (and, to the extent that any of the other Lender(s) holding the Revolving Commitment have funded any portion such Defaulting Lender's Participation Advance in accordance with the provisions of Section 2.22, Agent will pay over to such Non-Defaulting Lenders a pro rata portion of the funds so withheld from such Defaulting Lender).

(b) If Issuer or Agent is required at any time to return to any Borrower, or to a trustee, receiver, liquidator, custodian, or any official in any insolvency proceeding, any portion of the payments made by Borrowers to Issuer or Agent pursuant to Section 2.15(a) in reimbursement of a payment made under the Letter of Credit or interest or fee thereon, each applicable Lender shall, on demand of Agent, forthwith return to Issuer or Agent the amount of its Revolving Commitment Percentage of any amounts so returned by Issuer or Agent plus interest at the Federal Funds Effective Rate.

2.16. Documentation. Each Borrower agrees to be bound by the terms of the Letter of Credit Application and by Issuer's interpretations of any Letter of Credit issued on behalf of such Borrower and by Issuer's written regulations and customary practices relating to letters of credit, though Issuer's interpretations may be different from such Borrower's own. In the event of a conflict between the Letter of Credit Application and this Agreement, this Agreement shall govern. It is understood and agreed that, except in the case of gross negligence or willful misconduct (as determined by a court of competent jurisdiction in a final non-appealable judgment), Issuer shall not be liable for any error, negligence and/or mistakes, whether of omission or commission, in following Borrowing Agent's or any Borrower's instructions or those contained in the Letters of Credit or any modifications, amendments or supplements thereto.

2.17. Determination to Honor Drawing Request. In determining whether to honor any request for drawing under any Letter of Credit by the beneficiary thereof, Issuer shall be responsible only to determine that the documents and certificates required to be delivered under such Letter of Credit have been delivered and that they comply on their face with the requirements of such Letter of Credit and that any other drawing condition appearing on the face of such Letter of Credit has been satisfied in the manner so set forth.

2.18. Nature of Participation and Reimbursement Obligations. The obligation of each Lender holding a Revolving Commitment in accordance with this Agreement to make the Revolving Advances or Participation Advances as a result of a drawing under a Letter of Credit, and the obligations of Borrowers to reimburse Issuer upon a draw under a Letter of Credit, shall be absolute, unconditional and irrevocable, and shall be performed strictly in accordance with the terms of this Section 2.18 under all circumstances, including the following circumstances:

(i) any set-off, counterclaim, recoupment, defense or other right which such Lender or any Borrower, as the case may be, may have against Issuer, Agent, any Borrower or Lender, as the case may be, or any other Person for any reason whatsoever;

(ii) the failure of any Borrower or any other Person to comply, in connection with a Letter of Credit Borrowing, with the conditions set forth in this Agreement for the making of a Revolving Advance, it being acknowledged that such conditions are not required for the making of a Letter of Credit Borrowing and the obligation of Lenders to make Participation Advances under Section 2.14;

(iii) any lack of validity or enforceability of any Letter of Credit;

(iv) any claim of breach of warranty that might be made by any Borrower, Agent, Issuer or any Lender against the beneficiary of a Letter of Credit, or the existence of any claim, set-off, recoupment, counterclaim, cross-claim, defense or other right which any Borrower, Agent, Issuer or any Lender may have at any time against a beneficiary, any successor beneficiary or any transferee of any Letter of Credit or assignee of the proceeds thereof (or any Persons for whom any such transferee or assignee may be acting), Issuer, Agent or any Lender or any other Person, whether in connection with this Agreement, the transactions contemplated herein or any unrelated transaction (including any underlying transaction between any Borrower or any Subsidiaries of such Borrower and the beneficiary for which any Letter of Credit was procured);

(v) the lack of power or authority of any signer of (or any defect in or forgery of any signature or endorsement on) or the form of or lack of validity, sufficiency, accuracy, enforceability or genuineness of any draft, demand, instrument, certificate or other document presented under or in connection with any Letter of Credit, or any fraud or alleged fraud in connection with any Letter of Credit, or the transport of any property or provision of services relating to a Letter of Credit, in each case even if Issuer or any of Issuer's Affiliates has been notified thereof;

(vi) payment by Issuer under any Letter of Credit against presentation of a demand, draft or certificate or other document which is forged or does not fully comply with the terms of such Letter of Credit (provided that the foregoing shall not excuse Issuer from any obligation under the terms of any applicable Letter of Credit to require the presentation of documents that on their face appear to satisfy any applicable requirements for drawing under such Letter of Credit prior to honoring or paying any such draw);

(vii) the solvency of, or any acts or omissions by, any beneficiary of any Letter of Credit, or any other Person having a role in any transaction or obligation relating to a Letter of Credit, or the existence, nature, quality, quantity, condition, value or other characteristic of any property or services relating to a Letter of Credit;

(viii) any failure by Issuer or any of Issuer's Affiliates to issue any Letter of Credit in the form requested by Borrowing Agent, unless Agent and Issuer have each received written notice from Borrowing Agent of such failure within three (3) Business Days after Issuer shall have furnished Agent and Borrowing Agent a copy of such Letter of Credit and such error is material and no drawing has been made thereon prior to receipt of such notice;

(ix) the occurrence of any Material Adverse Effect;

(x) any breach of this Agreement or any Other Document by any party thereto;

(xi) the occurrence or continuance of an insolvency proceeding with respect to any Borrower or any Guarantor;

(xii) the fact that a Default or an Event of Default shall have occurred and be continuing;

(xiii) the fact that the Term shall have expired or this Agreement or the obligations of Lenders to make Advances have been terminated; and

(xiv) any other circumstance or happening whatsoever, whether or not similar to any of the foregoing.

2.19. Liability for Acts and Omissions.

(a) As between Borrowers and Issuer, Swing Loan Lender, Agent and Lenders, each Borrower assumes all risks of the acts and omissions of, or misuse of the Letters of Credit by, the respective beneficiaries of such Letters of Credit. In furtherance and not in limitation of the foregoing, Issuer shall not be responsible for: (i) the form, validity, sufficiency, accuracy, genuineness or legal effect of any document submitted by any party in connection with the application for an issuance of any such Letter of Credit, even if it should in fact prove to be in any or all respects invalid, insufficient, inaccurate, fraudulent or forged (even if Issuer or any of its Affiliates shall have been notified thereof); (ii) the validity or sufficiency of any instrument transferring or assigning or purporting to transfer or assign any such Letter of Credit or the rights or benefits thereunder or proceeds thereof, in whole or in part, which may prove to be invalid or ineffective for any reason; (iii) the failure of the beneficiary of any such Letter of Credit, or any other party to which such Letter of Credit may be transferred, to comply fully with any conditions required in order to draw upon such Letter of Credit or any other claim of any Borrower against any beneficiary of such Letter of Credit, or any such transferee, or any dispute between or among any Borrower and any beneficiary of any Letter of Credit or any such transferee; (iv) errors, omissions, interruptions or delays in transmission or delivery of any messages, by mail, cable, facsimile, telex or otherwise, whether or not they be in cipher; (v) errors in interpretation of technical terms; (vi) any loss or delay in the transmission or otherwise of any document required in order to make a drawing under any such Letter of Credit or of the proceeds thereof; (vii) the misapplication by the beneficiary of any such Letter of Credit of the proceeds of any drawing under such Letter of Credit; or (viii) any consequences arising from causes beyond the control of Issuer, including any Governmental Acts, and none of the above shall affect or impair, or prevent the vesting of, any of Issuer's rights or powers hereunder. Nothing in the preceding sentence shall relieve Issuer from liability for Issuer's gross negligence or willful misconduct (as determined by a court of competent jurisdiction in a final non-appealable judgment) in connection with actions or omissions described in such clauses (i) through (viii) of such sentence. In no event shall Issuer or Issuer's Affiliates be liable to any Borrower for any indirect, consequential, incidental, punitive, exemplary or special damages or expenses (including without limitation attorneys' fees), or for any damages resulting from any change in the value of any property relating to a Letter of Credit.

(b) Without limiting the generality of the foregoing, Issuer and each of its Affiliates: (i) may rely on any oral or other communication believed in good faith by Issuer or such Affiliate to have been authorized or given by or on behalf of the applicant for a Letter of Credit; (ii) may honor any presentation if the documents presented appear on their face substantially to comply with the terms and conditions of the relevant Letter of Credit; (iii) may honor a previously dishonored presentation under a Letter of Credit, whether such dishonor was pursuant to a court order, to settle or compromise any claim of wrongful dishonor, or otherwise, and shall be entitled to reimbursement to the same extent as if such presentation had initially

been honored, together with any interest paid by Issuer or its Affiliates; (iv) may honor any drawing that is payable upon presentation of a statement advising negotiation or payment, upon receipt of such statement (even if such statement indicates that a draft or other document is being delivered separately), and shall not be liable for any failure of any such draft or other document to arrive, or to conform in any way with the relevant Letter of Credit; (v) may pay any paying or negotiating bank claiming that it rightfully honored under the laws or practices of the place where such bank is located; and (vi) may settle or adjust any claim or demand made on Issuer or its Affiliate in any way related to any order issued at the applicant's request to an air carrier, a letter of guarantee or of indemnity issued to a steamship agent or carrier or any document or instrument of like import (each an "Order") and honor any drawing in connection with any Letter of Credit that is the subject of such Order, notwithstanding that any drafts or other documents presented in connection with such Letter of Credit fail to conform in any way with such Letter of Credit.

(c) In furtherance and extension and not in limitation of the specific provisions set forth above, any action taken or omitted by Issuer under or in connection with the Letters of Credit issued by it or any documents and certificates delivered thereunder, if taken or omitted in good faith and without gross negligence (as determined by a court of competent jurisdiction in a final non-appealable judgment), shall not put Issuer under any resulting liability to any Borrower, Agent or any Lender.

2.20. Mandatory Prepayments.

(a) Subject to Section 7.1 hereof, when any Borrower sells or otherwise disposes of any Collateral other than Inventory in the Ordinary Course of Business, Borrowers shall repay the Advances in an amount equal to the net proceeds of such sale (i.e., gross proceeds less the reasonable direct costs of such sales or other dispositions), such repayments to be made promptly but in no event more than three (3) Business Days following receipt of such net proceeds, and until the date of payment, such proceeds shall be held in trust for Agent. The foregoing shall not be deemed to be implied consent to any such sale otherwise prohibited by the terms and conditions hereof. Such repayments shall be applied (i) if the Collateral disposed of is equipment the purchase of which was financed by an Equipment Loan, (x) first, to the outstanding principal installments of the Equipment Loans in the inverse order of the maturities thereof, (y) second, to the outstanding principal installments of the Term Loan in the inverse order of the maturities thereof and (z) third, to the remaining Advances (including cash collateralization of all Obligations relating to any outstanding Letters of Credit in accordance with the provisions of Section 3.2(b); provided however that if no Default or Event of Default has occurred and is continuing, such repayments shall be applied to cash collateralize any Obligations related to outstanding Letters of Credit last) in such order as Agent may determine, subject to Borrowers' ability to re-borrow Revolving Advances in accordance with the terms hereof, (ii) if the Collateral disposed of is a working capital asset or any other capital asset not in excess of \$1,000,000 (other than equipment the purchase of which was financed by an Equipment Loan) in proceeds in any fiscal year, (w) first, to the outstanding Revolving Advances, (x) second, to the outstanding principal installments of the Term Loan in the inverse order of the maturities thereof, (y) third, to the outstanding principal installments of the Equipment Loans in the inverse order of the maturities thereof and (z) fourth, to the remaining Advances (including cash collateralization of all Obligations relating to any outstanding Letters

of Credit in accordance with the provisions of Section 3.2(b), or (iii) if the Collateral disposed of is equipment other than as set forth in (i) above or Collateral other than as set forth in (ii) above (x) first, to the outstanding principal installments of the Term Loan in the inverse order of the maturities thereof, (y) second, to the outstanding principal installments of the Equipment Loans in the inverse order of the maturities thereof and (z) third, to the remaining Advances (including cash collateralization of all Obligations relating to any outstanding Letters of Credit in accordance with the provisions of Section 3.2(b), provided however that if no Default or Event of Default has occurred and is continuing, such repayments shall be applied to cash collateralize any Obligations related to outstanding Letters of Credit last) in such order as Agent may determine, subject to Borrowers' ability to re-borrow Revolving Advances in accordance with the terms hereof.

(b) In the event of any issuance or other incurrence of Indebtedness (other than Permitted Indebtedness) by Borrowers or the issuance of any Equity Interests by any Borrower, Borrowers shall, no later than three (3) Business Days after the receipt by Borrowers of (i) the cash proceeds from any such issuance or incurrence of Indebtedness or (ii) the net cash proceeds of any issuance of Equity Interests, as applicable, repay the Advances in an amount equal to (x) one hundred percent (100%) of such cash proceeds in the case of such incurrence or issuance of Indebtedness and (y) one hundred percent (100%) of such net cash proceeds in the case of an issuance of Equity Interests. Such repayments will be applied in the same manner as set forth in Section 2.20(a) hereof.

(c) All proceeds received by Borrowers or Agent (i) under any insurance policy on account of damage or destruction of any assets or property of any Borrowers; provided that, so long as (v) no Event of Default shall have occurred and be continuing or would result therefrom, (w) Borrowing Agent shall have given Agent prior written notice of such Borrower intention to apply such monies to the costs of replacement of the properties or assets that are the subject of such damage or destruction, (x) the monies do not exceed \$1,000,000 in any fiscal year; (y) the monies are held in a deposit account in which Agent has a perfected first-priority security interest, and (z) such Borrower completes such replacement, purchase, or construction within 180 days after the initial receipt of such monies; then the Borrower whose assets were the subject of such damage or destruction shall have the option to apply such monies to the costs of replacement of the assets that are the subject of such damage or destruction, or (ii) as a result of any taking or condemnation of any assets or property shall be applied in accordance with Section 6.6 hereof.

2.21. Use of Proceeds.

(a) Borrowers shall apply the proceeds of Advances to (i) repay existing indebtedness owed to the entities and individuals listed on Schedule 2.21(a) hereto, (ii) pay fees and expenses relating to this transaction, and (iii) provide for their working capital needs and reimburse drawings under Letters of Credit. Borrowers shall not use the proceeds of any Revolving Advance to prepay the Term Loan or any Equipment Loan.

(b) Without limiting the generality of Section 2.21(a) above, neither the Borrowers, the Guarantors nor any other Person which may in the future become party to this Agreement or the Other Documents as a Borrower or Guarantor, intends to use nor shall they use any portion of the proceeds of the Advances, directly or indirectly, for any purpose in violation of Applicable Law.

2.22. Defaulting Lender.

(a) Notwithstanding anything to the contrary contained herein, in the event any Lender is a Defaulting Lender, all rights and obligations hereunder of such Defaulting Lender and of the other parties hereto shall be modified to the extent of the express provisions of this Section 2.22 so long as such Lender is a Defaulting Lender.

(b) (i) except as otherwise expressly provided for in this Section 2.22, (x) Revolving Advances shall be made pro rata from Lenders holding Revolving Commitments which are not Defaulting Lenders based on their respective Revolving Commitment Percentages, and no Revolving Commitment Percentage of any Lender or any pro rata share of any Revolving Advances required to be advanced by any Lender shall be increased as a result of any Lender being a Defaulting Lender and (y) Equipment Loans shall be made pro rata from Lenders holding Equipment Loan Commitments which are not Defaulting Lenders based on their respective Equipment Loan Commitment Percentages, and no Equipment Loan Commitment Percentage of any Lender or any pro rata share of any Equipment Loans required to be advanced by any Lender shall be increased as a result of any Lender being a Defaulting Lender. Amounts received in respect of principal of any type of Revolving Advances or Equipment Loans, as applicable shall be applied to reduce such type of Revolving Advances or Equipment Loans, as applicable of each Lender (other than any Defaulting Lender) holding a Revolving Commitment or an Equipment Loan Commitment, as applicable in accordance with their Revolving Commitment Percentages or Equipment Loan Commitment Percentages, as applicable; provided, that, Agent shall not be obligated to transfer to a Defaulting Lender any payments received by Agent for Defaulting Lender's benefit, nor shall a Defaulting Lender be entitled to the sharing of any payments hereunder (including any principal, interest or fees). Amounts payable to a Defaulting Lender shall instead be paid to or retained by Agent. Agent may hold and, in its discretion, re-lend to a Borrower the amount of such payments received or retained by it for the account of such Defaulting Lender.

(ii) fees pursuant to Section 3.3(b) hereof shall cease to accrue in favor of such Defaulting Lender.

(iii) if any Swing Loans are outstanding or any Letters of Credit (or drawings under any Letter of Credit for which Issuer has not been reimbursed) are outstanding or exist at the time any such Lender holding a Revolving Commitment becomes a Defaulting Lender, then:

(A) Defaulting Lender's Participation Commitment in the outstanding Swing Loans and of the Maximum Undrawn Amount of all outstanding Letters of Credit shall be reallocated among Non-Defaulting Lenders holding Revolving Commitments in proportion to the respective Revolving Commitment Percentages of such Non-Defaulting Lenders to the extent (but only to the extent) that (x) such reallocation does not cause the aggregate sum of outstanding Revolving Advances made by any such Non-Defaulting Lender holding a Revolving Commitment plus such Lender's reallocated Participation Commitment in

the outstanding Swing Loans plus such Lender's reallocated Participation Commitment in the aggregate Maximum Undrawn Amount of all outstanding Letters of Credit to exceed the Revolving Commitment Amount of any such Non-Defaulting Lender, and (y) no Default or Event of Default has occurred and is continuing at such time;

(B) if the reallocation described in clause (A) above cannot, or can only partially, be effected, Borrowers shall within one Business Day following notice by Agent (x) first, prepay any outstanding Swing Loans that cannot be reallocated, and (y) second, cash collateralize for the benefit of Issuer, Borrowers' obligations corresponding to such Defaulting Lender's Participation Commitment in the Maximum Undrawn Amount of all Letters of Credit (after giving effect to any partial reallocation pursuant to clause (A) above) in accordance with Section 3.2(b) for so long as such Obligations are outstanding;

(C) if Borrowers cash collateralize any portion of such Defaulting Lender's Participation Commitment in the Maximum Undrawn Amount of all Letters of Credit pursuant to clause (B) above, Borrowers shall not be required to pay any fees to such Defaulting Lender pursuant to Section 3.2(a) with respect to such Defaulting Lender's Revolving Commitment Percentage of Maximum Undrawn Amount of all Letters of Credit during the period such Defaulting Lender's Participation Commitment in the Maximum Undrawn Amount of all Letters of Credit are cash collateralized;

(D) if Defaulting Lender's Participation Commitment in the Maximum Undrawn Amount of all Letters of Credit is reallocated pursuant to clause (A) above, then the fees payable to Lenders holding Revolving Commitments pursuant to Section 3.2(a) shall be adjusted and reallocated to Non-Defaulting Lenders holding Revolving Commitments in accordance with such reallocation; and

(E) if all or any portion of such Defaulting Lender's Participation Commitment in the Maximum Undrawn Amount of all Letters of Credit is neither reallocated nor cash collateralized pursuant to clauses (A) or (B) above, then, without prejudice to any rights or remedies of Issuer or any other Lender hereunder, all Letter of Credit Fees payable under Section 3.2(a) with respect to such Defaulting Lender's Revolving Commitment Percentage of the Maximum Undrawn Amount of all Letters of Credit shall be payable to the Issuer (and not to such Defaulting Lender) until (and then only to the extent that) such Participation Commitment in the Maximum Undrawn Amount of all Letters of Credit is reallocated and/or cash collateralized; and

(F) so long as any Lender holding a Revolving Commitment is a Defaulting Lender, Swing Loan Lender shall not be required to fund any Swing Loans and Issuer shall not be required to issue, amend or increase any Letter of Credit, unless such Issuer is satisfied that the related exposure and Defaulting Lender's Participation Commitment in the Maximum Undrawn Amount of all Letters of Credit and all Swing Loans (after giving effect to any such issuance, amendment, increase or funding) will be fully allocated to Non-Defaulting Lenders holding Revolving Commitments and/or cash collateral for such Letters of Credit will be provided by Borrowers in accordance with clause (A) and (B) above, and participating interests in any newly made Swing Loan or any newly issued or increased Letter of Credit shall be allocated among Non-Defaulting Lenders in a manner consistent with Section 2.22(b)(iii)(A) above (and such Defaulting Lender shall not participate therein).

(c) A Defaulting Lender shall not be entitled to give instructions to Agent or to approve, disapprove, consent to or vote on any matters relating to this Agreement and the Other Documents, and all amendments, waivers and other modifications of this Agreement and the Other Documents may be made without regard to a Defaulting Lender and, for purposes of the definition of "Required Lenders", a Defaulting Lender shall not be deemed to be a Lender, to have any outstanding Advances or a Revolving Commitment Percentage, Term Loan Commitment Percentage or Equipment Loan Commitment Percentage; provided, that this clause (c) shall not apply to the vote of a Defaulting Lender in the case of an amendment, waiver or other modification described in clauses (i) or (ii) of Section 16.2(b).

(d) Other than as expressly set forth in this Section 2.22, the rights and obligations of a Defaulting Lender (including the obligation to indemnify Agent) and the other parties hereto shall remain unchanged. Nothing in this Section 2.22 shall be deemed to release any Defaulting Lender from its obligations under this Agreement and the Other Documents, shall alter such obligations, shall operate as a waiver of any default by such Defaulting Lender hereunder, or shall prejudice any rights which any Borrower, Agent or any Lender may have against any Defaulting Lender as a result of any default by such Defaulting Lender hereunder.

(e) In the event that Agent, Borrowers, Swing Loan Lender and Issuer agree in writing that a Defaulting Lender has adequately remedied all matters that caused such Lender to be a Defaulting Lender, then Agent will so notify the parties hereto, and, if such cured Defaulting Lender is a Lender holding a Revolving Commitment, then Participation Commitments of Lenders holding Revolving Commitments (including such cured Defaulting Lender) of the Swing Loans and Maximum Undrawn Amount of all outstanding Letters of Credit shall be reallocated to reflect the inclusion of such Lender's Revolving Commitment, and on such date such Lender shall purchase at par such of the Revolving Advances of the other Lenders as Agent shall determine may be necessary in order for such Lender to hold such Revolving Advances in accordance with its Revolving Commitment Percentage.

(f) If Swing Loan Lender or Issuer has a good faith belief that any Lender holding a Revolving Commitment has defaulted in fulfilling its obligations under one or more other agreements in which such Lender commits to extend credit, Swing Loan Lender shall not be required to fund any Swing Loans and Issuer shall not be required to issue, amend or increase any Letter of Credit, unless Swing Loan Lender or Issuer, as the case may be, shall have entered into arrangements with Borrowers or such Lender, satisfactory to Swing Loan Lender or Issuer, as the case may be, to defease any risk to it in respect of such Lender hereunder.

2.23. Payment of Obligations. Agent may charge to Borrowers' Account as a Revolving Advance or, at the discretion of Swing Loan Lender, as a Swing Loan (i) all payments with respect to any of the Obligations required hereunder (including without limitation principal payments, payments of interest, payments of Letter of Credit Fees and all other fees provided for hereunder and payments under Sections 16.5 and 16.9) as and when each such payment shall become due and payable (whether as regularly scheduled, upon or after acceleration, upon maturity or otherwise), (ii) without limiting the generality of the foregoing clause (i), (a) all

amounts expended by Agent or any Lender pursuant to Sections 4.2 or 4.3 hereof and (b) all expenses which Agent incurs in connection with the forwarding of Advance proceeds and the establishment and maintenance of any Blocked Accounts or Depository Accounts as provided for in Section 4.8(h), and (iii) any sums expended by Agent or any Lender due to any Borrower's failure to perform or comply with its obligations under this Agreement or any Other Document including any Borrower's obligations under Sections 3.3, 3.4, 4.4, 4.7, 6.4, 6.6, 6.7 and 6.8 hereof, and all amounts so charged shall be added to the Obligations and shall be secured by the Collateral. To the extent Revolving Advances are not actually funded by the other Lenders in respect of any such amounts so charged, all such amounts so charged shall be deemed to be Revolving Advances made by and owing to Agent and Agent shall be entitled to all rights (including accrual of interest) and remedies of a Lender under this Agreement and the Other Documents with respect to such Revolving Advances.

III. INTEREST AND FEES.

3.1. Interest. Interest on Advances shall be payable in arrears on the first day of each month with respect to Domestic Rate Loans and, with respect to LIBOR Rate Loans, at (a) the end of each Interest Period, and (b) for LIBOR Rate Loans with an Interest Period in excess of three months, at the end of each three month period during such Interest Period, provided further that all accrued and unpaid interest shall be due and payable at the end of the Term. Interest charges shall be computed on the actual principal amount of Advances outstanding during the month at a rate per annum equal to (i) with respect to Revolving Advances, the applicable Revolving Interest Rate and (ii) with respect to Swing Loans, the Revolving Interest Rate for Domestic Rate Loans and (iii) with respect to the Term Loan and Equipment Loans, the applicable Term Loan Rate (as applicable, the "Contract Rate"). Except as expressly provided otherwise in this Agreement, any Obligations other than the Advances that are not paid when due shall accrue interest at the Revolving Interest Rate for Domestic Rate Loans, subject to the provision of the final sentence of this Section 3.1 regarding the Default Rate. Whenever, subsequent to the date of this Agreement, the Alternate Base Rate is increased or decreased, the applicable Contract Rate shall be similarly changed without notice or demand of any kind by an amount equal to the amount of such change in the Alternate Base Rate during the time such change or changes remain in effect. The LIBOR Rate shall be adjusted with respect to LIBOR Rate Loans without notice or demand of any kind on the effective date of any change in the Reserve Percentage as of such effective date. Upon and after the occurrence of an Event of Default, and during the continuation thereof, at the option of Agent or at the direction of Required Lenders (or, in the case of any Event of Default under Section 10.7, immediately and automatically upon the occurrence of any such Event of Default without the requirement of any affirmative action by any party), (i) the Obligations other than LIBOR Rate Loans shall bear interest at the applicable Contract Rate for Domestic Rate Loans plus two percent (2%) per annum and (ii) LIBOR Rate Loans shall bear interest at the applicable Contract Rate for LIBOR Rate Loans plus two percent (2.00%) per annum (as applicable, the "Default Rate").

3.2. Letter of Credit Fees.

(a) Borrowers shall pay (x) to Agent, for the ratable benefit of Lenders holding Revolving Commitments, fees for each Letter of Credit for the period from and excluding the date of issuance of same to and including the date of expiration or termination,

equal to the average daily face amount of each outstanding Letter of Credit multiplied by the Applicable Margin for Revolving Advances consisting of LIBOR Rate Loans, such fees to be calculated on the basis of a 360-day year for the actual number of days elapsed and to be payable quarterly in arrears on the first day of each calendar quarter and on the last day of the Term, and (y) to Issuer, a fronting fee of one quarter of one percent (0.25%) per annum times the average daily face amount of each outstanding Letter of Credit for the period from and excluding the date of issuance of same to and including the date of expiration or termination, to be payable quarterly in arrears on the first day of each calendar quarter and on the last day of the Term. (all of the foregoing fees, the "Letter of Credit Fees"). In addition, Borrowers shall pay to Agent, for the benefit of Issuer, any and all administrative, issuance, amendment, payment and negotiation charges with respect to Letters of Credit and all fees and expenses as agreed upon by Issuer and the Borrowing Agent in connection with any Letter of Credit, including in connection with the opening, amendment or renewal of any such Letter of Credit and any acceptances created thereunder, all such charges, fees and expenses, if any, to be payable on demand. All such charges shall be deemed earned in full on the date when the same are due and payable hereunder and shall not be subject to rebate or pro-ration upon the termination of this Agreement for any reason. Any such charge in effect at the time of a particular transaction shall be the charge for that transaction, notwithstanding any subsequent change in Issuer's prevailing charges for that type of transaction. Upon and after the occurrence of an Event of Default, and during the continuation thereof, at the option of Agent or at the direction of Required Lenders (or, in the case of any Event of Default under Section 10.7, immediately and automatically upon the occurrence of any such Event of Default without the requirement of any affirmative action by any party), the Letter of Credit Fees described in clause (x) of this Section 3.2(a) shall be increased by an additional two percent (2.0%) per annum.

(b) At any time following the occurrence of an Event of Default, at the option of Agent or at the direction of Required Lenders (or, in the case of any Event of Default under Section 10.7, immediately and automatically upon the occurrence of such Event of Default, without the requirement of any affirmative action by any party), or upon the expiration of the Term or any other termination of this Agreement (and also, if applicable, in connection with any mandatory prepayment under Section 2.20), Borrowers will cause cash to be deposited and maintained in an account with Agent, as cash collateral, in an amount equal to one hundred and five percent (105%) of the Maximum Undrawn Amount of all outstanding Letters of Credit, and each Borrower hereby irrevocably authorizes Agent, in its discretion, on such Borrower's behalf and in such Borrower's name, to open such an account and to make and maintain deposits therein, or in an account opened by such Borrower, in the amounts required to be made by such Borrower, out of the proceeds of Receivables or other Collateral or out of any other funds of such Borrower coming into any Lender's possession at any time. Agent may, in its discretion, invest such cash collateral (less applicable reserves) in such short-term money-market items as to which Agent and such Borrower mutually agree (or, in the absence of such agreement, as Agent may reasonably select) and the net return on such investments shall be credited to such account and constitute additional cash collateral, or Agent may (notwithstanding the foregoing) establish the account provided for under this Section 3.2(b) as a non-interest bearing account and in such case Agent shall have no obligation (and Borrowers hereby waive any claim) under Article 9 of the Uniform Commercial Code or under any other Applicable Law to pay interest on such cash collateral being held by Agent. No Borrower may withdraw amounts credited to any such

account except upon the occurrence of all of the following: (x) payment and performance in full of all Obligations; (y) expiration of all Letters of Credit; and (z) termination of this Agreement. Borrowers hereby assign, pledge and grant to Agent, for its benefit and the ratable benefit of Issuer, Lenders and each other Secured Party, a continuing security interest in and to and Lien on any such cash collateral and any right, title and interest of Borrowers in any deposit account, securities account or investment account into which such cash collateral may be deposited from time to time to secure the Obligations, specifically including all Obligations with respect to any Letters of Credit. Borrowers agree that upon the coming due of any Reimbursement Obligations (or any other Obligations, including Obligations for Letter of Credit Fees) with respect to the Letters of Credit, Agent may use such cash collateral to pay and satisfy such Obligations.

3.3. Closing Fee and Facility Fee.

(a) Upon the execution of this Agreement, Borrowers shall pay to Agent for Agent's sole benefit and account a closing fee of \$40,500.00 which is fully earned and non-refundable as of the Closing Date less that portion of the deposit heretofore paid by Borrowers to Agent, remaining after application of such fees to out of pocket costs and expenses.

(b) If, for any calendar quarter during the Term, the average daily unpaid balance of the sum of Revolving Advances plus Swing Loans plus the Maximum Undrawn Amount of all outstanding Letters of Credit for each day of such calendar quarter does not equal the Maximum Revolving Advance Amount, then Borrowers shall pay to Agent, for the ratable benefit of Lenders holding the Revolving Commitments based on their Revolving Commitment Percentages, a fee at a rate equal to 0.25% per annum on the amount by which the Maximum Revolving Advance Amount exceeds such average daily unpaid balance (the "Facility Fee"). Such Facility Fee shall be payable to Agent in arrears on the first day of each calendar quarter with respect to the previous calendar quarter and on the last day of the Term with respect to the period ending on the last day of the Term.

(c) If, for any calendar quarter during the Term, to the extent Equipment Loans are available hereunder, the average daily unpaid balance of the sum of Equipment Loans for each day of such calendar quarter does not equal the maximum amount of Equipment Loans available to be drawn, then Borrowers shall pay to Agent, for the ratable benefit of Lenders holding the Equipment Loan Commitments based on their Equipment Loan Commitment Percentages, a fee at a rate equal to 0.25% per annum on the amount by which the maximum amount of Equipment Loans available to be drawn exceeds such average daily unpaid balance (the "Equipment Facility Fee"). Such Equipment Facility Fee shall be payable to Agent in arrears on the first day of each calendar quarter with respect to the previous calendar quarter and on the last day of the Term with respect to the period ending on the last day of the Term.

3.4. Collateral Monitoring Fee and Collateral Evaluation Fee.

(a) Borrowers shall pay Agent a collateral monitoring fee equal to \$1,000 per month commencing on the first day of the month following the Closing Date and on the first day of each month thereafter during the Term. The collateral monitoring fee shall be deemed earned in full on the date when same is due and payable hereunder and shall not be subject to rebate or proration upon termination of this Agreement for any reason.

(b) Borrowers shall pay to Agent promptly at the conclusion of any collateral evaluation performed by or for the benefit of Agent - namely any field examination, collateral analysis or other business analysis, the need for which is to be reasonably determined by Agent and which evaluation is undertaken by Agent or for Agent's benefit - a collateral evaluation fee in an amount equal to \$1,000 (or such other amount customarily charged by Agent to its customers) per day for each person employed to perform such evaluation, plus a per examination manager review fee (whether such examination is performed by Agent's employees or by a third party retained by Agent) in the amount of \$1,300 (or such other amount customarily charged by Agent to its customers, plus all costs and disbursements incurred by Agent in the performance of such examination or analysis, and further provided that if third parties are retained to perform such collateral evaluations, either at the request of another Lender or for extenuating reasons determined by Agent in its reasonable discretion, then such fees charged by such third parties plus all costs and disbursements incurred by such third party, shall be the responsibility of Borrower and shall not be subject to the foregoing limits, provided that, absent the occurrence and continuance of an Event of Default, Borrowers shall not be required to pay for more than three (3) collateral evaluations in any calendar year.

(c) All of the fees and out-of-pocket costs and expenses of any appraisals conducted pursuant to Section 4.7 hereof shall be paid for when due, in full and without deduction, off-set or counterclaim by Borrowers.

3.5. Computation of Interest and Fees. Interest and fees hereunder shall be computed on the basis of a year of 360 days and for the actual number of days elapsed. If any payment to be made hereunder becomes due and payable on a day other than a Business Day, the due date thereof shall be extended to the next succeeding Business Day and interest thereon shall be payable at the applicable Contract Rate during such extension.

3.6. Maximum Charges. In no event whatsoever shall interest and other charges charged hereunder exceed the highest rate permissible under Applicable Law. In the event interest and other charges as computed hereunder would otherwise exceed the highest rate permitted under Applicable Law: (i) the interest rates hereunder will be reduced to the maximum rate permitted under Applicable Law; (ii) such excess amount shall be first applied to any unpaid principal balance owed by Borrowers; and (iii) if the then remaining excess amount is greater than the previously unpaid principal balance, Lenders shall promptly refund such excess amount to Borrowers and the provisions hereof shall be deemed amended to provide for such permissible rate.

3.7. Increased Costs. In the event that any Applicable Law or any Change in Law or compliance by any Lender (for purposes of this Section 3.7, the term "Lender" shall include Agent, Swing Loan Lender, any Issuer or Lender and any corporation or bank controlling Agent, Swing Loan Lender, any Lender or Issuer and the office or branch where Agent, Swing Loan Lender, any Lender or Issuer (as so defined) makes or maintains any LIBOR Rate Loans) with any request or directive (whether or not having the force of law) from any central bank or other financial, monetary or other authority, shall:

(a) subject Agent, Swing Loan Lender, any Lender or Issuer to any tax of any kind whatsoever with respect to this Agreement, any Letter of Credit, any participation in a

Letter of Credit or any LIBOR Rate Loan, or change the basis of taxation of payments to Agent, Swing Loan Lender, such Lender or Issuer in respect thereof (except for Indemnified Taxes or Other Taxes covered by Section 3.10 and the imposition of, or any change in the rate of, any Excluded Tax payable by Agent, Swing Loan Lender, such Lender or the Issuer);

(b) impose, modify or deem applicable any reserve, special deposit, assessment, special deposit, compulsory loan, insurance charge or similar requirement against assets held by, or deposits in or for the account of, advances or loans by, or other credit extended by, any office of Agent, Swing Loan Lender, Issuer or any Lender, including pursuant to Regulation D of the Board of Governors of the Federal Reserve System; or

(c) impose on Agent, Swing Loan Lender, any Lender or Issuer or the London interbank LIBOR market any other condition, loss or expense (other than Taxes) affecting this Agreement or any Other Document or any Advance made by any Lender, or any Letter of Credit or participation therein;

and the result of any of the foregoing is to increase the cost to Agent, Swing Loan Lender, any Lender or Issuer of making, converting to, continuing, renewing or maintaining its Advances hereunder by an amount that Agent, Swing Loan Lender, such Lender or Issuer deems to be material or to reduce the amount of any payment (whether of principal, interest or otherwise) in respect of any of the Advances by an amount that Agent, Swing Loan Lender or such Lender or Issuer deems to be material, then, in any case Borrowers shall promptly pay Agent, Swing Loan Lender, such Lender or Issuer, upon its demand, such additional amount as will compensate Agent, Swing Loan Lender or such Lender or Issuer for such additional cost or such reduction, as the case may be, provided that (i) the foregoing shall not apply to increased costs which are reflected in the LIBOR Rate, as the case may be and (ii) Borrowers shall not be required to compensate a Lender or Issuer pursuant to this Section 3.7 for any increased costs incurred or reductions suffered more than 180 days prior to the date that such Lender notifies Borrowing Agent of the event giving rise to such increased costs or reductions and of such Lender's intention to claim compensation therefor (except that, if the event giving rise to such increased costs or reductions is retroactive, then the 180 day period referred to above shall be extended to include the period of retroactive effect thereof). Agent, Swing Loan Lender, such Lender or Issuer shall document, certify and provide evidence of the amount of such additional cost or reduced amount to Borrowing Agent, and such certification shall be conclusive absent manifest error.

Notwithstanding any other provision of this Section 3.7, no Lender or Issuer shall demand compensation pursuant to this Section 3.7, and the Borrowers shall not be required to compensate any such Lender or Issuer, if it shall not at the time be the general policy or practice of such Lender or Issuer, as the case may be, to demand such compensation in similar circumstances under comparable provisions of other credit agreements to which it is a party in amounts that are substantially similar, on a pro rata basis based upon the loan amount under such other credit agreements, to the compensation amounts paid by borrowers under such other credit agreements.

3.8. Basis For Determining Interest Rate Inadequate or Unfair. In the event that Agent or any Lender shall have determined that:

(a) reasonable means do not exist for ascertaining the LIBOR Rate applicable pursuant to Section 2.2 hereof for any Interest Period; or

(b) Dollar deposits in the relevant amount and for the relevant maturity are not available in the London interbank LIBOR market, with respect to an outstanding LIBOR Rate Loan, a proposed LIBOR Rate Loan, or a proposed conversion of a Domestic Rate Loan into a LIBOR Rate Loan; or

(c) the making, maintenance or funding of any LIBOR Rate Loan has been made impracticable or unlawful by compliance by Agent or such Lender in good faith with any Applicable Law or any interpretation or application thereof by any Governmental Body or with any request or directive of any such Governmental Body (whether or not having the force of law), or

(d) the LIBOR Rate will not adequately and fairly reflect the cost to such Lender of the establishment or maintenance of any LIBOR Rate Loan,

then Agent shall give Borrowing Agent prompt written or telephonic notice of such determination. If such notice is given, (i) any such requested LIBOR Rate Loan shall be made as a Domestic Rate Loan, unless Borrowing Agent shall notify Agent no later than 1:00 p.m. two (2) Business Days prior to the date of such proposed borrowing, that its request for such borrowing shall be cancelled or made as an unaffected type of LIBOR Rate Loan, (ii) any Domestic Rate Loan or LIBOR Rate Loan which was to have been converted to an affected type of LIBOR Rate Loan shall be continued as or converted into a Domestic Rate Loan, or, if Borrowing Agent shall notify Agent, no later than 1:00 p.m. two (2) Business Days prior to the proposed conversion, shall be maintained as an unaffected type of LIBOR Rate Loan, and (iii) any outstanding affected LIBOR Rate Loans shall be converted into a Domestic Rate Loan, or, if Borrowing Agent shall notify Agent, no later than 1:00 p.m. two (2) Business Days prior to the last Business Day of the then current Interest Period applicable to such affected LIBOR Rate Loan, shall be converted into an unaffected type of LIBOR Rate Loan, on the last Business Day of the then current Interest Period for such affected LIBOR Rate Loans (or sooner, if any Lender cannot continue to lawfully maintain such affected LIBOR Rate Loan). Until such notice has been withdrawn, Lenders shall have no obligation to make an affected type of LIBOR Rate Loan or maintain outstanding affected LIBOR Rate Loans and no Borrower shall have the right to convert a Domestic Rate Loan or an unaffected type of LIBOR Rate Loan into an affected type of LIBOR Rate Loan.

3.9. Capital Adequacy.

(a) In the event that Agent, Swing Loan Lender or any Lender shall have determined that any Applicable Law or guideline regarding capital adequacy, or any Change in Law or any change in the interpretation or administration thereof by any Governmental Body, central bank or comparable agency charged with the interpretation or administration thereof, or compliance by Agent, Swing Loan Lender, Issuer or any Lender (for purposes of this Section 3.9, the term "Lender" shall include Agent, Swing Loan Lender, Issuer or any Lender and any corporation or bank controlling Agent, Swing Loan Lender or any Lender and the office or branch where Agent, Swing Loan Lender or any Lender (as so defined) makes or maintains any

LIBOR Rate Loans) with any request or directive regarding capital adequacy (whether or not having the force of law) of any such authority, central bank or comparable agency, has or would have the effect of reducing the rate of return on Agent, Swing Loan Lender or any Lender's capital as a consequence of its obligations hereunder (including the making of any Swing Loans) to a level below that which Agent, Swing Loan Lender or such Lender could have achieved but for such adoption, change or compliance (taking into consideration Agent's, Swing Loan Lender's and each Lender's policies with respect to capital adequacy) by an amount deemed by Agent, Swing Loan Lender or any Lender to be material, then, from time to time, Borrowers shall pay upon demand to Agent, Swing Loan Lender or such Lender such additional amount or amounts as will compensate Agent, Swing Loan Lender or such Lender for such reduction, provided that Borrowers shall not be required to compensate a Lender pursuant to this Section 3.9 for any reductions suffered more than 180 days prior to the date that such Lender notifies Borrowing Agent of the event giving rise to such reductions and of such Lender's intention to claim compensation therefor (except that, if the event giving rise to such reductions is retroactive, then the 180 day period referred to above shall be extended to include the period of retroactive effect thereof). In determining such amount or amounts, Agent, Swing Loan Lender or such Lender may use any reasonable averaging or attribution methods. The protection of this Section 3.9 shall be available to Agent, Swing Loan Lender and each Lender regardless of any possible contention of invalidity or inapplicability with respect to the Applicable Law, rule, regulation, guideline or condition.

(b) Agent, Swing Loan Lender or such Lender will provide documentation, certification and evidence setting forth such amount or amounts as shall be necessary to compensate Agent, Swing Loan Lender or such Lender with respect to Section 3.9(a) hereof, which when delivered to Borrowing Agent shall be conclusive absent manifest error.

(c) Notwithstanding any other provision of this Section 3.9, no Lender shall demand compensation pursuant to this Section 3.9, and the Borrowers shall not be required to compensate any such Lender, if it shall not at the time be the general policy or practice of such Lender to demand such compensation in similar circumstances under comparable provisions of other credit agreements to which it is a party in amounts that are substantially similar, on a pro rata basis based upon the loan amount under such other credit agreements, to the compensation amounts paid by borrowers under such other credit agreements.

3.10. Taxes.

(a) Any and all payments by or on account of any Obligations hereunder or under any Other Document shall be made free and clear of and without reduction or withholding for any Indemnified Taxes or Other Taxes; provided that if Borrowers shall be required by Applicable Law to deduct any Indemnified Taxes (including any Other Taxes) from such payments, then (i) the sum payable shall be increased as necessary so that after making all required deductions (including deductions applicable to additional sums payable under this Section) Agent, Swing Loan Lender, Lender, Issuer or Participant, as the case may be, receives an amount equal to the sum it would have received had no such deductions been made, (ii) Borrowers shall make such deductions and (iii) Borrowers shall timely pay the full amount deducted to the relevant Governmental Body in accordance with Applicable Law.

(b) Without limiting the provisions of Section 3.10(a) above, Borrowers shall timely pay any Other Taxes to the relevant Governmental Body in accordance with Applicable Law.

(c) Each Borrower shall indemnify Agent, Swing Loan Lender, each Lender, Issuer and any Participant, within ten (10) days after demand therefor, for the full amount of any Indemnified Taxes or Other Taxes (including Indemnified Taxes or Other Taxes imposed or asserted on or attributable to amounts payable under this Section) paid by Agent, Swing Loan Lender, such Lender, Issuer, or such Participant, as the case may be, and any penalties, interest and reasonable expenses arising therefrom or with respect thereto, whether or not such Indemnified Taxes or Other Taxes were correctly or legally imposed or asserted by the relevant Governmental Body. A certificate as to the amount of such payment or liability delivered to Borrowers by any Lender, Swing Loan Lender, Participant, or Issuer (with a copy to Agent), or by Agent on its own behalf or on behalf of Swing Loan Lender, a Lender or Issuer, shall be conclusive absent manifest error.

(d) As soon as practicable after any payment of Indemnified Taxes or Other Taxes by any Borrower to a Governmental Body, Borrowers shall deliver to Agent the original or a certified copy of a receipt issued by such Governmental Body evidencing such payment, a copy of the return reporting such payment or other evidence of such payment reasonably satisfactory to Agent.

(e) Any Foreign Lender that is entitled to an exemption from or reduction of withholding tax under the law of the jurisdiction in which any Borrower is resident for tax purposes, or under any treaty to which such jurisdiction is a party, with respect to payments hereunder or under any Other Document shall deliver to Borrowers (with a copy to Agent), at the time or times prescribed by Applicable Law or reasonably requested by Borrowers or Agent, such properly completed and executed documentation prescribed by Applicable Law as will permit such payments to be made without withholding or at a reduced rate of withholding. Notwithstanding the submission of such documentation claiming a reduced rate of or exemption from U.S. withholding tax, Agent shall be entitled to withhold United States federal income taxes at the full 30% withholding rate if in its reasonable judgment it is required to do so under the due diligence requirements imposed upon a withholding agent under § 1.1441-7(b) of the United States Income Tax Regulations or other Applicable Law. Further, Agent is indemnified under § 1.1461-1(e) of the United States Income Tax Regulations against any claims and demands of any Lender, Issuer or assignee or participant of a Lender or Issuer for the amount of any tax it deducts and withholds in accordance with regulations under § 1441 of the Code. In addition, any Lender, if requested by Borrowers or Agent, shall deliver such other documentation prescribed by Applicable Law or reasonably requested by the Borrowers or Agent as will enable Borrowers or Agent to determine whether or not such Lender is subject to backup withholding or information reporting requirements. Without limiting the generality of the foregoing, in the event that any Borrower is resident for tax purposes in the United States of America, any Foreign Lender (or other Lender) shall deliver to Borrowers and Agent (in such number of copies as shall be requested by the recipient) on or prior to the date on which such Foreign Lender (or other Lender) becomes a Lender under this Agreement (and from time to time thereafter upon the request of Borrowers or Agent, but only if such Foreign Lender (or other Lender) is legally entitled to do so), whichever of the following is applicable:

(i) two (2) duly completed valid originals of IRS Form W-8BEN or W-8BEN-E claiming eligibility for benefits of an income tax treaty to which the United States of America is a party,

(ii) two (2) duly completed valid originals of IRS Form W-8ECI,

(iii) in the case of a Foreign Lender claiming the benefits of the exemption for portfolio interest under section 881(c) of the Code, (x) a certificate to the effect that such Foreign Lender is not (A) a “bank” within the meaning of section 881(c)(3)(A) of the Code, (B) a “10 percent shareholder” of Borrowers within the meaning of section 881(c)(3)(B) of the Code, or (C) a “controlled foreign corporation” described in section 881(c)(3)(C) of the Code and (y) two duly completed valid originals of IRS Form W-8BEN or W-8BEN-E,

(iv) any other form prescribed by Applicable Law as a basis for claiming exemption from or a reduction in United States Federal withholding tax duly completed together with such supplementary documentation as may be prescribed by Applicable Law to permit the Borrowers to determine the withholding or deduction required to be made, or

(v) To the extent that any Lender is not a Foreign Lender, such Lender shall submit to Agent two (2) originals of an IRS Form W-9 or any other form prescribed by Applicable Law demonstrating that such Lender is not a Foreign Lender.

(f) If a payment made to a Lender, Swing Loan Lender, Participant, Issuer, or Agent under this Agreement or any Other Document would be subject to U.S. Federal withholding Tax imposed by FATCA if such Person fails to comply with the applicable reporting requirements of FATCA (including those contained in Section 1471(b) or 1472(b) of the Code, as applicable), such Lender, Swing Loan Lender, Participant, Issuer, or Agent shall deliver to the Agent (in the case of Swing Loan Lender, a Lender, Participant or Issuer) and Borrowers (A) a certification signed by the chief financial officer, principal accounting officer, treasurer or controller of such Person, and (B) other documentation reasonably requested by Agent or any Borrower sufficient for Agent and Borrowers to comply with their obligations under FATCA and to determine that Swing Loan Lender, such Lender, Participant, Issuer, or Agent has complied with such applicable reporting requirements.

3.11. Replacement of Lenders. If any Lender (an “Affected Lender”) (a) makes demand upon Borrowers for (or if Borrowers are otherwise required to pay) amounts pursuant to Section 3.7 or 3.9 hereof, (b) is unable to make or maintain LIBOR Rate Loans as a result of a condition described in Section 2.2(h) hereof, (c) is a Defaulting Lender, or (d) denies any consent requested by the Agent pursuant to Section 16.2(b) hereof, Borrowers may, within ninety (90) days of receipt of such demand, notice (or the occurrence of such other event causing Borrowers to be required to pay such compensation or causing Section 2.2(h) hereof to be applicable), or such Lender becoming a Defaulting Lender or denial of a request by Agent pursuant to Section 16.2(b) hereof, as the case may be, by notice in writing to the Agent and such Affected Lender (i) request the Affected Lender to cooperate with Borrowers in obtaining a replacement Lender satisfactory to Agent and Borrowers (the “Replacement Lender”); (ii) request the non-Affected Lenders to acquire and assume all of the Affected Lender’s Advances and its Revolving Commitment Percentage, Term Loan Commitment Percentages and/or Equipment Loan

Commitment Percentages, as applicable, as provided herein, but none of such Lenders shall be under any obligation to do so; or (iii) propose a Replacement Lender subject to approval by Agent in its good faith business judgment. If any satisfactory Replacement Lender shall be obtained, and/or if any one or more of the non-Affected Lenders shall agree to acquire and assume all of the Affected Lender's Advances and its Revolving Commitment Percentage, Term Loan Commitment Percentages and/or Equipment Loan Commitment Percentages, as applicable, then such Affected Lender shall assign, in accordance with Section 16.3 hereof, all of its Advances and its Revolving Commitment Percentage, Term Loan Commitment Percentages and/or Equipment Loan Commitment Percentages, as applicable, and other rights and obligations under this Agreement and the Other Documents to such Replacement Lender or non-Affected Lenders, as the case may be, in exchange for payment of the principal amount so assigned and all interest and fees accrued on the amount so assigned, *plus* all other Obligations then due and payable to the Affected Lender.

IV. COLLATERAL: GENERAL TERMS

4.1. Security Interest in the Collateral. To secure the prompt payment and performance to Agent, Issuer and each Lender (and each other holder of any Obligations) of the Obligations, each Borrower hereby assigns, pledges and grants to Agent for its benefit and for the ratable benefit of each Lender, Issuer and each other Secured Party, a continuing security interest in and to and Lien on all of its Collateral, whether now owned or existing or hereafter created, acquired or arising and wheresoever located. Each Borrower shall mark its books and records as may be necessary or appropriate to evidence, protect and perfect Agent's security interest and shall cause its financial statements to reflect such security interest. Each Borrower shall provide Agent with written notice of all commercial tort claims claiming damages in excess of \$250,000 promptly upon the occurrence of any events giving rise to any such claim(s) (regardless of whether legal proceedings have yet been commenced), such notice to contain a brief description of the claim(s), the events out of which such claim(s) arose and the parties against which such claims may be asserted and, if applicable in any case where legal proceedings regarding such claim(s) have been commenced, the case title together with the applicable court and docket number. Upon delivery of each such notice, such Borrower shall be deemed to thereby grant to Agent a security interest and lien in and to such commercial tort claims described therein and all proceeds thereof. Each Borrower shall provide Agent with written notice promptly upon becoming the beneficiary under any letter of credit or otherwise obtaining any right, title or interest in any letter of credit rights, and at Agent's request shall take such actions as Agent may reasonably request for the perfection of Agent's security interest therein.

4.2. Perfection of Security Interest. Each Borrower shall take all action that Agent requests, so as at all times to maintain the validity, perfection, enforceability and priority of Agent's security interest in and Lien on the Collateral or to enable Agent to protect, exercise or enforce its rights hereunder and in the Collateral, including, but not limited to, (i) immediately discharging all Liens other than Permitted Encumbrances, (ii) obtaining Lien Waiver Agreements, (iii) delivering to Agent, endorsed or accompanied by such instruments of assignment as Agent may specify, and stamping or marking, in such manner as Agent may specify, any and all chattel paper, instruments, letters of credits and advices thereof and documents evidencing or forming a part of the Collateral, (iv) entering into warehousing, lockbox, customs and freight agreements and other custodial arrangements satisfactory to Agent,

and (v) executing and delivering financing statements, control agreements, instruments of pledge, mortgages, notices and assignments, in each case in form and substance satisfactory to Agent, relating to the creation, validity, perfection, maintenance or continuation of Agent's security interest and Lien under the Uniform Commercial Code or other Applicable Law. By its signature hereto, each Borrower hereby authorizes Agent to file against such Borrower, one or more financing, continuation or amendment statements pursuant to the Uniform Commercial Code in form and substance satisfactory to Agent (which statements may have a description of collateral which is broader than that set forth herein, including without limitation a description of Collateral as "all assets" and/or "all personal property" of any Borrower). All reasonable charges, expenses and fees Agent may incur in doing any of the foregoing, and any local taxes relating thereto, shall be charged to Borrowers' Account as a Revolving Advance of a Domestic Rate Loan and added to the Obligations, or, at Agent's option, shall be paid by Borrowers to Agent for its benefit and for the ratable benefit of Lenders immediately upon demand.

4.3. Preservation of Collateral. Following the occurrence of a Default or Event of Default, in addition to the rights and remedies set forth in Section 11.1 hereof, Agent: (a) may at any time take such steps as Agent deems necessary to protect Agent's interest in and to preserve the Collateral, including the hiring of security guards or the placing of other security protection measures as Agent may deem appropriate; (b) may employ and maintain at any of any Borrower's premises a custodian who shall have full authority to do all acts necessary to protect Agent's interests in the Collateral; (c) may lease warehouse facilities to which Agent may move all or part of the Collateral; (d) may use any Borrower's owned or leased lifts, hoists, trucks and other facilities or equipment for handling or removing the Collateral; and (e) shall have, and is hereby granted, a right of ingress and egress to the places where the Collateral is located, and may proceed over and through any of Borrowers' owned or leased property. Each Borrower shall cooperate fully with all of Agent's efforts to preserve the Collateral and will take such reasonable actions to preserve the Collateral as Agent may direct. All of Agent's expenses of preserving the Collateral under this Section 4.3, including any expenses relating to the bonding of a custodian, shall be charged to Borrowers' Account as a Revolving Advance maintained as a Domestic Rate Loan and added to the Obligations.

4.4. Ownership and Location of Collateral.

(a) With respect to the Collateral, at the time the Collateral becomes subject to Agent's security interest: (i) each Borrower shall be the sole owner of and fully authorized and able to sell, transfer, pledge and/or grant a first priority security interest in each and every item of its respective Collateral to Agent; and, except for Permitted Encumbrances the Collateral shall be free and clear of all Liens whatsoever; (ii) each document and agreement executed by each Borrower or delivered to Agent or any Lender in connection with this Agreement shall be true and correct in all respects; (iii) all signatures and endorsements of each Borrower that appear on such documents and agreements shall be genuine and each Borrower shall have full capacity to execute same; and (iv) each Borrower's equipment and Inventory shall be located as set forth on Schedule 4.4, as such Schedule may be updated from time to time, and shall not be removed from such location(s) without the prior written consent of Agent except with respect to the sale of Inventory in the Ordinary Course of Business and equipment to the extent permitted in Section 7.1(b) hereof.

(b) (i) There is no location at which any Borrower has any Inventory (except for Inventory in transit) or other Collateral other than those locations listed on Schedule 4.4(b)(i); (ii) Schedule 4.4(b)(ii) hereto contains a correct and complete list, as of the Closing Date, of the legal names and addresses of each warehouse at which Inventory of any Borrower is stored; none of the receipts received by any Borrower from any warehouse states that the goods covered thereby are to be delivered to bearer or to the order of a named Person or to a named Person and such named Person's assigns; (iii) Schedule 4.4(b)(iii) hereto sets forth a correct and complete list as of the Closing Date of (A) each place of business of each Borrower and (B) the chief executive office of each Borrower; and (iv) Schedule 4.4(b)(iv) hereto sets forth a correct and complete list as of the Closing Date of the location, by state and street address, of all Real Property owned or leased by each Borrower, identifying which properties are owned and which are leased, together with the names and addresses of any landlords.

4.5. Defense of Agent's and Lenders' Interests. Until (a) payment and performance in full of all of the Obligations and (b) termination of this Agreement, Agent's interests in the Collateral shall continue in full force and effect. During such period no Borrower shall, without Agent's prior written consent, pledge, sell (except for sales or other dispositions otherwise permitted in Section 7.1(b) hereof), assign, transfer, create or suffer to exist a Lien upon or encumber or allow or suffer to be encumbered in any way except for Permitted Encumbrances, any part of the Collateral. Each Borrower shall defend Agent's interests in the Collateral against any and all Persons whatsoever. At any time following demand by Agent for payment of all Obligations, Agent shall have the right to take possession of the indicia of the Collateral and the Collateral in whatever physical form contained, including: labels, stationery, documents, instruments and advertising materials. If Agent exercises this right to take possession of the Collateral, Borrowers shall, upon demand, assemble it in the best manner possible and make it available to Agent at a place reasonably convenient to Agent. In addition, with respect to all Collateral, Agent and Lenders shall be entitled to all of the rights and remedies set forth herein and further provided by the Uniform Commercial Code or other Applicable Law. Each Borrower shall, and Agent may, at its option, instruct all suppliers, carriers, forwarders, warehousemen or others receiving or holding cash, checks, Inventory, documents or instruments in which Agent holds a security interest to deliver same to Agent and/or subject to Agent's order and if they shall come into any Borrower's possession, they, and each of them, shall be held by such Borrower in trust as Agent's trustee, and such Borrower will immediately deliver them to Agent in their original form together with any necessary endorsement.

4.6. Inspection of Premises. At all reasonable times and from time to time as often as Agent shall elect in its reasonable discretion, Agent and each Lender shall have full access to and the right to audit, check, inspect and make abstracts and copies from each Borrower's books, records, audits, correspondence and all other papers relating to the Collateral and the operation of each Borrower's business. Agent, any Lender and their agents may enter upon any premises of any Borrower at any time during business hours and at any other reasonable time, and from time to time as often as Agent shall elect in its reasonable discretion, for the purpose of inspecting the Collateral and any and all records pertaining thereto and the operation of such Borrower's business.

4.7. Appraisals. Agent may, in its reasonable discretion, exercised in a commercially reasonable manner, at any time after the Closing Date and from time to time, engage the services

of an independent appraisal firm or firms of reputable standing, satisfactory to Agent, for the purpose of appraising the then current values of Borrowers' assets. Absent the occurrence and continuance of an Event of Default at such time, Agent shall consult with Borrowers as to the identity of any such firm and Borrowers shall not be required to pay for more than one (1) appraisal in any calendar year. In the event the value of Borrowers' Inventory or equipment, as so determined pursuant to such appraisal, is less than anticipated by Agent or Lenders, such that the Revolving Advances are in excess of such Advances permitted hereunder, then, promptly upon Agent's demand for same, Borrowers shall make mandatory prepayments of the then outstanding Revolving Advances so as to eliminate the excess Advances.

4.8. Receivables; Deposit Accounts and Securities Accounts.

(a) Each of the Receivables shall be a bona fide and valid account representing a bona fide indebtedness incurred by the Customer therein named, for a fixed sum as set forth in the invoice relating thereto (provided immaterial or unintentional invoice errors shall not be deemed to be a breach hereof) with respect to an absolute sale (which may be subject to Charge-Backs) or lease and delivery of goods upon stated terms of a Borrower, or work, labor or services theretofore rendered by a Borrower as of the date each Receivable is created. Same shall be due and owing in accordance with the applicable Borrower's standard terms of sale without dispute, setoff or counterclaim except as may be stated on the accounts receivable schedules delivered by Borrowers to Agent.

(b) Each Customer, to the best of each Borrower's knowledge, as of the date each Receivable is created, is and will be solvent and able to pay all Receivables on which the Customer is obligated in full when due. With respect to such Customers of any Borrower who are not solvent, such Borrower has set up on its books and in its financial records bad debt reserves adequate to cover such Receivables.

(c) Each Borrower's chief executive office is located as set forth on Schedule 4.4(b)(iii). Until written notice is given to Agent by Borrowing Agent of any other office at which any Borrower keeps its records pertaining to Receivables, all such records shall be kept at such executive office.

(d) Borrowers shall instruct their Customers to deliver all remittances upon Receivables (whether paid by check or by wire transfer of funds) to such Blocked Account(s) and/or Depository Accounts (and any associated lockboxes) as Agent shall designate from time to time as contemplated by Section 4.8(h) or as otherwise agreed to from time to time by Agent. Notwithstanding the foregoing, to the extent any Borrower directly receives any remittances upon Receivables, such Borrower shall, at such Borrower's sole cost and expense, but on Agent's behalf and for Agent's account, collect as Agent's property and in trust for Agent all amounts received on Receivables, and shall not commingle such collections with any Borrower's funds or use the same except to pay Obligations, and shall as soon as possible and in any event no later than one (1) Business Day after the receipt thereof (i) in the case of remittances paid by check, deposit all such remittances in their original form (after supplying any necessary endorsements) and (ii) in the case of remittances paid by wire transfer of funds, transfer all such remittances, in each case, into such Blocked Accounts(s) and/or Depository Account(s). Each Borrower shall deposit in the Blocked Account and/or Depository Account or, upon request by Agent, deliver to Agent, in original form and on the date of receipt thereof, all checks, drafts, notes, money orders, acceptances, cash and other evidences of Indebtedness.

(e) Effective upon the occurrence and during the continuance of an Event of Default, Agent shall have the right to send notice of the assignment of, and Agent's security interest in and Lien on, the Receivables to any and all Customers or any third party holding or otherwise concerned with any of the Collateral. Thereafter, Agent shall have the sole right to collect the Receivables, take possession of the Collateral, or both. Agent's actual collection expenses, including, but not limited to, stationery and postage, telephone, facsimile, telegraph, secretarial and clerical expenses and the salaries of any collection personnel used for collection, may be charged to Borrowers' Account and added to the Obligations.

(f) Agent shall have the right to receive, endorse, assign and/or deliver in the name of Agent or any Borrower any and all checks, drafts and other instruments for the payment of money relating to the Receivables, and each Borrower hereby waives notice of presentment, protest and non-payment of any instrument so endorsed. Each Borrower hereby constitutes Agent or Agent's designee as such Borrower's attorney with power (i) at any time: (A) to endorse such Borrower's name upon any notes, acceptances, checks, drafts, money orders or other evidences of payment or Collateral; (B) to sign such Borrower's name on any invoice or bill of lading relating to any of the Receivables, drafts against Customers, assignments and verifications of Receivables; (C) to send verifications of Receivables to any Customer; and (D) to sign such Borrower's name on all financing statements or any other documents or instruments deemed necessary or appropriate by Agent to preserve, protect, or perfect Agent's interest in the Collateral and to file same; and (ii) at any time following the occurrence of a Default or an Event of Default: (A) to demand payment of the Receivables; (B) to enforce payment of the Receivables by legal proceedings or otherwise; (C) to exercise all of such Borrower's rights and remedies with respect to the collection of the Receivables and any other Collateral; (D) to sue upon or otherwise collect, extend the time of payment of, settle, adjust, compromise, extend or renew the Receivables; (E) to settle, adjust or compromise any legal proceedings brought to collect Receivables; (F) to prepare, file and sign such Borrower's name on a proof of claim in bankruptcy or similar document against any Customer; (G) to prepare, file and sign such Borrower's name on any notice of Lien, assignment or satisfaction of Lien or similar document in connection with the Receivables; (H) to accept the return of goods represented by any of the Receivables; (I) to change the address for delivery of mail addressed to any Borrower to such address as Agent may designate; (J) to receive, open and dispose of all mail addressed to any Borrower at any post office box/lockbox maintained by Agent for Borrowers or at any other business premises of Agent (other than in connection with maintenance of a lockbox and related cash management services) and (K) to do all other acts and things necessary to carry out this Agreement. All acts of said attorney or designee are hereby ratified and approved, and said attorney or designee shall not be liable for any acts of omission or commission nor for any error of judgment or mistake of fact or of law, unless done maliciously or with gross (not mere) negligence (as determined by a court of competent jurisdiction in a final non-appealable judgment); this power being coupled with an interest is irrevocable while any of the Obligations remain unpaid.

(g) Neither Agent nor any Lender shall, under any circumstances or in any event whatsoever, have any liability for any error or omission or delay of any kind occurring in

the settlement, collection or payment of any of the Receivables or any instrument received in payment thereof, or for any damage resulting therefrom, unless done with willful misconduct or gross (not mere) negligence (as determined by a court of competent jurisdiction in a final non-appealable judgment).

(h) All proceeds of Collateral shall be deposited by Borrowers into either (i) a lockbox account, dominion account or such other “blocked account” (“Blocked Accounts”) established at a bank or banks (each such bank, a “Blocked Account Bank”) pursuant to an arrangement with such Blocked Account Bank as may be acceptable to Agent or (ii) depository accounts (“Depository Accounts”) established at Agent for the deposit of such proceeds. Each applicable Borrower, Agent and each Blocked Account Bank shall enter into a deposit account control agreement in form and substance satisfactory to Agent that is sufficient to give Agent “control” (for purposes of Articles 8 and 9 of the Uniform Commercial Code) over such accounts and which directs such Blocked Account Bank to transfer such funds so deposited on a daily basis or at other times acceptable to Agent to Agent, either to any account maintained by Agent at said Blocked Account Bank or by wire transfer to appropriate account(s) at Agent. All funds deposited in such Blocked Accounts or Depository Accounts shall immediately become subject to the security interest of Agent for its own benefit and the ratable benefit of Issuer, Lenders and all other holders of the Obligations, and Borrowing Agent shall obtain the agreement by such Blocked Account Bank to waive any offset rights against the funds so deposited. FIFTH, to the payment of the outstanding principal amount of the Obligations consisting of Swing Loans;

SIXTH, to the payment of all Obligations arising under this Agreement and the Other Documents consisting of accrued fees and interest (other than interest in respect of Swing Loans paid pursuant to clause FOURTH above);

SEVENTH, to the payment of the outstanding principal amount of the Obligations (other than principal in respect of Swing Loans paid pursuant to clause FIFTH above) arising under this Agreement (including Cash Management Liabilities and Hedge Liabilities) (including the payment or cash collateralization of any outstanding Letters of Credit in accordance with Section 3.2(b) hereof).

EIGHTH, to all other Obligations arising under this Agreement which shall have become due and payable (hereunder, under the Other Documents or otherwise) and not repaid pursuant to clauses "FIRST" through "SEVENTH" above;

NINTH, to all other Obligations which shall have become due and payable and not repaid pursuant to clauses "FIRST" through "EIGHTH"; and

TENTH, to the payment of the surplus, if any, to whoever may be lawfully entitled to receive such surplus.

In carrying out the foregoing, (i) amounts received shall be applied in the numerical order provided until exhausted prior to application to the next succeeding category; (ii) each of the Lenders shall receive (so long as it is not a Defaulting Lender) an amount equal to its pro rata share (based on the proportion that the then outstanding Advances, Cash Management Liabilities and Hedge Liabilities held by such Lender bears to the aggregate then outstanding Advances, Cash Management Liabilities and Hedge Liabilities) of amounts available to be applied pursuant to clauses "SIXTH", "SEVENTH", "EIGHTH" and "TENTH" above; and (iii) notwithstanding anything to the contrary in this Section 11.5, no Swap Obligations of any Non-Qualifying Party shall be paid with amounts received from such Non-Qualifying Party under its Guaranty (including sums received as a result of the exercise of remedies with respect to such Guaranty) or from the proceeds of such Non-Qualifying Party's Collateral if such Swap Obligations would constitute Excluded Hedge Liabilities, provided, however, that to the extent possible appropriate adjustments shall be made with respect to payments and/or the proceeds of Collateral from other Borrowers and/or Guarantors that are Eligible Contract Participants with respect to such Swap Obligations to preserve the allocation to Obligations otherwise set forth above in this Section 11.5; and (iv) to the extent that any amounts available for distribution pursuant to clause "SEVENTH" above are attributable to the issued but undrawn amount of outstanding Letters of Credit, such amounts shall be held by Agent as cash collateral for the Letters of Credit pursuant to Section 3.2(b) hereof and applied (A) first, to reimburse Issuer from time to time for any drawings under such Letters of Credit and (B) then, following the expiration of all Letters of Credit, to all other obligations of the types described in clauses "SEVENTH," "EIGHTH", "NINTH", and "TENTH" above in the manner provided in this Section 11.5.

11.6. Equity Cure Right. In connection with the failure of the Borrowers to perform, keep or observe any term, provision, condition or covenant contained in Section 6.5 (a "Financial Covenant Default") when measured as of any specified fiscal quarter (the "Cure Quarter"), the Borrowers shall have the right to cure such Financial Covenant Default on the following terms and conditions (the terms of this Section 11.6 are referred to herein as the "Equity Cure"):

(a) In the event the Borrowers desire to cure a Financial Covenant Default, Borrowing Agent shall deliver to the Agent irrevocable written notice of its intent to cure such

Financial Covenant Default (a “Cure Notice”) together with the financial statements and corresponding Compliance Certificate for the Cure Quarter on or before the due date for delivery of such financial statements and corresponding Compliance Certificate for such Cure Quarter. The Cure Notice shall set forth the amount which, if added to the amount of EBITDA reported in such Compliance Certificate as of the end of the Cure Quarter, would result in the Loan Parties being in pro forma compliance with the covenants contained in Section 6.5 as of the last day of the Cure Quarter (the “Cure Amount”).

(b) If Borrowers shall have received, within ten (10) Business Days after delivery of the Cure Notice, cash proceeds of an equity contribution (other than from the issuance of any Disqualified Equity Interests) from the holders of the Equity Interests of Vital Farms, in an amount equal to the Cure Amount (a “Specified Equity Contribution”) and such amount shall have been remitted to a Depository Account for application to the Obligations as determined by Agent (provided that such prepayment shall be disregarded for purposes of determining compliance with the covenants contained in Section 6.5), then, (i) subject to the other provisions of this Section 11.6, the Financial Covenant Default shall be deemed to be cured for all purposes under this Agreement with the same effect as though there had been no Financial Covenant Default at such date and (ii) any calculation of EBITDA for purposes of Section 6.5 which includes the Cure Quarter shall be deemed to include the Cure Amount (but no amounts in excess of the Cure Amount which may have been received as part of the Specified Equity Contribution). The Equity Cure and the effects thereof on EBITDA and the covenants set forth in Section 6.5 will be disregarded for all other purposes under this Agreement and the Other Documents.

(c) The Equity Cure may not be exercised in any two (2) consecutive fiscal quarters or more than more three (3) times during the Term.

Agent and the Lenders agree that, during the period commencing on the date any Financial Covenant Default first occurs and ending on the date the Specified Equity Contribution is due as provided above, neither Agent nor any Lender shall impose the Default Rate, accelerate the Obligations or enforce any of their remedies against any Borrower or any Collateral, in each case, solely on the basis of the Financial Covenant Default; provided, however, no Lender, Swing Loan Lender or Issuer shall be required to make any Advances during such period and until the terms of this Section 11.6 are complied with to cure such Financial Covenant Default, no Borrower shall take any action which, under the terms of this Agreement or any Other Document, is prohibited during the existence of a Default or Event of Default.

XII. WAIVERS AND JUDICIAL PROCEEDINGS.

12.1. Waiver of Notice. Each Borrower hereby waives notice of non-payment of any of the Receivables, demand, presentment, protest and notice thereof with respect to any and all instruments, notice of acceptance hereof, notice of loans or advances made, credit extended, Collateral received or delivered, or any other action taken in reliance hereon, and all other demands and notices of any description, except such as are expressly provided for herein.

12.2. Delay. No delay or omission on Agent's or any Lender's part in exercising any right, remedy or option shall operate as a waiver of such or any other right, remedy or option or of any Default or Event of Default.

12.3. Jury Waiver. EACH PARTY TO THIS AGREEMENT HEREBY EXPRESSLY WAIVES ANY RIGHT TO TRIAL BY JURY OF ANY CLAIM, COUNTERCLAIM, DEMAND, ACTION OR CAUSE OF ACTION (A) ARISING UNDER THIS AGREEMENT, ANY OTHER DOCUMENT OR ANY OTHER INSTRUMENT, DOCUMENT OR AGREEMENT EXECUTED OR DELIVERED IN CONNECTION HEREWITH, OR (B) IN ANY WAY CONNECTED WITH OR RELATED OR INCIDENTAL TO THE DEALINGS OF THE PARTIES HERETO OR ANY OF THEM WITH RESPECT TO THIS AGREEMENT, ANY OTHER DOCUMENT OR ANY OTHER INSTRUMENT, DOCUMENT OR AGREEMENT EXECUTED OR DELIVERED IN CONNECTION HEREWITH, OR THE TRANSACTIONS RELATED HERETO OR THERETO IN EACH CASE WHETHER NOW EXISTING OR HEREAFTER ARISING, AND WHETHER SOUNDING IN CONTRACT OR TORT OR OTHERWISE AND EACH PARTY HEREBY CONSENTS THAT ANY SUCH CLAIM, COUNTERCLAIM, DEMAND, ACTION OR CAUSE OF ACTION SHALL BE DECIDED BY COURT TRIAL WITHOUT A JURY, AND THAT ANY PARTY TO THIS AGREEMENT MAY FILE AN ORIGINAL COUNTERPART OR A COPY OF THIS SECTION WITH ANY COURT AS WRITTEN EVIDENCE OF THE CONSENTS OF THE PARTIES HERETO TO THE WAIVER OF THEIR RIGHT TO TRIAL BY JURY.

XIII. EFFECTIVE DATE AND TERMINATION.

13.1. Term. This Agreement, which shall inure to the benefit of and shall be binding upon the respective successors and permitted assigns of each Borrower, Agent and each Lender, shall become effective on the date hereof and shall continue in full force and effect until October 4, 2022 (the "Term") unless sooner terminated as herein provided. Borrowers may terminate this Agreement at any time upon thirty (30) days prior written notice to Agent upon payment in full of the Obligations other than in connection with a Change of Control.

13.2. Termination. The termination of the Agreement shall not affect Agent's or any Lender's rights, or any of the Obligations having their inception prior to the effective date of such termination or any Obligations which pursuant to the terms hereof continue to accrue after such date, and the provisions hereof shall continue to be fully operative until (a) all transactions entered into, rights or interests created and Obligations have been fully and indefeasibly paid, disposed of, concluded or liquidated, and (b) all Borrowers and all Guarantors have released Secured Parties from and against any and all claims of any nature whatsoever that any Borrower or any Guarantor may have against Secured Parties as of such date, to the extent included in a payoff letter. The security interests, Liens and rights granted to Agent and Lenders hereunder and the financing statements filed hereunder shall continue in full force and effect, notwithstanding the termination of this Agreement or the fact that Borrowers' Account may from time to time be temporarily in a zero or credit position, until all of the Obligations of each Borrower have been indefeasibly paid and performed in full after the termination of this Agreement or each Borrower has furnished Agent and Lenders with an indemnification satisfactory to Agent and Lenders with respect thereto. Accordingly, each Borrower waives any rights which it may have under the Uniform Commercial Code to demand the filing of

termination statements with respect to the Collateral, and Agent shall not be required to send such termination statements to each Borrower, or to file them with any filing office, unless and until this Agreement shall have been terminated in accordance with its terms and all Obligations have been indefeasibly paid in full in immediately available funds. All representations, warranties, covenants, waivers and agreements contained herein shall survive termination hereof until all Obligations are indefeasibly paid and performed in full.

XIV. REGARDING AGENT.

14.1. Appointment. Each Lender hereby designates PNC to act as Agent for such Lender under this Agreement and the Other Documents. Each Lender hereby irrevocably authorizes Agent to take such action on its behalf under the provisions of this Agreement and the Other Documents and to exercise such powers and to perform such duties hereunder and thereunder as are specifically delegated to or required of Agent by the terms hereof and thereof and such other powers as are reasonably incidental thereto and Agent shall hold all Collateral, payments of principal and interest, fees (except the fees set forth in Sections 2.8(b), 3.3(a) and 3.4), charges and collections received pursuant to this Agreement, for the ratable benefit of Lenders. Agent may perform any of its duties hereunder by or through its agents or employees. As to any matters not expressly provided for by this Agreement (including collection of the Notes) Agent shall not be required to exercise any discretion or take any action, but shall be required to act or to refrain from acting (and shall be fully protected in so acting or refraining from acting) upon the instructions of Required Lenders, and such instructions shall be binding; provided, however, that Agent shall not be required to take any action which, in Agent's discretion, exposes Agent to liability or which is contrary to this Agreement or the Other Documents or Applicable Law unless Agent is furnished with an indemnification reasonably satisfactory to Agent with respect thereto.

14.2. Nature of Duties. Agent shall have no duties or responsibilities except those expressly set forth in this Agreement and the Other Documents. Neither Agent nor any of its officers, directors, employees or agents shall be (i) liable for any action taken or omitted by them as such hereunder or in connection herewith, unless caused by their gross (not mere) negligence or willful misconduct (as determined by a court of competent jurisdiction in a final non-appealable judgment), or (ii) responsible in any manner for any recitals, statements, representations or warranties made by any Borrower or any officer thereof contained in this Agreement, or in any of the Other Documents or in any certificate, report, statement or other document referred to or provided for in, or received by Agent under or in connection with, this Agreement or any of the Other Documents or for the value, validity, effectiveness, genuineness, due execution, enforceability or sufficiency of this Agreement, or any of the Other Documents or for any failure of any Borrower to perform its obligations hereunder. Agent shall not be under any obligation to any Lender to ascertain or to inquire as to the observance or performance of any of the agreements contained in, or conditions of, this Agreement or any of the Other Documents, or to inspect the properties, books or records of any Borrower. The duties of Agent as respects the Advances to Borrowers shall be mechanical and administrative in nature; Agent shall not have by reason of this Agreement a fiduciary relationship in respect of any Lender; and nothing in this Agreement, expressed or implied, is intended to or shall be so construed as to impose upon Agent any obligations in respect of this Agreement or the transactions described herein except as expressly set forth herein.

14.3. Lack of Reliance on Agent. Independently and without reliance upon Agent or any other Lender, each Lender has made and shall continue to make (i) its own independent investigation of the financial condition and affairs of each Borrower and each Guarantor in connection with the making and the continuance of the Advances hereunder and the taking or not taking of any action in connection herewith, and (ii) its own appraisal of the creditworthiness of each Borrower and each Guarantor. Agent shall have no duty or responsibility, either initially or on a continuing basis, to provide any Lender with any credit or other information with respect thereto, whether coming into its possession before making of the Advances or at any time or times thereafter except as shall be provided by any Borrower pursuant to the terms hereof. Agent shall not be responsible to any Lender for any recitals, statements, information, representations or warranties herein or in any agreement, document, certificate or a statement delivered in connection with or for the execution, effectiveness, genuineness, validity, enforceability, collectability or sufficiency of this Agreement or any Other Document, or of the financial condition of any Borrower or any Guarantor, or be required to make any inquiry concerning either the performance or observance of any of the terms, provisions or conditions of this Agreement, the Notes, the Other Documents or the financial condition or prospects of any Borrower, or the existence of any Event of Default or any Default.

14.4. Resignation of Agent; Successor Agent. Agent may resign on sixty (60) days written notice to each Lender and Borrowing Agent and upon such resignation, Required Lenders will promptly designate a successor Agent reasonably satisfactory to Borrowers (provided that no such approval by Borrowers shall be required (i) in any case where the successor Agent is one of the Lenders or (ii) after the occurrence and during the continuance of any Event of Default). Any such successor Agent shall succeed to the rights, powers and duties of Agent, and shall in particular succeed to all of Agent's right, title and interest in and to all of the Liens in the Collateral securing the Obligations created hereunder or any Other Document (including the Mortgages, Pledge Agreement and all account control agreements), and the term "Agent" shall mean such successor agent effective upon its appointment, and the former Agent's rights, powers and duties as Agent shall be terminated, without any other or further act or deed on the part of such former Agent. However, notwithstanding the foregoing, if at the time of the effectiveness of the new Agent's appointment, any further actions need to be taken in order to provide for the legally binding and valid transfer of any Liens in the Collateral from former Agent to new Agent and/or for the perfection of any Liens in the Collateral as held by new Agent or it is otherwise not then possible for new Agent to become the holder of a fully valid, enforceable and perfected Lien as to any of the Collateral, former Agent shall continue to hold such Liens solely as agent for perfection of such Liens on behalf of new Agent until such time as new Agent can obtain a fully valid, enforceable and perfected Lien on all Collateral, provided that Agent shall not be required to or have any liability or responsibility to take any further actions after such date as such agent for perfection to continue the perfection of any such Liens (other than to forego from taking any affirmative action to release any such Liens). After any Agent's resignation as Agent, the provisions of this Article XIV, and any indemnification rights under this Agreement, including without limitation, rights arising under Section 16.5 hereof, shall inure to its benefit as to any actions taken or omitted to be taken by it while it was Agent under this Agreement (and in the event resigning Agent continues to hold any Liens pursuant to the provisions of the immediately preceding sentence, the provisions of this Article XIV and any indemnification rights under this Agreement, including without limitation, rights arising under Section 16.5 hereof, shall inure to its benefit as to any actions taken or omitted to be taken by it in connection with such Liens).

14.5. Certain Rights of Agent. If Agent shall request instructions from Lenders with respect to any act or action (including failure to act) in connection with this Agreement or any Other Document, Agent shall be entitled to refrain from such act or taking such action unless and until Agent shall have received instructions from Required Lenders; and Agent shall not incur liability to any Person by reason of so refraining. Without limiting the foregoing, Lenders shall not have any right of action whatsoever against Agent as a result of its acting or refraining from acting hereunder in accordance with the instructions of Required Lenders.

14.6. Reliance. Agent shall be entitled to rely, and shall be fully protected in relying, upon any note, writing, resolution, notice, statement, certificate, email, facsimile, telex, teletype or telecopier message, cablegram, order or other document or telephone message believed by it to be genuine and correct and to have been signed, sent or made by the proper person or entity, and, with respect to all legal matters pertaining to this Agreement and the Other Documents and its duties hereunder, upon advice of counsel selected by it. Agent may employ agents and attorneys-in-fact and shall not be liable for the default or misconduct of any such agents or attorneys-in-fact selected by Agent with reasonable care.

14.7. Notice of Default. Agent shall not be deemed to have knowledge or notice of the occurrence of any Default or Event of Default hereunder or under the Other Documents, unless Agent has received notice from a Lender or Borrowing Agent referring to this Agreement or the Other Documents, describing such Default or Event of Default and stating that such notice is a “notice of default”. In the event that Agent receives such a notice, Agent shall give notice thereof to Lenders. Agent shall take such action with respect to such Default or Event of Default as shall be reasonably directed by Required Lenders; provided, that, unless and until Agent shall have received such directions, Agent may (but shall not be obligated to) take such action, or refrain from taking such action, with respect to such Default or Event of Default as it shall deem advisable in the best interests of Lenders.

14.8. Indemnification. To the extent Agent is not reimbursed and indemnified by Borrowers, each Lender will reimburse and indemnify Agent in proportion to its respective portion of the outstanding Advances and its respective Participation Commitments in the outstanding Letters of Credit and outstanding Swing Loans (or, if no Advances are outstanding, pro rata according to the percentage that its Revolving Commitment Amount and Equipment Loan Commitment Amount, as applicable constitutes the total aggregate Revolving Commitment Amounts and Equipment Loan Commitment Amounts), from and against any and all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements of any kind or nature whatsoever which may be imposed on, incurred by or asserted against Agent in performing its duties hereunder, or in any way relating to or arising out of this Agreement or any Other Document; provided that Lenders shall not be liable for any portion of such liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements resulting from Agent’s gross (not mere) negligence or willful misconduct (as determined by a court of competent jurisdiction in a final non-appealable judgment).

14.9. Agent in its Individual Capacity. With respect to the obligation of Agent to lend under this Agreement, the Advances made by it shall have the same rights and powers hereunder as any other Lender and as if it were not performing the duties as Agent specified herein; and the term “Lender” or any similar term shall, unless the context clearly otherwise indicates, include Agent in its individual capacity as a Lender. Agent may engage in business with any Borrower as if it were not performing the duties specified herein, and may accept fees and other consideration from any Borrower for services in connection with this Agreement or otherwise without having to account for the same to Lenders.

14.10. Delivery of Documents. To the extent Agent receives financial statements required under Sections 9.7, 9.8, 9.9, 9.12 and 9.13 or Borrowing Base Certificates from any Borrower pursuant to the terms of this Agreement which any Borrower is not obligated to deliver to each Lender, Agent will promptly furnish such documents and information to Lenders.

14.11. Borrowers’ Undertaking to Agent. Without prejudice to their respective obligations to Lenders under the other provisions of this Agreement, each Borrower hereby undertakes with Agent to pay to Agent from time to time on demand all amounts from time to time due and payable by it for the account of Agent or Lenders or any of them pursuant to this Agreement to the extent not already paid. Any payment made pursuant to any such demand shall pro tanto satisfy the relevant Borrower’s obligations to make payments for the account of Lenders or the relevant one or more of them pursuant to this Agreement.

14.12. No Reliance on Agent’s Customer Identification Program. To the extent the Advances or this Agreement is, or becomes, syndicated in cooperation with other Lenders, each Lender acknowledges and agrees that neither such Lender, nor any of its Affiliates, participants or assignees, may rely on Agent to carry out such Lender’s, Affiliate’s, participant’s or assignee’s customer identification program, or other obligations required or imposed under or pursuant to the USA PATRIOT Act or the regulations thereunder, including the regulations contained in 31 CFR 103.121 (as hereafter amended or replaced, the “CIP Regulations”), or any other Anti-Terrorism Law, including any programs involving any of the following items relating to or in connection with any of Borrowers, their Affiliates or their agents, the Other Documents or the transactions hereunder or contemplated hereby: (i) any identity verification procedures, (ii) any recordkeeping, (iii) comparisons with government lists, (iv) customer notices or (v) other procedures required under the CIP Regulations or such Anti-Terrorism Laws.

14.13. Other Agreements. Each of the Lenders agrees that it shall not, without the express consent of Agent, and that it shall, to the extent it is lawfully entitled to do so, upon the request of Agent, set off against the Obligations, any amounts owing by such Lender to any Borrower or any deposit accounts of any Borrower now or hereafter maintained with such Lender. Anything in this Agreement to the contrary notwithstanding, each of the Lenders further agrees that it shall not, unless specifically requested to do so by Agent, take any action to protect or enforce its rights arising out of this Agreement or the Other Documents, it being the intent of Lenders that any such action to protect or enforce rights under this Agreement and the Other Documents shall be taken in concert and at the direction or with the consent of Agent or Required Lenders.

XV. BORROWING AGENCY.

15.1. Borrowing Agency Provisions.

(a) Each Borrower hereby irrevocably designates Borrowing Agent to be its attorney and agent and in such capacity to (i) borrow, (ii) request advances, (iii) request the issuance of Letters of Credit, (iv) sign and endorse notes, (v) execute and deliver all instruments, documents, applications, security agreements, reimbursement agreements and letter of credit agreements for Letters of Credit and all other certificates, notice, writings and further assurances now or hereafter required hereunder, (vi) make elections regarding interest rates, (vii) give instructions regarding Letters of Credit and agree with Issuer upon any amendment, extension or renewal of any Letter of Credit and (viii) otherwise take action under and in connection with this Agreement and the Other Documents, all on behalf of and in the name such Borrower or Borrowers, and hereby authorizes Agent to pay over or credit all loan proceeds hereunder in accordance with the request of Borrowing Agent.

(b) The handling of this credit facility as a co-borrowing facility with a borrowing agent in the manner set forth in this Agreement is solely as an accommodation to Borrowers and at their request. Neither Agent nor any Lender shall incur liability to Borrowers as a result thereof. To induce Agent and Lenders to do so and in consideration thereof, each Borrower hereby indemnifies Agent and each Lender and holds Agent and each Lender harmless from and against any and all liabilities, expenses, losses, damages and claims of damage or injury asserted against Agent or any Lender by any Person arising from or incurred by reason of the handling of the financing arrangements of Borrowers as provided herein, reliance by Agent or any Lender on any request or instruction from Borrowing Agent or any other action taken by Agent or any Lender with respect to this Section 15.1 except due to willful misconduct or gross (not mere) negligence by the indemnified party (as determined by a court of competent jurisdiction in a final and non-appealable judgment).

(c) All Obligations shall be joint and several, and each Borrower shall make payment upon the maturity of the Obligations by acceleration or otherwise, and such obligation and liability on the part of each Borrower shall in no way be affected by any extensions, renewals and forbearance granted by Agent or any Lender to any Borrower, failure of Agent or any Lender to give any Borrower notice of borrowing or any other notice, any failure of Agent or any Lender to pursue or preserve its rights against any Borrower, the release by Agent or any Lender of any Collateral now or thereafter acquired from any Borrower, and such agreement by each Borrower to pay upon any notice issued pursuant thereto is unconditional and unaffected by prior recourse by Agent or any Lender to the other Borrowers or any Collateral for such Borrower's Obligations or the lack thereof. Each Borrower waives all suretyship defenses.

15.2. Waiver of Subrogation. Each Borrower expressly waives any and all rights of subrogation, reimbursement, indemnity, exoneration, contribution of any other claim which such Borrower may now or hereafter have against the other Borrowers or any other Person directly or contingently liable for the Obligations hereunder, or against or with respect to any other Borrowers' property (including, without limitation, any property which is Collateral for the Obligations), arising from the existence or performance of this Agreement, until termination of this Agreement and repayment in full of the Obligations.

XVI. MISCELLANEOUS.

16.1. Governing Law. This Agreement and each Other Document (unless and except to the extent expressly provided otherwise in any such Other Document), and all matters relating hereto or thereto or arising herefrom or therefrom (whether arising under contract law, tort law or otherwise) shall, in accordance with Section 5-1401 of the General Obligations Law of the State of New York, be governed by and construed in accordance with the laws of the State of New York. Any judicial proceeding brought by or against any Borrower with respect to any of the Obligations, this Agreement, the Other Documents or any related agreement may be brought in any court of competent jurisdiction in the State of New York, United States of America, and, by execution and delivery of this Agreement, each Borrower accepts for itself and in connection with its properties, generally and unconditionally, the non-exclusive jurisdiction of the aforesaid courts, and irrevocably agrees to be bound by any judgment rendered thereby in connection with this Agreement. Nothing herein shall affect the right to serve process in any manner permitted by law or shall limit the right of Agent or any Lender to bring proceedings against any Borrower in the courts of any other jurisdiction where any of the Collateral is located. Each Borrower waives any objection to jurisdiction and venue of any action instituted hereunder in the State of New York or any state in which any of the Collateral is located and shall not assert any defense based on lack of jurisdiction or venue or based upon forum non conveniens in any such state. Any judicial proceeding by any Borrower against Agent or any Lender involving, directly or indirectly, any matter or claim in any way arising out of, related to or connected with this Agreement or any related agreement, shall be brought only in a federal or state court located in the County of New York, State of New York.

16.2. Entire Understanding.

(a) This Agreement and the documents executed concurrently herewith contain the entire understanding between each Borrower, Agent and each Lender and supersedes all prior agreements and understandings, if any, relating to the subject matter hereof. Any promises, representations, warranties or guarantees not herein contained and hereinafter made shall have no force and effect unless in writing, signed by each Borrower's, Agent's and each Lender's respective officers. Neither this Agreement nor any portion or provisions hereof may be changed, modified, amended, waived, supplemented, discharged, cancelled or terminated orally or by any course of dealing, or in any manner other than by an agreement in writing, signed by the party to be charged. Notwithstanding the foregoing, Agent may modify this Agreement or any of the Other Documents for the purposes of completing missing content of a non-material, administrative nature or correcting erroneous content of a non-material, administrative nature, without the need for a written amendment, provided that the Agent shall send a copy of any such modification to the Borrowers and each Lender (which copy may be provided by electronic mail). Each Borrower acknowledges that it has been advised by counsel in connection with the execution of this Agreement and Other Documents and is not relying upon oral representations or statements inconsistent with the terms and provisions of this Agreement.

(b) Required Lenders, Agent with the consent in writing of Required Lenders, and Borrowers may, subject to the provisions of this Section 16.2(b), from time to time enter into written supplemental agreements to this Agreement or the Other Documents executed by

Borrowers, for the purpose of adding or deleting any provisions or otherwise changing, varying or waiving in any manner the rights of Lenders, Agent or Borrowers thereunder or the conditions, provisions or terms thereof or waiving any Event of Default thereunder, but only to the extent specified in such written agreements; provided, however, that no such supplemental agreement shall:

(i) increase the Revolving Commitment Percentage, Term Loan Commitment Percentage or Equipment Loan Commitment Percentage, as applicable, or the maximum dollar amount of the Revolving Commitment Amount, Term Loan Commitment Amount or Equipment Loan Commitment Amount, as applicable of any Lender without the consent of such Lender directly affected thereby;

(ii) whether or not any Advances are outstanding, extend the Term or the time for payment of principal or interest of any Advance (excluding the due date of any mandatory prepayment of an Advance), or any fee payable to any Lender, or reduce the principal amount of or the rate of interest borne by any Advances or reduce any fee payable to any Lender, without the consent of each Lender directly affected thereby (except that Required Lenders may elect to waive or rescind any imposition of the Default Rate under Section 3.1 or of default rates of Letter of Credit fees under Section 3.2 (unless imposed by Agent));

(iii) increase the Maximum Revolving Advance Amount without the consent of all Lenders holding a Revolving Commitment;

(iv) alter the definition of the term Required Lenders or alter, amend or modify this Section 16.2(b) without the consent of all Lenders;

(v) alter, amend or modify the provisions of Section 11.5 without the consent of all Lenders;

(vi) release any Collateral during any calendar year (other than in accordance with the provisions of this Agreement) having an aggregate value in excess of \$3,000,000 without the consent of all Lenders;

(vii) change the rights and duties of Agent without the consent of all Lenders;

(viii) subject to clause (e) below, permit any Revolving Advance to be made if after giving effect thereto the total of Revolving Advances outstanding hereunder would exceed the Formula Amount for more than sixty (60) consecutive Business Days or exceed one hundred and ten percent (110%) of the Formula Amount without the consent of each Lender directly affected thereby;

(ix) increase the Advance Rates above the Advance Rates in effect on the Closing Date without the consent of each Lender directly affected thereby; or

(x) release any Guarantor or Borrower without the consent of all Lenders.

(c) Any such supplemental agreement shall apply equally to each Lender and shall be binding upon Borrowers, Lenders and Agent and all future holders of the Obligations. In the case of any waiver, Borrowers, Agent and Lenders shall be restored to their former positions and rights, and any Event of Default waived shall be deemed to be cured and not continuing, but no waiver of a specific Event of Default shall extend to any subsequent Event of Default (whether or not the subsequent Event of Default is the same as the Event of Default which was waived), or impair any right consequent thereon.

(d) In the event that Agent requests the consent of a Lender pursuant to this Section 16.2 and such consent is denied, then Agent may, at its option, require such Lender to assign its interest in the Advances to Agent or to another Lender or to any other Person designated by Agent (the "Designated Lender"), for a price equal to (i) the then outstanding principal amount thereof plus (ii) accrued and unpaid interest and fees due such Lender, which interest and fees shall be paid when collected from Borrowers. In the event Agent elects to require any Lender to assign its interest to Agent or to the Designated Lender, Agent will so notify such Lender in writing within forty five (45) days following such Lender's denial, and such Lender will assign its interest to Agent or the Designated Lender no later than five (5) days following receipt of such notice pursuant to a Commitment Transfer Supplement executed by such Lender, Agent or the Designated Lender, as appropriate, and Agent.

(e) Notwithstanding (i) the existence of a Default or an Event of Default, (ii) that any of the other applicable conditions precedent set forth in Section 8.2 hereof have not been satisfied or the commitments of Lenders to make Revolving Advances hereunder have been terminated for any reason, or (iii) any other contrary provision of this Agreement, Agent may at its discretion and without the consent of any Lender, voluntarily permit the outstanding Revolving Advances at any time to exceed an amount equal to the Formula Amount by up to ten percent (10%) of the Formula Amount for up to sixty (60) consecutive Business Days (the "Out-of-Formula Loans"). If Agent is willing in its sole and absolute discretion to permit such Out-of-Formula Loans, Lenders holding the Revolving Commitments shall be obligated to fund such Out-of-Formula Loans in accordance with their respective Revolving Commitment Percentages, and such Out-of-Formula Loans shall be payable on demand and shall bear interest at the Default Rate for Revolving Advances consisting of Domestic Rate Loans; provided that, if Agent does permit Out-of-Formula Loans, neither Agent nor Lenders shall be deemed thereby to have changed the limits of Section 2.1(a) nor shall any Lender be obligated to fund Revolving Advances in excess of its Revolving Commitment Amount. For purposes of this paragraph, the discretion granted to Agent hereunder shall not preclude involuntary overadvances that may result from time to time due to the fact that the Formula Amount was unintentionally exceeded for any reason, including, but not limited to, Collateral previously deemed to be either "Eligible Receivables", "Eligible Insured Foreign Receivables", or "Eligible Inventory", as applicable, becomes ineligible, collections of Receivables applied to reduce outstanding Revolving Advances are thereafter returned for insufficient funds or overadvances are made to protect or preserve the Collateral. In the event Agent involuntarily permits the outstanding Revolving Advances to exceed the Formula Amount by more than ten percent (10%), Agent shall use its efforts to have Borrowers decrease such excess in as expeditious a manner as is practicable under the circumstances and not inconsistent with the reason for such excess. Revolving Advances made after Agent has determined the existence of involuntary overadvances shall be deemed to be involuntary overadvances and shall be decreased in accordance with the preceding sentence.

To the extent any Out-of-Formula Loans are not actually funded by the other Lenders as provided for in this Section 16.2(e), Agent may elect in its discretion to fund such Out-of-Formula Loans and any such Out-of-Formula Loans so funded by Agent shall be deemed to be Revolving Advances made by and owing to Agent, and Agent shall be entitled to all rights (including accrual of interest) and remedies of a Lender holding a Revolving Commitment under this Agreement and the Other Documents with respect to such Revolving Advances.

(f) In addition to (and not in substitution of) the discretionary Revolving Advances permitted above in this Section 16.2, Agent is hereby authorized by Borrowers and Lenders, at any time in Agent's sole discretion, regardless of (i) the existence of a Default or an Event of Default, (ii) whether any of the other applicable conditions precedent set forth in Section 8.2 hereof have not been satisfied or the commitments of Lenders to make Revolving Advances hereunder have been terminated for any reason, or (iii) any other contrary provision of this Agreement, to make Revolving Advances to Borrowers on behalf of Lenders which Agent, in its reasonable business judgment, deems necessary or desirable (a) to preserve or protect the Collateral, or any portion thereof, (b) to enhance the likelihood of, or maximize the amount of, repayment of the Advances and other Obligations, or (c) to pay any other amount chargeable to Borrowers pursuant to the terms of this Agreement (the "Protective Advances"). Lenders holding the Revolving Commitments shall be obligated to fund such Protective Advances and effect a settlement with Agent therefor upon demand of Agent in accordance with their respective Revolving Commitment Percentages. To the extent any Protective Advances are not actually funded by the other Lenders as provided for in this Section 16.2(f), any such Protective Advances funded by Agent shall be deemed to be Revolving Advances made by and owing to Agent, and Agent shall be entitled to all rights (including accrual of interest) and remedies of a Lender holding a Revolving Commitment under this Agreement and the Other Documents with respect to such Revolving Advances.

16.3. Successors and Assigns; Participations; New Lenders.

(a) This Agreement shall be binding upon and inure to the benefit of Borrowers, Agent, each Lender, all future holders of the Obligations and their respective successors and assigns, except that no Borrower may assign or transfer any of its rights or obligations under this Agreement without the prior written consent of Agent and each Lender.

(b) Each Borrower acknowledges that in the regular course of commercial banking business one or more Lenders may at any time and from time to time sell participating interests in the Advances to other Persons (each such transferee or purchaser of a participating interest, a "Participant"). Each Participant may exercise all rights of payment (including rights of set-off) with respect to the portion of such Advances held by it or other Obligations payable hereunder as fully as if such Participant were the direct holder thereof provided that (i) Borrowers shall not be required to pay to any Participant more than the amount which it would have been required to pay to Lender which granted an interest in its Advances or other Obligations payable hereunder to such Participant had such Lender retained such interest in the Advances hereunder or other Obligations payable hereunder unless the sale of the participation to such Participant is made with Borrower's prior written consent, and (ii) in no event shall Borrowers be required to pay any such amount arising from the same circumstances and with respect to the same Advances or other Obligations payable hereunder to both such Lender and

such Participant. Each Borrower hereby grants to any Participant a continuing security interest in any deposits, moneys or other property actually or constructively held by such Participant as security for the Participant's interest in the Advances.

(c) Any Lender, with the consent of Agent, may sell, assign or transfer all or any part of its rights and obligations under or relating to Revolving Advances, Equipment Loans and/or Term Loans under this Agreement and the Other Documents to one or more additional Persons and one or more additional Persons may commit to make Advances hereunder (each a "Purchasing Lender"), in minimum amounts of not less than \$5,000,000, pursuant to a Commitment Transfer Supplement, executed by a Purchasing Lender, the transferor Lender, and Agent and delivered to Agent for recording, provided, however, that each partial assignment shall be made as an assignment of a proportionate part of all the assigning Lender's rights and obligations under this Agreement with respect to each of the Revolving Advances, Equipment Loans and/or Term Loans] under this Agreement in which such Lender has an interest. Upon such execution, delivery, acceptance and recording, from and after the transfer effective date determined pursuant to such Commitment Transfer Supplement, (i) Purchasing Lender thereunder shall be a party hereto and, to the extent provided in such Commitment Transfer Supplement, have the rights and obligations of a Lender thereunder with a Revolving Commitment Percentage, Term Loan Commitment Percentage and/or Equipment Loan Commitment Percentage, as applicable as set forth therein, and (ii) the transferor Lender thereunder shall, to the extent provided in such Commitment Transfer Supplement, be released from its obligations under this Agreement, the Commitment Transfer Supplement creating a novation for that purpose. Such Commitment Transfer Supplement shall be deemed to amend this Agreement to the extent, and only to the extent, necessary to reflect the addition of such Purchasing Lender and the resulting adjustment of the Revolving Commitment Percentages, Term Loan Commitment Percentages and/or Equipment Loan Commitment Percentages, as applicable arising from the purchase by such Purchasing Lender of all or a portion of the rights and obligations of such transferor Lender under this Agreement and the Other Documents. Each Borrower hereby consents to the addition of such Purchasing Lender and the resulting adjustment of the Revolving Commitment Percentage, Term Loan Commitment Percentages and/or Equipment Loan Commitment Percentages, as applicable arising from the purchase by such Purchasing Lender of all or a portion of the rights and obligations of such transferor Lender under this Agreement and the Other Documents. Borrowers shall execute and deliver such further documents and do such further acts and things in order to effectuate the foregoing.

(d) Any Lender, with the consent of Agent which shall not be unreasonably withheld or delayed, may directly or indirectly sell, assign or transfer all or any portion of its rights and obligations under or relating to Revolving Advances, Equipment Loans and/or Term Loans under this Agreement and the Other Documents to an entity, whether a corporation, partnership, trust, limited liability company or other entity that (i) is engaged in making, purchasing, holding or otherwise investing in bank loans and similar extensions of credit in the ordinary course of its business and (ii) is administered, serviced or managed by the assigning Lender or an Affiliate of such Lender (a "Purchasing CLO" and together with each Participant and Purchasing Lender, each a "Transferee" and collectively the "Transferees"), pursuant to a Commitment Transfer Supplement modified as appropriate to reflect the interest being assigned ("Modified Commitment Transfer Supplement"), executed by any intermediate purchaser, the Purchasing CLO, the transferor Lender, and Agent as appropriate and delivered to Agent for

recording. Upon such execution and delivery, from and after the transfer effective date determined pursuant to such Modified Commitment Transfer Supplement, (i) Purchasing CLO thereunder shall be a party hereto and, to the extent provided in such Modified Commitment Transfer Supplement, have the rights and obligations of a Lender thereunder and (ii) the transferor Lender thereunder shall, to the extent provided in such Modified Commitment Transfer Supplement, be released from its obligations under this Agreement, the Modified Commitment Transfer Supplement creating a novation for that purpose. Such Modified Commitment Transfer Supplement shall be deemed to amend this Agreement to the extent, and only to the extent, necessary to reflect the addition of such Purchasing CLO. Each Borrower hereby consents to the addition of such Purchasing CLO. Borrowers shall execute and deliver such further documents and do such further acts and things in order to effectuate the foregoing.

(e) Agent, acting as a non-fiduciary agent of Borrowers, shall maintain at its address a copy of each Commitment Transfer Supplement and Modified Commitment Transfer Supplement delivered to it and a register (the "Register") for the recordation of the names and addresses of each Lender and the outstanding principal, accrued and unpaid interest and other fees due hereunder. The entries in the Register shall be conclusive, in the absence of manifest error, and each Borrower, Agent and Lenders may treat each Person whose name is recorded in the Register as the owner of the Advance recorded therein for the purposes of this Agreement. The Register shall be available for inspection by Borrowing Agent or any Lender at any reasonable time and from time to time upon reasonable prior notice. Agent shall receive a fee in the amount of \$3,500 payable by the applicable Purchasing Lender and/or Purchasing CLO upon the effective date of each transfer or assignment (other than to an intermediate purchaser) to such Purchasing Lender and/or Purchasing CLO.

(f) Each Borrower authorizes each Lender to disclose to any Transferee and any prospective Transferee any and all financial information in such Lender's possession concerning such Borrower which has been delivered to such Lender by or on behalf of such Borrower pursuant to this Agreement or in connection with such Lender's credit evaluation of such Borrower.

(g) Notwithstanding anything to the contrary contained in this Agreement, any Lender may at any time and from time to time pledge or assign a security interest in all or any portion of its rights under this Agreement to secure obligations of such Lender, including any pledge or assignment to secure obligations to a Federal Reserve Bank; provided that no such pledge or assignment shall release such Lender from any of its obligations hereunder or substitute any such pledge or assignee for such Lender as a party hereto.

16.4. Application of Payments. Agent shall have the continuing and exclusive right to apply or reverse and re-apply any payment and any and all proceeds of Collateral to any portion of the Obligations. To the extent that any Borrower makes a payment or Agent or any Lender receives any payment or proceeds of the Collateral for any Borrower's benefit, which are subsequently invalidated, declared to be fraudulent or preferential, set aside or required to be repaid to a trustee, debtor in possession, receiver, custodian or any other party under any bankruptcy law, common law or equitable cause, then, to such extent, the Obligations or part thereof intended to be satisfied shall be revived and continue as if such payment or proceeds had not been received by Agent or such Lender.

16.5. **Indemnity.** Each Borrower shall defend, protect, indemnify, pay and save harmless Agent, Issuer, each Lender and each of their respective officers, directors, Affiliates, attorneys, employees and agents (each an "Indemnified Party") for and from and against any and all claims, demands, liabilities, obligations, losses, damages, penalties, fines, actions, judgments, suits, costs, charges, expenses and disbursements of any kind or nature whatsoever (including fees and disbursements of counsel (including allocated costs of internal counsel)) (collectively, "Claims") which may be imposed on, incurred by, or asserted against any Indemnified Party in arising out of or in any way relating to or as a consequence, direct or indirect, of: (i) this Agreement, the Other Documents, the Advances and other Obligations and/or the transactions contemplated hereby including the Transactions, (ii) any action or failure to act or action taken only after delay or the satisfaction of any conditions by any Indemnified Party in connection with and/or relating to the negotiation, execution, delivery or administration of the Agreement and the Other Documents, the credit facilities established hereunder and thereunder and/or the transactions contemplated hereby including the Transactions, (iii) any Borrower's or any Guarantor's failure to observe, perform or discharge any of its covenants, obligations, agreements or duties under or breach of any of the representations or warranties made in this Agreement and the Other Documents, (iv) the enforcement of any of the rights and remedies of Agent, Issuer or any Lender under the Agreement and the Other Documents, (v) any threatened or actual imposition of fines or penalties, or disgorgement of benefits, for violation of any Anti- Terrorism Law by any Borrower, any Affiliate or Subsidiary of any Borrowers, or any Guarantor, and (vi) any claim, litigation, proceeding or investigation instituted or conducted by any Governmental Body or instrumentality or any other Person with respect to any aspect of, or any transaction contemplated by, or referred to in, or any matter related to, this Agreement or the Other Documents, whether or not Agent or any Lender is a party thereto. Without limiting the generality of any of the foregoing, each Borrower shall defend, protect, indemnify, pay and save harmless each Indemnified Party from (x) any Claims which may be imposed on, incurred by, or asserted against any Indemnified Party arising out of or in any way relating to or as a consequence, direct or indirect, of the issuance of any Letter of Credit hereunder and (y) any Claims which may be imposed on, incurred by, or asserted against any Indemnified Party under any Environmental Laws with respect to or in connection with the Real Property, any Hazardous Discharge, the presence of any Hazardous Materials affecting the Real Property (whether or not the same originates or emerges from the Real Property or any contiguous real estate), including any Claims consisting of or relating to the imposition or assertion of any Lien on any of the Real Property under any Environmental Laws and any loss of value of the Real Property as a result of the foregoing except to the extent such loss, liability, damage and expense is attributable to any Hazardous Discharge resulting from actions on the part of Agent or any Lender. Borrowers' obligations under this Section 16.5 shall arise upon the discovery of the presence of any Hazardous Materials at the Real Property, whether or not any federal, state, or local environmental agency has taken or threatened any action in connection with the presence of any Hazardous Materials. Without limiting the generality of the foregoing, this indemnity shall extend to any liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses and disbursements of any kind or nature whatsoever (including fees and disbursements of counsel) asserted against or incurred by any of the Indemnified Parties by any Person under any Environmental Laws or similar laws by reason of any Borrower's or any other Person's failure to comply with laws applicable to solid or hazardous waste materials, including Hazardous Materials and Hazardous Waste, or other Toxic Substances. Additionally, if any

taxes (excluding taxes imposed upon or measured solely by the net income of Agent and Lenders, but including any intangibles taxes, stamp tax, recording tax or franchise tax) shall be payable by Agent, Lenders or Borrowers on account of the execution or delivery of this Agreement, or the execution, delivery, issuance or recording of any of the Other Documents, or the creation or repayment of any of the Obligations hereunder, by reason of any Applicable Law now or hereafter in effect, Borrowers will pay (or will promptly reimburse Agent and Lenders for payment of) all such taxes, including interest and penalties thereon, and will indemnify and hold the Indemnified Parties harmless from and against all liability in connection therewith. Notwithstanding the foregoing, Borrowers will have no obligations to any Indemnified Party under this Section 16.5 to the extent that any Claim arises out of the gross negligence or willful misconduct of the Indemnified Party (as determined by a court of competent jurisdiction in a final and non-appealable judgment).

16.6. Notice. Any notice or request hereunder may be given to Borrowing Agent or any Borrower or to Agent or any Lender at their respective addresses set forth below or at such other address as may hereafter be specified in a notice designated as a notice of change of address under this Section. Any notice, request, demand, direction or other communication (for purposes of this Section 16.6 only, a "Notice") to be given to or made upon any party hereto under any provision of this Agreement shall be given or made by telephone or in writing (which includes by means of electronic transmission (i.e., "e-mail") or facsimile transmission or by setting forth such Notice on a website to which Borrowers are directed (an "Internet Posting") if Notice of such Internet Posting (including the information necessary to access such site) has previously been delivered to the applicable parties hereto by another means set forth in this Section 16.6) in accordance with this Section 16.6. Any such Notice must be delivered to the applicable parties hereto at the addresses and numbers set forth under their respective names on Section 16.6 hereof or in accordance with any subsequent unrevoked Notice from any such party that is given in accordance with this Section 16.6. Any Notice shall be effective:

(a) In the case of hand-delivery, when delivered;

(b) If given by mail, four (4) days after such Notice is deposited with the United States Postal Service, with first-class postage prepaid, return receipt requested;

(c) In the case of a telephonic Notice, when a party is contacted by telephone, if delivery of such telephonic Notice is confirmed no later than the next Business Day by hand delivery, a facsimile or electronic transmission, an Internet Posting or an overnight courier delivery of a confirmatory Notice (received at or before noon on such next Business Day);

(d) In the case of a facsimile transmission, when sent to the applicable party's facsimile machine's telephone number, if the party sending such Notice receives confirmation of the delivery thereof from its own facsimile machine;

(e) In the case of electronic transmission, when actually received;

(f) In the case of an Internet Posting, upon delivery of a Notice of such posting (including the information necessary to access such site) by another means set forth in this Section 16.6; and

16.7. Survival. The obligations of Borrowers under Sections 2.2(f), 2.2(g), 2.2(h), 3.7, 3.8, 3.9, 3.10, 16.5 and 16.9 and the obligations of Lenders under Sections 2.2, 2.15(b), 2.16, 2.18, 2.19, 14.8 and 16.5, shall survive termination of this Agreement and the Other Documents and payment in full of the Obligations.

16.8. Severability. If any part of this Agreement is contrary to, prohibited by, or deemed invalid under Applicable Laws, such provision shall be inapplicable and deemed omitted to the extent so contrary, prohibited or invalid, but the remainder hereof shall not be invalidated thereby and shall be given effect so far as possible.

16.9. Expenses. Borrowers shall pay (i) all out-of-pocket expenses incurred by Agent and its Affiliates (including the reasonable fees, charges and disbursements of counsel for Agent), in connection with the preparation, negotiation, execution, delivery and administration of this Agreement and the Other Documents or any amendments, modifications or waivers of the provisions hereof or thereof, (ii) all out-of-pocket expenses incurred by Issuer in connection with the issuance, amendment, renewal or extension of any Letter of Credit or any demand for payment thereunder, (iii) all out-of-pocket expenses incurred by Agent, any Lender or Issuer (including the fees, charges and disbursements of any counsel for Agent, any Lender or Issuer) in connection with the enforcement or protection of its rights (A) in connection with this Agreement and the Other Documents, including its rights under this Sections 3.4(b) and 4.7, or (B) in connection with the Advances made or Letters of Credit issued hereunder, including all such out-of-pocket expenses incurred during any workout, restructuring or negotiations in respect of such Loans or Letters of Credit, and (iv) subject to the limitations set forth in Sections 3.4(b) and 4.7, all reasonable out-of-pocket expenses of Agent's regular employees and agents engaged periodically to perform audits of any Borrower's or any Subsidiary's books, records and business properties.

16.10. Injunctive Relief. Each Borrower recognizes that, in the event any Borrower fails to perform, observe or discharge any of its obligations or liabilities under this Agreement, or threatens to fail to perform, observe or discharge such obligations or liabilities, any remedy at law may prove to be inadequate relief to Lenders; therefore, Agent, if Agent so requests, shall be entitled to temporary and permanent injunctive relief in any such case without the necessity of proving that actual damages are not an adequate remedy.

16.11. Consequential Damages. Neither Agent nor any Lender, nor any agent or attorney for any of them, shall be liable to any Borrower, or any Guarantor (or any Affiliate of any such Person) for indirect, punitive, exemplary or consequential damages arising from any breach of contract, tort or other wrong relating to the establishment, administration or collection of the Obligations or as a result of any transaction contemplated under this Agreement or any Other Document. Neither Borrowing Agent nor any Borrower, nor any agent or attorney for any of them, shall be liable to Agent, any Lender or any Issuer (or any Affiliate of such Person) for indirect, punitive, exemplary or consequential damages arising from any breach of contract, tort or other wrong relating to or as a result of any transaction contemplated under this Agreement or any Other Document.

16.12. Captions. The captions at various places in this Agreement are intended for convenience only and do not constitute and shall not be interpreted as part of this Agreement.

16.13. Counterparts; Facsimile Signatures. This Agreement may be executed in any number of and by different parties hereto on separate counterparts, all of which, when so executed, shall be deemed an original, but all such counterparts shall constitute one and the same agreement. Any signature delivered by a party by facsimile or electronic transmission (including email transmission of a PDF image) shall be deemed to be an original signature hereto.

16.14. Construction. The parties acknowledge that each party and its counsel have reviewed this Agreement and that the normal rule of construction to the effect that any ambiguities are to be resolved against the drafting party shall not be employed in the interpretation of this Agreement or any amendments, schedules or exhibits thereto.

16.15. Confidentiality; Sharing Information. Agent, each Lender and each Transferee shall hold all non-public information obtained by Agent, such Lender or such Transferee pursuant to the requirements of this Agreement in accordance with Agent's, such Lender's and such Transferee's customary procedures for handling confidential information of this nature; provided, however, Agent, each Lender and each Transferee may disclose such confidential information (a) to its examiners, Affiliates, outside auditors, counsel and other professional advisors, (b) to Agent, any Lender or to any prospective Transferees, and (c) as required or requested by any Governmental Body or representative thereof or pursuant to legal process; provided, further that (i) unless specifically prohibited by Applicable Law, Agent, each Lender and each Transferee shall use its reasonable best efforts prior to disclosure thereof, to notify the applicable Borrower of the applicable request for disclosure of such non-public information (A) by a Governmental Body or representative thereof (other than any such request in connection with an examination of the financial condition of a Lender or a Transferee by such Governmental Body) or (B) pursuant to legal process and (ii) in no event shall Agent, any Lender or any Transferee be obligated to return any materials furnished by any Borrower other than those documents and instruments in possession of Agent or any Lender in order to perfect its Lien on the Collateral once the Obligations have been paid in full and this Agreement has been terminated. Each Borrower acknowledges that from time to time financial advisory, investment banking and other services may be offered or provided to such Borrower or one or more of its Affiliates (in connection with this Agreement or otherwise) by any Lender or by one or more Subsidiaries or Affiliates of such Lender and each Borrower hereby authorizes each Lender to share any information delivered to such Lender by such Borrower and its Subsidiaries pursuant to this Agreement, or in connection with the decision of such Lender to enter into this Agreement, to any such Subsidiary or Affiliate of such Lender, it being understood that any such Subsidiary or Affiliate of any Lender receiving such information shall be bound by the provisions of this Section 16.15 as if it were a Lender hereunder. Such authorization shall survive the repayment of the other Obligations and the termination of this Agreement. Notwithstanding any non-disclosure agreement or similar document executed by Agent in favor of any Borrower or any of any Borrower's affiliates, the provisions of this Agreement shall supersede such agreements.

16.16. Publicity. Each Borrower and each Lender hereby authorizes Agent to make appropriate announcements of the financial arrangement entered into among Borrowers, Agent and Lenders, including announcements which are commonly known as tombstones, in such publications and to such selected parties as Borrowers shall approve in advance.

16.17. Certifications From Banks and Participants; USA PATRIOT Act.

(a) Each Lender or assignee or participant of a Lender that is not incorporated under the Laws of the United States of America or a state thereof (and is not excepted from the certification requirement contained in Section 313 of the USA PATRIOT Act and the applicable regulations because it is both (i) an affiliate of a depository institution or foreign bank that maintains a physical presence in the United States or foreign country, and (ii) subject to supervision by a banking authority regulating such affiliated depository institution or foreign bank) shall deliver to the Agent the certification, or, if applicable, recertification, certifying that such Lender is not a “shell” and certifying to other matters as required by Section 313 of the USA PATRIOT Act and the applicable regulations: (1) within ten (10) days after the Closing Date, and (2) as such other times as are required under the USA PATRIOT Act.

(b) The USA PATRIOT Act requires all financial institutions to obtain, verify and record certain information that identifies individuals or business entities which open an “account” with such financial institution. Consequently, Lender may from time to time request, and each Borrower shall provide to Lender, such Borrower’s name, address, tax identification number and/or such other identifying information as shall be necessary for Lender to comply with the USA PATRIOT Act and any other Anti-Terrorism Law.

16.18. Anti-Terrorism Laws.

(a) Each Borrower represents and warrants that (i) no Covered Entity is a Sanctioned Person and (ii) no Covered Entity, either in its own right or through any third party, (A) has any of its assets in a Sanctioned Country or in the possession, custody or control of a Sanctioned Person in violation of any Anti-Terrorism Law; (B) does business in or with, or derives any of its income from investments in or transactions with, any Sanctioned Country or Sanctioned Person in violation of any Anti-Terrorism Law; or (C) engages in any dealings or transactions prohibited by any Anti-Terrorism Law.

(b) Each Borrower covenants and agrees that (i) no Covered Entity will become a Sanctioned Person, (ii) no Covered Entity, either in its own right or through any third party, will (A) have any of its assets in a Sanctioned Country or in the possession, custody or control of a Sanctioned Person in violation of any Anti-Terrorism Law; (B) do business in or with, or derive any of its income from investments in or transactions with, any Sanctioned Country or Sanctioned Person in violation of any Anti-Terrorism Law; (C) engage in any dealings or transactions prohibited by any Anti-Terrorism Law or (D) use the Advances to fund any operations in, finance any investments or activities in, or, make any payments to, a Sanctioned Country or Sanctioned Person in violation of any Anti-Terrorism Law, (iii) the funds used to repay the Obligations will not be derived from any unlawful activity, (iv) each Covered Entity shall comply with all Anti-Terrorism Laws and (v) the Borrowers shall promptly notify the Agent in writing upon the occurrence of a Reportable Compliance Event.

Each of the parties has signed this Agreement as of the day and year first above written.

EXHIBIT 5.5(b)

FINANCIAL PROJECTIONS

EXHIBIT 8.1(g)

FINANCIAL CONDITION CERTIFICATE

October 4, 2017

TO: PNC BANK, NATIONAL ASSOCIATION (“PNC”), in connection with that certain Revolving Credit, Term Loan and Security Agreement dated October 4, 2017, (as the same may be amended, restated, supplemented or otherwise modified from time to time, the “Loan Agreement”) among VITAL FARMS, INC., a corporation formed under the laws of the State of Delaware (“Vital Farms”), VITAL FARMS OF MISSOURI, LLC, a limited liability company organized under the laws of the State of Missouri (“Vital Farms Missouri”), VITAL FARMS, LLC, a limited liability company organized under the laws of the State of Montana (“Vital Farms Montana”), SAGEBRUSH FOODSERVICE, LLC, a limited liability company organized under the laws of the State of Delaware (“Sagebrush”), BARN DOOR FARMS, LLC, a limited liability company organized under the laws of the State of Delaware (“Barn Door”), BACKYARD EGGS, LLC, a limited liability company organized under the laws of the State of Delaware (“Backyard”, and together with Vital Farms Missouri, Vital Farms Montana, Sagebrush, Barn Door and each Person joined as a borrower from time to time, collectively, the “Borrowers”, and each individually, a “Borrower”), the various financial institutions named therein or which hereafter become a party thereto as lenders (collectively, the “Lenders” and each a “Lender”) and PNC, as agent for the Lenders (in such capacity, the “Agent”). Capitalized terms used herein and not otherwise defined herein shall have the meanings ascribed to them in the Loan Agreement.

In connection with the Loan Agreement and the Other Documents, I hereby certify that, effective as of the execution of the Loan Agreement and the Other Documents, I am the duly elected, qualified and acting Chief Financial Officer of Borrowing Agent, and, in such capacity, I hereby conclude to my knowledge that:

A. The execution and delivery of the Loan Agreement and the Other Documents and the granting of any security interests or Liens pursuant to the Loan Agreement and the Other Documents by Borrowers will not render any Borrower insolvent. I understand that, in this context, “insolvent” with respect to a Borrower means that the present fair valuation of such Borrower’s assets taken as a whole is less than the present fair valuation of its probable liabilities.

B. I conclude that the execution and delivery of the Loan Agreement and the Other Documents and the granting of the security interests and Liens pursuant to the Loan Agreement and the Other Documents by Borrowers will not leave any Borrower with property remaining in its hands which would constitute unreasonably small capital for such Borrower’s business or the Borrowers’ business taken as a whole. In reaching this conclusion, I understand that “unreasonably small capital” depends upon the nature of Borrowers’ business as presently conducted, and I have reached my conclusion based on the actual and reasonably anticipated needs for capital of the business anticipated to be conducted by Borrowers and consistent with the Projections (as such term is defined below) and other information described herein.

C. I conclude that Borrowers will not, taken as a whole, likely incur debts beyond their ability to pay as such debts mature. This conclusion is based, in part, upon my review of the

projections provided by the Borrowers to the Agent (“Projections”), which project that Borrowers will have positive cash flow after paying all of their scheduled and anticipated indebtedness as it matures. I have concluded that the realization from Borrowers’ assets in the ordinary and usual course of business, taken as a whole, will be sufficient to pay their recurring current debt, short term debt, and long term debt as such debts require.

D. As of the date hereof: (a) no Borrower has been served with any summons or other notice in respect of any litigation or other proceeding pending or threatened against or affecting it or any of its properties or assets, which, if determined adversely to such Borrower, would reasonably be expected to have a Material Adverse Effect; and (b) no Borrower is in default with respect to any order, writ, injunction, decree, or demand of any court or other Governmental Body by which such Borrower is currently bound.

E. No Borrower has executed the Loan Agreement or any of the Other Documents or made any transfer or incurred any obligations thereunder with actual intent to hinder, delay, or defraud either present or future creditors.

I understand that the Agent and the Lenders are relying on the truth and accuracy of the foregoing in connection with the extensions of credit under the Loan Agreement.

[SIGNATURES TO FOLLOW ON SEPARATE PAGE]

I hereby certify, in my capacity as Chief Financial Officer of Borrowing Agent, and not individually, that the foregoing information is true and correct and execute this certificate as of the date first written above.

Jason Dale, Chief Financial Officer of Borrowing Agent

WHEREAS, Purchasing Lender wishes to become a Lender party to the Credit Agreement; and

WHEREAS, the Transferor Lender is selling and assigning to Purchasing Lender rights, obligations and commitments under the Credit Agreement;

NOW, THEREFORE, the parties hereto hereby agree as follows:

1. All capitalized terms used herein which are not defined shall have the meanings given to them in the Credit Agreement.
2. Effective upon receipt by Transferor Lender of the Purchase Price from the Purchasing Lender, Transferor Lender hereby irrevocably sells, assigns and transfers to such Purchasing Lender, without recourse, representation or warranty, and Purchasing Lender hereby irrevocably purchases, takes and assumes from Transferor Lender, such Purchasing Lender’s Purchased Percentage of the Advances and other amounts owing to the Transferor Lender under the Credit Agreement and the Notes together with all instruments, documents and collateral security pertaining thereto.

4. Transferor Lender has made arrangements with Purchasing Lender with respect to (i) the portion, if any, to be paid, and the date or dates for payment, by Transferor Lender to such Purchasing Lender of any fees heretofore received by Transferor Lender pursuant to the Credit Agreement prior to the Transfer Effective Date and (ii) the portion, if any, to be paid, and the date or dates of payment, by such Purchasing Lender to Transferor Lender of fees or interest received by such Purchasing Lender pursuant to the Credit Agreement from and after the Transfer Effective Date.

5. (a) All principal payments that would otherwise be payable from and after the Transfer Effective Date to or for the account of Transferor Lender pursuant to the Credit Agreement and the Notes shall, instead, be payable to or for the account of Transferor Lender and Purchasing Lender, as the case may be, in accordance with their respective interests as reflected in this Commitment Transfer Supplement.

(b) All interest, fees and other amounts that would otherwise accrue for the account of Transferor Lender from and after the Transfer Effective Date pursuant to the Credit Agreement and the Notes shall, instead, accrue for the account of, and be payable to, Transferor Lender and Purchasing Lender, as the case may be, in accordance with their respective interests as reflected in this Commitment Transfer Supplement. In the event that any amount of interest, fees or other amounts accruing prior to the Transfer Effective Date was included in the Purchase Price paid by any Purchasing Lender, Transferor Lender and Purchasing Lender will make appropriate arrangements for payment by Transferor Lender to such Purchasing Lender of such amount upon receipt thereof from Borrowers.

6. Concurrently with the execution and delivery hereof, Transferor Lender will provide to Purchasing Lender conformed copies of the Credit Agreement and all related documents delivered to Transferor Lender.

7. Each of the parties to this Commitment Transfer Supplement agrees that at any time and from time to time upon the written request of any other party, it will execute and deliver such further documents and do such further acts and things as such other party may reasonably request in order to effect the purposes of this Commitment Transfer Supplement.

8. By executing and delivering this Commitment Transfer Supplement, Transferor Lender and Purchasing Lender confirm to and agree with each other and Agent and Lenders as follows: (i) other than the representation and warranty that it is the legal and beneficial owner of the interest being assigned hereby free and clear of any adverse claim, Transferor Lender makes no representation or warranty and assumes no responsibility with respect to any statements, warranties or representations made in or in connection with the Credit Agreement or the execution, legality, validity, enforceability, genuineness, sufficiency or value of the Credit Agreement, the Notes or any other instrument or document furnished pursuant thereto; (ii) Transferor Lender makes no representation or warranty and assumes no responsibility with respect to the financial condition of Borrowers or the performance or observance by Borrowers of any of their Obligations under the Credit Agreement, the Notes or any other instrument or document furnished pursuant hereto; (iii) Purchasing Lender confirms that it has received a copy of the Credit Agreement, together with copies of such financial statements and such other documents and information as it has deemed appropriate to make its own credit analysis and decision to enter into this Commitment Transfer Supplement; (iv) Purchasing Lender will, independently and without reliance upon Agent, Transferor Lender or any other Lenders and based on such documents and information as it shall deem appropriate at the time, continue to make its own credit decisions in taking or not taking action under the Credit Agreement; (v) Purchasing Lender appoints and authorizes Agent to take such action as agent on its behalf and to exercise such powers under the Credit Agreement as are delegated to the Agent by the terms thereof; (vi) Purchasing Lender agrees that it will perform all of its respective obligations as set forth in the Credit Agreement to be performed by it as a Lender; and (vii) Purchasing Lender represents and warrants to Transferor Lender, Lenders, Agent and Borrowers that it is either (x) entitled to the benefits of an income tax treaty with the United States of America that provides for an exemption from the United States withholding tax on interest and other payments made by Borrowers under the Credit Agreement and Other Documents or (y) is engaged in trade or business within the United States of America.

BACKGROUND

A. On October 4, 2017, Borrowers, Lenders, and Agent entered into a certain Revolving Credit, Term Loan, and Security Agreement (as same has been or may be amended, modified, renewed, extended, replaced or substituted from time to time, the "Loan Agreement") to reflect certain financing arrangements between the parties thereto. The Loan Agreement and all other documents executed in connection therewith are collectively referred to as the "Existing Financing Agreements." All capitalized terms not otherwise defined herein shall have the meaning ascribed thereto in the Loan Agreement.

B. Certain Events of Default have occurred under the Loan Agreement as a result of (i) the failure of Borrowers to maintain a Fixed Charge Coverage Ratio of not less than 1.05 to 1.00 for the period ended December 31, 2017 as required under Section 6.5(a) of the Loan Agreement and (ii) the failure of Borrowers to maintain EBITDA of not less than \$1,150,000 for the three (3) month period ended December 31, 2017 as required under Section 6.5(c) of the Loan Agreement (collectively, the "Existing Events of Default").

C. The Borrowers have requested and the Agent and the Lenders have agreed, subject to the terms and conditions of this Amendment, to (i) waive the Existing Events of Default and (ii) modify certain definitions, terms and conditions in the Loan Agreement.

NOW, THEREFORE, with the foregoing background hereinafter deemed incorporated by reference herein and made part hereof, the parties hereto, intending to be legally bound, promise and agree as follows:

1. Waiver of Existing Events of Default. Subject to the terms and conditions contained herein, upon the effectiveness of this Amendment, Lender hereby waives the Existing

Events of Default; provided, however that such waiver shall in no way constitute a waiver of any other Defaults or Events of Default which may have occurred but which are not specifically referenced as the Existing Events of Default, nor shall this waiver obligate Lender to provide any further waiver of any other Default or Event of Default (whether similar or dissimilar, including any further Default or Event of Default resulting from a failure to comply with the terms of the Loan Agreement). Other than in respect of the Existing Events of Default, this waiver shall not preclude the future exercise of any right, power, or privilege available to Lender whether under the Loan Agreement, the Other Documents or otherwise. Lender has not been advised by the Borrowers of the existence of, and is not otherwise aware of, any Defaults or Events of Default other than the Existing Events of Default, and the Borrowers have represented to Lender that no Default or Event of Default, other than the Existing Events of Default, has occurred and is continuing under any of the Loan Documents.

2. Amendments to Loan Agreement. Upon the effectiveness of this Amendment, the Loan Agreement shall be amended as follows:

(a) New Definitions. The following definition shall be added to Section 1.2 of the Loan Agreement in the appropriate alphabetical order:

“Applicable Margin” shall mean, as of the First Amendment Date, (a) with respect to Revolving Advances that are Domestic Rate Loans and Swing Loans, two percent (2.00%), (b) with respect to Revolving Advances that are LIBOR Rate Loans, three percent (3.00%), (c) with respect to Term Loans and Equipment Loans that are Domestic Rate Loans, two and three quarters of one percent (2.75%) and (d) with respect to Term Loans and Equipment Loans that are LIBOR Rate Loans, three and three quarters of one percent (3.75%) provided, however, that commencing with the fiscal quarter ending December 31, 2018, (x) if, as of the end of any two consecutive fiscal quarters, Borrowers maintain a Fixed Charge Coverage Ratio of not less than 1.10 to 1.00 on a trailing twelve month basis as of the end of each such quarter and (y) so long as no Event of Default or Default shall have occurred and be continuing, the percentages set forth above shall be adjusted to mean: (a) with respect to Revolving Advances that are Domestic Rate Loans and Swing Loans, one percent (1.00%), (b) with respect to Revolving Advances that are LIBOR Rate Loans, two percent (2.00%), (c) with respect to Term Loans and Equipment Loans that are Domestic Rate Loans, one and three quarters of one percent (1.75%), and (d) with respect to Term Loans and Equipment Loans that are LIBOR Rate Loans, two and three quarters of one percent (2.75%). Any such adjustment shall be effective on the first business day of the month following receipt of the quarterly financial statements of Borrowers on a consolidated and consolidating basis and accompanying Compliance Certificate required under Section 9.8 for the most recently completed fiscal quarter.

If, as a result of any restatement of, or other adjustment to, the financial statements of Borrowers on a consolidated and consolidating basis or for any other reason, Agent determines that (a) the Fixed Charge Coverage Ratio as previously calculated as of any applicable date for any applicable period was inaccurate, and (b) a proper calculation of the Fixed Charge Coverage Ratio for any such period would have resulted in different pricing for such period, then (i) if the proper calculation of the Fixed Charge Coverage Ratio would have resulted in a higher interest rate for such period, automatically and immediately without the necessity of any demand or notice by Agent or any other affirmative act of any party, the interest accrued on the applicable outstanding Advances for such period under the provisions of this Agreement and the Other Documents shall be deemed to be retroactively increased by, and Borrowers shall be obligated to immediately pay to Agent for the ratable benefit of Lenders an amount equal to the excess of the amount of interest that should have been paid for such period over the amount of interest actually paid for such period; and (ii) if the proper calculation of the Fixed Charge Coverage Ratio would have resulted in a lower interest rate for such period, then the interest accrued on the applicable outstanding Advances for such period under the provisions of this Agreement and the Other Documents shall be deemed to remain unchanged, and Agent and Lenders shall have no obligation to repay interest to the Borrowers; provided, that, if as a result of any restatement or other event or other determination by Agent a proper calculation of the Fixed Charge Coverage Ratio would have resulted in a higher interest rate for one or more periods and a lower interest rate for one or more other periods (due to the shifting of income or expenses from one period to another period or any other reason), then the amount payable by Borrowers pursuant to clause (i) above shall be based upon the excess, if any, of the amount of interest that should have been paid for all applicable periods over the amounts of interest actually paid for such periods.

“Average Undrawn Availability” shall mean, as of any date of determination, the quotient obtained by dividing (x) the aggregate sum of Undrawn Availability for each of the previous sixty (60) days by (y) sixty (60).

“Borrowing Period” shall have the meaning set forth in Section 2.3(b)(ii) hereof.

“Borrowing Period Monthly Installment” shall have the meaning set forth in Section 2.3(b)(ii) hereof.

“Egg Central Station” shall mean the egg processing center located at 20017 N Alliance Ave, Springfield, MO 65803.

“First Amendment Date” shall mean April 13, 2018.

(b) Definitions. The definitions of “First Borrowing Period”, “First Borrowing Period Monthly Installment”, “Second Borrowing Period”, and “Second Borrowing Period Monthly Installment” contained in Section 1.2 of the Loan Agreement shall be deleted in their entirety and the following definitions contained in Section 1.2 of the Loan Agreement shall be amended and restated in their entirety as follows:

“Availability Reserve Amount” shall mean \$2,000,000; provided, however, that such amount will be reduced to \$1,000,000 so long as the following conditions are satisfied: (i) no Event of Default has occurred and is continuing, (ii) Borrowers have maintained a Fixed Charge Coverage Ratio, measured on a trailing twelve (12) month basis, of not less than 1.10:1.00 as of the end of the most recently ended fiscal quarter, and (iii) Undrawn Availability and Average Undrawn Availability is greater than \$2,000,000 at the time of such reduction; provided further, that, such amount will be reduced to \$0 so long as the following conditions are satisfied: (a) no Event of Default has occurred and is continuing, (b) Undrawn Availability and Average Undrawn Availability is greater than \$2,000,000 at the time of such reduction, and (c) Borrowers have maintained a Fixed Charge Coverage Ratio, measured on a trailing twelve (12) month basis, of not less than 1.10:1.00 as of the end of two consecutive fiscal quarters.

“Fixed Charge Coverage Ratio” shall mean, with respect to any fiscal period, the ratio of (a) EBITDA, minus Unfunded Capital Expenditures made during such period (excluding Unfunded Capital Expenditures in an amount not to exceed \$810,000 made by Borrowers through the fiscal year ending December 31, 2018 in connection with the build-out of Egg Central Station), minus distributions (including tax distributions) and dividends made during such period, minus cash taxes paid during such period, plus payments to Farm Products Sellers made by Borrowers during such period in an amount equal to the lesser of (i) \$2,000,000 or (ii) 25% of EBITDA for such period to (b) all Debt Payments during such period.

“Maximum Equipment Loan Amount” shall mean \$750,000.

“Maximum Loan Amount” shall mean \$15,450,000.

“Revolving Interest Rate” shall mean (a) with respect to Revolving Advances that are Domestic Rate Loans and Swing Loans, an interest rate per annum equal to the sum of the Applicable Margin

plus the Alternate Base Rate and (b) with respect to Revolving Advances that are LIBOR Rate Loans, an interest rate per annum equal to the sum of the Applicable Margin plus the LIBOR Rate.

“Term Loan Rate” shall mean (a) with respect to Term Loans and Equipment Loans that are Domestic Rate Loans, an interest rate per annum equal to the sum of the Applicable Margin plus the Alternate Base Rate and (b) with respect to Term Loans and Equipment Loans that are LIBOR Rate Loans, an interest rate per annum equal to the sum of the Applicable Margin plus the LIBOR Rate.

(c) Equipment Loans. Section 2.3(b) of the Loan Agreement shall be amended and restated in its entirety as follows:

(b) Equipment Loans.

(i) Following the date which is the first anniversary of the Closing Date, subject to the terms and conditions of this Agreement, each Lender, severally and not jointly, shall, from time to time, make Advances (each, an “Equipment Loan” and collectively, the “Equipment Loans”) to one or more Borrowers in an amount equal to such Lender’s Equipment Loan Commitment Percentage of the applicable Equipment Loan to finance Borrowers’ purchase of equipment for use in Borrowers’ business. All such Equipment Loans shall be in such amounts as are requested by Borrowing Agent, but in no event shall any Equipment Loan exceed eighty percent (80%) of the Net Invoice Cost of the equipment being purchased by Borrowers and the total amount of all Equipment Loans advanced shall not exceed, in the aggregate, the Maximum Equipment Loan Amount. Once repaid, Equipment Loans may not be re-borrowed.

(ii) Equipment Loans shall be made available to Borrowers during the period commencing on the date which is the first anniversary of the Closing Date and ending on the date which is the second anniversary of the Closing Date (the “Borrowing Period”) so long as no Default or Event of Default shall have occurred and subject to the conditions set forth in Section 8.3 hereof. At the end of the Borrowing Period, Agent shall calculate the aggregate principal balance of all then outstanding Equipment Loans, which amount shall amortize in equal and consecutive monthly installments of principal, based on a 36-month amortization schedule, the first of which installments shall be due and payable on the first day of the next month after the end of the Borrowing Period, and the remaining installments of which shall be due and payable on the first day of each month thereafter (the amount of each such monthly installment, the “Borrowing Period

Monthly Installment”), provided, however, that the aggregate principal balance of all Equipment Loans, together with all accrued and unpaid interest thereon, and all unpaid fees, costs and expenses payable hereunder in connection therewith, shall be due and payable in full upon the expiration of the Term, subject to acceleration upon the occurrence of an Event of Default under this Agreement or termination of this Agreement. Equipment Loans shall be evidenced by one or more secured promissory notes (collectively, the “Equipment Note”) in substantially the form attached hereto as Exhibit 2.3(b). The Equipment Loans may consist of Domestic Rate Loans or LIBOR Rate Loans, or a combination thereof, as Borrowing Agent may request; and in the event that Borrowers desire to obtain or extend any Equipment Loan (or any portion thereof) as a LIBOR Rate Loan or to convert any Equipment Loan (or any portion thereof) from a Domestic Rate Loan to a LIBOR Rate Loan, Borrowing Agent shall comply with the notification requirements set forth in Sections 2.2(b) and/or (e) and the provisions of Sections 2.2(b) through (h) shall apply.

(d) Financial Covenants. Section 6.5 of the Loan Agreement shall be amended and restated in its entirety as follows:

6.5. Financial Covenants.

(a) Fixed Charge Coverage Ratio. Maintain as of the end of each fiscal quarter, commencing with the fiscal quarter ending December 31, 2018, a Fixed Charge Coverage Ratio of not less than (i) 1.10 to 1.00 for the fiscal quarters ending December 31, 2018 and March 24, 2019, (ii) 1.15 to 1.00 for the fiscal quarters ending July 14, 2019 and October 6, 2019, and (iii) 1.20 to 1.00 for the fiscal quarter ending December 29, 2019 and as of the end of each fiscal quarter thereafter, in each case on a trailing twelve (12) month basis.

The Loan Agreement and all other documents executed in connection therewith are collectively referred to as the “Existing Financing Agreements.” All capitalized terms not otherwise defined herein shall have the meaning ascribed thereto in the Loan Agreement.

B. An Event of Default has occurred under the Loan Agreement as a result of the failure of Borrowers to contract for, purchase or make any expenditure or commitments for Capital Expenditures in an aggregate amount less than \$1,000,000 for the fiscal year ended December 31, 2018 as required under Section 7.6 of the Loan Agreement (the “Existing Event of Default”).

C. Borrowers have informed Agent and Lenders that Vital Farms intends to make loans (collectively, the “Shareholder Loans”) to Matthew O’Hayer and Jason Jones in an amount not to exceed \$3,200,000 and \$800,000, respectively.

D. The Borrowers have requested and the Agent and the Lenders have agreed, subject to the terms and conditions of this Amendment, to (i) waive the Existing Event of Default, (ii) consent to the Shareholder Loans, and (iii) modify certain definitions, terms and conditions in the Loan Agreement.

NOW, THEREFORE, with the foregoing background hereinafter deemed incorporated by reference herein and made part hereof, the parties hereto, intending to be legally bound, promise and agree as follows:

1. Waiver of Existing Event of Default. Subject to the terms and conditions contained herein, upon the effectiveness of this Amendment, Agent and Lenders hereby waive the Existing Event of Default; provided, however that such waiver shall in no way constitute a waiver of any other Defaults or Events of Default which may have occurred but which are not specifically referenced as the Existing Event of Default, nor shall this waiver obligate Agent or Lenders to provide any further waiver of any other Default or Event of Default (whether similar or dissimilar, including any further Default or Event of Default resulting from a failure to comply with the terms of the Loan Agreement). Other than in respect of the Existing Event of Default, this waiver shall not preclude the future exercise of any right, power, or privilege available to Agent or Lenders whether under the Loan Agreement, the Other Documents or otherwise. Agent and Lenders have not been advised by the Borrowers of the existence of, and is not otherwise aware of, any Defaults or Events of Default other than the Existing Event of Default, and the Borrowers have represented to Agent and Lenders that no Default or Event of Default, other than the Existing Event of Default, has occurred and is continuing under any of the Loan Documents.

2. Consent. Notwithstanding anything contained in Sections 7.4, 7.5 or 7.10 of the Loan Agreement, or elsewhere in the Credit Agreement or the Other Documents, Agent and Lenders hereby consent to the Shareholder Loans. The foregoing consent shall be effective only as to the Shareholder Loans. This consent shall not be deemed a consent to the breach by any Borrower of any covenants or agreements contained in the Loan Agreement or any of the Other Documents with respect to any other transaction or matter. Each Borrower agrees that the set forth in this paragraph shall be limited to the precise meaning of the words as written therein and shall not be deemed (i) to be a consent to any waiver or modification of, or a departure from the requirements of, any other term or condition of the Loan Agreement or any of the Other Documents, or (ii) to prejudice any right or remedy that Agent or any Lender may now have or may in the future have under or in connection with the Loan Agreement or any of the Other Documents other than with respect to the matters for which the consent in this paragraph has been provided. This consent shall not be construed as establishing a course of conduct on the part of Agent or any Lender upon which a Borrower may rely at any time in the future. Each Borrower expressly waives any right to assert any claim to such effect at any time

3. Amendments to Loan Agreement. Upon the effectiveness of this Amendment, the Loan Agreement shall be amended as follows:
